UNIT HISTORY

3 (IRISH) INFANTRY GROUP

IN THE SERVICE OF THE

UNITED NATIONS

IN

CYPRUS

JULY 1964 - JANUARY 1965

OFFICIAL SECRETS ACT

Any person, other than the authorised holder, upon obtaining possession of this document, by finding or otherwise, should forward it, together with his name and address, in a closed envelope to THE SECRETARY, DEPARTMENT OF DEFENCE, PARKGATE, DUBLIN. Letter postage need not be prepaid. All persons are hereby warned that the unauthorised retention or destruction of this document is an offence against the Official Secrets Acts, 1911 and 1920.
UNIT HISTORY - 3 INF GROUP

FOREWORD

The object of this document - THE UNIT HISTORY OF THE 3 INFANTRY GROUP - is to place on record the activities of the Group in the service of UNITED NATIONS FORCES in CYPRUS from 23 July 1964 to 28 January 1965. The history has been compiled from reports submitted by the Officers of Group HQ Staff, by the Company Commanders, the Armoured Car Group Commander, from the Unit Journal, Operation Orders, Intelligence Report, etc. It will be seen that the Unit served in two locations in CYPRUS, firstly in LARNACA DISTRICT from 23 July 1964 to 8 December 1964 and lastly in PAPHOS DISTRICT from 9 December 1964 to 28 January 1965.

As in the case of other Irish Units serving in CYPRUS, our mission was the restoration of peace and to assist in bringing back to normal conditions of living on the island. This history covers broadly the part played by the 3 Inf Group in its fulfilment of this mission.

A tribute to the manner in which it carried out this task can be read in a farewell message from the UN Force Commander, General K.S. THIMAYA, prior to its repatriation to IRELAND, which is recorded in the opening pages of this history.

This opportunity is availed of to record our thanks and appreciation to the Officers, NCOs and men of the Group for their loyalty, zeal, devotion to duty, excellent disciplinary record and high morale, which enabled the unit to fulfill so successfully its mission.

Lastly, the thanks and appreciation of the Group go to all Officers who assisted in the production of this record and especially to Commandant J.P. Duggan to whom we are deeply indebted for compiling and editing this history and to the O/C, an Coláiste Míleata and Captain Denis Quinn for assistance in its production.

UNFICYP Information Office

GEN THIMAYYA'S FAREWELL TO 3 IRISH
INF GP

The following is the text of a message issued today by
General K.S. Thimayya, Force Commander, UNFICYP, to the members
of 3 Infantry Group, Irish Contingent:

"On the occasion of the Group’s impending return to Ireland,
I send warm greetings and grateful thanks to Lt/Col T.J. McDonald
and all Ranks 3rd Infantry Group. First in Larnaca, and latterly
round Paphos and Polis, you have done a fine job of peacekeeping on
behalf of the United Nations. In the process the Group has won
golden opinions, not only with UNFICYP itself, but also among all
sections of the Cyprus population. Your cheerfulness, friendly
approach to others, and resolute performance of any tasks given,
you combine to make you hard to replace, and we shall miss you
greatly. God speed, Good Luck and Thank you. Bliadhna CHT DE LIbh
AGUS GO DTEICH SIBH SLAN ABHÁILE. (God bless you and a safe
return home.)"

</table>
In July 1964 the Irish Government, at the request of the Secretary General of the United Nations Organization, agreed to provide additional troops for service in Cyprus for the purpose of endeavouring to restore peace between the Greek and Turkish Cypriots, between whom a state of hostilities had existed since December 1963, when fighting broke out and which had continued intermittently during 1964.

The 40 Infantry Battalion had already moved to Cyprus in May 1964.

The raising of a new unit was authorised. It was designated the 3 Infantry Group.

Troops for this unit were raised on the following basis:

- Group HQ and HQ Coy - All Commands.
- A Coy - Eastern Command supplemented by a platoon from Western Command and Curragh Training Camp.
- B Coy - Southern Command.
- Armored Car Group - Cavalry Corps.

An advanced group HQ was established at Plunkett Barracks, Curragh Training Camp on the 16th July, 1964.

Due to the urgency of the situation it was decided by Army HQ to send an advance party to Cyprus prior to the activation of the unit. The personnel were selected, equipped, armed, administratively processed and briefed. This party was airlifted from Dublin on the 2nd July, arriving at Nicosia on the 23rd July. The party consisted of 18 officers and 57 men. On arrival in Cyprus they moved to ANZIO Camp, British Sovereign Base, Dhekelia.

During the period 23rd July to 4th August the advance party took over a transit camp - Camp "A" in Dhekelia and prepared it to receive the main body of the 3 Infantry Group.

The mission allotted to the 3 Infantry Group by the Force Commander, UNFICYP, was to take over Larnaca District from the 1 Battalion, Royal Inniskilling Fusiliers, maintain peace and endeavour to have the situation restored to normality.

The Advance Party took over schools, villas, a poultry farm and garage in Larnaca from their civilian owners to accommodate the Group. In addition they arranged to take over a school, villas, and section posts occupied by the Inniskillings.

The Inniskillings briefed and conducted Group officers on reconnaissance of the District and introduced them to the Greek and Turkish leaders in the town and villages of Larnaca District.
11. The 3 Infantry Group was activated by order of the Chief of Staff on the 27th JULY, 1964. Prior to activation the elements to form the Group had been mobilised and concentrated for training and administration on the 20th JULY as follows:

Group HQ and HQ Coy - Curragh Camp.
A Coy - Curragh Camp.
B Coy - Fermoy.

On the 28th JULY "B" Coy moved to the Connolly Bks, Curragh Training Camp.

12. On the 29th JULY the Group was inspected on Parade by An Taoiseach, accompanied by An tLire Cosanta, An tLire Gnothaí Beathreacha, An tOamus Polirne, An 3rd tLíamhach, An 3rd Ceadhrunach. The Parade was addressed by An tLire Cosanta. A march past of the Group was held and the salute was taken by An Taoiseach. Afterwards, the officer Commanding, 3 Infantry Group, the Adjutant and Chaplain were received by An Taoiseach at Gnaith Bks officers Mess.

13. On the evening of the 29th JULY the Officer Commanding and officers of the Group were received by An tUachtarán at An tUachtarán.

14. On the 3rd, 4th and 5th AUGUST the main body of the Group was air lifted from DUBLIN to NIKOSIA. They were met on arrival by the Commander IRISH CONTINGENT - Col. J.J. QUINN - and moved by road to CAMP "A", DHKELIA.

15. On the 5th, 6th and 7th AUG the Group re-organised and prepared to move into LARNACA DISTRICT.

16. On the 7th and 8th AUG the Group moved into LARNACA DISTRICT and took over command at 0900 hrs on the 8th AUG from the 1 BN, Inniskillings.

17. The Group was disposed as follows w.e.f. 8th AUG.

Group HQ and HQ Coy - St. Georges Poultry Farm Bye Pass Road, North LARNACA.

"A" Coy - TURKISH School, HAMID BEY, NORTH LARNACA.

"B" Coy - TURKISH School, SCALL SOUTH LARNACA.

Arm Car Op. - HAMID BEY, NORTH LARNACA.

PL "A" Coy - THE HIRINGS, HAMID BEY LARNACA.

PL "B" Coy and Arm Car Sec. - KOPHINOU and AYIOS THEODOROUS.

18. The sub-unit locations were organised into self-contained camps and designated as under:-
19. The establishment and strength of the Group was increased on the 14th Oct by the following:

One Rifle Platoon 1 Offr, 7 NCOs 21 Ptes.
Engineer Personnel - 1 NCO, 4 Ptes.
Signal Personnel - 6 Ptes,
M.T. Personnel - 6 Ptes.

20. In NOVEMBER 64 the Force Commander decided to rotate the Group with the 3rd Coy, 28 SWEDISH Battalion, PAPHOS DISTRICT, as that DISTRICT was considered to be too extensive for it. Reconnaissance was made of PAPHOS DISTRICT and advance elements of the Group commenced to move to PAPHOS from the 1st Dec. On the 8th DEC the main Body moved by M.T.

b. In NOVEMBER 64 the Force Commander decided to rotate the Group with the 3rd Coy, 28 SWEDISH Battalion, PAPHOS DISTRICT, as that DISTRICT was considered to be too extensive for it. Reconnaissance was made of PAPHOS DISTRICT and advance elements of the Group commenced to move to PAPHOS from the 1st Dec. On the 8th DEC the main Body moved by M.T.

21. Command of PAPHOS DISTRICT was taken over by the 3rd Group at midnight on the 9th DEC 64 and Command of LARNACA DISTRICT passed to the 28 SWEDISH BATTALION at the same time.

22. Rear parties remained in LARNACA until the 14 DEC to complete the hand-over of buildings, land and installations to the 3 SWEDISH COY and civilian owners.

23. The two Camps occupied by the SWEDISH COY at KTIMA and POLIS were taken over. A third Camp was organised and addition villas and a garage taken over. The Group was now located as under.

Group HQ and HQ Coy - Camp St. Brendan, NORTH KTIMA.

"A" Coy and Arm'd Car Gp - Camp St. Patrick, NORTH KTIMA.

"B" Coy - Camp St. Pinbarr, POLIS.

OUTPOSTS

1 Pl "I," Coy - TURKISH QUARTER.

1 Sec "A" Coy - MANDRIA.
The Force Commander paid a visit on January 8th and wished the Group "Bon Voyage".

On the 14th January the Advance Party of the 4 Infantry Group were briefed on the situation and the handover from the 3 Inf to the 4 Inf Group commenced. This was completed by the 26 Jan.

Command of PAPHOS District was handed over on 28 Jan.

The main body 3 Inf Gp was airlifted from NICOSIA to DUBLIN on the 26th, 27th and 28th Jan 65. The personnel were 'in-processed' at Omahy Pks, DUBLIN whence they proceeded on Overseas Leave via their home stations.

The 3 Inf Group was disbanded with effect from 29th January '65.

A special effort was made to make the troops as happy as possible at Christmas. The entertainment programme was stepped up by the provision of extra food, refreshments, films and concerts. Only essential work was carried out during the privilege leave period from 24th to 27th Dec (inclusive). A choir was organised in each camp and hymns were sung at the Christmas masses. The Christmas Dinner was served with traditional ceremony. The Commanding Officer visited each Mess and Dining Hall and extended Christmas Greetings to all Ranks.

From January 1st preparations were put in hand for rotation of the Group with the 4 Infantry Group. On the 2nd January 1 Officer and 4 NCOs of the 4 Inf Gp arrived from IRELAND by Commercial Aircraft.

The Force Commander paid a visit on January 8th and wished the Group 'Bon Voyage'.
1. DISCIPLINE.

The standard of discipline in the Group was of a high order throughout the duration of the tour. Infringements of the disciplinary code were comparatively low in number. The majority related to short absences (90 cases) and infringements of Sec 168 Defence Act (47 cases). These together accounted for 137 of the total of 180 charges. The remaining 43 charges were consequent on infringements of Secs. 131, 132, 133, 142, 166, 157 and 160. One private was tried by Limited Court martial on charges under Sec 131, 132 and 133 and was subsequently repatriated. Taking into account the fact that in some cases more than one charge was preferred at the same time the total number of trials was 121. 16 NCOs and 14 Ptes were tried by the Commanding Officer, 90 Privates were tried by subordinate officers and 1 Pte was tried by L.C.M. An analytical table of charges is given in Appendix 10.

2. Morale.

a. The morale of the Group was excellent throughout the entire tour. Some of the contributing factors were:-

- Good accommodation.
- Good well cooked food.
- Good weather.
- Good facilities for games.
- Lack of restrictions on walking out.
- Good facilities for swimming.
- Good canteen facilities.
- Availability of good films.
- Well organised camps.
- Bus tours of the Island.
- Efficient chaplaincy service.
- Tours to the Holy Land and Lebanon. (180 all Ranks availed of this 7 day tour).

b. The following factors were detrimental to morale.

1) Undue delay in receipt of private mail and newspapers. Average time taken for these to reach CYPRUS from IRELAND, was four to five days. In many cases it took longer due to mail being directed to NICOSIA instead of to either LIRMAC or KTIM. On a number of occasions the mail from IRELAND was dispatched to the HQ 40 Bn or 42 Bn which imposed an undue delay also.

2) There was general dissatisfaction with the amount of the overseas allowance. It was felt to be inadequate.
3. PUBLIC RELATIONS
   
   a. From the very beginning of the tour extremely friendly and cordial relationships were established with all sections of the Cypriot communities and with the personnel of the British Bases. These excellent relationships were maintained throughout the tour. The extremely high standing with which the Group was regarded contributed to the National prestige and to that of the United Nations, to a considerable degree. Many assurances of this were made both on official and private leads.

   b. Excellent relationships were maintained with the staff at UNFICYP HQ and with other contingent units.

   c. The Force Commander - Gen. K.S. THIMAYYA, D.S.O. when addressing the officers of the Group prior to rotation to IRELAND complimented the Group on a successful tour and stated that none of the other UN Units had given him so little trouble.

   
   a. (1) Mass.

   The Group Chaplain celebrated Mass in three Camps each Sunday and Holyday, thereby enabling every member of the Group to attend.

   (2) Mass was celebrated on week days in each of the three camps every fourth morning.

   b. Confessions

   Confessions were heard at each camp on the day before or prior to each Mass.

   c. Rosary

   The Rosary was recited in each camp and outpost each evening, the chaplain attending the recital at two of the main camps each day.

   d. Sodality

   A Sodality Mass was celebrated on the first Friday of each month in each of the three main camps. Confessions were heard prior to Mass.

   e. Mission.

   A short afternoon Mission was conducted in the Franciscan Church, Terra Sancto, LARNACA by Rev. T. Blake, S.J. by arrangement with the Chaplain, DHEKELI S.B.A. The mission programme consisted of sermon, Benediction, confessions, Mass and General Communion. The maximum numbers available compatible with operational requirements attended the Mission. Almost every member of the Group received Holy Communion. Rev. T. Kelly, Group' Chaplain and Rev. F. Dempsey, Chaplain DHEKELI S.B.A. assisted at the Mission.
f. Visiting Chaplains.

(1) The following visiting Chaplains heard Confessions on several occasions.
- Rev. T. Molloy, Chaplain Dhokella, S.B.A.
- Rev. P. Dempsey.
- Rev. S. Condon. 40 Inf Bn
- Rev. R. Neville. 40 Inf Bn
- Rev. G. Keeshan. 40 Inf Bn.

(2) Rev. J. Clarke, 41 Inf Bn heard Confessions during the last fortnight of the tour.

g. Correspondence with Relatives.

The Group Chaplain during the first two months of the tour had an informal chat with each NCO and Pte and wrote a personal letter to their relatives assuring them of their well being.

5. Social Events.

a. Members of the 3 Inf Group attended at a number of social events given by military contingents and civilian authorities and organisations.

b. Functions Attended.

(1) Supper Party and Dance given by Brigadier J.A. Merchant. DSO, Commander Cyprus, Rear S.B.A. DHEKELIA, at the Officers Club, DHEKELIA.
- Rev. J. Clarke.

(2) Dinner Party given by the Commanding Officer and Officers, Royal Engineers at S.M. B.S., DHEKELIA. The O/C 3 Inf Gp, SIC and Adj were guests of honour.

(3) Dinner Parties at the Rotary Club, LARNACA, on three occasions. At one of these a Lecture on IRELAND was given by Comdt J.P. DUGGAN, and at another a film on IRELAND, provided by the TRISH TOURIST BOARD, was shown.

5. Social Events.

a. Members of the 3 Inf Group attended at a number of social functions and dances at LARNACA, given by the officers of the Nation, LARNACA.

(1) Dinner Party at the Four LANTERN HOTEL, LARNACA, given by the LARNACA Branch of the UNITED NATIONS ASSOCIATION.

(2) Supper Party and Dance at the PAPHOS PALACE Hotel KTIN, given by the KTIN BRANCH of the UNITED NATIONS ASSOCIATION.

(3) Supper Party and Dance given by Brigadier J.A. Merchant. DSO, Commander Cyprus, Rear S.B.A. DHEKELIA, at the Officers Club, DHEKELIA.
(7) Supper Party and Dance at the NEW OLYMPUS Hotel, KTİM, given by the KTİM Branch of the UNITED NATIONS ASSOCIATION.

(8) Dinner Parties on several occasions given by the TURKISH Leader DR. ORHAN at SCALA, LARNACA.

(9) Supper Party given by the NATIONAL GUARD PAPHOS DISTRICT at PAPHOS PALACE Hotel.

(10) Cocktail (Supper Party) given by Mr. ALTAY Kt. Ldr. PAPHOS to officers of the 3rd and 4th Inf Groups.

(11) Dinner Party given by District Officer PAPHOS at his residence for the OC 3 Inf Gp and the OC 4 Inf Gp., staff officers and civic dignitaries.

c. Functions Given.

(1) Farewell Dinner and Dance at LARNACA for 180 guests representing Greek and Turkish Communities, Civilian organisations, British Military DHMEKELIA, S.B.S., officers of UNFICYP HQ and other UN Contingents.

(2) Dinner Party for members of the National Guard LARNACA.

(3) Dinner Party for the ROTARY CLUB, LARNACA.

(4) Dinner Party for the 1 Bn Royal Inniskilling, Fusiliers.

(5) Dinner Party for the TURKISH Leader, Dr. ORHAN, LARNACA.

(6) Dinner Party for the LARNACA BRANCH of the UNITED NATIONS ASSOCIATION.

(7) Luncheon Party for the UN Force Commander, Gen K.S. THIMAYYA, D.S.O.

(8) Dinner Party for COMIRCON on the occasions of the Presentation of the UN medals to the Group.

The weather experienced can be divided into five separate periods as under.

(1) July 23rd to Sept 15th - Extremely hot and dry. Temperatures during day 90° F to 103° F. " night 70° F to 80° F. The glare was very trying on the eyes. Sun glasses were essential. The dust was very heavy and inclined to cause bronchial trouble. The heat caused excessive perspiration necessitating drinking a large volume of liquid daily - up to 9 jints.

(2) Sept 15th to Oct 30th - Hot dry Weather. Temperatures during day 80° F to 90° F. " night 60° F to 70° F. Glare and dust still a problem. Perspiration reduced but still excessive.
(3) Nov 1st to Dec 16th - Weather deteriorated. Temperatures dropped. Heavy rain and Thunderstorms.

Flooding - cold winds, occasional fine days Very muddy underfoot.

Temperature during day - 55°F to 60°F. " night - 45°F to 55°F.

Cold and wet felt acutely. Personal suffered from lack of weather clothing and field boots.

(4) Dec 17th to Dec 31st - Fine dry mild weather.

Temperatures during day - 60°F to 65°F. " night - 45°F to 55°F.

(5) Jan 1st to end of tour - Intermittent fine and wet weather. Heavy rain at times. Cold winds at times. Mainly overcast. Muddy on wet days.

Temperatures during day - 55°F to 65°F. " night - 40°F to 50°F.

January and February are regarded as Winter months.

b. Observations.

(1) Weather proof combat jackets and trousers for cold wet weather are necessary.

(2) Light weight boots - such as suede - are necessary for hot weather. The troops purchased these.

(3) Waterproof field boots are necessary for wet weather.

(4) Mattresses were not available for issue to troops. Sleeping bags and inflatable mattresses are necessary for cold conditions.

(5) Sunglasses are necessary to protect eyes against glare.

(6) In additional allowance for purchase of minerals during hot weather is necessary.

7. DAILY ROUTINE

a. Reveille 06.30 hrs
   Mass 07.00 hrs
   Breakfast 07.30 hrs
   Command Officers Daily Conference 08.00 hrs
   Parade 08.00 hrs
   Lunch 13.00 hrs
   Swimming Parade and Games 14.00 hrs
   Dinner 18.00 hrs
   Rosary 19.00 hrs
7. **DAILY ROUTINE** (Contd)

Films (Thrice weekly) 19.30 hrs
Lights Out 23.00 hrs

NOTE: (1) During NOVEMBER the swimming parade was limited from 14.00 hrs to 15.30 hrs.

(2) During DECEMBER and JANUARY the swimming parade was dispensed with and Routine Duty was performed in the afternoons.

b. Canteen opening hours were as follows:

10.30 hrs to 11.30 hrs daily.

12.30 hrs to 14.00 hrs daily.

17.00 hrs to 23.00 hrs daily.

8. **PRESENTATIONS**

a. The OC 3 INF Gp made presentations as follows:

   (1) To the Force Commander UNFICYP - a silver Celtic paper knife.

   (2) To the District Officer, LARNACA - the 3 Inf Gp plaque.

   (3) To the District Officer, PAPHOS - the 3 Inf Gp plaque.

   (4) To the ROYAL ENGINEERS, PHEMAELA - the 3 Inf Gp plaque.

   (5) To the 1 Bn Royal Inniskilling Fuseliers - the 3 Inf Gp Plaque.

b. The OC 3 INF Gp received presentations as follows:

   (1) From the 1 Bn Royal Inniskilling Fuseliers - the Regimental Plaque

   (2) From the DISTRICT OFFICER, LARNACA - a Ptolemaic AMPHORA (J.R) circa 700 B.C.

   NOTE: This presentation was made at the FAREWELL Party given by the 3 Inf Gp at Camp St. BRENNAN LARNACA which was attended by 180 guests. The AMPHORA was subsequently mounted and presented to the Officers’ Mess, COLLINS RKS., CORK.

9. **GARDS OF HONOUR**

A Lieutenants Guard of Honour was provided on the occasions set out hereunder. The colours of the 3 INF Gp were carried and the General Salute was rendered by Bugle.

   (1) On the two visits by the Force Commander UNFICYP - General K.S. THIMAYYI, D.S.O.

   (2) On the visit of Senor C.L. BERNARDES, Personal Representative of the Secretary General, U.N.

   (3) On the visit of Brigadier L.J. WILSON, M.B.E. M.C. Chief of Staff, UNFICYP.
The high standard of dress and drill and the excellent bearing and physique of the troops was very favourably commented upon.

10. Incidence of Duties.
   a. See Company Histories - Chapter 8 et seq.
   b. Officers - 1 in 4.
      NCO's - 1 in 4.
      Men - 1 in 6.
1. **Scope.**

This report is divided into three parts. Part 1 covers the general mission tasks and activities of the Int Staff of 3 Inf Gp. Part II covers the sit in LARNACA District which was under the cnt of 3 Inf Gp for the period 8 Aug 64 to 9 Dec 64. Part III covers the sit in PAPHOS District which was under the cnt of 3 Inf Gp for the period 10 Dec 64 to 28 Jan 65.

**Part I - Mission Tasks and Activities**

2. **Int Mission.**

The Int requirement was to keep the District Cmd (OC 3 Inf Gp) and HQ UNFICYP info on the relative str, activities and intentions of the various mil forces in LARNACA District and, subsequently, PAPHOS District and to assess developments in the political sitn.

3. **Tasks.**

   a. All collection of info was done in an overt manner by the use of pats, ops, air recce and liaison with the Gk/Cyp and Tk/Cyp authorities.

   b. Info pertaining to the mission was collected, analysed and dispatched to HQ UNFICYP by mean of a daily INFSUM (Information Summary). (See Annex "A" attached).

   c. The agencies available to the Int Staff were:-

      (1) Coy Pats.
      (2) Coy Ops.
      (3) Arm & Gp Pats.
      (4) Military Police Pats.
      (5) Mixed UN/Cyp Police Pats (ONLY in PAPHOS District).
      (6) Pats.
      (7) UN CIV POL (Australian).
      (8) Air Recce.
      (9) Liaison with NG (National Guard) Gk/Cyp Police, District Officers, and Tk Cyp Leaders.

4. **Activities.**

The main activities of the Int Staff could be summarised as follows:-

   a. Daily briefing of Group HQ Staff.

   b. Attendance with Group OC and preserving continuity of discussion at meetings with the District Officers and District Tk/Cyp Leaders. Such meetings took place two or three times weekly and records of the proceedings were maint.

   c. Submission of daily INFSUM to HQ UNFICYP.

   d. Maint of District HQ Sit Maps.

   e. Maint of records of info on all towns and villages.

   f. Maint of records of incidents.

   g. Compilation of data on Gk/Cyp Arm forces incl NG and Police.
h. Compilation of data on Tk/Cyp Fighters.

(1) Periodic briefings of visiting dignatories incl Force Cmd, Chief of Staff, Act Chief of Staff and the General Secretary's Special Representative.

5. TRG.

The most important aspect of trg from the int viewpoint was observation and reporting. One of the main tasks for OPs was the observing and reporting on N.G. and Gk/Cyp Police convoys. Initially, our ops were found somewhat backward in both these important requirements, as they had NO prior special trg in the manning of OPs and in speedy accurate and concise reporting.

6. Staff.

The Int Staff of one Offr and one N.C.O. was completely inadequate for the requirement. The collection processing and dissemination of info is of vital importance in any peace keeping mission and this implies the necessity of a division of responsibility between Field and Office duties, which the provision of an Asst I.O. would have greatly facilitated. The inadequacy of int staff in 3 Inf Gp was more than compensated for by the enthusiastic co-op of an already overworked Ops Offr and a highly intolligent, most efficient and hard working Int Sgt.
CHAPTER 3 -
INT REPORT

UNIT HISTORY - 3 INF GP

PART II - LARNACA DISTRICT

7. Area of Ops.
   a. Gen. 3 Inf Gp took over LARNACA District from 1 Bn Royal Inniskilling Fusiliers at 0900H on 8 Aug '64. The area of ops corresponded with LARNACA Civil District and adjoined the Sovereign Base Area of DHESKALI. The neighbouring UN MIL Districts were FM.GUSTA MIL District which was occupied in turn by the 40 and 41 IRISH Bns and LIMASSOL MIL District which was occupied in turn by 1 Bn Royal Inniskilling Fusiliers and 1 Bn, 22nd Cheshires Regt. (See trace ANNEX "B" attached).

   b. Towns and Villages.
      The District contained sixty-one towns and villages of which thirty-one were Gk/Cyp, eleven Tk/Cyp and nineteen mixed communities. Of these locs, one Gk/Cyp village and one Tk/Cyp village were abandoned and the Tk/Cyp had also abandoned eleven of the mixed villages.

   c. Distances and Roads.
      LARNACA town, the District Capital was sit twenty-five miles by rd from the city of NICOSIA, twenty-five miles from FM.GUSTA and forty-four miles from LIMASSOL. The rd network in the District was generally good except for the third class dry weather surfaces, which were rather bumpy and uneven but were still passable during our period of use as they had NOT succumbed to the effects of wet weather.

8. COMMUNAL LEADERSHIP.
   Relations between the Gk/Cyp and Tk/Cyp leaders in the District, though strained, were probably better than in most other Districts in the island. The Gk/Cyp District Officer, MR PHOEBUS ZACHARIDES and the Tk/Cyp leader, DR ORHAN MOUDERISOGLOU - former Vice President of the Cyp House of Representatives - held weekly joint meetings under the chairmanship of OC 3 Inf Gp. These meetings were instrumental in resolving many local problems and points of difference.

9. SENSITIVE LOCS.
   a. Gen. The most difficult locs in the District were LARNACA town, KOPHINOU GR S 0630, ATYOS THEODHOROU GR S 0627 and the mixed villages of LRSOS GR S 2859, TREMEHUGHSO GR S 2659 and FYLI GR S 3451.

   b. LARNACA TOWN.
      (1) Population.
      LARNACA had a population of roughly twenty thousand of which fourteen thousand were Gk/Cyps, four thousand were Tk/Cyps and the balance made up of Maronites, Armenians and British Service families. The Tk/Cyps lived in two separate sectors of the town, three thousand in the southern District of SCILL and one thousand in the NW District of TUZI. The Gk/Cyp community lived in the central portion of the town between...
the two Tk/Cyp sectors. The two "GREEN LINES" or inter communal bdys were purely artificial and conformed to lines represented by the streets. There were NO buffer or neutral zones.

(2) Fortifications:

In TUZL, there were twenty four Tk/Cyp fortifications opposed to twenty five Gk/Cyp fortifications on the opposite side of the bdy line. In SC/L, there were fifty four Tk/Cyp fortifications opposed to forty five Gk/Cyp fortifications. The Gk/Cyp fortifications were initially manned by Volunteer National Guard (NG) and armed Gk/Cyp Police. These were replaced on 2 Nov '64 by Regular NG who immediately reduced the number of manned posts in TUZL to five and in SC/L to twenty. The Tk/Cyp fortifications were manned by Tk/Cyp Irregular fighters. With the lessening of tension and the reduction in the number of manned Gk/Cyp posts the Tk/Cyps reduced the number of their manned posts to eleven in TUZL and twenty one in SC/L.

(3) Defortification.

Negotiations for the removal of the respective fortifications in the town were pressed by 3 Inf Gp during it's entire period in the District. The Gk/Cyp District Officer was ultimately persuaded to agree to defortification which assent he made conditional on the Tk/Cyps doing likewise. It was felt that his agreement was probably dictated by the fact that the Gk/Cyp armed Forces were at that stage on a very firm footing. The Tk/Cyp leader could NOT be persuaded to remove the Tk/Cyp fortifications and pointed out that as the non-aggressor his fortifications were necessary for the protection of his people. It was felt that the Tk/cyp leader was NOT a free agent in this regard and was merely implementing the policy dictates of the overall Tk/Cyp leader, DR KOUCHUK and his advisors in NICOSIA.

(4) See.

L, RNLCJ, town was reasonably quiet during our period of occupancy and there were very few exchanges of fire or similar incidents. The gravest threat to the peace was during Aug '64 and early Sept '64 when the Tk/Cyp sectors of the town were declared controlled areas by the Cyp Govt and lack of essential fodstu's almost drove the frustrated Tk/Cyps to resort to force. Though there were NO open hostilities the sit always remained combustible with two rival armed factions facing each other in such close proximity.

c. NTYOS THEODOROS. GR S 0627

Nyios Theodhors was the most sensitive of the villages in L, RNLCJ, District. It had a mixed population of Gk/Cyps and Tk/Cyps who, even in normal times never got on well together. after the outbreak of hostilities these ill feelings expressed themselves in occasional exchanges of small arms fire. Relations disimproved even further when a Gk/Cyp Police Inspector was killed by a Tk/Cyp when endeavouring to restore order during one such shooting affray on 24 Apr '64. The Gk/Cyp Police subsequently established a permanent Police Station in this village and, far from improving relations, this action ONLY made matters worse.

d. KOPHINOU GR S 0630

This Tk/Cyp village sit at the vital intersection point of the two main roads NICOSI.-LIM.SOSL and L, RNLCJ.-LIMASSOL was a constant bone of contention, between Gk/Cyps and Tk/Cyps. Tk/Cyp fighters occupied fortifications on the high ground in the vicinity of this village; allegedly for the purpose of local security. These posts, however, covered and controlled both the main rds in question and constituted a
a threat to all Gk/Cyp movement along these routes. The Gk/Cyps were naturally apprehensive of the move of their vehicles through this village, particularly the convoys coming from the port of LIMASSOL and proceeding to Nicosia, and such convoys were always protected by armed escorts. The risk of a clash between both rival armed factions was always a real one but permanent occupation of KOPHINOU by 3 Inf Gp was instrumental in averting a serious incident.

ARSO, GR S 2859, TREMETHOUS, GR S 2629 and FYL, OR S 3451. In these mixed villages the rival communities had segregated themselves into separate sects of the villages. Volunteer NG (Gk/Cyp) and Tk/Cyp irregulars openly carried arms and all that was required was a spark to set off a conflagration. An example of such a spark was the accidental explosion of a thunder flash by a small Tk/Cyp shepherd boy on the night of 5/6 Sept '64. This small incident triggered off a minor local war during which a few hundred shots were exchanged. The overnight presence of a strong 3 Inf Gp patrol was required to restore calm and order.

b. Police: The Gk/Cyp Police were armed for specific purposes such as the manning of three Road Check Points on the outskirts of the town of LARNACA, on the roads to Nicosia, LIMASSOL and FYLAQUIST, and the carrying out of patrols which brought them into close proximity to Tk/Cyp areas of population. The Road Check Points were set up for the purpose of preventing the passage of "strategic materials" in and out of the Tk/Cyp sectors of LARNACA town. The existence of these Check Points were cited as proof by the Tk/Cyps that they did not enjoy freedom of move through the District O.C. 3 Inf Gp constantly pressed for the removal of these posts and his efforts were finally rewarded when the three posts in question were removed shortly before the departure of the unit from LARNACA District.

c. Mil Disposals and Tasks.

(1) Org. LARNACA town was the HQ of 6 Tac Gp NG. This Gp controlled a NG Mil District which corresponded to LARNACA Civil District except for its western hilly area (See trace Annex "Q" attached). The Gp was commanded by a Major COSTAS DOKUS, a Gk National, and he had under his command the following units and loss:

RÚNDA
(a) Regular NG. One coy deployed as follows:

(i) 1 Pl - TUZIA.

(ii) 3 Pls - SCALA.

(See trace Annex "E" attached).

(b) Volunteer NG

(i) 391 Bn - HQ ATHENOU GR S 2056.

(ii) 346 Bn - HQ LARNACA.

(iii) Inter Bn Rdy. Main Read NICOSIA - LARNACA (See trace Annex "E" attached).

(c) Trg Camps.

(i) CAMP ST GEORGE, LARNACA.

(ii) YOUTH HOSTEL CAMP - SW OF PYGRA GR S 1041.

(See trace Annex "E" attached).

(2) Tasks.

(a) Regular NG.

Manning the Gk/Cyp fortifications on the "GREEN LINES" in LARNACA town in TUZIA and SCALA.

(b) Vol NG.

Initially these units manned the fortifications in LARNACA town until replaced by the Reg NG coy. However, their main task was to provide local security in the villages and rural areas of the District. During Aug '64, these units also manned coastal def posns in the face of a threatened invasion from the National Armed Forces of Turkey. At this same time they also sp the Gk/Cyp Pl at their Check Pts around LARNACA but this activity ceased with the lessening of tension.

(c) Trg Camps.

(i) CAMP SINT GEORGE. This was one of the principal NG trg camps in CYPRUS and was sit on the outskirts of LARNACA town just off the mainrd to NICOSIA. In this camp, successive bns of Reg NG recruits were trained. The trg cycle was of appr sx six weeks duration and each bn, on the completion of trg was deployed to a more sensitive part of the island and did NOT, therefore, affect the local sit.

(ii) YOUTH HOSTEL CAMP. This camp was sit in an isolated sector of the District and was well camouflaged. It was in a NG "Restricted .rea" and was therefore out of bounds to UN troops. The Cyp Govt decreed that they would permit ONLY the PC GENERAL THIMLOY to visit this loc and then ONLY by his obtaining the prior consent of GENERAL GRIEV. There was, naturally, much conjecture what NG activity took place in this area. Air recce even failed to throw any light on the question, so well camouflaged was the camp, but it did disclose that it was originally occupied in about coy str, and later in bn str. The camp was always regarded as a trg camp but to classify it as such was, perhaps, an unwarranted assumption as there was also a suspicion that some form of specialist unit was loc there.
II. TK/CYP FIGHTERS.

As the Tk/Cyp fighters in LRR/CL District did NOT wear any common uniform and were NOT in a permanent state of activation it was impossible to accurately assess their true str. In fact, most Tk/Cyps between the ages of seventeen and fifty five could be regarded as potential fighters. Each Tk/Cyp town and village had its own local security forces and the strs and main dispositions of such forces was as shown in the trace at Annex "C" attached. There was never any indication of unification of oomd between these units and it was thought that they op independently on a local basis. The comm problem was largely responsible for this sit. Relative to their Gk/Cyp opposite numbers, the Tk/Cyp fighters were poorly armed and equipped and as such, had NO great aggressive capability.
PART III - PIKOS DISTRICT

12. AREA OF CPS.

a. Gen.

3 Inf Cp took over PIKOS District from 28 Swedish Bn at COOIB on 10 Dec '64. The area of ops corresponded with PIKOS Civil District, except for the NE portion of the District which was incl to the UN MIL District of MORPHOU. The neighbouring UN MIL Districts were MORPHOU (41 Irish Bn) and LIMASSOL (1 Bn, 22 Cheshire Regt) (See trace .JNWX... attached).

b. Towns and Villages.

The District contained one hundred and forty two villages, of which eighty nine were Gk/Cyp, thirty eight Tk/Cyp and fifteen mixed communities. Of these locs, the Tk/Cyps had abandoned eight Tk/Cyp villages and eleven mixed villages.

c. Distances and Rds.

KTIMA town, the District Capital was sit twenty five miles by rd from POLIS, forty five miles by rd from LIMASSOL, ninety nine miles by rd from NICOSI via LIMASSOL and ninety five miles by rd from NICOSI via POLIS. The two main rds in the District KTIMA-LIMASSOL and KTIMA-POLIS were twisting hazardous routes through mountains which needed careful negotiation by tpt. Other routes rep much worse going and were highly dangerous in certain places and in some cases were completely impassible during periods of heavy rain.

13. COMMUNAL LEADERSHIP.

Relations between the Gk/Cyp and Tk/Cyp leaders in the District were bad. The Gk/Cyp leader, the District Officer, MR ZENON VRIONIDES was a most aggressive and excitable personality and was prepared to meet the Tk/Cyp leader ONLY if the latter intimated his recognition of the Cyp Govt. The Tk/Cyp leader, MR .2212 LITIY was a lawyer by profession and as such, a most able and polished politician. Both these leaders were intractible and intransigent in their policies and there did NOT appear to be any common meeting ground. MR LITIY was at all times willing to meet MR VRIONIDES but the latter objected to such a proposal and intimated that he would have to be ordered to do so by his Govt before he would agree. It is possible that MR VRIONIDES felt that he would be at a great disadvantage in any battle of words with MR LITIY.

14. SENSITIVE LOCS.

a. Gen.

The most difficult locs in the District were KTIMA, POLIS GR R 1854, MANDRI GR R 2818, ST.WRCKOKO GR R 3626, N.JDHIOU GR R 3144, AXYLOU GR R 3128, LRDHIES K.TO GR R 1643, the LIMNI MINE GR R 2255, PELETHOUS: GR R 3253 area and AXIA VLRVAR: GR R 2622.

b. KTIMA.

(1) Population.

KTIMA had a population of nine thousand of which six thousand were Gk/Cyps and three thousand Tk/Cyps. The Tk/Cyp sector was loc to the NW of the town and was divided from the Gk/Cyp sector of the town by two main streets AFHRODITE and FELLHOCLOU.
(2) Fortifications.

This town was very heavily fortified up to Mar '64 but as a result of a cease fire following by my fighting, ALL Tk/Cyp fortifications and most of the Gk/Cyp fortifications were removed so that at the time of our occupancy there remained ONLY a few NG and Gk/Cyp Police posts close to the inter communal body line.

(3) Sit.

The atmosphere in KTIM: was tense as the town had been the scene of some violent fighting early in Mar '64 during which there had been wanton destruction of property particularly that owned by Tk/Cyps. Later in the year the Tk/Cyp sector of the town was declared a controlled area and was subjected to an economic blockade from 6 Aug '64 to 15 Sept '64. During the first fortnight of this particular period, the District Officer cut off the water sup to the Tk/Cyp sector and a Tk/Cyp Police Inspector was shot dead by a Gk/Cyp Policeman. The combination of the foregoing factors kept passions at boiling point and there was always the danger that some minor incident might escalate and have serious repercussions.

Just prior to the termination of the tour of duty of 3 Inf Gp in CYPRUS the local Gk/Cyp auths erected a concrete wall about six and a half feet in height and eighteen inches in width in the Market Place, just opposite the Tk/Cyp sector of the town. They claimed that the wall was purely for the protection of the Gk/Cyp civilians entering the Market buildings but ostensibly the construction was a fortification and was loopholed in two places. OC 3 Inf Gp ultimately persuaded the Gk/Cyp leaders to block up the loopholes but they refused to accede to his further persistent demands that the wall should come down altogether. This incident could have had serious consequences as the Tk/Cyps were restrained only with much difficulty from taking similar retaliatory measures.

c. POLIS. GR R 1854. Was also a mixed town with a population of two thousand of which seven hundred were Tk/Cyps. The town was the scene of very by and bitter fighting early in 1964 during which the Tk/Cyps were compelled to withdraw to an area centred around the Tk/Cyp school in the SW of the town. Since then, the flame of hate between both communities had been kept alive by various subsequent events, POLIS was the first town in CYPRUS to be attacked by TkNational Army as in Aug '64. On 10 Aug '64, a Gk/Cyp was killed in the vicinity of the Tk/Cyp school and the score was levelled on the following day when a Tk/Cyp was killed in the same area. This town also keenly felt the affects of the economic blockade during Aug and Sept '64, whilst it's proximity to the KOKKINA. GR R 3569 - MINSOUR. GR R 3870 area had a marked effect on the population of the town, during the Gk/Cyp offensive in that loc in Aug '64.

d. MANDERL. GR R 2818. Was an extremely militant Tk/Cyp village with a hard core of MMT extremists. Many of the Tk/Cyp fighters who had taken part in the "Battle of KTIM:" in Mar '64 had taken refuge in this village. The Gk/Cyps always suspected that arms were being smuggled into MANDERL from the sea and for that reason they maintained a NG post of one pl str at ZERO BRIDGE GR R 3018 which carried out posts on either side of the village down to the coastline. The proximity of this pl to the village and the further possibility that the villagers might interfere with tfo on the main rd KTIM:-LIM:SSOL made the sit in this area delicate.
e. ST:VRKOMO GR R 3626 was another extremist Tk/Cyp village and a TMT stronghold. It controlled the main approach to a number of Gk/Cyp villages from KTIM. The Tk/Cyps in this village constantly interfered with the free mov of Gk/Cyp traffic through the village especially during darkness. The sit came to a head during Nov '64 when two Gk/Cyp buses passing through the village were stopped and searched by armed gunmen. The Gk/Cyp auths in KTIM threatened reprisals but were ultimately persuaded to "hold their fire" by the estab of a permanent UN post in ST:VRKOMO which subsequently exercised ctl and supervision of the mov of tfc through the village.

f. XXYLOU GR R 3144 was another Tk/Cyp strongpoint in a most remote and inaccessible part of the District. It contained a large percentage of Tk/Cyp refugees who were always very much to the front in stirring up trouble. The village was loc in close proximity to two Gk/Cyp villages, PHITI GR R 2942 and KRETOU M.:ROU GR R 3142 and as the flds of all these villages adjoined one another there had always been trouble over land, even long before the outbreak of hostilities. Hostilities merely provided the excuse for these strained relations to express themselves in a number of shooting incidents, some of which resulted in fatalities.

g. XXLOU GR R 3128. The trouble in this village was caused by the problem of refugees. During the early part of 1964 the Tk/Cyp village of PIT:RCOU GR R 2832 was evacuated and the inhabitants fled to XXLOU. In Oct '64 when tension in the island had relaxed some of these refugees had returned to their native village of PIT:RCOU. Their return was resented by some of their colleagues who had remained in XXLOU and some of these entered PIT:RCOU on the night of 6 Nov '64 and tried to compel those who had resettled in PIT:RCOU to return to XXLOU. There was an exchange of fire between both these Tk/Cyp factions as a result of which the NG encircled the village of XXLOU with a copy in an effort to force the Tk/Cyps, there to hand over the men responsible for the incident. This blockade was maint for a week but was ultimately lifted as a result of UN negotiation.

h. PELOTHOUS K:TO GR R 1643. The tension in this village was caused initially by a single relatively minor incident. On 10 Nov '64 a Gk/Cyp motor cyclist was stopped for a short time by Tk/Cyps whilst passing through the village. The matter was taken up with the village Mukhtar or headman who refused to agree to free mov of Gk/Cyps through the village. His attitude enraged the Gk/Cyp District auths and three coy of Vol NG were called up and rushed up to the village which they besieged for two days. The siege was lifted on UN intervention and negotiation, but the village subsequently had to be kept under constant supervision and 3 Inf Cps maint a permanent outpost in this loc as there was very definite requirement to keep the mine working and to offset the possibility of any incident which might conflict with this end.

i. PELOTHOUS GR R 3253 - LIMNI MINE GR R 2255. The LIMNI Copper Mine empl about five hundred workers of whom the majority were Gk/Cyps. The mine had closed down on the outbreak of hostilities but since Apr '64 UN had gradually succeeded in getting the mine back into op. The mine adjoined a very hostile Tk/Cyp village called PELOTHOUS. The inhabitants of which had blown up the rd brs on either side of the village to deny the use of the road to Gk/Cyps. There were also a number of shooting incidents involving Gk/Cyp Police on duty at the mine and the Tk/Cyps of PELOTHOUS. 3 Inf Cps maint a permanent outpost in this loc as there was very definite requirement to keep the mine working and to offset the possibility of any incident which might conflict with this end.
j. **VILL. VARVARA GR R 2622.** This mixed village was largely inhabited by Tk/Cyps and there were ONLY about five or six families of Gk/Cyps resident there. On 5 Dec '64 the Gk/Cyp Police initiated the practice of patrolling this village daily, allegedly in the interests of the small Gk/Cyp minority. The local Tk/Cyps resented this intrusion and claimed that the Police, in the course of these pats were acting provocatively. The Gk/Cyp Police Supt in KTIM denied these allegations and refused to discontinue the pats nor would he agree to the suggestion that UN tps should accompany the pats into the village. The local Tk/Cyps ultimate reaction to the Police presence was to estab a rd block by night on the main approach into the village from KTIM. After negotiation by UN, this rd block was removed by the Police pats continued and there was always the likelihood of conflict between the Police and the more militant of the Tk/Cyp locals.

15. **GK/CYP ARMED FORCES.**

a. **MIL.**

(1) Org

KTIM was the HQ of the 8 NG Tac Gp. This Gp controlled a NG Mil District which incl PAROS Civil District and portion of the MORFHOU UN Mil District as far EAST as K.YO PYGRAS GR R 4270. The Gp was comd by a COLONEL PLUTO CHRONIS, a Cyp National who had served in the GREEK National Army, and the following units and locs under his comd were within the area of ops of 3 Inf Gp:

(a) **Regular NG.** One coy and 2 pls deployed as follows:

(i) One coy - KTIM., which maint a pl outpost at ZERO BRIDGE GR R 3038.

(ii) Two pls - POLIS

(b) **Vol NG.**

(i) 356 En - KTIM.

(ii) 397 En - POLIS.

(iii) Inter En Bdy - (See trace "NNX MT" attached).

(c) **COR.L.E.Y TRG CMP** GR R 1334.

(2) **Tasks**

(a) **Reg NG**

(i) Manning outpost at ZERO BRIDGE.

(ii) Manning NG posts adjacent to inter communal bdy line in KTIM.

(iii) Manning NG posts adjacent to inter communal bdy line in POLIS.

(b) **Vol NG.**

(i) 397 En. This unit became completely inactive in Oct '64 but still constituted a res and it's members were readily available "on call".

(ii) 356 En. This unit became semi-active in Oct '64. Half the coys of this unit were partially active at any one time to the extent that they carried out trg (part time) at nights and weekends. The remaining coys were completely inactive. The coys were rotated every two months so that every coy of the unit would have it's turn in the partially active role. The whole unit was readily available "on call" and was in fact so called up on 11 Nov '64 and committed to L.NCDES K.YO (See sub-para 14 h).
23. CORL BAY TRG CAMP. This was the ONLY NG trg camp in the area of 3 Inf Gp. It was NOT a permanent camp and was NOT occupied during the period of 3 Inf Gp in the District. It rather resembled FINNER CAMP and had been used in the past by NG units in PHOS District, for trg purposes.

b. Police.

In LIMI.GA District the Gk/Cyp Police were armed ONLY for the specific purposes of manning Road Check Pts and posts adjacent to the inter communal bdy line in KTMIN., and on pats which brought them into close contact with Tk/Cyp areas of population. Three rd check pts were maint, two on the rd KTMIN.-LIM.-SSOL and one on the rd KTMIN.-POLIS. NO amount of persuasion and negotiation could influence the Gk/Cyp Police to remove these posts so obsessed were they with the idea that there was a traffic in arms to Tk/Cyps. In KTMIN. town the Gk/Cyp Police maint two posts near the 'bdy' line, one in the NORTH at MAVROLI and the other in the SOUTH at the Market Gate. The MAVROLI post was particularly provocative as it was loc in what had been a former Tk/Cyp residential area. 00 3 Inf Gp repeatedly negotiated for it's removal but could NOT break down the resistance of the District Officer and Police Superintendent who both claimed that the post in question was maintained by order of the Cypriot.

16. TK/CYP FIGHTERS.

In PHOS District the lack of a common uniform and the further fact that these fighters were NOT on a permanent state of activation made accurate assessments of strs difficult. Local security forces existed in ALL Tk/Cyp towns and villages and their strs varied from approx two coy in KTMIN. and one coy in POLIS, STVAKCMO, MAVROLI, MAVNTOU, to pl str and less in the smaller areas of population. (See trace ANNEX B attached).

V. Crawford

COMDT

(V. Crawford)

IO, 3 INF GP
CHAPTER 4
G3 REPORT (OPS)

To: 28 Jan, 1965.
HQ 3 Inf Gp, UNFICYP.

Ref Maps:

Enemy Forces.
1. There was NO enemy in Cyprus.
2. a. NG dispositions L/JMN/C District - .NNX "B", Chapter 3.
   b. NG dispositions P/PHOS District - .NNX "C", Chapter 3.
3. a. Tk Cyp Fighters L/JMN/C District - .NNX "D", Chapter 3.
   b. Tk Cyp Fighters P/PHOS District - .NNX "E", Chapter 3.
4. Activity.
   a. L/JMN/C. In Aug there was constant interference and obstruction of freedom of movement by NG and TK reaction. Random shots were a daily occurrence and there were outbreaks of shooting at PYL, PYRG, LRSOS and XICOS THE COCHRUS that could have had serious consequences if they had not been quenched by prompt UN intervention; (a night operation in the case of LRSOS.) There was interference with ploughing, sowing, harvesting, going to work, getting sick people to hospital, education, acquiring of fuels, fuel oils and spare parts etc. etc.
   b. P/PHOS. There was a legacy of violence in the P/PHOS area. Relations between the two communities were bad. There was no meetings between the leaders.
5. Est. In spite of some bad relations between Gk NG and UN and lack of TK confidence in UN capability to protect them there was a universal good will and friendliness by BOTH sides to Irish UN. This was a help in lubricating local irritants and solving local problems. It is difficult to assess what contribution, if any, this cumbersome manipulation of local machinery (gk controlled and Tk resented as being unconstitutional) contributed to an overall settlement. Tk's thought it was making a fait accomplis of Gk control. Gks were impatient to be the complete and sole instrument of Government and authority.

Own Forces.
   a. L/JMN/C - MLP 1 (Frontispiece)
   b. P/PHOS - MLP 2 (Frontispiece).
7. Own Ops. 3 Inf Gp took over L/JMN/C District from 1 Bn Royal Inniskillings. .NZIO-CMP (HQ of INNISKILLINGS) was loc in SB. and at that time was no longer acceptable as a UN loc so the question of accommodation (which had to be reconciled to the operational requirement) became the main problem. Time and space ruled out P/M.GUSTL. and ZXTT as locs for elements of the unit. The water situation, considerations of concentration and withdrawal, and the fact of locating troops exclusively in the Tk quarter ruled out S. LAMNADA as a Op HQ. The MO and Engr Officer rendered a disused Chicken Farm habitable and the problem was solved as per locstat. (See .NNXs, Maps).
Activity as per 4. a. made for a busy time, observing, reporting, providing patrols and escorts. Escorts were provided for workers (going to work in SB1's and working in mines and fields), for the sick going to hospital, for provisions and produce and for schoolgoing. Daily shootings were nipped in the bud and serious outbreaks at XIKOS THEODORUS, PYRGOS, PTL, and ARSOS were quelled. These operations called for great tact, restraint and common sense. They were sometimes carried out at night e.g. ARSOS. Incipient riots were forestalled. An instance is the case of Tk civilians angrily accosting British service men who had killed ck policemen in a traffic accident. Capt Donnelly calmed them down.

The area was divided into two company areas (see CC No 1) as against a course of having three two-platoon localities. This disposition was one that worked very well for operational control.

"EYEBALL TO EYEBALL"

There was Tk intervention in the form of air-raids in August. This brought up the question of Concentration and Withdrawal. The C/O ordered an Estimate of the Situation and decided to base this plan on a withdrawal to DHKELI. SB1. Incidental to this plan the contingency of assisting civilian evacuation and dealing with refugees was catered for. This plan was subsequently approved, and adopted by HQ UNFICYP. If President Makariou carried out his threat to wipe out Tk villages in the event of Tk intervention UNFICYP were NOT to interpose between warring sections but were to negotiate for a cease fire from the side-line so to speak. They were, however, to remain on the Green Line unless and until ordered to withdraw by HQ UNFICYP. (See NNX). Their presence was vital here as in this position Gk Cyps and Tk Cyps confronted each other "eyeball to eyeball" with the 3 Irish in the middle, keeping them apart.

LARNACA was peaceful in December (compared to the early turbulence of Aug, Sept and Oct) when the Irish handed over the District to the Swedes. Ploughing, sowing, harvesting and inoculation programmes were carried out and completed. In the middle of the move to PHOS (Dec 4) 3 Irish threw a party for those who had entertained or helped them while in LARNACA. It went off well. The image of Ireland was further projected by means of Tourist Board Films.

Early Dec 3 Irish moved to PHOS and on Dec 9 established PHOS DISTRICT with B Coy in the NORTH and 1st Coy and Gk HQ in the SOUTH. (See NNX). The going was rough there, terrain-wise, weather-wise and situation-wise but 3 Irish firmly established the District, eased the situation there and quelled outbreaks of shooting at XIL: V.R.V.R., XEHKILI and STR:WROCMO. Red Crescent supplies were delivered to Tk villages and a programme of vaccination and inoculation was carried out. As elsewhere in Cyprus, however, the basic problem remained unsolved.

3 Inf Gp handed over to 4 Inf Gp on 28 Jan, 1965. 4 Inf Gp expressed their satisfaction with the hand-over and the situation in PHOS which was then well under UN (3 Inf Gp) control.

8. Fighting Efficiency. The state of training was the prevailing normal. This required "topping up" in conduct of Patrols. Reporting Advanced Driving, HP Procedures, Map-Reading etc. The deficiency in emplaning and deplaning Helicopter Drills was made good in LARNACA. This was novel and therefore very enjoyable.

The state of training was high but prompt and accurate, reporting of incidents was initially not entirely satisfactory. This improved greatly as time went on. Leadership at all levels was high and 3 Inf Gp became a happy family which was highly efficient and successful. The chaplain was a fully integrated member of the family. Peacekeeping seemed to come natural to the 3 Inf Gp. The Cys were excellent and the Gp was excellently supported by the Arm Gp. Co-operation between all units could NOT be better. A very wholesome spirit de corps existed Ops and Int dovetailed activities and worked as a team. The IC also functioned as Private Secretary to the CO, in his many meetings with Gk and Tk reps. The fact that all this work was carried out so excellently without an Asst IC is a
tribute to the IO's industry and efficiency. A twelve hour day, seven
days a week was the normal.

9. Result of Ops. Within the limitations, CPS, especially Ops. Economic
were completely successful in L.R.N.C.C. and P.P.H.O.S. Shooting was stopped;
peaceful conditions were established and maintained. Harvesting, ploughing,
sowing, vaccinations and innoculations and opening up of mines were successfully
carried out. UN integrity was fostered and excellent relations were preserved
with all sections of the community. All this helped the aim of a return to
normal in everyday dealings, though the political background was not accepted as
normal by either party. A political solution must preface a complete return
to normal.

3 Irish sought to impose the UN will by presence, and example. Talks and
lectures were given at all levels. Special attention was paid to Rotary Clubs
and Schools and the presentations given and films shown to these establishments
were much appreciated and seen to be having effect in bringing about a return
to normal.

The inconsistency in the UN mission to bring about a return to "normal".
is that the interpretation of "normal" by the two communities is irreconcilable.
The Tk view is that UNFICYP should contribute to a return to normal conditions
by reinstating the provisions of the 1960 Constitution which the Gks regard as
inoperative and superseded. Normality can only come about by a union of wills
on the part of the two communities to lay down their arms and seek again to
live in peace. UNFICYP generally could do little further to advance a
solution on these unresolved issues of obduracy and intransigency but, within
the limits of rendering assistance in the amelioration of day-to-day
administrative, economic, social or judicial difficulties arising from the
division of the two communities 3 Inf Gp was able to show consistent progress
and report success in all limited operations undertaken.

10. Report on the UNFICYP Operation generally is attached (ANNX 'J').

11. COMIRCON Jul - Nov - Colonel James J. Quinn (Army HQrs).

Nov - Jan - Colonel Carl O'Sullivan (Commandant, An Coláiste Míleata.

CHAPTER 5

LOGS ASPECTS

General

1. The advance party of the 3 Inf Gp landed in Cyprus at 0200 hrs on 22 July, 1964 and due to accommodation problems the party found itself divided between Famagusta and Nazaic Camp, Dhekelia. This produced many problems in co-ordination and adn in the ensuing week, particularly on the Q side as the Q ord and welfare officers were at Famagusta whilst the GM, Engr offr and S&T officers were at Nazaic.

2. The major problems facing the advance party were:-

   a. Preparation of a transit camp to hold the main body of the 3 Inf Gp on their arrival from Ireland.

   b. Recce for a suitable location for the Gp in the Larnaca area the procurement of renting of suitable premises for accommodation stores, workshops, offices and garage.

   c. Arranging for the allotment and collection of Vehicles, spares, POL, etc for adv party and Main body.

   d. Arranging for the collection of accommodation stores, ord and Bk Services eqpt, rations, water, fuel, etc., for the use of the adv party and the main body, both at the Transit Camp and in the permanent quarters at Larnaca.

3. The main difficulties encountered by the adv party from the Q and Logs aspect were inadequacies in Q Clerical staff and tpt personnel. Slightly better balance would obtain with a reduced engineer component and the addition of 2 clerical and stores NCOs and a storeman driver.

Preliminary Operations - Adv Party

4. Six hours after touch down in Cyprus, the GM, Tpt and Engr Offrs were being briefed by their opposite numbers in the Inniskilling Bn at Nazaic Camp whilst the Ord and Welfare officers were being briefed at Famagusta by their counterparts in the 40th Bn.

5. This was followed by detailed visits to the various British Ord, POL, Bk Services, Tpt and Engr Stores in the Dhekelia Area, and subsequently the drawing of vehicles and the stores and eqpt required for both the adv party and the Main Body of the 3 Inf Gp.

6. The Transit Camp at South Dhekelia was also prepared to receive the main body and stores, rations and eqpt were assembled there and finally the personnel of the adv party loc in Nazaic moved down to the Transit Camp on 28 July 1964 to ensure that final preparations for the reception of the Main Body were completed prior to the arrival of these personnel on 3 Aug 1964.

7. Concurrently with these activities, detailed recce was being carried out in conjunction with Ops and Int Offrs in the Larnaca area to locate and rent suitable premises for the Gp HQ, HQ Coy and rifle Coys of 3 Inf Gp.

8. Due in large measure to the co-operation and assistance of the local District Officer and his staff, excellent and adequate accommodation for all the needs of the Gp were obtained in Larnaca and much of this accommodation had in fact been taken over prior to the arrival of the Main Body in Cyprus.
Operations - Larnaca Area

9. The main body of the 3 Inf Gp (Total 327 a/rks) arrived in Nicosia Airport during the period 4th to 6th August 1964. Air transport was provided in C 124 and C 130 of the US MTS Command. A total of ten aircraft were used - 4 px and 6 cargo - each cargo a/c carrying 26,500 lbs stores approx and 2 NCO escorts per plane.

10. The incoming tps were taken by civilian buses - hired through UN HQ in co-operation with the Brit 47 Tpt Coy to the transit camp, Dhekelia and there reorganised into Coy and Pls. This re-organisation had to be completed rapidly as we were required to occupy our operational posts in the Larnaca area and relieve the 1st Inniskilling Bn there, by the 8th Aug 64. Tps were moved by Unit tpt froa the transit camp to Larnaca and all reliefs were successfully completed on time.

11. Incoming cargo was moved from Nicosia in 3 ton and 10 ten cargo vehs of 47 Tpt Coy (Brit) and to save double handling approx 50% of stores were moved direct to Gp HQ in Larnaca. Stores were sorted and bulk broken down into Coy allotments during the period 5th to 15th Aug 64. Despite the prevailing temp - almost 97°F in the shade each day this arduous work was completed in record time.

12. The 3 Inf Gp was sub-divided as follows:

a. Gp HQ + HQ Coy

Loc in a large poultry farm and 14 houses, villas and a large garage in the North East Secter of Larnaca town. These were all newly requisitioned premises.

b. A Coy

Loc in a large Turkish School and 6 houses, and villas, loc about 600 yds from Gp HQ. The majority of these premises were taken over from B Coy of the Inniskilling Bn.

c. B Coy

Loc in a large Turkish School and 7 nearby villas in the South Western party of Larnaca town and about 1½ miles from Gp HQ. This Coy also held a PI outpost in a Turkish Police Station at Kephinou and a Section post loc in a small house at Xylos Theodorus.

d. The Gp Coy were loc in newly requisitioned villas adjacent to A Coy in North Larnaca with a tp detached to B Coy at Kephinou.

13. Catering.

a. Rations were drawn daily (except Sundays) from Brit Sup Stores (Command Supply Depot - Dhekelia). Cempo rations (10 man pack less biscuits) were issued twice monthly - all other issues were fresh rations.
b. British compo rations though wholesome and nutritious were not popular. They were convenient for patrols, troop movements, etc., Irish compo rations were not available in Cyprus but many of our officers and NCOs who had used them in the Congo claimed the Irish pack was superior in quality, quantity and variety to the Brit produce.

c. Fresh rations were of excellent quality and of wide variety and were very acceptable to our troops. Small variations to suit Irish food preferences were authorised by UN HQ shortly after our arrival consisting of:

1. A daily issue of 2 ozs of Irish Kerrygold butter per man in lieu of the British standard ration of ½ oz British butter and 1½ ozs of margarine. A ration reduction of 5% to counterbalance the excess cost of this butter was required.

2. A daily issue of approx ½ pint of fresh milk in lieu of canned was also authorised.

14. Cooking Facilities

a. Initially as follows:

1. HQ Coy - Larnaca. Hydra cookers and domestic liquid gas ranges.

2. 1 Coy - North Larnaca - Hydra cookers.

3. A Coy - South Larnaca - Large commercial liquid gas range at Coy HQ and Hydras at outposts.

b. New cookhouses and wash-up annexes were built at HQ and 1 Coy locs and a large modern diesel burning range was installed in each. Tribute is due to the Engr Section for the excellent design of these cookhouses and the very short time required for their construction. This was made possible only through dawn to dusk work by our own Engr pers and good management of local contract labour.

c. Cooking Dept - The diesel range provided the perfect answer to all our cooking problems - it was simple and safe to operate - could be started in seconds without cleaning or priming and reached full working heat in approx 5 minutes. It had very large oven space and a more than adequate hot plate area. It was also economical in operation using about 8 gals diesel fuel per day. The installation of this type cooker in our home stations can be confidently recommended.

d. Hydra Cookers - Some difficulty was experienced in operating our home issued hydros due to faulty non-return air valves. Brit hydros differed from ours in that they had a hand operated air pump integral with the fuel container. Six hand pump conversion kits were obtained through courtesy of R.O.CC Depot, Dhekelia and were fitted to our hydros, after which they functioned perfectly. The modification of all hydra cookers in this manner is recommended.
15. Ord and Eqpt. The allotment as laid down in CS 41/29 - Schedules of Eqpt - were found to be adequate and suitable and no worthwhile recommendations for amendments to quantity or content can be made.

a. Stores. Excellent storage accommodation was available for Ord, Res Lmt and Bk Services eqpt in the Gp HQ at Larnaca. Separate magazines were quickly built by the Engr Sec for the different natures of eqpt and suitably protected by sandbag walls against blast and for defence purposes.

b. General. A small separate ord workshops was also established where repairs to ord eqpt, typewriters, cooking eqpt, etc. were carried out. Tontage taken over from 1 Bn Inniskillings was examined, repaired and US components replaced as necessary. A short course on the erection, striking and maintenance of tontage for Offrs and WOs of the Coy's and Gp was also held. The knowledge and experience thus gained was of inestimable value when the Gp were rotated to tented accommodation in the Paphos District.

c. Ord Offrs Report - see Annex 'a' att.

16. Tpt. The allotment of tpt was as follows:

</tbody>
</table>

a. The veh allotment was generally satisfactory, the only major difficulty during the Aug-Oct period being the supply of water - the 3 ton water tanker was invaluable but the one ton water vehs had no powered water pumps and thus were only of limited value.
b. **Repairs and Maint - MT.** A large garage in Larnaca was obtained as a Wksps and MT Stores. Though it contained NO repair eqpt initially it was invaluable for protection against the prevailing heat and dust and later in Nov against the torrential rain. Routine unit maint and repairs for the Unit and Cav Gp were completed here and major overhauls and repairs in the SE. MT Wksps in Dhekelia, 9 miles away.

c. **MT Offrs Report - See Annex B iht.**

17. **Engr.** The Engr Pl could be linked with the MT Pl as the two busiest elements in the 3 Inf Gp. The Engrs had to provide of the following services in three different locations occupied by the Gp, i.e., the Transit Camp, Dhekelia, Larnaca District, and Paphos District:-

a. Water services, Ablutions, Showers and D.T.L's.

b. Cookhouse, Wash-up and Protected Larder acco.

c. Access roads and hard standings.

18. In addition a complete winterisation programme had been completed prior to the departure of the Unit from Larnaca and a similar programme had to be rushed to completion in the Paphos area during Dec 1964 and Jan 1965. Many new buildings, cookhouses, showers, ord and amm stores were erected both in Larnaca and Paphos.

c. **Engr Offrs Report - See Annex B iht.**
19. **Introduction.** In late Nov 1964 3 Inf Gp had completed its preparations for Winter Quarters in the Larnaca area when orders for the movement of the Gp to replace the Swedish Tps in Paphos District were received. Detailed recce in the Paphos area quickly revealed that the area held by the Swedish Tps would be completely inadequate for our larger unit. It also revealed that NO winterisation work had been attempted in the Paphos area and that many buildings and almost all the tentage would require extensive repair, modification or replacement. In addition, new accommodation had to be found for 1st Car Gp and the Arm Car Gp as the camps at Kitima and Polis could only accommodate Gp HQ, HQ Coy and 1st Coy.

20. **Accommodation.** The Arm Car Gp and 1st Coy moved into 'The Forest Camp' - an old disused British Camp Site loc on the Polis Road about 2 miles North of Kitima. Work commenced in late Nov, building and resurfacing access roads, laying on water, electric power, sewage and drainage, erecting tented accommodation for the troops, dining, stores, etc and erecting permanent type camp cookhouses and wash-up annexes.

   a. HQ Coy moved into the Swedish Camp at Kitima also in late Nov whilst 1st Coy moved into the Mines Camp in Polis. Due to complete lack of any preparatory winterisation work by the previous occupants, a big programme of repair to buildings, replacement or repair of tentage, construction of hard surface access roads and hard standings for vehicles faced the Unit.

   b. A tribute must again be paid to the engg pl for the workmanlike manner in which this mammoth task was approached and completed. They had the whole hearted help of the pers of the various coy - and for a period of approx two weeks in Dec 1964 a R.E. Engr Section, provided through the good offices Comdr Cyprus, Rear HQ, gave invaluable assistance.

   c. Mid Nov to Mid Feb is the rainy season in the Paphos area and in our first week there an unbelievable 6 ins of rain fell was recorded. Due to the poor condition of buildings, tentage, lack of flood water drains etc., our troops suffered some hardships during these first two weeks in Paphos D, but by the end of Dec 64, conditions had been vastly improved, electric light, running water, fully equipped cookhouses with diesel ranges, DTLs, hard surface access roads and veh standings had been constructed in all camps, the Gp HQ building had been almost completely re-roofed, storm drains had also been dug so that flooding of the camp sites became only a memory.

21. **Ord, Armt and Amm**

   a. Due to lack of adequate storage and magazine accommodation, all 2nd Line and Res Amm was stored in the Amm Depot, Dhekelia SBA. Ord and Amm stores were built by engg pers in all the Coy Camps and a stone building in 1st Coy (Forest Camp) was rebuilt and strengthened as a Unit Magazine.

   b. In the prevailing very wet conditions, daily cleaning and frequent oiling of armt was a must and the excellent condition of weapons when examined by our Ord Section prior to repatriation bears witness to this attention and care.

22. **Catering.** The changeover from Supply Depot Dhekelia, to Episcopy in Dec 1965 was effected smoothly and without interruption. Rations still continued in supply on the same basis as before - one unpopular item did make its appearance on the fresh ration scale, frozen rabbit. Though acceptable to British and other tps, our men were NOT partial to this and alternative meats were provided in lieu insofar as Supply Depot Stocks allowed.
**RÚNDA**

33.

a. Hydra Cookers were again in use for three or four days in Paphos D until ord and engr pers had stripped down and reassembled our diesel ranges from Larnaca. The Swedish troops had used a dual purpose field/Camp petrol cooker in their installations and of course they removed these on their departure.

b. Because of the interruption to our Xmas catering caused by the rotation to Paphos D, the Cyprus District Catering Adviser, Major N. Last, arranged that Plum Puddings, Xmas Cakes for the Gp would be prepared and baked in the RASC bakery, Dhekelia, and in fact almost 300 lbs of cake and pudding were delivered to us prior to Xmas.

c. The most notable change in our chain of supply was the route over which our vwhs had to move. In Larnaca, the supply route to Dhekelia was on a broad, smooth tar-mac road. From Ktima to Episcopy supply vhes had to move on a narrow, swithback, mountaineous road, with dozens of hairpin bends and vertical drops of up to a thousand feet in many places. The drawing and issue of rations thus became a slow, lengthy process, with the emphasis all the time on driver safety and security. A small tribute may be paid to our drivers and supply pers who despite all difficulties of terrain and weather, always succeeded in collecting and delivering our supplies on time.

**Conclusion.** The month of Jan 1965 saw an improvement in the weather and this allowed the outstanding engineering works to be completed and for a complete overhaul of all canvas and tentage. Preparations for handover to the 4 Inf Gp and for repatriation of pers and eqpt occupied the remainder of the month.
Duties. Both in Larnaca and Ktima duties in HQ Coy Camp consisted of a Guard and Stand-to Party. The Guard was composed of 6 NCOs. It mounted at Sundown and dismounted at Reveille. It provided one Sentry at the main gate. The Stand-to Party consisted of 1 NCO and six men who mounted with the Guard and were on duty for 24 hours. They included one driver for the Stand-to vehicle. This party provided a flying sentry who patrolled the perimeter of the camp during the hours of darkness and kept contact with the main gate sentry so that the UN provision of double sentries was complied with. The members of the Guard and Stand-to party occupied the Guard tent and were allowed to sleep when not on sentry go, so that the practice of resting off after duty was not followed. The stand-to party were allowed to go about their normal duties during daylight hours but were not allowed to leave camp so that there was always a small armed party available for emergency use. This party was called upon once in Larnaca when they were taken out by Capt. Donnelly who was Orderly Officer after a nasty scene developed as a result of a traffic accident in which two Greek/Cyp Policemen were killed. The other vehicle involved was driven by a British Army driver. An angry crowd had gathered and but for the intervention of our party and the extrication of the British driver a serious incident might have ensued.

Arrangements were also made for one sec of the Cavalry Group armed cars to be on call for HQ Coy protection or any unusual eventuality. HQ Coy were also asked to be in a position to supply an ad hoc platoon if such was called for. Its capability of complying was tested from time to time. A Camp Orderly Sergt was also detailed daily.

The incidence of duty was NCOs 1 in 4 and men 1 in 6. NCOs and men were only excused regimental duties for very compelling reasons.

</table>

b. Accidents involving hosp or Ex-duty -

- 8 NCOs and 3 men
- Minor accidents 11 NCOs
c. The numbers quoted at a. above are below the average for a unit at home of similar strength and in addition most of the complaints were of a trivial nature. It can be said that the state of physical fitness of the Coy was at all times exceptionally high. Only in two cases of injuries caused by traffic accidents did the condition of individuals give cause for concern.

4. **Discipline.**

<table>
<thead>
<tr>
<th>Number of charges</th>
<th>5 NCOs</th>

<td>&quot; 10</td>
</tr>
<tr>
<td>C/O</td>
<td>Courtmartial</td>
<td>'NIL'</td>
<td></td>
</tr>
</tbody>
</table>

These figures reveal a high standard of discipline in the Coy. This state was attributable to a number of factors chief of which were:

a. Good leadership and example on the part of officers and senior NCOs and insistence on the highest standards.

b. The fostering of a good "group" spirit.

c. The org of outdoor sports and games and good welfare arrangements.

d. The careful selection of personnel for UN service.

5. **Sports**

The Coy was very successful in the competitions organised by Group HQ. Our team won in basket-ball, volley-ball, Inter pl volley-ball, and Gaelic football. The teams representing the Coy are given in Appendix 1 attached.

a. **Basket-ball**

- BSM Jackson
- C/S Gaynor
- Sgt Scaulon
- " Smart
- Cpl Kinsella
- Pte O'Carroll
- " Gunn
- " Rock

b. **Volley-ball**

- C/S Gaynor
- Sgt Cunningham
- Cpl McLoughlin
- " Kinsella
- " Phoenix
- Pte O'Carroll

c. "Q" Pl were winners of the Inter-Pl Volley-ball.
d. Gaelic Football.

Capt Blake,
  " Gallagher
BSM Jackson
C/S Gaynor
Sgt Cunningham
Cpl Crossan
  " Martagh
  " Kinsella

Cpl Ryan
  " McLaughlin
Pte O'Carroll
  " McNally
  " Gunn
  " McGleeanan
  " Egan

All the above teams were captained by Coy/Sergt Gaynor, Army Ordnance Corps to whom, together with Sergt/Major Jackson, a great deal of the credit for the success and enthusiasm for sports which existed in the Coy must go.

6. Welfare

a. An NCO's Mess and separate Men's Canteen were run in both Larnaca and Ktima. They were well furnished and supplied. Profits accruing were distributed in the form of free cartons of cigarettes at the end of the tour.

b. Films were shown twice per week to all ranks.

c. Two successful group concerts were organised. HQ Coy personnel participated.

d. Arrangements for the prompt distribution of newspapers and mail from home were made.

e. Indoor recreations such as card drives, darts competitions and question times were conducted within the coy.

f. Smokers and sing songs were run at which extras were supplied. Cigarettes and drinks presented by Irish firms were distributed.

g. During the hot summer weather every opportunity, consistent with operational efficiency, was given to all ranks to avail of the local swimming facilities.

h. Tours of the Holy Land and of the places on the island of tourist interest were organised.

a. HQ Coy occupied a site in Larnaca on 8/8/64 which was an evacuated chicken farm. In their four months of occupation they transformed this location into a very adequate coy location with hygienic cookhouse; bathhouse, latrines; comfortable billets; suitable offices; good playing field and basketball pitch. Some of the work involved was done by civilian contract but much of it was also done by the NCOs and men of the company and many of whom were at the same time (like signalers, drivers, cooks etc.) employed on other essential operational tasks. During this period the Coy worked with commendable zest and enthusiasm.

b. HQ Coy occupied the site at Ktima evacuated by the Swedish contingent on 8/12/64. It was found inadequate to our requirements in many respects. Up to the time of our leaving the site had been greatly improved by additions to cookhouse and bathing facilities, improved
latrine arrangements, creation of hard standing gravel surface, building of proper armoury, reorganisation of tentage and other smaller improvements. The zest and enthusiasm evident at Larnaca was again demonstrated.

8. Guard of Honour

On the occasion of the farewell visit of General Thimayya a Guard of Honour of 50 other ranks was supplied by HQ Coy and some elements of 'A' Coy. Commanded by Lt Mangan at 'A' Coy and trained and rehearsed by HQ Coy it evoked high praise from the General for its turn out and arms drill precision.

P.J. McGann

COMDT

(P.J. McGann)

O/C: HQ COY 3 INF GP
1. Communications were provided for each phase of the deployment in LARNACA District and each post occupied was provided with LINE communications, duplicated by RADIO.

The communications linking unit HQ with HQ UNFICYP were as follows:

- One Private Wire - Voice
- One Private Wire - Teleprinter.
- One VHF Radio Link - Voice - WS type C 43.
- One HF " " - Voice - WSC 11/R 210

The principal task confronting the signal pl during this period was the provision of communications between unit HQ and village patrols. The operating range was normally about 10 to 12 miles but on occasion patrols operated up to 25 miles from Unit HQ. The main comms difficulty during this time was the shortage of trained wireless operators. This shortage had a limiting effect on the number of patrols undertaken.

2. The redeployment of the unit into PAPHOS DISTRICT and its establishment there was completed without break in communications. A private telephone linked each Coy HQ with the unit signal centre while the three sub-unit locations ANAPDHIION, MANDRIA and STRAUKOMO were in excellent communication with unit HQ by means of a C 12, operating on the Group Control net. 'B' Coy at POLIS used a C 11/R 210 to communicate with Group HQ on a 24 hour basis.

The rear link communications were as follows -

- One Private Telephone Wire - Voice
- One VHF Radio link - Voice (WSC 43)
- One HF Radio Link - Voice (WSC 12)

Towards the end of the unit's tour of duty it was necessary to open another outpost at KOKKIA. This also joined the unit control net using a WS C 12.

3. LOGISTICAL SUPPORT.

During the entire tour of duty the resources of a REME workshops and a supply depot of RAOC were available to the unit. This support proved most valuable since the unit was not equipped to perform 2nd to 4th Echelon maintenance while the spare parts carried within the unit were NOT comprehensive enough to meet all requirements.
UNIT HISTORY - MP SECTION, 3 INF GROUP

1. The Military Police Section performed the usual Provost Duties, viz: Security of Group HQ, Town Patrols (Foot & Mobile), Security Escorts to visiting VIPs, Investigation of Traffic Accidents, Setting up of Static Speed Checks, Investigation of Offences against Military Law.

2. In the performance of these duties the Section worked in close co-operation with Royal Military Police, Australian UNFICYP Civil Police and the civil police of both Greek and Turkish communities and the Military Police of other contingents.

3. They set up road blocks, improvised the signing of Camp Areas at Larnaca, Ktima and Polis and route of movement of 3 Inf Gp to Paphos District, performed motorcycle escorts as required, carried out duties at airlift of 40 and 41 Bns at Nicosia during month of October 1964. Radio communication between Police Patrol Car and HQ MP Section maintained at all times.

(Signed) T.V. McGrath Capt
(T.V. McGrath)

MP OFFICER - 3 INF GP
1. **STANDARD OF FATIGUE:**

Generally speaking, this was good but still a tendency for the few to appear on the Strength of the Unit when it was obvious that they were bad risks either from health or psychological reasons.

2. **CLIMATIC CONDITIONS:**

When the Adv. Party arrived in July, the heat and humidity of the Island were great and when the Main Body arrived in August, it had somewhat become more intense. These were the conditions that prevailed into late September. From then the days still remained in the 70's until November when the heat dropped to 60° and in December some rain was experienced.

During our stay in the Larnaca District, all the Unit was housed except the Pln in Kophinou which was under Canvas but living conditions were good. On our move to Paphos District, all the troops went under Canvas. In a short space of time, living conditions were good.

3. **INCIDENCE OF DISEASE, SICKNESS AND HOSPITALISATION:**

The vast majority of our illnesses during the period was made up of:

a. Respiratory Conditions.

b. Pharyngitis and Tonsillitis.

These arose in the first few months due to dust and in the latter period due to coldness at night. We had some cases which were of influenzal nature. These lasted for three days with temps. in 103-4 region but were controlled by drugs.

Gastroentritis also raised its ugly head for a period. This could have been due to:

a. Climatic Conditions.

b. The use of water other than that from Dhokelia.

Few recurrence of attacks were noted. Malaria NOT found on this Island for some years.

4. **DRUGS, MEDICINE AND DRESSINGS:**

There was an adequate supply for all eventualities and if any special drugs were required, they were obtainable in one of the British Service Hospitals.

5. **The only difficulties experienced during our term of duty:**

a. Shortage of Medical Orderlies (NCOs.) - at least one more should be allotted to the list.

b. The Combined Irish Contingent should have its own Dental Officer as a lot of time was lost in sending cases to the different Hospitals and Dental Centres for treatment.
c. A Sanitation Squad should be attached to each unit as our staffing does not allow our taking this job over.

(1) Weekly Sick:
Weekly Sick averaged about 10-16 most of which consisted of injuries sustained during games.
Major Injuries Number 45 during the period.

(2) Hospital Admissions:

(a) R.M.H. Dhekelia - 32
- Potts + Rt. Ankle
- Fracture L. Radius
- Urinary Infection
- IVF Investigation
- Ingrown Toe Nails
- Dental Clearance
- Haematoma of Knee
- Abdominal Pain
- Eczema
- Sacro Iliac Strain.

(b) Princess Mary's R.M.F., Krotiri:
- Acute Back Strain
- Concussion
- Multiple Abrasions.

(c) Greek/Cypriot Hospital, Ktima:
- Concussion and Lacerations.

6. MEDICAL ASSISTANCE - OTHER CONTINGENTS:

a. Military - Mil.

b. Civilians:

In the early period of our stay in Larnaca, the Medical Officer visited many of the Turkish Villages to render Medical attention and, in some of the places, held an Ante-Natal Clinic. He was also responsible for the movement of ill patients to the Turkish Hospitals in Larnaca and Nicosia. Towards the end of the period in Larnaca, it was found possible to get the Turkish Doctor to come out and attend to the Medical wants of the villages.

When we arrived in Paphos District, we found that the Medical Officer again had to visit the Villages and, in one or two places, held an Ante-Natal Clinic and later got a Mid-Wife from the Turkish Hospital to take over in the Village. Again the responsibility of moving patients to Hospital fell on the Unit.

Blood was given to the Greek Hospital on three occasions in Maternity Cases.

D.J. Delaney
COMDT
(D.J. Delaney)

MO: 3 INF GP
During the period the following events were organised:

a. **Basketball**
   - Companies ran inter-platoon competitions.
   - Inter-company senior championship - HQ Coy won.
   - Inter-company junior championship - A Coy were champions.
   - Local teams were played.
   - The Group Engineers constructed an excellent hard-surface Basketball Court in LARNICO.

b. **Gaelic Football**
   - Inter-company League - Winners 'HQ' Coy.
   - Inter-company Junior Championships - 'I' Coy won.

b. **Volleyball**
   - Companies ran inter-platoon competitions.
   - Group inter-platoon championships - '3' Platoon won.
   - Group inter-company league - 'HQ' Coy won.
   - Group inter-company blitz - 'B' Coy won.
   - Group were defeated twice by the American Academy.
   - LARNICO. This team of schoolboys were very skilfull at this game.

c. **Soccer**
   - Inter-platoon competitions by companies.
   - Group inter-platoon competition - 'Q' Platoon won.
   - Inter-Coy Senior Championship - 'I' Coy won.
   - The Group team played two drawn matches against a very strong LARNICO selection (one of the leading Cypriot teams). They played and defeated many villages in LARNICO district. In KTIN, the Group team played the local 'PCP' team twice - winning one and losing one match. They were defeated by the local National Guard and Turkish community team.

   Conditions on the Island such as ground surface - size of grounds favoured the playing of soccer rather than Gaelic football. There was a constant demand by local soccer teams for matches against the Group team.

d. **Darts**
   - Company and Group competitions were held.

e. **Rings**
   - Coy competitions were held.

f. **Swimming**
   - Swimming parades were held daily from July to November.
   - These were very popular but with the cold weather of November the demand for these parades became less.
   - The swimming parades were held mainly at the "Blue Wave Cafe" in LARNICO.

g. **Inter-Coy Question Time**
   - Arm Car Group proved winners in this Competition.

h. **Group Concerts**
   - These were held for all ranks in September, October and November. They were very popular and 'A' Company deserve the Group's gratitude for their assistance in the conduct of these concerts.

i. **Films**
   - Film shows were held twice weekly in all companies. They were very popular and the Army Kinema Corporation at LARNICO provided excellent films throughout.
k. Rango: This was organised on a Company basis. It was very well supported especially in 'A' Company.

l. Bus Tours: Buses were available at a very cheap rate and tours were organised to allow the men to see the beauties of Cyprus.

D. Hurley

COMDT

(D. Hurley)

2IC: 3 INF GP
Welfare in the group was divided into two separate parts viz:

a. Canteen.

b. Sports, games, entertainment, film shows, tours, etc.

In the group the latter aspect of welfare was organised and controlled by the group 2IC Comdt D. Hurley who presided over a committee of officers and arranged sports fixtures etc. while the canteen was directed and controlled by the Group Welfare officer.

Canteen

Operation:

Due to the disposition of our companies and Armoured Car Group in the Larnaca District separate accounts were operated by each sub-unit in their respective locations. The sub-canteens were supplied from the main canteen stores at Group HQ in Larnaca. The same system operated after the group moved to Paphos District in Dec 64.

Sources of Supplies

Transferred from 40 Inf Bn.

On arrival at Camp 1, Transit Camp in Dhekelia S.B... in preparation for the arrival of the Main Body a canteen was set up in a N.E. F.P.I. tent with supplies to the value of £1200 transferred from the 40 Irish Bn. in Famagusta. These supplies consisted of beer, soft drinks, cigarettes and stationery which were sufficient to supply the Group until the various sub-units moved to their operational locations in Larnaca District a few days after their arrival.

Brought from Ireland with the Group

Apart from a consignment of cigarettes, stout and whiskey donated by firms to Welfare - NO supplied were brought out from Ireland.

Local Purchase:

The Cypriot Government had established in Nicosia a Supply Institute operated by their Dept. of Finance through which the following items could be obtained.

a. Tobacco, cigarettes.

b. Spirits, wine, beer, soft drinks.

c. Toilet requisites.

d. Stationery.

e. Biscuits, sweets, chocolate.

f. Cameras, watches.

Of the items listed above the following were duty free: tobacco, cigarettes, spirits, wine and beer the remainder it was found after a period could be purchased locally at cheaper rates.
EXPENDITURE FROM WELFARE FUNDS:

A sum of approx £500 was expended from the Group Welfare Fund mainly on:

- Concerts.
- Inter sub-unit and group sport fixtures.
- Entertainment of visiting teams.
- Christmas festivities.
- Films - hireage of.

The last item made heavy demands on the account as the cost per film from the Army Kinema Corporation was almost £8 per film for three nights.

WELFARE AND SPORTS EQUIPMENT

In ample supply was brought from Ireland with the exception of hurleys as the breakage was very high and insufficient were available to play a hurling league.

INDOOR ENTERTAINMENTS

a. Film Shows.

Each sub-unit had at least two film shows per week and although expensive on Welfare Funds were very worthwhile.

b. Concerts

1. Each company held a concert or quiz programme several times per month.

2. Three Group concerts were held and proved most entertaining and successful.

c. Games:

1. Each sub-unit held its own inter-platoon league in the various codes, which culminated in the Group championships which aroused tremendous interest.

2. Numerous soccer matches were organised by the various sub-units against civilian teams, both Greek and Turk, and also at Group level against the local league eleven in Larnaca.

Games with the local National Guard were also played and did much to promote goodwill.

DIY TRIPS

A total of approx. 400 all ranks participated in bus tours around Cyprus at a charge of six to eight shillings per head.

CAPT

(A.H. Donnelly)

WELFARE OFFICER: 3 INF GP
CHAPTER 7
UNIT HISTORY
1A COMPANY
3rd IRISH INFANTRY GROUP

On Friday 10th July 1964 a large collection of men came together in DUBLIN AT THE CURRAGH. They were from every imaginable unit in the CURRAGH CAMP, the EASTERN COMMAND and the WESTERN COMMAND. The task of welding this mixture into an Infantry Company was entrusted to Comdt E. Vaughan, 8th Battalion Dundalk. The Company 2IC was Capt P. McKevitt, 3rd Battalion Curragh and the Platoon Commanders were No. 1 Pl Lt J. Graham 10th Bn - No. 2 Pl Lt C. O Mongain Army Apprentice School No.3 Pl Lt J. Martin 6th Battalion and Lt S. Gray was the Support Pl Comdr.

The Coy Sgt was C/S J. Ryan 5th Bn and 'Q' affairs were looked after by CMS J. Connors 8th Battalion. The Eastern Command Contingent came together in Cathal Brugha Barracks and the representatives of other Commands formed up in their respective centres.

Normal training for an overseas unit was forestalled for the Eastern and Western units as they had to prepare for the Dublin visit of the PAKISTANI PRESIDENT AYUB KHAN. This having been overcome on the 16-7-64 documentation and medical processing went full steam ahead. The Advance Party flew out to CYPRUS on the 20th and the same day the full Company came together on the Curragh. Before they departed for the Curragh the Western and Eastern Command Contingents were inspected by their respective Command O/Cs.

With the Company fully formed up on the Curragh full time overseas training got under way. To prepare ourselves for the difficult task ahead the training included range practices for all weapons, Cordons, Searches, Road Blocks, Riot control, Patrols, Minor Tactics, films and lectures at all Pl and Coy level. The Coy was introduced to the Group O/C on 23rd July when he addressed us on the square at Connolly Bks. We were also making preparations for the Taoiseach's Parade as well as undergoing Battle Immobilisations and engaging in numerous night patrols at Pl level.

On Wed 29th after having attended Mass the Group paraded for the Taoiseach. Relatives and friends attended the Ceremony. That evening all Officers were received by t-Uachtarain at t-Uachtarain, Dublin. Over the August week end the Coy went on leave until 1200 hrs on August Monday when we commenced loading the trucks for the move to Dublin.

On Tuesday 4th August Nos 1, 2 and 3 Pls plus Coy HQ departed from Dublin Airport on board Globemasters of the U.S. Airforce. The Chief of Staff and the Adjutant General were at the Airport to see everyone off. The flight to CYPRUS was uneventful and the Coy arrived in NICOSIA Airport at 2200 to be met there by Capt McKevitt the O/C of the Coy's advance party. Buses were laid on to take the Coy to the Transit Camp at DHEKELIA Base in the LARNACA DISTRICT.

The Coy settled into the transit camp quickly not knowing what the future had in store, as we heard hourly reports of heavy fighting in the North of the island. We were to take over the North Larnaca area from 1st Bn Royal Inniskilling Fusiliers Regiment on Saturday 8th August. In the camp all activity was geared to prepare the Coy for the take over. All Pl Commanders were brought on orientation patrols of the villages with the Coy Commander and Major B. Smith of the Inniskillings.

It was decided that No 1 Pl would move into LARNACA first and take over the Coy HQ at the Turkish School - Hamid Bey Street.No 2 Pl would take over the Green Line area - North Larnaca and No.3 Pl a patrol location known as "The Hiring". Support Pl would move into a location at Coy HQ known as the "Unfinished House". And so all was prepared to swing into action and take over the entire area at 0900 hrs on Saturday the 8th of August.
On Thursday evening Lt Graham and No 1 Pl moved into the school to familiarise themselves with the duties there. They provided the guard at that location on Fri night. On Friday Lt Mangan and the Section Comdrs of No 2 Pl went to recce the Green Line area. This being done all was ready for the Ceremonial take over on Saturday morning, the 8th at 0900 hrs. Pipe Band attended from 40th Battalion. No 1 Pl provided !:1 Coy take over party. Lt 0900 hrs on the dot Major D. Russell 0/0 'B' Coy Royal Inniskillings handed over the duties to Comdt E. Vaughan 0/0 !:1 Coy 3rd Irish Infantry Group. Then to the strains of "Fare thee well Enniskillen" the "Skins" marched out the gate of the school to the cheers of the remainder of !:1 Coy who were drawn up on each side of the gateway to the school.

1:1 COY OPERATIONAL

With the "Skins" safely out of the way !:1 Coy swung into action to pacify the North Larnaca area. Lt S. Gray took over as Duty Officer. Both sides tried to take advantage of the change over to consolidate their positions and gain the upperhand. As a result there were hourly reports of sandbagging and armed activity but nothing of a serious nature. A definite air of tension was building up due to fighting in the North of the island. All personnel had been confined to Barracks due to the same fighting. Lt Martin on patrol to the villages reported all quiet. News of Turkish air strikes in the North of the island had heightened the tension.

On Sunday a cease fire was declared in the North but that did nothing to lessen the tension in Larnaca where Turk still faced Greek across the Green Line patrolled by No 2 Platoon. On various occasions shots were reported but these proved to be all accidental.

On 10th August the Coy had its first taste of trouble when the Greek Cyps fired two bursts of SMG right across the Coy area. Coy Commander protested with Greek Police and warned that if fired upon the UN would fire back. Greek Cyps immediately climbed down and promised nothing of the sort would happen again. That evening the Company Commander had recourse to protest again when Lt Mangan reported that the Greek Cyps were pointing a weapon at his position on the Green Line. As a result of the shooting incident 3 Policemen were dismissed from the Force.

For a week or so from the 10th August there were numerous reports of trenches being dug in the Greek Cyp quarter of Larnaca. All of these positions turned out to be air raid shelters as the people were very "shook" by the Turkish air raids in the North of the Island.

During the period Lt Martin and No 3 Pln were engaged in patrolling the various villages in the Coy area. They were able to report all quiet but that the atmosphere was still fairly tense. Both sides, depending on their strength in each particular area made small shows of provocation to the other. However both Turks and Greeks seemed anxious to avoid any serious outbreaks of violence and the presence of the patrols deterred them further.

All through this rather hectic period (month of August) Coy routine was not neglected. C/S Ryan organised a swim parade every day which proceeded under one of the Pln Comds to the Blue Wave Cafe on the main Fmagausta Road. This was a location that had been secured for swimming parades. At nighttime a wide variety of activities was organised. Quizes, Dart, Ring competitions, sing songs both organised and impromptu and every night when there was nothing else the halls of Coy HQ rang to shouts of "Clickety Click", "Kellys Eye" and best of all "Check" as Bingo got under way.

During this period quiet a bit of training was done, where duties permitted of course. This training was of necessity confined to the immediate Coy area and included such subjects as Radio Voice Procedure, Weapons Training with all Infantry weapons, Rifle, Bren, 81 mm, 84 mm and MMG. Lectures on Tactics the general situation on the island, First Aid and Helicopter Drills.
By the end of August the Plns were well settled to their locations and everybody was fully "au fait" with their allotted tasks. These consisted of vet escorts, workers escorts and patrols to ensure the safety of farmers working in fields near rival communities. The Green Line was patrolled day and night by foot patrols who kept a constant watch for any provocation by either side. This task was very well handled by all personnel engaged on it. At the start the Cyp civilians in the Green Line area were hostile to the patrols but as time went on the situation improved and they were welcomed by the civilians everywhere. Before long the patrols were on the best of terms with the populace both Gk and Tck. In fact they had to decline many invitations to partake of very lavish hospitality. In the villages the patrols encountered the same friendly reception and it was a common sight to see the patrol vehicles coming back to base laden with fruit of all sorts. As well as operational patrol reports Lts Martin, Grey were well able to report on the "Kebab" situation in the various villages throughout the area.

Besides taking over the Turkish school from the Inniskillings there were various personalities handed over as well. First of these was the "Char Wallah" who was a Pakistani trader who ran a dry canteen to cater for those who wanted coffee and hamburgers. He ingratiated himself with the Coy commander who by ensuring that he was well supplied with coffee, free of charge at all times during the day. Indeed the 2IC and the Pl commanders also benefited from "charlies" as he was affectionately called, concern for his "Sahib" Charlie was a most popular addition to the camp as he kept all and sundry laughing with his humorous jokes and way of expressing himself. He was able supported by his brother "Charlie No 2". Due to his trading system the Coy personnel had not only their Army, Rifle and Laundry numbers to remember but also their Char Wallahs number. Consequently between the CharWallahs and Bingo an accounting machine was badly needed in the Coy.

The second character we took over was "Washy Wash". He was a Turkish washerman who had the gift of presence. He was everywhere looking for washing and some people swear they heard his frantic calls for "Washy Wash" in the hiring and Coy HQ at the same time.

At 2040 hrs on the 1st Sept the two sentries at Coy HQ, Pte Meade, Hogan No 2 Pl reported 1 round of tracer hitting the ground beside them. This is the nearest anyone had come to being fired upon. Shot came from one of the Gk posts near Coy HQ and so a strong protest was lodged with them.

By this stage the village patrols had been out every day assessing the situation in the villages and as a result of this Kollia, Arses Perganos were listed as potential trouble spots. This assessment was very accurate as on Sat 5th Sept at midnight a report came into the Duty Officer Lt Martin that a big flare up took place at Arses. The Coy Comdr immediately organised a strong patrol with Lts Gray and Graham in attendance. They left at midnight and headed for Arses with an APC, a Landrover and an Armoured Car. They arrived there at 0030 hrs after negotiating a heavily armed road block at Kollia. The fighting ceased when the patrol arrived and the two sides agreed to a cease fire. The incident was started when some young Turks flung a thunder flash into the Greek School.

After the battle of Arses patrols were permanently engaged in that town. On Mon 7th Sept Lt Mangan reported that the Gk National Guard were firing range practices on a bluff outside Arses with Bazookas to intimidate the Turk villagers. The situation remained very tense for the next few days but eventually it improved and all was quiet again.

During the month of Sept a rash of reports about aircraft and low loaders appeared. Indeed Sept was definitely the month of the low loader and aircraft. The reason why low loaders were so important was because two Ferret/Car's had been stolen in Famagusta Docks belonging to the UN. A static post CP Lulu was established by No 2 Pl on the main Nicosia Larnaca Road to observe all movements of transport. In spite of some very detailed reports on low loaders of all descriptions and nationality no UN ferries were soon.

Aircraft were also the subject of much activity. However most of these reported were of the RFA or civilian airlines. In fact we only had one report of a Turkish fighter and that was on 20th Sept and it passed over the Coy area at about 1000 ft reported by Cpl Mobre No 1 Pl.
In spite of the fact that the Coy members were very busy patrolling and reporting low leaders and aircraft they still had some leisure time at their disposal. C/S Lynn organised a swimming parade every day from 1330 hrs to 2500 hrs. This gave nearly everybody a chance to perfect a run at some stage. As a result there were some very negroid looking troops around 'A' Coy area.

In fact some of the lines were so good that we had a few cases of mistaken identity on one occasion. Our Keating from Sp Pln was cleared from the Coy lines by the Coy QM Sqr who was fully sure Keating was a trespassing Turk. Twice a week the Coy had a film show in the Dining Hall. This was shown by the C/S. All personnel were delighted to see such graceful creatures as Sophia Loren and Gina Lollobrigida brought into the astute setting of the bullet seared Turkish school Larnaca. Bingo was still going strong with large sums being won and lost every night. A new visitor had arrived at the gaming tables in Sept as the Char Wallahs eager voice was heard checking frequently. 'A' Coy Darts Championship was organised and specially run off - winner was Pte Keyes of No 3 Pln with Pte Connolly, Sp Pln runner up several trips were organised to visit the 40th Battn in Famagusta and these proved most popular social outings. When the 7-a-side Soccer League got under way everybody took part in each game on the sideline or on the field. Each Pln was most enthusiastically supported by Pln members and some of the battles that took place would have left the Gk and Tk fighters green with envy. On the 11th Sept the first of the organised bus tours left the Coy for the Troodos mountains and Nicosia. This proved a very welcome opportunity of seeing some of the island and it was availed of by a large number of the Coy. In fact it was so popular that there were three separate trips in that area and some further ones to Salamis Cape Andreas and Ayrenia.

One day in Sept 'A' Coy started to hit the headlines not for peacekeeping or anything like that but for there great archaeological discoveries. While a grease trap was being dug an early Christian grave was uncovered fortunately there was nothing of value in it but nevertheless we had all sorts of knowledgeable boffins from Nicosia pottering around it for a day or so before it was closed up and so 'ended 'A' Coy's contribution to the historical wealth of Cyprus.

On the sports front some of the competitions were coming to a close. In the Volleyball final No 2 Pln defeated No 3 after a most exciting tussle. No 2 Pln were eventually defeated in the Gp Semi Final by 'C' Pl of Gp Hqrs. Another item which aroused tremendous enthusiasm was the inter Pln Quiz. This was organised by C/S Ryan and held in the Dining Hall. It brought forth some very interesting items of general knowledge - for example an atomic bomb exploded in Nicosia some time or other according to Sgt Grimes No 3 Pln. With some excellent quizzing No 3 Pln won the competition beating Gp Hqrs in the final.

On the 17th Sept 'A' Coy organised a Concert for the Group with performers from both 'HQ' Coy and 'B' Coy by all accounts it was a big success. 'A' Coy supplied the bulk of the entertainment in the persons of Lt Grey, Mangan, Martin Cpl Carey and Ptes. O'Shaughnessy, McDermott and Belchunty about 200 people attended and were served an excellent supper by Cpl McCarthy and his staff.

During the month of Sept Mr. Fleming of the BBC paid the Coy a visit and was brought around the Coy area by the Coy Comdr. He seemed to be suitably impressed with what he saw and a subsequent article in the Irish Times proved that he was.
At the end of the month we had the final of the Coy Soccer 7 a side Championships. A very exciting game was won by Sp Pln who had a very hard job defeating a strong No 3 Pln side. They eventually reached the final of the Gp Competition but were unlucky to fall to a strong Gp HCrs side.

Then came one of the most enjoyable parts for our training. Helicopter Drills the whole Coy managed to safely embus - debus from a Helicopter and this having been mastered all got a brief orientation flight over Larnaca. Needless to say we were all delighted to get this opportunity and to get the much reported U.I.D. Aircrafts view of the place.

We entered the month of October with the temperature still around the 90° mark. The earth was so bare a thick white film of dust lay on everything and in truth the whole Coy looked like a contingent of Horel's Africa Korps. This month was to see the height of the Economic warfare between the Gks and Tks. All patrols were working full time solving fuel or oil shortages and many other economic problems. Prominent among these, was the famous Water Pump at the village of Goshi. This became such a problem getting spare parts for the pump that all patrol Commanders were constantly having nightmares about the same pump. The water pump shortage was further complicated when some Gk irregular fighters blew up two water pumps at the Turkish village of Ferganes. This was investigated by the Coy and the Australian Police with the usual negative results. In October we got the first consignment of Red Crescent supplies from Larnaca. These supplies had to be collected in Famagusta and then escorted out to the various villages in the Nth Larnaca area. On the 27th Oct the Gk Cypriots celebrated their C1.I day with a big parade in Larnaca. Everything passed off quietly except for a road block set up on the main Larnaca-Famagusta road. It was set up by the NG to prevent Gk workers from going to work in the Dhokelia Base area. It was not long in operation when it was removed after 'AI' Coy patrol had visited the scene of the block. Beside these highlights of the month we were constantly providing escorts for the workers, Vets, farming parties and numerous other activities.

On the 5th of October the Coy provided the first issue of their weekly magazine the Alpha Album. This ran to about 6 pages full of cartoons, poems and humorous articles about Coy life. The staff was Lt Mangan - Editor, Lt Martin - Sports Editor G/S Ryan - Sub-Editor Pte Brady - Cartoonist and last but not least Sgt J. Graham Army Medical Corps was the Typist. This Bulletin was produced Stencils which were run off in the CEPO Offices in the British Base in Dhokelia. Highlight of the month was the Road Race run over 4 miles from the Coy HQ to the Blue Wave Cafe. It was stewarded in conjunction with the Gk Police. The race was won by Cpl J. Keating (Coy HQrs) second was Cpl Milo Kelly who had a 5 minute handicap and third was Pte 49 Murphy. The team prize was won by No 2 Pln who secured 5th, 6th, 8th and 10th places with Cpl McCabe, Pte Stickes, Cpl McKivergan and Cpl Dooley finishing in that order. In October the first tours to the Holy Land left Larnaca. These tours were departing every week up to the 22nd of November. In all about 60% of the Coy visited the Holy Land. In fact the demand was so great it was arranged to run another trip in January, 1965.

The remainder of our time in Larnaca was spent in the routine duties of patrolling and escorting besides the occasional isolated burst of firing which had to be investigated. We had only one serious incident and that was in the village of Kellia. The Tks there opened fire on a Gk Police patrol which did not return the fire. Fortunately a patrol under Lt Graham was just approaching the village at the time and so we were able to nip a very nasty incident in the bud. Towards the end of November we got word that we were to move to the P.A.F.N.C.S ZONE in the Western part of the island.

RÜNDÁ
The first of the Coy to move out were No.3 Pln under Lt Martin. They left Larnaca on the 1st Dec. Comd Vaughan and Lt Martin had already done a recce of the area on the 29th and 30th Nov so that the Pln were well acquainted with the problems they would face. The prospective camp site was on the out skirts of KTMA, consequently they had their work out to prepare the place for the main body due to arrive on Dec 7th. They set to with a will and made a fine job of getting the Camp site into prime condition for the Main Body. The rest of the coy moved into the camp on the 7th and the worst rain storm experienced in PAPHOS for thirty years. Nothing daunted the members of the coy settled in and worked really hard to transform the into a really fine military camp.

On the 7th the first sub unit of the coy became operational when No.2 Platoon moved into the town of PAPHOS to take over the GREEN LINE area from the SWEDES. This involved manning three separate outposts plus the Platoon HQ. These outposts were stationed at all approaches to the Turkish sector and they had to control all movement in and out of the area. The Platoon took over these outposts formally. A guard was mounted at each post by Lt MANGAN and then they marched into the post while the SWEDISH sentry presented arms. The next sub unit to become operational was No.3 Platoon who took over the two outposts in the villages of ST.VRCKOMO and MINDRI. The former was about 16 miles from Coy HQ up in the mountains and the latter was about 8 miles away in the main KTMA-LIMASSOL road. In ST.VRCKOMO the duties involved two UN checkpoints, one at each end of the village and then patrols in the village at night. The remaining two plas were involved working in the Camp and providing guards for it. They also carried out the village patrols and such escorts as were required.

Christmas was now approaching and all wore intent on making the camp as snug as possible for the Holy Season. This Feast was celebrated as well as duties permitted and all wore agreed that it was a most enjoyable one with NO effort spared to make it so. In fact some of the Coy say that it was the most enjoyable Christmas they ever had.

After Christmas, all thoughts were centred on the rotation of the Group to IRELAND. However on Jan 9 we had a bit of trouble to contend with in KOUKI; which temporarily removed thoughts of repatriation from our minds. It started when there was an explosion in this mixed village and then both sides opened up on each other with rifles and automatic weapons. Lt GRAHAM led a patrol to the village and the whole affair simmered down. However, it was necessary to maintain a standing patrol in the village for some time afterwards.

After the little affray in KOUKI; the big event was the departure of the Advance Party. They left us on Jan 13, flying out on an Aer Lingus Boeing 707. While we were sorry to see them go as it meant the break up of a really happy coy we still wished them all the best. When they had departed we had no time to really feel the pangs of parting as we were too busy settling in the advance party of the 4 Inf Gp.

Finally the day dawned at the end of Jan when the Coy flew out from NICOSI bound for the green shores of IRELAND. In no time at all we got our first glimpse of the land we hadn't seen for six long months and everybody just drank in every detail. Then our big moment arrived and we were home with our families again. Although we were overjoyed to be home again, there were tins when each one of us regretted that we had to break from that very fine bunch of soldiers who formed ALPHA COY of the 3 IRISH Inf Gp, the finest bunch of lads that ever soldiered on the sunny but strife torn land of CYPRUS.

E. Vaughan
COMDT
(E. Vaughan)
On Monday 20th July, 1964 "B" Company of 3rd Inf Group formed up in Fermoy Barracks, Co. Cork. It consisted of Coy HQrs and two Rifle platoons from 1st Brigade (Cork) and one Rifle Platoon and Support Platoon from 3rd Brigade (Limerick and Clermel). The Company Commander was CIt T.F. Driver (4th Inf Bn) and the other Officers of the Company were Capt W.J. Fitzgerald (4th Bn) 2IC and Platoon Commanders Lt K.P. Griffin (11th Bn) - No 4 Platoon Lt T.F. Drohan (12th Bn) - Support Platoon Lt E.F. Hearns (4th Bn) - No 5 Platoon and Lt P.M. Daly (22nd Bn) - No 6 Platoon.

From 20th July to 24th July a hectic few days were spent in Fermoy and Kilworth getting the Company into shape. There was Range Practices fired, Kit issued, documentation completed and a number of exercises carried out. Somehow everything was completed by Friday evening 24th and the Company personnel went to their stations to avail of a well earned long week-end.

By 0900 on Monday 27th July the Company had again assembled in Collins Barracks, Cork where a farewell address was given by the Lord Mayor of Cork Ald. McCarthy and after a march past at which the Lord Mayor took the salute the Company boarded trucks and set out for Curragh Training Camp, where the 3rd Inf Group was scheduled to complete its training for Cyprus.

On Tuesday 28th July "B" Company was issued with Tropical Kit and on Wednesday 29th the 3rd Inf Group paraded and was inspected by An Taoiseach after which an address was delivered by An t-Uachtarán. That morning the Officers of "B" Company along with the other Officers of the Group were introduced to An t-Uachtarán at Aras an Uachtarán.

Training continued on Thursday 30th July and on that day also the Group was briefed by the Director of Cavalry and by a GHQ Staff Officer. In the evening a lecture to the Group was given by Fr. Brophy C.F.

On Friday 31st July the Company was paid by CIt Driver after which a long week-end was given to enable the final farewells to be given and last minute preparations to be completed by all the personnel of "B" Company.

First thing on Tuesday morning all "B" Company Kit was sent to Dublin and early on Wednesday morning the Company took off in Globemaster aircraft en route to Nicosia. After a flight lasting 13 hours which included a 2½ hours touch down at Naples for re-fuelling, the aircraft carrying "B" Company landed at Nicosia Airport, Cyprus. No time was lost at Nicosia and the Company boarded transport and was taken to the Transit Camp at Dhokelia S.B.. where a welcome meal and sleep were availed of by everybody.

Thursday 6th August was "B" Company's first full day in Cyprus. In the sweltering heat, more tropical kit was issued, the Company was told the area in which it was to operate - South Carnaca, and advance parties were sent to the location of Company HQ in the Turkish Quarter of Larnaca and also to the small Turkish village of Kofinou, eighteen miles South West of Larnaca. The next day the remainder of the Company moved from the Transit Camp and everything was ready for the take-over of duties.

At 0900 on Saturday August, 8th, 1964 "B" Company took over duties from Royal Enniskillens at a very impressive and historical ceremonial take-over. History was definitely made as it was the first occasion on which a British Unit had handed over duties to an Irish Unit on Foreign Service.

The Company was not given much time to get acquainted with the area or get properly settled in, as the next day August, 9th was to prove the next decisive and tense day of the Cyprus struggle to date. On that day the Turkish Air Force bombed Greek key positions in Mansura in the
North of the Island and an ultimatum was issued by the Greek Cypriots that unless the bombing ceased by 1800 hrs all Turkish Cypriot communities on the island would be attacked. "B" Company was immediately alerted and defensive positions were adopted. A very tense night was spent but fortunately the expected attack did not take place and by morning the tension had eased.

After the tension of the 9th, the situation gradually returned to normal and by 16th everything was running smoothly. On that day the Company held its first of many swimming parades and the troops got there first Mediterranean swim. On 17th the Irish contingent Commander Col Quinn arrived from Nicosia and visited all Company locations. The following week saw the start of a very busy but quite enjoyable "Carob Campaign" and escorts were provided to Turkish Cypriots in all parts of "B" Company area to enable them to harvest their Carob crops.

The first visit from the Commander of UN Force in Cyprus General Thymayyia was on the 28th August. He visited all posts in "B" Company Area.

On 29th September the first change around of Platoons took place. No 6 Platoon and Support Platoon which had been at Kophinou and Jylos Theoderos changed to Larnaca and No 4 Platoon moved to Kophinou.

September was greeted by feverish activity - polishing, scrubbing and rehearsing in preparation for the first CO's Inspection which was held on 3rd September. On the 11th of that month we were treated to our first rain since arriving on the island. On 12th some members of "B" Company, went on a bus tour of the island to Limassol, Troodos and Nicosia. "B" Company was well represented on the Group Soccer Team which played a drawn game with the Greeks at Larnaca at Larnaca Stadium on the 20th. The 25th brought another change around of Platoons - No 4 Platoon changing from Kophinou to Larnaca and No 5 Platoon from Larnaca to Kophinou. On 28th all members of "B" Company were given very useful and quite enjoyable instruction on Helicopter embarking and disembarking drills and on 29th the Company was treated to a film show entitled "The Beauties of Cyprus" by the Greeks of Larnaca.

On 1st October "B" Company was again inspected by Group OC. The first contingent left "B" Company to visit the Holy Land on 12th October, and on 14th "B" Company was augmented by the arrival of an extra platoon from Ireland, which came out with 41st Bn, commanded by Lieut E. Draper. Frigadier Wilson Chief of Staff, visited "B" Company on 23rd, and on 27th the Platoons changed around again.

On November 5th Col Sullivan who replaced Col Quinn as Contingent Commander paid his first visit to "B" Company. On 9th "B" Company Gaelic Football team was beaten by HQ Coy in the Group Football Championship. On 12th some members of "B" Coy played on a 3rd Inf Group/41st Bn Rugby selection which beat 9th Signals Regiment (British) at 4 mile point. On 16th, the Platoons changed around again and on the 19th a very high wind with heavy rain blow down all tентage at Kophinou and the members of the Company at Kophinou spent a miserable night. The following morning all personnel were withdrawn from Kophinou except an administrative Staff and the duties from then on were mounted from Larnaca. On 27th of November the rumour that the 3rd Inf Group were to move to Paphos district was confirmed and preparations for the move were begun. On 29th Cdt Driver and Lt Daly went to Polis to recce the Company area and returned on 30th November.

On December 2nd Lt Daly with No 6 Platoon moved from Larnaca to Polis and commenced erection of the Company Camp at Limni Mines. At Larnaca all stores were packed and by 0900 hrs on 7th December "B" Company had taken over duties in Polis. By 16th December the last of "B" Company had arrived and work was begun in earnest in the new area.

On 18th December Group OC paid visit to "B" Company camp.
now all preparations were under way for Christmas. On 24th December Lt/Col McDonald paid his Christmas visit to Polis and "B" Company outpost at Anachiu. The Company spent a very enjoyable Christmas Day with Mass at 1600 hrs and Dinner at 1900 hrs.

As soon as Christmas was over the main thought in everybody's mind was of going home. Various rumours were circulating about the date of departure, means of travelling home etc. etc.

By 6th January the definite date of departure was known and preparations were begun in earnest for the move back to Ireland.

On 26th January "B" Company 3rd Inf Group boarded aircraft at Nicosia and 5 hours later, the moment for which we were all waiting had arrived and we were back in Ireland again.

O/C B COY: 3 INF GP
CHAPTER 9

UNIT HISTORY - LMD CAR GROUP, 3/56 INF GROUP

1. Operational Aspect.
   a. Strength:
      - Officers .................. 5
      - Sqn Sgt. .................. 2
      - Sqn Cpl. .................. 13
      - Sgts ..................... 7
      - Cpl's ..................... 9
      - Tpr's ..................... 15
      Total ...................... 38 All Ranks.

   b. Organisational Breakdown.
      Gp HQ and 4 Secs.

      1. Gp HQ
         - Comdt .................. 0.5157 Capt P. Lavelle.
         - 2IC ..................... 0.7356 Capt E.J. Sheehy.
         - T.O ..................... 0.7448 Capt P. Lene.
         - Sqn Sgt .................. 81916 S/S Gloeson, W.
         - Sqn QMS .................. 435213 CQMS Millen, J.

      2. Comd No 1 Sec ............. 0.7880 Lt M. Mullooly.
      3. Comd No 2 Sec ............. 0.7880 Lt M. Mullooly.
      4. Comd No 3 Sec ............. 0.8047 2/Lt McCarley, P.
      5. Comd No 4 Sec ............. 0.7880 Lt M. Mullooly.

   c. Date of Departure from Ireland.

   d. Date of Arrival in Cyprus.
      22 July 1964 arrived Nicosia Airport - departed to Wolfe Tones Camp, Famagusta attached 40th Bn for duration of trg.

   e. Training on Panhard LML.
      This was conducted by pers of the Lmd Car Gp 40th Bn under two headings.
      1. Training of crew members in their respective duties as Comdrs, drivers and gunners.
      2. Training of Technical Staff.

   f. Arrival of GP's LPV'S from France.
      Eight LPV's with ancillary equipment were unloaded at Famagusta Port on 16th Aug 1964. From the 17th to 19th Aug the vehicles were outfitted and road tested.

   g. Move to Larnaca District.
      This move was completed on 21st Aug 1964.

   h. Operational Duties in Larnaca District.
      The group was disposed as under:
      1. HQ and three secs loc Larnaca town.
         a. One sec in sp Coy carrying out worker escorts to SBA and Troulli Mines, also routine patrols to villages.
         b. One sec in sup B Coy carrying out routine patrols and harvesting escort.

RUNDA
c. One sec in res responsible for local security, also provided one night duty to 3 Inf HQ as part of immediate stand - to element.

2. On Sec 3 Kophinou, providing local security, also carried routine cats and harvesting records.

3. Secs rotated every two weeks.

j. Accad.

Secs in Larnaca were accommodated in villas adjacent to the Arm Car Compound. The Sec loc in Kophinou was accommodated under canvas.

k. Fitter Course in Bourges, France.

On 29th Aug 1964 the T.O. Capt Lane and his staff of four fitters departed Nicosia Airport for Bourges in France to undergo a course of advanced maintenance of the Panhard JML. This party rejoined the unit on 4th Oct 1964.

1. Firing Weapons as Fitted to Panhard JML.

1. MG/L. All pers of the gp were exercised in firing this weapon at Polomidhia classification ranges near Limassol on various dates during July and August 1964.

2. C.S. 60 mm Mor. At Lofkoniko Field Firing Range all pers were exercised in firing the 60 mm mortar on 27th and 28th Oct 1964.

3. The weapons performed satisfactorily and their accuracy was most convincing.

m. Training Arm Car Gp pers 41st BN.

In accordance with instructions issued by COMIRCON this trg commenced on 27 Sept 1964 and was successfully completed. Fitter trg on an equal exchange basis of trained and untrained pers between the two groups was carried out up to the 1st Dec 1964.

n. Visit of Director of Cavalry.

The Director of Cavalry arrived in Cyprus on 15th Oct '64. In the course of his visit he accompanied some mixed patrols operating in the Larnaca District. He discussed problems concerning maintenance, technical stores, accountancy and also the requirements of additional spares and equipment.

o. Visit of Panhards representative.

Mr Joan Lexis of the Panhard firm visited the island between 7th Nov and 20th Nov '64. He carried a detailed inspection of the LFV's and his advice concerning the mechanical handling of the vehicles proved invaluable.

P. Move to Paphos District.

Between 1st Dec and 9th Dec '64 the group phased into the Paphos district becoming operational as under.

1. HQ and three secs loc Forest Camp, Ktima.
   a. One sec on sp 1 coy on pats.
   b. One sec in sup HQ Coy providing internal security.
   c. One sec in res.

2. One sec loc Polis in sp B Coy on pats.

q. Miscellaneoua.

1. Capt E. Sheehy assumes duties of Ops Offr 3 Inf Gp from 24th Oct '64 to 5th Nov '64.

2. He assumes one duties of Joint Patrol Officer in the Paphos district on 9th Dec '64 and carried out the duties of this appointment
2. **Recreational Activities.**

   **a. Outdoor.**
   Although in comparison with the inf coys, the strength of the gp is quite small, nevertheless it took part in all the various competitions at unit level. Teams were entered in Gaelic football, Soccer, volleyball and basketball, in all of which they acquitted themselves creditably. Inter sec volleyball competitions kept a healthy competitive spirit going to the end.

   **b. Indoor.**
   Card drives, darts and rings competitions and question times were organised within the group. In the inter coy question time contest the 1rmd Car Gp team had an easy win, outanswering the coy teams.

3. **Discipline and Morale.**

   **a. Discipline.** The discipline amongst all ranks was of the highest standard throughout the duration of the mission. Except for three indiscretions of a minor nature the group lays claim to a trouble free record.

   **b. Morale.** During the Cyprus mission the morale of the 1rmd Car Gp was of the highest order. This can be attributed to a number of factors.

   (1) The group participated and acquitted themselves well in all sporting activities organised at 3 Inf Gp level. All personnel took an active interest, creating a team spirit which was obvious in all aspects of work and duty.

   (2) The opening of the cav canteen was a source of pride to the gp. The efficiency with which it was run and the good behaviour was a tribute to all concerned.

   (3) Nearly 40% of the 1rmd Car Gp availed of the opportunity to travel on the organised tours of the Holy Land and Lebanon. These interesting trips were a very welcome break from the monotonous day to day routine.

   (4) Pride in their newly acquired equipment - the Panhard Armoured Car the only modern .FV in the UN force on the island contributed in no small way to boosting the morale of the unit. The remarkable accuracy of its armament as proved on firing exercises, coupled with the excellence of its communication systems were a source of pride to all ranks. The added fact that our possession of these .FV's was a source of envy to other Cavalry contingents was a contributory morale booster.

</table>

**Table Note:**
- RUND'A - This appears to be a misspelling or a unique identifier that is not clearly defined within the context of the document.
- The table data appears to be a list of personnel with their service numbers, ranks, names, and parent units.
- The service numbers range from 80000 to 90000, indicating a possible military or administrative context.
- The parents units include various ranks and titles, such as "Inf Bn," "Mot Sqn," and "Arm Sqn."

RÚNDA
My Dear Tom,

A short letter to thank you very much for a delightful visit to 3 Inf Group yesterday afternoon. It was a real tonic to me to see your fine soldiers, and to be given such a good opportunity of talking to them and seeing their fine morale.

It was a particular compliment to me to have been offered such a magnificent guard of honour on arrival. It was a real pleasure to see soldiers of such splendid bearing and such obviously fine representatives both of their country and the United Nations.

As a new-comer I was most struck with all that has been and is being done in Larnaca to implement United Nations' policy. Altogether the afternoon was most encouraging and instructive for me, and I am most grateful to you for laying on my programme and for making the whole thing possible.

With best wishes and once again many thanks for such a delightful and all too short afternoon.

Yours sincerely,

J. Wilson.

Lieutenant Colonel T.J. McDonald,
Commanding District Larnaca,
CYPRUS.
Dear Col McDonald,

I write to express my deepest gratitude for the great assistance which you gave us on Friday, when our town water supply broke down and water had to be taken to a great number of houses by water-lorry.

Your immediate response to our appeal for help was very much appreciated not only by us but also by all the people of Larnaca.

Please accept our warmest thanks and convey our gratitude to the men under your command who took part in the operation.

Yours sincerely,

(Ph. V. Zacharíades)

Lt Col T. McDonald,
OC 3 Irish Group,
UNFICYP,
LARNACA.
Dear Lt Col McDonald
Officers, and
Members of the 3 Irish Infantry Group.

News of your departure from Larnaca was met with quite a degree of sorrow.

During the few months you have been with us you have earned our esteem and affection, due in no small measure, yourselves.

When you first came in Larnaca as a town might not have attracted you, as would not any visitor, due to lack of architectural buildings, industries, etc. Larnaca is not wealthy in that respect, but it is rich in the human element of its citizens, possessed with open-heartedness, and hospitality; these being of more importance for the growth of towns. These Larnaca citizens have therefore unreservedly style you as 'Friends'.

I can assure you Col McDonald and kindly convey to the rest of the Group that although you leave our Town yet you all will be with us.

Larnaca shall always be open to you.

Good luck and happy days anywhere you go.

Yours ever,

Geo. A. Franceskides.

LARNACA,
4th December, 1964.
Dr. Orhan Muderrisoglu
Turkish Quarter,
Larnaca.

24th December, 1964.

Lt.-Colonel T. McDonald,
Officer Commanding,
3rd Irish Infantry Group,
UNFICYP, PAPHOS.

Dear Colonel,

I was deeply touched by your kind letter of 5 December, 1964.

Your letter gave me a chance to express my deep gratitude to you, and to your company for the interest shown for our problems and for the devotion shown towards the duties expected of you as a fine United Nations Contingent.

I always felt and feel that you have been good friends to me and to my community who had the honour to meet and know you, not only as a United Nations Force, but also as admired representatives of the Irish People.

I feel sure your qualities will be appreciated by the people you are serving in the Paphos area; as they have been so here.

May I wish you, your Company and the Irish people a merry Christmas and a very happy and prosperous New-Year; and may I remind you that we shall be really very happy if you pay us a visit after Christmas or at any appropriate time.

With best regards to you on my, and on my community's behalf.

I remain,

Yours sincerely,

(Dr. Orhan Muderrisoglu)

Leader and Representative of the Turkish Community - Larnaca
To/ 

The Officer, Commanding Officers, 
NCO's and Men of the Irish Infantry Group, 
UNFICYP, Larnaca.

Dear Friends,

We wish to thank you very much for your great generosity to us, Sisters, Old Ladies and girls, here at Regina Pacis, for sending us the gift of money as a present.

All we can do is, to ask God's Blessings down upon you all so that you will in due time return to your dear Ireland and your dear Ones in all safety of body and soul.

This we all shall ask Our Infant Saviour to grant you.

God Bless you and keep you.

(Sgd.) Mother M. Franca

and all the Ladies and girls of "Regina Pacis"

LARNACA

LARNACA. 7-12-1964.

The Canadian Guards
HEADQUARTERS CANADIAN CONTINGENT
UN CYPRUS.

Dec 64

Dear Colonel McDonald,

I take this opportunity of expressing my gratitude to you, the officers and the men of the 3rd Irish Infantry Group for your many considerations during my employment with you.

I thoroughly enjoyed my association with the "Irish" and will long remember it during my career.

I sincerely hope that your stay in Paphos will be pleasant and I wish you all the best of luck.

Kindest personal regards,

Doug Murray.

Lt Col McDonald
Commanding Officer,
3rd Irish Infantry Group
Paphos District.
The Commanding Officer,
Irish Detachment,
UNFICYP,
PAPHOS.

Dear Sir,

On Christmas night an emergency operation had to be performed at our Hospital. There was urgent need of blood without which the life of the patient would be in grave danger and the operation would be practically impossible.

On our request for help your Medical Officer promptly provided us with blood donors, the operation was successfully performed and the patient's life was saved.

I wish to express through you on behalf of the surgeon, anaesthetist, the patient's family and myself my most sincere thanks and to assure you that the chivalrous behaviour of your Medical Officer and men was most warmly appreciated.

I would also like to mention that our Hospital will be glad to help you whenever such help is needed.

K. Economou

Yours Sincerely.
D.O.L. No. 121/64

DISTRICT ADMINISTRATION,
LARNACA.

URGENT

Dear Commandant Crawford,

Many thanks for your letter of the 31st December, 1964.

I have now been able to obtain an exemption certificate for Sgt. Cunningham, which I enclose. He should now sign in the space provided, and produce the certificate to the Customs for the release of the set.

I fear it has taken rather a long time, but I hope Sgt Cunningham is still on the Island. If not, we shall have to make arrangements for the C.O. to collect the set on his behalf.

I was very sorry to hear that the 3rd group is going away so soon. Our best wishes will follow you home. We will never forget you as the first UN unit to reflect credit on the U.N.O. and the country of its origin. (Now your good example is being followed by others!).

My wife joins me in reciprocating to you good wishes.

Best regards to Col McDonald.

Yours sincerely,

(Ph. V. Zacharidades).

Comdt V. Crawford,
HQ Paphos District, UNFICYP, Ktima.
Dear Colonel McDonald,

Thank you indeed for the very kind letter you sent me a short time ago; it was good of you to write.

I was sorry when the 3 Irish Inf Group had to leave us for Paphos, most especially as we had made so many friendships with your officers and men. If I may be personal, the presence of the 3 Irish in Larnaca just about crowned my own three year tour in Cyprus. It was nice to have ones own as neighbours.

Your task on the Island has not been an easy one; things were very difficult when you arrived in Cyprus. However we have all been full of admiration for the efficiency, fairness and integrity of the 3 Irish, and in the way in which they have gone about their work. Unfortunately you will not be able to measure the extent of your success in Cyprus, but from what I can gather, the 3 Irish have made a good and lasting impression on our Cypriot friends. I'm sure you will allow me, as an Irishman, to feel proud of what I have seen of the 3 Irish Inf Group.

It only remains for me to say a sad "farewell and God Bless" as you prepare to leave Cyprus for home. It was nice knowing you.

Will you kindly convey my very best wishes to the officers I have included in the list enclosed with my letter.

Yours sincerely,

Jim O'Doherty.

List

Comdt Hurley  Comdt Duggan
Comdt Keane  Comdt Crawford
Comdt Madigan  Capt McGrath
Capt Gibbons  Capt Donnelly
Capt O'Shea  Comdt Driver
Lt Shane Gray  Capt McKevitt
Capt Guerin  Capt Blake

Last but certainly not least,

Rev. Fr. Kelly.

P.S. I hope I have got all the ranks correct. I'm sure it will be appreciated that most times I saw the lads, they were in swimming gear.

J. O'D.
Received with thanks, from Colonel McDonald, CO, Irish Battalion at Paphos, the sum of £10,000 mils (ten pounds) being a donation by the Officers and Men of the Irish Infantry Group, Ktima, for Turkish charity.

(Sgd.) Altey.

Ktima, 15th January, 1965
Gen Thimayya - as this is your last visit to the 3rd Irish Infantry Group we would like to mark the occasion by presenting you with this small gift from Ireland as a token of our high esteem for you. We also wish to convey to you our high regard and appreciation of your outstanding military leadership. We greatly admire the soldierly qualities which you have always displayed to us.

We hope you are now fully recovered from your recent illness. And we pray that Cyprus may reap the benefit of your leadership and that a just and lasting peace may reign on this island in the near future.

T. McDonald

CC: 3 INF GP (IRISH)
NOTE TO CORRESPONDENTS

The following is the text of a message issued today by General K.S. Thimayya, Force Commander, UNFICYP, to the members of 3 Infantry Group, Irish Contingent:

"On the occasion of the Group's impending return to Ireland I send warm greetings and grateful thanks to Lt.Col T.J. McDonald and all ranks 3rd Infantry Group. First in Larnaca, and latterly round Paphos and Polis, you have done a fine job of peacekeeping on behalf of the United Nations. In the process the Group has won golden opinions, not only within UNFICYP itself, but also among all sections of the Cyprus population. Your cheerfulness, friendly approach to others, and resolute performance of any tasks given you combine to make you hard to replace, and we shall miss you greatly. God speed, Good Luck, and Thank you. 

"BENIGHT DE LÍBH AGUS GO DTEICH SINN SLAN 'ABHÍLE." (God bless you and a safe return home)."
Officer Command and officers 3 Inf Gp.

Dear Tom,

Many thanks for your nice gift. It was undeserved.

I wish to take the opportunity to thank you and the officers of 3 Inf Gp for your loyalty, efficiency, and devotion to duty. I was very proud of the high reputation which 3 Inf Gp attained at HQ UNFICYP.

Beannacht De Líbh.

COMIRCON.

Mr. Thomas McDonald,
Commanding Officer,
The Irish Regiment,
Paphos.

Dear Sir,

The president and the committee of Philoptokhos Adelfotis, Paphos, (Greek Organisation for the aid to the poors) wish to express their sincere thanks, for the most human and polite effort to collect among the Officers and men of the 3rd Irish Regiment, the amount of £15, - fifteen pounds handed to us on the occasion of CHRISTMAS DAY to assist poor people of this town.

Yours faithfully,

---

The Secretary
Sgd. Evi K. Flevotoma.

The President
Sgd. Maria Varnara.

NOTES ON CERT. IN FINANCIAL AND OTHER ASPECTS OF SERVICE IN UNFICYP.

OFFICERS

1. Personnel of the Permanent Defence Force volunteering for service with 3u Grupa Coisithe or associated staff elements which will form part of the Irish contingent of the International United Nations Force in Cyprus (UNFICYP) must be willing to serve with the contingent for a period of six months. It must be clearly understood, however, that the Government is not committed to maintaining 3u Grupa Coisithe or associated staff elements with UNFICYP for longer than approximately three months even if it should be necessary to keep a United Nations force in Cyprus after the expiration of that period.

2. Officers serving in UNFICYP will be paid special allowance as follows:

   (A) Overseas Allowance at the following rates:

<table>
<thead>
<tr>
<th>Rank</th>
<th>Single</th>
<th>Married</th>
</tr>
</thead>
<tbody>
<tr>
<td>Captain</td>
<td>26/3</td>
<td>41/3</td>
</tr>
<tr>
<td>Captain-Chief</td>
<td>26/3</td>
<td>41/3</td>
</tr>
<tr>
<td>Lieutenant</td>
<td>36/3</td>
<td>51/3</td>
</tr>
<tr>
<td>Lieutenant-Chief</td>
<td>36/3</td>
<td>51/3</td>
</tr>
<tr>
<td>Lieutenant-Colonel</td>
<td>36/3</td>
<td>51/3</td>
</tr>
</tbody>
</table>

   Overseas allowance will be credited to the officers' Bank Accounts in the same way as their pay will be credited.

   (B) Local Service Allowance ("Per diem allowance")

   Local service allowance will be paid in local currency. Personnel will not normally be permitted to let any part of this allowance remain as a credit in their pay accounts.

   The local service allowance applies only to personnel of the contingent serving with UNFICYP including personnel on UN Headquarters Staff in Cyprus, and is not to be regarded as a precedent for the payment of such an allowance by the Irish Government on any future occasion.

3. Personnel will be eligible for overseas allowance and local service allowance for the period of their service with UNFICYP, including the date of their departure from Ireland and the date of their return.

4. If 3u Grupa Coisithe or the associated staff elements now being provided are withdrawn by the Government after less than three months (91 days) from the date of departure from Ireland (including dates of departure and return), the above-mentioned allowances will be paid on the basis of 91 days to personnel who have had full service. Personnel who joined the contingent after the arrival of the main body of 3u Grupa Coisithe in Cyprus or who were repatriated for any reason (including medical) other than the withdrawal of the contingent, will be paid the allowances only for the actual period of their service with UNFICYP.

5. The local service allowance ("per diem allowance") mentioned at 2 (B) above will be paid by the Irish Government on the distinct understanding that no allowance of this nature will be paid by the United Nations. Should such an allowance be paid by the United Nations, no local service allowance will be paid by the Irish Government.

IN ROTHAM COSINT.

Iúil, 1964.
Rates of compensation in the event of the death or disablement of members of the Permanent Defence Force on U.N. Service in Cyprus.

Ex-gratia compensation at the following rates will be payable in the event of the death or disablement of members of the Permanent Defence Force arising from service with the United Nations Force in Cyprus.

(1) £3,500 to the dependants of married and £2,000 to the dependants of single men who were killed while serving with the United Nations Force in Cyprus or died of wounds, attributable to such service, within four years of the date of the wounds, or died in Cyprus as a result of disease attributable to such service or died within four years after return from Cyprus as a result of disease attributable to such service;

(2) £1,000 in the event of a 100% disablement attributable to service, with proportionately smaller sums for lesser degrees of disablement;

(3) £750 in the event of a 100% disablement caused by disease aggravated by service, with proportionately smaller sums for lesser degrees of disablement.

The above sums will be paid, without distinction as to rank, in addition to the statutory benefits payable under the Army Pensions Acts.

The reckonable degree of disablement for the purpose of the award of a lump sum shall be that assessed by the Army Pensions Board on the applicant's first medical examination and not on any subsequent re-examination. A claim in respect of a wound must be made within a year after discharge and in respect of a disease within eight years after discharge. The minimum degree of disablement necessary to qualify for a lump sum is:

(a) 50% in the case of disease attributable to service.
(b) 80% in the case of disease aggravated by service and
(c) 20% in the case of a wound attributable to service.

In Roínn Cosúntialta.
Rúl, 1964.
INFORMATION SUMMARY (INFSUM)

1. An INFSUM should be prepared by all units under direct Command of Headquarters UNFICYP.

2. It should cover the period 1800 to 1800 and arrive at Headquarters UNFICYP by 0645B daily.

3. Where possible the following headings should be used:
   a. GREEK CYPRiot AFFAIRS:
      (1) Identified, or unidentified, units or formations and their activities, dispositions, employment and movement.
      (2) Boundaries.
      (3) Compositions of parties and groups.
      (4) Supply installations.
      (5) Fortifications and road blocks.
      (6) Strengths broken down into leaders and men.
      (7) Weapons, vehicles and equipment.
      (8) Combat Efficiency
         (a) Effective strength.
         (b) Casualties.
         (c) Replacements.
         (d) Morale/Discipline.
         (e) Training.
      (9) Tactics.
      (10) Likely development.
      (11) Personalities.
   b. TURKISH CYPRiot AFFAIRS
      As for GREEK CYPRiot AFFAIRS.
   c. SUMMARY: This should include a brief assessment of the situation.

4. These headings are a guide and need not be slavishly followed. The important point is to include as much comment as possible.
Reference: A. UNFICYP/LOG/8/1 dated 17 Jul 64.

1. The main body of 3 Infantry Group will arrive 4 and 5 Aug 64 as follows:

<table>
<thead>
<tr>
<th>CHALK NO.</th>
<th>NO OF Passengers &amp; Personal Baggage</th>
<th>ETA Nicosia</th>
<th>ETD Nicosia</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>83</td>

Outline Plan
2. A small Q & D Party will move Polemedhia on 3 Aug to take over camp and stores and reallocate to Coys/Depts.

3. Bn will move from Larnaca area to Polemedhia on a phased programme 6-8 Aug. Programme is related to move into Larnaca area of eqv stra 3 Inf Gp (Irish).

4. A small Q Rear Party will remain Anzio Camp to hand back stores and camp.

Plan
5. Full details of moves and duties are shown at Annex 'A' att.

6. The fol points are in amplification:-
   a. Strs. OC Coys will inform QM copy OC C Coy of strs of pers moving on 3, 6, & 7 Aug.
   b. Mover. All moves will be on orders OC Coys (and adjt for Bn HQ) Bn SOP for moves will be followed where applicable.
   c. Tht. OC Coys (OC HQ Coy to coord demands from Depts) will forward to MTO soonest requests for additional tpt for moves.
   d. Meaning. All pers moving to Polemedhia on 3, 6, 7, 7 Aug will be messd by C Coy from present cookhouse. If necessary field cooking will be resorted to for 7 Aug. WD II LOC will be att C Coy wof 3 Aug - QM will ensure sufficient cooks are att C Coy over period 6-8 Aug. All convoys moving Polemedhia will breakfast in present loc. First meal in new loc will be midday meal.
   e. Stores. Beds are being provided at new loc. Mattresses will be issued by QM in present loc and moved under Coy arrangements. OC Coys may arrange to move those and any other stores they wish in advance to Polemedhia in period 4-7 Aug by arrangement with MTO.
   f. Dates. All dates are subject to Main body 3 Inf Gp arriving on 4 Aug. Should they be delayed programme will be retarded accordingly.

7. ACCO Stores, Barracks Stores etc. Full instrs for hand in of stores in Larnaca locs and receipt of stores in new loc are contained in QM Instr No 1 of 22 Jul 64 already issued to all concerned. All station stores in present locs (e.g. tents, structures, static cookers etc) will be handed over to 3 Inf Gp. Fnn issued by QM will be taken to Polemedhia and handed in to QM who will reallocate as required. QM will issue separate instrs for refrigerators.
8. **Hand over of Buildings in present Locs**
   All buildings currently occupied whether taken over from 1 Foresters, occupied operationally or occupied by agreement with owners will be handed over correctly as per proforma to be issued to 3 Inf Gp and take over signature obtained. Coy copies of condition reports will also be handed over. All accom and surrounding areas ie to be clean and tidy.

9. **Change of Command**
   Probable change of command (taken as firm unless subsequently changed by signal):
   - Coys Larnaca to Coys 3 Inf Gp
   - CO 1 INNISKILLINGS to CO 3 Inf Gp
   - CO Life Guards to CO 1 INNISKILLINGS

10. **Kephineu/Avios Theodhoros**
    OC A Sqn LG may physically thin out pers at discretion but covering role fm Syyi wrf 6 Aug to enable pers of 3 Inf Gp to phase in. OC A Sqn will, however, maintain a command element at post until hand over of command to 3 Inf Gp at 080855.

11. **Phase in of 3 Inf Gp**
    Programme will be issued on receipt from 3 Inf Gp.

UNFICYP OPERATIONAL DIRECTIVE NO. 1

(First revise)

This directive supersedes HQ UNFICYP/112 dated 26 March and incorporates amendments No 1 and No 2.

Aim

1. The aim of this directive is to lay down the principles on which troops assigned to UNFICYP will carry out their peace-keeping mission in Cyprus.

Mission

2. The mission of UNFICYP is defined in the Security Council Resolution of 4th March, 1964. It is, in the interest of preserving international peace and security, to use its best efforts to prevent a recurrence of fighting and, as necessary, to contribute to the maintenance and restoration of law and order and a return to normal conditions.

3. In carrying out this mission, troops assigned to UNFICYP are to avoid any action which may influence the political situation in Cyprus except through contributing to a restoration of quiet and thus creating an improved climate in which political solutions may be sought.

Command

4. The channel of operational command initially is at Annex A.

5. The ultimate command structure will be as shown in Annex B.

Peace-Keeping Duties

6. The principles on which peace-keeping duties are to be based are as follows:

a. The use of armed force is permissible only in self defence and as a last resort in the carrying out of the task given to the Force. In such an event only the minimum force to achieve the mission is to be used. It is recognised that in carrying out their tasks of prevention of recurrence of fighting UNFICYP personnel may be so disposed on the ground that they may come under fire from one of the parties. In such a case they may have to take defensive action in return in order to stop the firing.

b. Incidents are to be prevented and, if necessary, stopped by negotiations and persuasion rather than by the use of force. The decision as to which course of action is taken will normally be taken at battalion commander level.

c. The commander on the spot must act as he feels justified according to the circumstances at the time, always following the principles at sub-paragraphs a. and b. above.
All troops of UNFICYP must act with restraint and at all times act with complete impartiality towards the Greek Cypriot and Turkish Cypriot sides.

Use of Force

7. It is important that, except where specific measures have been accepted by both communities or where peace-keeping forces are compelled to act in self-defence or in the interests of the safety of the Force itself, no action should be taken that is likely to bring troops of UNFICYP into direct conflict with the forces of either community.

8. Special conditions apply in the NICOSIA and Limassol areas where troops are required to man positions between the two communities. In all areas troops manning these positions will use every peaceful means of persuasion to prevent attack across agreed neutral zones or to prevent any firing across these zones. Should, however, such attack or firing occur in spite of all the above indicated efforts to prevent it, UN troops may use force in their effort to stop the fighting only as a last resort when, on account of their inter position they fire in self-defence in protecting themselves, or their intervening positions, from attack; as envisaged in the directions in paragraphs 6, 9, 10 and 11 of this instruction.

9. The other circumstances in which fire may be opened are
   a. In self-defence, but only as a last resort.
   b. In defence of UNFICYP posts and vehicles against armed attack.
   c. In support of other troops of UNFICYP under armed attack.

10. The principle of minimum force will always be applied and fire will be opened only when all peaceful means of persuasion have failed. Troops will not take the initiative in the use of force. The decision as to when force may be used rests with the commander on the spot whose main concern will be to distinguish between an incident which does not require fire to be opened, and those situations in which troops may be authorised to use force. Examples in which troops may be so authorised are:
   a. Attempts by armed forces to compel them to withdraw from a position which they occupy under orders from their commanders, or to infiltrate and envelop such positions as are deemed necessary by their commanders for them to hold, thus jeopardising their safety.
   b. Attempts by force to disarm them.
   c. Attempts by force to prevent them from carrying out their responsibilities as ordered by their commanders.
   d. Violation by force of United Nations premises and attempts to arrest or abduct United Nations Personnel, civil or military.

11. a. Should it be necessary to open fire advanced warning will be given whenever possible. Automatic fire is not to be used except in an extreme emergency and fire will continue only as long as is necessary to achieve its immediate aim. Aimed fire only will be used.
   b. High explosive weapons, i.e. mortars, rocket launchers or grenades, will only be used if UN positions are unmistakably deliberately and directly attacked. They will not be used for any other purpose without the personal authority of the Force Commander.
Search and Arrest

12. In principle, only the regular police of CYPRUS has the right of search and arrest. United Nations Force may undertake search or detention of suspected persons, if it is considered imperative to do so in order to prevent violence and if no CYPRUS regular police are available on the spot. In such cases, persons detained will be immediately handed over to the appropriate authorities. Any such searches must be reported immediately to HQ UNFICYP through the normal channel of command.

13. If troops of UNFICYP consider that search or arrest is essential to their mission, and if the regular police are present on the spot or can be readily made available, they will request the police to carry out the search under their supervision. Troops of UNFICYP or the police members of UNFICYP may be detailed to accompany the regular police as observers; in such cases their task is to ensure impartiality and fairness.

Detention and Interrogation

14. Troops of UNFICYP have no power to detain or interrogate any individual.

Points of Agreement

15. The mission will be accomplished whenever possible on established points of agreement reached by the two communities and by encouraging the cooperation of Greek and Turkish elements of the police, government and population at all levels.

16. The main points of agreement on which negotiations can be based are that:

   a. All offensive and defensive positions, barricades and road blocks will be removed.

   b. All armed Greek and Turkish Cypriots, other than the police and gendarmes, will be dispersed.

   c. There will be no further carrying of arms by civilians of either community.

   d. Neither community will demand proof of identity, nor will they arrest, detain or search persons belonging to the other community.

   e. Normal freedom of movement, transport and communications will not be interfered with.

17. Although non-observance of these points of agreement is widespread, they are to be used as the basis of persuasion with both sides.

Patrols

18. By day and night, especially in areas where communities are closely intermingled, units will organise a regular system of patrols consisting of detachments of their own soldiers accompanied if possible by Greek and/or Turkish Cypriot police.
19. In outlying districts patrols will consist usually of small parties of men in vehicles equipped with radio. The need for these patrols and the extent to which they represent a show of military force will require careful judgement. It should not be necessary for these patrols to dismount normally except where the going requires movement on foot. Patrol commanders are to be warned to exercise particular care if patrols are ordered into areas which they do not normally patrol.

20. All patrols are to carry a UN flag on the leading vehicle and display it as clear evidence of their identity. Should it be necessary for a patrol to dismount, it will take with it a UN flag, which will again be prominently displayed. Whenever possible and appropriate, locals who are armed and known to be in the neighbourhood should be warned of the patrol activity.

21. All breach of any point of agreement and any case of violence or inhuman or unjustified behaviour will be reported for investigation.

Attitude to the Population

22. It is essential for troops of UNIFICYP at all times to respect the persons, customs, religions, feelings and property of the population. They will take care at all times to avoid appearing in any way to favour either side in individual disputes.

23. It is of the utmost importance to maintain at all times the authority of UNIFICYP and its members. When as inevitably will happen, actions of the Force prove unpopular with one part of the population or another, it will be for the commander particularly concerned and ultimately the Force Commander to judge the degree to which his authority must be asserted in order to uphold the authority and position of the Force, having in mind the considerations in the preceding paragraphs.

Public Relations

24. Only the Deputy Commander and the Contingent Commanders are authorised by the Commander to make statements to the press or other information media about incidents or operational activities in which the Force may be involved. Other members of the Force are to make no statements and give no interviews except by special authorisation of the Commander.

25. The outlet and co-ordinating unit for any statements that may be made will always be the Information Office of UNIFICYP, which will issue Press Reports on incidents and other announcements and press releases relating to the activities of the Force.

26. The Information Office of UNIFICYP will co-ordinate its activities with the Public Information Officers of the Contingents to the end that uniformity in the presentation of news about the contingents can be achieved and that control can be established when correspondents are visiting an area where an incident involving a particular contingent may have occurred.

27. Officers and men of the Force are not to make statements to the press. It is the responsibility of the UNIFICYP Information Office and the PROs of the contingents concerned to make available information about the contingents and their activities or involvement in any incident, in co-ordination with the Contingent Commander and under the general instructions of the Commander.
28. The Force does not provide transport facilities for correspondents, but they are to enjoy free access and freedom of movement throughout the areas controlled by the different contingents, except when security or personal risk is involved.

29. The UNFICYP Information Office will alert Contingent Commanders of impending visits by correspondents, through contingent PROs or directly in order to establish some control over the movement of these correspondents.

30. In the case of feature stories for the press, radio or television, which are not related to military incidents or political matters but which are intended only to describe the functioning of the contingent and the personal experiences of its personnel within the framework of what is known as a "human interest story", the UNFICYP Information Office and contingent PROs may arrange for certain officers and men of the contingent to be available to afford this type of information desired.

31. Each Contingent is requested to appoint a contingent PRO who is to maintain close liaison with the UNFICYP Information Office in Nicosia in order that all matters relating to public information be co-ordinated. These contingent PROs should have their offices in the building of the UNFICYP Information Office in Nicosia. In addition, Contingent Commanders are requested to appoint responsible PROs in the field who will be able to assist the UNFICYP Information Office in discharging its tasks of keeping the press and other information media adequately informed about the functions and problems of the Force.

(P.S. GYANI).
Lieutenant General
Commander United Nations Force in Cyprus

**TOTAL:** 95
1. a. These S.O.Ps are NOT a substitute for STANDING ORDERS. They are a supplement to them.

   b. STANDING ORDERS will be issued later. Relevant S.O.Ps will be incorporated in these orders as required.

   c. These S.O.Ps are to ensure that a single operational standard applies throughout the whole unit.

   d. They will be amended as required in the light of 'on the spot' requirements and experience.

2. 3 Inf Gp must be ready to help the authorities to maintain peace, restore law and order and safeguard essential services. Therefore the subjects to be taught must prepare troops to act correctly in situations demanding the highest standards of discipline and restraint.

3. a. The subjects to be taught are based on five pamphlets on issue:
   (1) Keeping the Peace (Pts 1 and 2) WO 9801.
   (2) Inf Trg Vol IV - Inf Pl in Battle 1960.
   (3) Inf Trg - Pamphlet No. 10 (W.O. 8697) for lectures and exercises on how to OBSERVE.

   b. All officers should be in possession of above pamphlets.

   c. As far as possible all NCOs should be in possession of Inf Trg Vol IV - Inf Pl in Battle (1960).

4. Enemy

   There is no enemy in CYPRUS: only Friends.

5. a. KEEPING THE PEACE, PART 1 and PART 2 WILL PROVIDE THE S.O.P. FOR IMMEDIATE ACTION DRILLS LISTED IN PAR 6 HEREUNDER:

   b. THESE DRILLS, AND TECHNIQUES COVER AS BROAD AN APPLICATION AS POSSIBLE. THEREFORE DISCRIMINATION, AND COMMON SENSE ARE REQUIRED IN MAKING THE ESTIMATE OF THE SITUATION MOST APPROPRIATE TO THE PARTICULAR CIRCUMSTANCES.

6. Immediate Action Drills for reference:

   (1) Suppression of unlawful assemblies and riots; crowd dispersal; protection of vulnerable points from hostile mobs. As per CHAPTER 11 - ACTION IN AID OF CIVIL AUTHORITIES (TACTICS)
(KEEPING THE PEACE, PART 2, TACTICS AND TRAINING).

(2) Guard Duties, including guarding and escorting important persons. As per CHAPTER III - PRECAUTIONARY MEASURES.

(3) Technique of road blocks, control points etc. CHAPTER IV - LARGE SCALE OPERATIONS TACTICS.

(4) Precautions against ambush (MT and Dismounted) - methods of searching vehicles, mounting and dismounting drills. 'APPENDIX R' - 'APPENDIX L'.

(5) The Geneva Conventions - as per par 3 above and 'Booklet'.

(6) Patrols - co-operation Inf/Arm Teams. Urban patrols and curfews; cordons and searches.

(a) CHAPTER IV - LARGE SCALE OPERATIONS TACTICS (KEEPING THE PEACE, PART 2 SEC 20).

(b) CHAPTER X - PATROLS - INFANTRY TRAINING VOL IV.

(c) Mil Col Precis.

7. a. "Immediate Action Drills." Many situations will develop suddenly without warning and exist only for a short time. During training "immediate action" drills must be perfected so that counter-action becomes immediate and automatic constant alertness must be practiced. Details of "immediate action" drills are covered in Appendix "R".

b. "Immediate Action" Drills should be developed and practiced to cover:

(1) Harvesting Protection.

(2) Escorts for workers and convoys.

(3) Normal section patrols, with and without arm cars.

(4) Searches for hostages and missing persons.

(5) Intervention in incidents. These incidents vary. There was the situation in the Docks at FAMAGUSTA to Turkish dismantling of a Danish U.N. Road Block to the various incidents report. The following is an extract from a letter report from 40 En, as an example:

"If a shooting incident occurs you try to get to them and tell them, for Heaven's sake to stop the nonsense and pack up and go home. If things are tense in an area move in and keep moving around among them until they forget their anger. We have done everything from moving hens to preventing and nipping in the bud what could have been a very nasty situation in FAMAGUSTA." See Appx 'A' Trg Directive No. 1.

8. Leadership and Discipline. 'Keeping the Peace' requires the highest standard of junior leadership and professional efficiency. Training of
junior commanders must therefore be directed towards giving them the ability and confidence to make sound decisions and act on their own initiative.

9. Intelligence Training Sec 27.

11. Safety:
   a. During Training, great emphasis must be placed on the safe handling of weapons because if and when they have to be loaded and carried, casualties can be caused to troops by their own comrades. It is the duty of every officer and NCO to ensure, by constant attention, that this unnecessary waste of life does not occur. A specimen order on safety precautions is given at Appendix V. Keeping The Peace, PART II.
   b. Constant vigilance and practice is necessary to prevent such accidents arising through carelessness or non-observance of safety precautions.
   c. Coy Comd will ensure that T.O.E.T.s are carried out in accordance with the appropriate training manuals for the personal weapons issued to all ranks and that a record is kept of these tests in accordance with regulations.
   d. The officer in charge of a party or patrol is responsible for the enforcement of above safety precautions.

12. Physical Fitness and Endurance: A high standard of Physical Fitness and endurance is essential for the proper execution of operations under stress. Daily physical exercise, moderation in food and particularly alcohol is therefore necessary.

13. U.N. Identification: It is essential that all parties whatsoever be identified as to the identity of the U.N. party. To this end the U.N. Flag, emblems, insignia etc will at all times be prominently displayed. Patrols of all descriptions will ensure that they are identified as U.N. personnel by early and prominent display of the U.N. Flag. To this end the duty of every officer and N.C.O. is to be vigilant over his patrol to ensure that his personal order is not affected by his attitude, and that his appearance is such as to identify him as a U.N. personnel.

14. Discipline and Morale:
   a. Keeping The Peace: Duties call for the highest standards of discipline among officers and men. First the smart appearance of well turned out, well drilled, and well disciplined troops who carry themselves in a soldierly manner impresses the civilian population. Secondly politeness combined with a dignified bearing gives confidence to civilians, many of whom because of state of unrest, have lost confidence in the Government and the powers of law and order. Thirdly the patience of soldiers when employed over long periods on these unpleasant duties is often sorely strained; sound discipline will stand to the unit in these periods of stress and see it through in good order.

b. Section 24. Keeping The Peace, Part II.
   c. A very high standard in Arms Drill, Foot Drill, Guard Mounting and Saluting must be insisted on and demanded at all times.

To: All Officers, 3rd Inf Gp.

S.O.P 3 Inf Gp.

NOTES ON EMPLOYMENT OF AFVs IN CYPRUS

The following notes have been compiled by O/C., Armoured Car Group, and are issued for guidance.

..............................Comdt.
(J.F. Duggan)

/RMG.
1. AFVs can be employed in either of two ways:

(a) Working independently.

(b) Working in support of an Inf element.

Suggested tasks when:

(a) Working independently:
   (1) Rural Patrols.
   (2) Recce .. Route or Area.
   (3) Escorts .. Stores, VIPs, etc.
   (4) Patrolling specific routes to keep them open and secure.
   (5) Establishment of quick ad hoc road blocks.

It should be SOP for AFVs to work on a Sec basis (2 Vehs) when operating independently.

(b) Working in support of Inf element:
   (1) Soft skinned veh(s) plus AFV(s)
   (2) APC(s) plus AFV(s)

When working with Infantry, the role of the Cavalry element would be purely that of 'support' and provided the 'going' was suitable, would be capable of giving any 'support' required.

In this connection it must be pointed out that no training has ever been done with AFVs and APCs working together. A combination of AFVs and APCs would be the ideal formation for operating in an area where a bad and tense military situation existed.

2. COMMUNICATIONS:

The WRLs set up within the Cav group is excellent, but not that good when the question of a 'rear link' to Group HQ is raised.

The Panhard AFV is equipped with sets as hereunder:

C.10 .. Inter AFV .. On all cars.
C.9 .. Capable of establishing a 'rear link' .. On two vehs.

Contact can, however, be established with Sig centre by using the C.10 on an emergency frequency of 53 Mc/s. Nevertheless, if continuous contact is to be maintained with a portol, etc., a communications link from another source would have to be provided if an AFV equipped only with a C.10 WRL set formed part of that particular patrol.

3. MAINTENANCE:

Certain daily and weekly maintenance is essential for the crew. In addition, periodic checks and advanced maintenance tasks are required to be carried out by fitters.

4. ARMAMENT:

The Panhard Armoured Car is equipped with Two 7.62mm MGs and One 60mm Mor. The MGs have a high rate of automatic fire and can be fired either electrically or manually. The 60mm Mor can be fired along direct sighting up to 300 Yards range. Thereafter, the indirect firing system is used. The normal complement of ammunition carried is:

3200 rounds MG, and
22 rounds Mortar (with fuses and relays)

The crew members carry personal weapons .. the Comdr and Gunner having pistols and the driver carrying a Gustaf SMG.
5. **GENERAL:**

The Cav group is organised into four secs - 2 AFVs per Sec. Two of these Secs are commanded by Officers and Two by Sgts. The Car crew consists of three members:

- Commander.
- Gunner.
- Driver.

Each member has specific duties to perform and has received training to enable him to perform those duties. Together they work as a team and make the AFV operational. Therefore it is an absolute essential at all times that crews be kept intact.

Under the circumstances which exist in Cyprus and in the interest of keeping down unnecessary mileage on the vehs, situations can be foreseen when AFVs could be employed singly. However, it would be highly undesirable to split a section for a prolonged period as the section commander has an overall responsibility for the maintenance of vehs and eqpt in his section, as also for the conduct and deportment of his men.

6. **TASKS (Contd)**

   c. 'HQ' Coy —

      (1) To set up Gp Hqrs in the Poultry Farm (on the Eye-Pass Rd) Larnaca. This Hqrs to include Ops and Int Room and mess centre. Fumigate Poultry Farm.

      (2) To take over allotted buildings in the Bye-Pass Road area.

      (a) To set up maintenance and repair depot in the Flt garage.

      (b) Storer Depot (incl Cav) in the Poultry Farm.

      (c) Officers' Mess.

      (d) NCOs' Mess.

      (e) Officers' quarters.

      (f) NCOs' mens quarters.

      (g) Mens' Canteen.

      (h) RAP.

      (i) To provide a Guard at Poultry Farm and to org the security and a Scheme of Def for the post.

      (j) To provide a Guard Room and Armoury.

      (k) To provide a Stand-By Party.

   d. Armd C Gp —

      (1) One Tp u/comd to B Coy loc Kophinou/Ayius Theodorus area.

      (2) One Sec u/comd to A Coy.

      (3) One Sec in RES. Loc A Coy area.

7. **Co-ord Instrs**

   a. Phasing in of pls to conform to Inniskillings phasing out of pls. Coy Comds to co-ord with opposite numbers. Coy 2i/c's already in contact.

   c. Rdy between Coy's: Larnaca, Goshti rds to Larnaca District byy (incl. Goshti incl to A Coy).

   d. Mov: By pl's, on tpt provided by T.O.

   e. Standing Orders and SOPs: as per UN Orders as issued. These standing Orders and SOPs to be taken over as such on each and every post. Separate Orders to be made out to cover ops at present performed by HQ Coy 1 Inniskillings.

   f. RAP - A Coy area.

   g. BLUE WAVE CAFE - swimming centre A Coy end/or as req by oo A Coy

   h. **Change of Command**

      Probable change of command (taken as firm unless subsequently changed by signal).

      Coy Larnaca to Coys 3 Inf Gp 080855.

      Co 3 Inniskillings to Co 3 Inf Gp 080900.
7. Co-ord Intra (Contd)
   (i) Change of Location

Gp Hqrs and HQ Coy will close down at this loc 080900 hrs Aug and open at
080900 hrs in the POULTRY FARM on the Eyn-Reas LARNACA GR 273416.

(k) The Life Guards at KOPHINOU/TYIUS THEODORUS to B Coy, 3 Inf Gp 080900 at
seq until Arm C Gp 3 Inf Gp (Irish) fully op. OC B Coy to co-ord with
Life Guards. Special attention to TYIUS THEODORUS area until phase in
complete. Request 1 Troop L.G. on call to OC B Coy until further notice.

8. ADM
   a. As per Adm 0 to be issued later.
   b. Rations and feeding arrnts of platoon being phased in to be org and co-ord
      between outgoing and incoming Coy Comds.
   c. Take-over of Buildings: All buildings currently occupied whether occupied
      operationally or occupied by agreement will be taken over as per pro-forma
      issued. Coy copies of condition reports will also be taken over.
   d. Station Stores: All station stores in present loc (e.g. tents, structures,
      static cookers, etc) will be taken over.

9. COMUS
   As per Sig Annx to be issued later. Line and wrls KOPHINOU- B Coy Hqrs
   OC 420s if available.

   a. Comms to be maintained with plas being phased in.
   b. To provide as far as possible same pattern of com as operated by
      the 1 INNISKILLINGS in order to cover the entire LARNACA District
      from present dispositions
      (less ZXYI op by the Life Guards).

RÚNDA
3rd IRISH TAKE OVER FROM 'SKINS'

"Our Mission is keeping the Peace ...."

The 3rd Irish Inf. Group, the latest addition to the strength of UNFICYP recently arrived in our midst when it was "domiciled" in Transit Camp LDAP "A" DHEKELIA SBA prior to moving on to LARNACA where it took over from the 1st Battalion, Royal Inniskillings, the United Nations task of keeping the peace in the Larnaca District.

THE HAND OVER

The transfer of command from "the one Irish" to the "other Irish" was marked by a very impressive little ceremony in N. Larnaca where compliments were exchanged between representative bodies of both Units. At precisely 0900 hours on the 8th August, Lt.Col. Blake, Officer Commanding, Royal Inniskillings formally passed on LARNACA DISTRICT and all UN rights therein to his fellow countryman, Lt.Col. T. McDonald, Officer Commanding 3rd Irish Infantry Group. There is a lesson here somewhere.

ADVANCE PARTY:

The Advance party of the "3rd Irish" had been the guests of the Inniskillings for the last week or so in July, in A N 210 Camp, A Good Mile Faitte was extended by the Hosts. Many personal friendships were quickly formed and these were well and truly cemented in the various messes in the best traditions of the Irish race.

IRISH UNITS IN UN

The Irish military contribution to the United Nations has been out of ALL proportion to the size of the Nation and its Military strength. During the four years of the UN operation in the Congo, the Irish Republic contributed Eight Infantry Battalions, two Infantry Groups and Two Armoured Car Squadrons as well as many Officers and NCOs to the UN Staffs in Leopoldville and Elisabethville. The present Irish Chief of Staff, Lt-General Sean McEoin had the distinction of being the UN Force Commander in the Congo Republic from January 1961 to March, 1962. Now the situation in Cyprus has brought in turn the 40th Inf Bn and the 3rd Inf Gp.

FORMATION:

The 3rd Irish Inf Group is an ad hoc formation of roughly four hundred strong and includes an Armoured Car Group. It is drawn from volunteers for overseas service. Many of its Officers and Men have served in the cause of the United Nations in the Congo Republic - some of them on as many as three separate occasions - and the prior experience in the UN role compensates to some extent for the lack of Unit tradition.

SETTLING DOWN:

The 3rd Inf Gp have been less than a fortnight in the operational service of the United Nations but their faces have now become quite familiar in the environs of LARNACA. They have quickly settled down to a task and climate that is alien to them. Their Officers and men have now become part of the CYPRUS scene.

"The Million of the 3rd Irish Inf Gp is keeping the Peace and to that end we look forward in harmony and co-operation with all elements of this beautiful island - Greek, Turk and British", stated a 3rd IRISH spokesman.
3 Inf Gp (Irish) - LOCSTAT as at 080000 (Aug.)

INTRODUCTION

1. It is not possible to say with any certainty what conditions will prevail at the time when the UN Force withdraws from Cyprus. In the best case sufficient advance warning will be given of the end of the Mandate coupled with stable conditions on the island, to allow the force to carry out an orderly withdrawal from its base camps, using Nicosia airport and the port at Famagusta having handed in all its equipment, stores and vehicles at its leisure.

2. The likelihood of such an ideal situation occurring cannot be assessed in advance with any degree of certainty. It is more likely that some or all of the following situations may occur at the time of withdrawal.

   a. The announcement of the end of the Mandate could be delayed until the last moment.

   b. The time available for the withdrawal of the Force at the end of the Mandate could be restricted, or the Force required to leave by the end of the Mandate.

   c. Inter-communal strife in varying degrees of intensity could break out prior to the end of the Mandate, interfering with the withdrawal and security of the Force.

   d. Intervention from outside the island could entail the withdrawal of the Force in circumstances amounting to war conditions.

   e. The likelihood of Nicosia airfield becoming the focal point of a battle for its control by one side or the other, and the possibility of its use for the withdrawal of the Force being denied.

   f. The possibility of Nicosia airfield being evacuated by the RAF after the evacuation of non-Cypriot nationals, since, with Akrotiri airfield at its disposal, it would not necessarily be vital to hold it in the face of large scale local opposition.

   g. The possibility that contingent base camps and UN HQs are so located that they would be within the most likely areas of heavy fighting.

   h. The consequent lack of free movement in the island necessitating the escorting of vehicles and convoys and the avoidance of certain routes.

   i. The consequent necessity to give priority to the security of the Force.

3. The actual situation likely to be faced by the Force may well lie somewhere between these two extremes. This plan is designed to ensure that, in any situation that UNFICYP is forced to face, an orderly withdrawal can take place. It therefore covers two situations.
a. Where sufficient advance warning and time is available to execute a phased withdrawal of the Force to its fly out locations.

b. Where the internal situation is such that interference with the withdrawal can be expected, little or no advance warning of the end of the Mandate is given and a rapid withdrawal is necessary.

Scope of the Plan

4. The plan is divided into 4 phases, orders for the execution of which will be issued by HQ UNFICYP. These phases are:

a. **PHASE 1.** Units concentrate into not less than company groups, with the primary object of securing the safety of the Force and all UN personnel.

b. **PHASE 2.** Withdrawal of units from their peacekeeping positions to base camps. This phase will primarily affect NICOSIA ZONE.

c. **PHASE 3.** The phased withdrawal of the forces to transit camps in AKROTHI and DEKELEIA British Sovereign Base Areas, if local conditions necessitate this.

d. **PHASE 4.** The bringing in of stores of both UN and British origin and the return of the force to its home stations by air and sea.

5. All four phases may not be necessary. Phases will be ordered by HQ UNFICYP collectively, or to particular ZONE/DISTRICTS separately, according to the conditions prevailing at the time. Examples are given below:

a. If conditions remain quiet and contingents are able to use NICOSIA Airport for the fly out, only Phases II and IV will be required.

b. In the case of serious inter-communal strife with or without outside intervention, all four Phases may have to be ordered.

Assistance from British Sources

6. Assistance in the move of the force and its administration in the SBAs will be given from British sources. However, should the move of the Force coincide with the move of non-Cypriot Nationals to the SBAs, the scale of the transport assistance possible will be drastically reduced and the force will have to rely on its own resources when outside the SBAs.

UN Civil Police

7. Instructions for UNCTIVPOL are also included in this plan.

UN Civilian Officials and Staff

8. Plans for the evacuation of the Political HQ and civilian staff of the Military HQ located at Wolseley Barracks, should this be necessary for their personal safety, are included in this plan.

Order of Battle

9. See Annex 'A'
10. The aim of this plan is to lay down the procedure for the orderly withdrawal of the United Nations Force from Cyprus to its home stations.

PHASE I
(CONCENTRATION INTO COY GPS)

11. In the circumstances of serious intercommunal strife in villages in circumstances where UN tps are NOT to interpose themselves in such a way as to endanger their own security, BUT where a requirement to man the Green Line still remains.

a. KOPHINOU/AIYIOS THEODORUS pl gp will withdraw direct to area Greek Mixed School Gr 273409.

b. 'B' Coy will thin out on Green Line and pull back elements to Greek School Gr 273409. Posts on Green Line will be held at reduced strs until further UN orders.

c. 'A' Coy will thin out on Green Line and provide advance party for mov to SBA DHEKELIA to prepare for reception of main body. Posts to be held at reduced strs until further UN orders.

d. Armd C Gp. Cover all withdraws. Provide mob res. Tp Loc at KOPHINOU to be now loc at 'B' Coy Hqrs S. LARNACA.

e. L.Gs. L.Gs are requested to continue to provide cover for withdrawal of KOPHINOU/AIYIOS THEODORUS gp if the situation warrants it.

f. Non essential stores to SBA DHEKELIA.

Tasks.

12. The tasks which the Force will be expected to undertake during this phase, are, in order of priority:

a. The safety of the Force and all UN personnel.

b. Assistance, where required, in the evacuation of non-Cypriot Nationals.

c. The continuation of such peacekeeping tasks as are possible.

d. Refugee Control.

CONCENTRATION.

13. Coy gps incl Armd C detachments must be prepared to hold out in their posns for up to 7 days and detachments must be provisioned accordingly. Units are to be prepared to execute either Phase II or Phase III, at the conclusion of Phase I.

14. The Austrian Field Hospital is to be prepared to move into the HQ UNFICYP area and to operate from there. (For info).

Local Defence

15. Units and detachments are to be responsible for their own local security.
Evacuation of Non Cypriot Nationals

16. This phase may coincide with the evacuation of nationals of various nations, the majority of which are likely to be British. Such assistance may include:
   a. Provision of Escorts.
   b. Guarding of Evacuation routes (LARNACA - DHEKELIA).

Evacuees will be expected to provide their own Tpt. Tpt and food from UN sources will not be available. In case of difficulty or interference this task may be given priority a.

Peacekeeping Duties.

17. Peacekeeping duties, insofar as they are possible, are to continue.

Control of Refugees.

18. Large numbers of refugees can be expected during this and subsequent phases. They are likely to converge on the SBAs, the UN Force locations and NICOSIA Airfield. District HQ will arrange for Refugee Collecting Centres for each community and will be prepared to offer their protection. No facilities can be provided for feeding. DISTRICT HQs will also arrange for the handing over of control of refugee centres to local authorities during Phase 1. (Details later).

PHASE II.

19. a. 3 Inf Gp will regroup in the vic of the Bpe Pass. 'A' Coy Gp Hqrs and Cty remain in present locs. 'B' Coy will withdraw to GR Mixed School GR 273409.
   b. 3 Inf Gp will continue Phase 1 peacekeeping and other duties as ordered by HQ UNFICYP.
   c. Reconnaissance and preparation for Phase III i.e., withdraw to SBA DHEKELIA.
      (1) Routes to be signposted by MPC
      (2) " " improved by Engrs with special reference to
           AR SOUVAS GR 291 439 and LIVADHIA GR 285445, in the event
           of Main Rd LARNACA DHEKELIA being out of action.
   d. Stores to SBA DHEKELIA only minimum essential stores to be retained.

Local Protection

20. a. 'B' Coy will move SALT LAKE Rd. - BPE PASS. Armd C Tp will provide local protection.
   b. If interference with 'B' Coy is expected, vehs are to move in pairs. In sensitive areas convoys are to consist of not less than three vehs. All personnel are to move with arms.
   c. O/C A Coy will co ord the local def of the BPE PASS area to incl Hqrs Coy and pl of B Coy. He will plan for arrival of balance of B Coy and Armd C Gp. He will keep open the roads LARNACA DHEKELIA and LARNACA NICOSIA to assist any UN evacuation plans and evac of Non Cypriot families. Under comd 1 Tp Armd C Gp.
UN Force Responsibilities.

21. a. In the event of severe inter communal strife increasing in intensity, it may be necessary to initiate Phase IIII before the end of the UN Mandate. In this case the duties of the Force as laid down for Phase I are to continue for as long as practicable.

   b. In the event of the Mandate ending during Phase I or before Phase I has become necessary, Phase II will be ordered immediately.

Preparations during Phase II

22. This Phase represents the first stage in the evacuation of the Force from CYPRUS. During this Phase, therefore, contingents are to be responsible for:

   a. The return of all articles hired locally by units and individuals.

   b. Preparation of all stores, equipment and vehicles for Phase III (or Phase IV). Contingents should return as much non-essential stores and equipment as possible during this Phase. Arrange to return direct to SBA.

Nicola Airport

23. a. NICOSIA Airport consists of:

   (1). The British Retained Site, which comprises the RAF Station Buildings including that part occupied by HQ UNFICYP and NICOSIA ZONE Units (less the HQ UNFICYP Offices and hangar).

   (2). A Joint User Area, comprising the hard standings, the runways and the HQ UNFICYP Offices, the hangar and its external hardstandings.

   b. Defence of the Airfield is the responsibility of the RAF and plans exist for reinforcement if required. The RAF can be expected to hold the Airfield until the evacuation of families is complete, but not necessarily thereafter, such action would leave the airfield at the disposal of the local factions and its use for the evacuation of the UN Force might prove to be hazardous. HQ NICOSIA ZONE will therefore be prepared to assist in the defence of the Airfield and will prepare plans for this in conjunction with RAF NICOSIA. HQ LARNACA DISTRICT will be prepared to evacuate by other airports.

Australian Civil Police.

24. HQ LARNACA/DISTRICT will be responsible for the provision of accommodation, feeding and evacuation of Australian Police. They will R.V. initially at this HQ.

PHASE III

General

25. This Phase will consist of:

   a. The phased withdrawal of the Force from its Phase I/II locations to transit accommodation in the SBA DHEKELIA if the local situation requires.

   b. The final closing of Contingent Camps.

   c. The take over of accommodation in the SBA (DHEKELIA).

Responsibilities

26. HQ UNFICYP will be responsible for:
Responsibilities (Contd)

a. Issue of instructions for the implementation of Phase III.
b. Control of priority of movement.
c. Coordination of withdrawal with HQ CYPRUS DISTRICT.
d. Physical movement and closing down of the HQ UNFICYP in NICOSIA and re-opening in DHEKELIA.

27. Units will be responsible for:

a. Coord of route reconnaissance and signposting where required. Familiarisation of drivers with routes.
b. Orders for and control of movement.
c. Route and convoy protection.
d. Mental preparedness for men without giving away Security. Drills for packing. Rehearsals of the drills. S.O.Ps for move to be made out.
e. Local protection. Mov table will be issued later.
f. Closing of Camps.
g. Withdrawal of all stores, equipment, vehicles and camp structures issued to them and their units.
h. Take over of transit accommodation allotted in SBAs.

Location in SBAs

28. To camps in DHEKELIA SBA.

a. HQ UNFICYP 
b. HQ NICOSIA ZONE.
c. Canadian Contingent
d. Danish Contingent 
e. Finnish Contingent 
f. 40 Irish Battalion
g. 3 Irish Infantry Group 
h. Austrian Medical Unit 
j. UNCIPO Contingents in NICOSIA ZONE, FAMAGUSTA, LARNACA DISTRICTS.

(NOTE: Allotment of Camps will be issued later). Camp 'A' provisionally allotted to 3 Inf Gp.

29. Coy Comdrs will arrange to visit their camp sites as soon as possible through OPS 3 Inf Gp.

30. Contingents (incl HQ UNFICYP) are to take over camps in Phase IIII direct from the British Forces and are to hand them back under similar arrangements in Phase IV. For detailed instructions see Annex 'E'.

31. Contingents will require all the tentage and amen stores, now on issue to them, for use in SBA Camps.

32. LARNACA DISTRICT HQ with which UNCIPO Contingents withdraw will be responsible for providing for them in their SBA Camps.

Organisation of Withdrawal

33. A normal military phased withdrawal will be carried out. 3 Inf Gp will therefore require.
Organisation of withdrawal (Contd)

a. **Advance parties** to take over and prepare accounts in the SBAs and reception of the Contingent main body and rear party. 'A' Coy to provide.

b. **Main Body** Divided as necessary into protected convoys of suitable size. Order of March 'A' Coy, Bn HQ and HQ Coy and B Coy (incl Australian Police) Rear Party.

c. **Rear Party** For final closing of Camps. A Coy to provide. NO stores to be left behind or destroyed.

Withdrawal Routes:

2. **LARNACA-DHEKELIA** open. Armd C Coy (minus) will cover withdrawal. 3 Irish Inf Gp.

Protection of Routes:

34. a. Armd C Coy are responsible for route protection.

b. On arrival in SBA DHEKELIA, 3 Irish Infantry Gp are to be prepared, on orders from HQ UNFICYP, to assist HQ NICOSIA ZONE in route protection.

Transport:

36. See Annex 'K'

P.O.W.

37. MPC to arrange cages. They will be disarmed by 3 Inf Gp if authorised to do so.

A.R.P.

38. Passive and active measures to be taken depending on the situation. UN Camps to be clearly designated as UN Camps by signs visible from both ground and air by day and night.

Phase IV:

39. Phase IV will consist of:

a. Hand in by contingents/units of equipment stores and vehicles
   (1) Issued from British sources.
   (2) Issued by UN HQ.

b. Preparation and departure of Contingents/units/Individuals and their baggage, stores and vehicles from CYPRUS by air and sea.

c. Assistance, where applicable, in the control, administration and medical care of refugees in the SBAs.

d. Departure of Rear Parties.

40. Phase IV will take place either in Phase II1 locations, if the fly out is to take place from NICOSIA Airport, or in the SBAs. In the latter case fly out will be from AKROTIRI/DHEKELIA.
41. Disposal of Contingents sea tails will take place through Famagusta port, if possible. Alternative arrangement will be available for ships to anchor off Dhekelia and for stores and vehicles to be ferried to them.

ADMINISTRATION AND LOGISTICS

General

42. The existing system of maintenance will continue during Phase I and II. There will be no resupply during Phase III. In phase IV, if in the SBAs, Contingents will draw direct from British Base units in Dhekelia/IPISKOPI.

43. Where resupply by road is interrupted supply by air will be arranged by HQ UNFICYP with HQ CYPRUS DISTRICT.

44. The importance of handing over the stores, etc will take place in Phase IV in the SBAs, but as many stores as possible should be returned prior to Phase III. In the event of interference with the movement of the force in Phase III being such that these stores cannot be moved, arrangements will be made by HQ UNFICYP for their centralisation in the present HQ UNFICYP area for Contingents in NICOSIA ZONE and PAPHOS ZONE. Only in the last resort are stores and equipment to be abandoned in unit locations. In every case authority if first to be obtained from HQ UNFICYP. All stores are to be brought back.

Material and Services

45. Phase III will be carried out in unit transport, supplemented by load carrying transport from the SBAs, if this is available at the time. In order to assess the transport requirement the return required by para below, accurately completed is important.

46. Ammunition and Explosives

   a. Reserves I X 1st Line holding of all types is to be completed prior to Phase I.

   b. Resupply Normal in Phases I and II.

   c. Issued from British Sources. Are to be handed in in Phase IV.

   d. Issued from National Sources. Will accompany contingents to home stations and are to be stored and guarded by them in Phase II and IV.

   e. British Contingent. Units reverting to command CYPRUS DISTRICT are to retain their amo and explosives.

47. a. Reserves. Units are to hold 100 miles per vehicle in packed form.

   b. Resupply. Normal in Phases I and II. In Phase IV units will draw direct from British supplies in the SBAs. Any reserve remaining is to be expended before further drawings are made.

   c. Bulk Holdings by Units.

      (I) Units are to run down supplies as far as possible by the end of Phase III. All vehicles are to leave in Phase III with full tanks and carry their reserve.
47. (2) A certificate is to be prepared prior to departure in Phase II or III as appropriate, showing the number of gallons remaining in bulk petrol containers on departure. This certificate is to be handed in to CYPRUS DISTRICT in Phase IV.

Transport

48. a. To enable planning for Phase III to be completed a return on the form of Annex 'U' is to be made at HQ UNFICYP (LOG) not later than 11 August. It is important that this return is completed as accurately as possible. This has already been sent by this unit. See Annex 'U'.

b. Replacement. Replacement of unserviceable vehicles will cease at the end of Phase II.

c. Pooling of Load carrying Transport. If additional transport for Phase III is not available from British sources, it may be necessary to pool contingent load carrying vehicles under central control by HQ UNFICYP (LOG) (LOG).

Engineer and Works Services. Other than urgent operational requirements no engineer tasks or works services are to be initiated once Phase I has been ordered. Works in progress will cease at the start of Phase I except where operationally essential.

Repair, Recovery and Relocation of Vehicles.

50. a. Existing system will continue in Phase I and II.

b. Contingents will bring all their vehicles with them in Phase III, towing unserviceable vehicles with them where practicable.

Local Purchase.

51. Local purchase will cease at the end of Phase II, unless fly out is from Nicosia airfield in which case it may continue in Phase IV.

Local Contracts and Hirings.

52. a. Local contracts arranged for contingents by HQ CYPRUS DISTRICT will be terminated under arrangements made by HQ CYPRUS DISTRICT.

b. Local contracts or contracts arranged by Contingents direct with local contractors or individuals are to be terminated and goods returned, prior to Phase III, or Phase IV if Phase III is not ordered.

c. Contingents are to ensure that any articles hired by individuals direct with local contractors or individuals (e.g. refrigerators) are returned in Phase II. Individuals are to be advised of their legal responsibilities in this matter. (UNFICYP /F/22/18 dated 8 August refers.)

d. Contingents and individuals are to obtain certificates of final clearance in respect of any obligation terminated by them to avoid unwarranted claims being made against them or against the UN after their departure from Cyprus.

Closure of Contingent Camps.

53. 'See Annex 13'
Return of Stores, Equipment and Vehicles issued from BRITISH Stores.

54. See Annex "C"

Return of stores Issued or Purchased by UN.

55. i. See Annex "D"

Take Over/Hand Over of Camps in AKROTIRI/DEKELIK.

56. See Annex "E"

Medical Evacuation and Hospitalisation

57) (To be inserted)

59) Civil Affairs

60. Refugees.

a. Larnaca DISTRICT is to be prepared to:

(1) Arrange in Phase I for Refugee Collecting Centres in their areas, in which refugees can be offered protection. (Details later).

(2) Arrange for refugees to be handed over to local authorities prior to Phase III.

(3) Assist in refugee control in Phase IV if in SBAs.

b. Food will not be available from UN Military sources, but water should be provided and latrine facilities.

c. HQ NICOSIA ZONE is to coordinate its arrangements with RAF NICOSI.

Non Cypriot Nationals

61. ZONE/DISTRICTS are authorised to assist the British and other authorities in the evacuation of Non-Cypriot Nationals. Such tasks will include protection of convoys and keeping open of routes. It will not include provision of transport or food.

Miscellaneous

62. Returns.

a. Normal Returns. Returns required by existing UNFICYP instructions and SOPs will continue in Phases I to IV.

b. Special Returns.

(1) HQs and Contingents are to complete the proforma at Annex "F" showing the number of 3 Ton Truck loads required to lift the Contingent complete with all its stores, equipment accommodation stores and camp structures. This return is required for planning purposes for the movement of the Force in Phase III. The return should reach HQ UNFICYP by 17 August.

(2) Returns required for air and sea movement will be issued later.
Return to Home Stations by Air.

63. See Annex 'G'

Return of Stores and Vehicles to Home Stations by Sea.

64. See Annex 'H'

Command and Signal

Command.

65. The existing chain of command will continue in Phase I - IV except as stated elsewhere in this plan, or as varies by HQ UNFICYP according to circumstances at the time.

66. All contingents are to remain under command of the designated Commander or UNFICYP until released by him to Command of National Forces. This will continue to apply after the end of the Mandate.

Location of HQ's

67. HQ UNFICYP. Remains present location until Phase IV, unless Phase IIII is ordered when it will move to DHEKELIA. Commander and personal staff may move to AKROTIRI/EFESKOPI.

68. HQ NICOSIA ZONE. Moves to HQ UNFICYP area in Phase II. If Phase IIII is ordered moves to DHEKELIA.

69. HQ LARNACA DISTRICT. Moves to SBA DHEKELIA in Phase IIII.

Signal.

70. (To be inserted).

Codewords

71. The codeword for operation is MARMALADE.

Meaning - SECRET. Codeword - RESTRICTED.

72. Phases will be ordered by codeword followed by the Phase followed by the date/time to be initiated (e.g. MARMALADE Phase I 201 200 B Sep 64.)
(ANNEXES. (To be inserted later)

Dist List B
PLAN FOR WITHDRAWAL OF 3 IRISH INF Gp - UNFICYP (SUMMARY)
OF LARNACA

1. **Info.** This plan is based on UNFICYP/OPS/158 and the conc and withdrawal of the UN force in CYPRUS, dated 14 Aug 64, issued from this HQ together with Amts 1 and 11.

2. **Plan.** On receipt of instrs to withdraw, the following plan for a phased withdrawal will be put into effect. This plan incls the Australian police.

   a. **Phase 1 (Plan BRAVO - see para 1)**

      (1) Units will conc into det of NOT less than coy str. They will hold 5 days' res.

      (2) KOPHINOU/AYIOTUS/TEODORUS pl incl sec armd Cs will withdraw direct to area B Coy S LARNACA.

      (3) B Coy will thin out on GREEN Line and pull back elements to present Coy area. Posts on GREEN Line will be held at reduced strs until further UN orders. Coord local scheme of def in this area with Gp HQ scheme of def. B Coy task.

      (4) A Coy will thin out on GREEN Line and provide advance party for mov to SBA DHEKELIA. They will also prepare refugee camp. (See APPX 1). In sp one sec armd Cs.

      (5) Armr C Gp (minus one sec). Cover all withdrawals. Provide mob res. Sec loc at KOPHINOU to be now loc at B Coy HQ S LARNACA. In sp B Coy.

      (6) Non essential stores to SBA DHEKELIA.

   b. **Tasks**

      (1) Safety of force and all UN pers.

      (2) Assistance where required, in the evac of non Cypriot nationals.

      (3) The cont of such peace keeping tasks as are possible.

      (4) Refugees etc. (See APPX 1).

   c. **Phase II (Plans ALPHA and BRAVO).** This phase will consist of the withdrawal of coy gps and the ctab of bn gps in existing areas where this is necessary for the safety of the force. Prepared to move to SBA DHEKELIA.

      (1) 3 Inf Gp (- A Coy) will regroup in vicinity of BYE PASS.

      (2) Complete will proceed to area recce for refugee camp and dispose themselves as per APPX 1. They will remain under cmd 3 Inf Gp (Irish) UN.
152
RUNDA

(3) B Coy will withdraw to area vacated by A Coy. Make a strong pt of the area of the NO PASS. Coord with HQ Coy and armd C gp. Depending on the sit, however, B Coy may be required to move direct to SBA.

(4) Preparation for the withdrawal of remainder of 3 Inf Gp to Camp A DHEKELIA will cont.
   a) Routes are to be signposted by MPC.
   b) Routes are to be improved by engrs with special ref to AX SOUVAS GR 291439 and LIVADHIA GR 285445 in the event of Main Rd, LARNACA DHEKELIA, being out of action.
   c) Liaise with 33 Fd Sqn (RE).

(5) Stores to SBA DHEKELIA.

(6) Armd C Gp - route protection.
Tasks as for b (above), with special ref to 2. b. i.e., assistance where required in the evac of non-Cypriot Nationals.

d. Phase II - Cont and complete phased withdrawal of 3 Inf Gp to Camp A DHEKELIA. VOs depending on the sit and the degree of implementation of 2. b. (2). Phase II and Phase III may coincide.

e. Phase IV - Hand in of stores issued from UN and British sources, the closing of camp and the return of the force to its home stas by sea and air.

3. EXECUTION

a. Tps will withdraw to required locs on VOs from CC Gp.
b. Cmpl - Cmpl respective posts will cml coins on the march.
c. Ttp cml. Sub unit cml to NO PASS area - MPC.
e. Security on march. Each coy responsible for its own local protection.
   (1) One sec armd C in sp A Coy.
   (2) One sec armd C in sp B Coy.
   (3) One tp armd C Gp - res.
f. Speed and density. 15 mph cross country - rd 30 mph. 50 yds between vehs.
g. Med. Med team each coln. Cas evac to BMH DHEKELIA.
h. POL. 5 days' sup.
i. Sups. 5 days' res.

RÚNDA
k. **Ann.** 1st line - Prepare to op without sup for 5 days.

l. **Tota.** As per APPX 4 and 5 att.

4. **Comms.** See Sig APPX 3 att.

5. **Stores.** As per UNFICYP/OPS (A) 158. QM to note Q content of this document.

6. **Action in core area.** Local security; flank protection; protection from air attack; cam of vehs; waterpts protection; san; welfare of tps; recreation; info for tps.

7. **Liaison with Loc Auth.** 3 Inf Gp (Irish) will liaise with all loc auths and assist in marshalling refugees to UN approved refugee camps. See APPX 1.

8. **Likely other tasks**
   a. Assist in evac of British families from LARNACA.
   b. Keeping rds open. Prepared on orders from HQ UNFICYP to assist (together with 40 Irish Bn) NICOSIA Zone in route protection.
   c. Disarm certain parties where properly auth.
   d. **Rv.** Since the UN will NOT be at war with any faction taking part in fighting on the island, there can, from the legal pt of view, be NO Rv. However, it may be necessary to take steps to dispose of idvls or parties, who interfere with the withdrawal or security of the Force. In this case idvls may be disarmed and their arms destroyed. They may be held in custody temporarily and then released sufficiently far from the unit loc to prevent further interference.

9. **Codewords.** As per APPX 2 att.

---

LT COL

(T. McDonald)

OFFICER COMMANING, 3 INFANTRY GROUP (IRISH)

Auth

(J.P. Duggan)

OPERATIONS OFFICER, 3 INFANTRY GROUP (IRISH)
SITUATION

1. **Threat.** The direction of the threat is mainly from N and NW, consisting of:-
   a. Parties (max 20+ armed men bent on terrorism, looting or sabotage.
   b. Thieves.
   c. Infiltration into the camps.

2. **Main troops.** A Coy, with in support, one sec armd Cs.

MISSION

3. To protect the refugee camps from hostile threats and infiltration.

EXECUTION

4. General
   a. To man sec protection posts at critical points on the high ground.
   b. Use of mob patrols.

5. **Task Force.** Coy HQ and 3 Rifle Platoons with sufficient transport to carry out patrols.

6. **Protection posts**
   a. Sec post area 367493 to obs N and NE.
   b. Sec post area 363493 to obs N and NW.
   c. Sec post area 356437 to hold PYLA track and obs N.
   d. Sec post area 356487 to obs N and NW.
   e. Sec post area 354484 to obs NW and W.

**Security**

9. Codewords are graded UN RESTRICTED.

10. Meanings are graded UN SECRET.

**Initiation of action**

11. Operation MARMALADE will be initiated by signal as in the following examples:-

   a. Execute MARMALADE ALPHA, PHASE 11, 21 1200B SEP 64.

   b. Execute MARMALADE BRAVO, PHASE 1 21 1200 B SEP 64.

12. Phases in MARMALADE BRAVO may be ordered by Zones/Districts separately according to the situation at the time.
1. **Phase 1.** During this Phase comms will be maintained by means of the media outlined in OC No 1, 64. The scale of comms will be similar with the following exceptions:
   a. Comms with posts now occupied will be discontinued as posts are evacuated.
   b. Additional veh and HF sets will be provided as required.

2. **Phase 2.** As for Phase 1.

3. **Phase 3**
   a. Existing comms systems will be kept in operation as long as possible, or, until Gp HQ moves to SBA DEMELIA.
   b. The VHF (WS C 43) and teleprinter links with HQ UNFICYP will be re-established in SBA as soon as possible after closing at LARNACA. If possible, one link shall function from each locus, simultaneously.
   c. Comms, via HF link (C11/R210) shall be maintained with HQ UNFICYP on a full-time basis on a frequency of 2,700 Kc/s.

4. **Phase 4.** The unit shall make use of comms systems provided by SBA Comd, supplemented, where feasible, from unit resources.

**Note:** (a) 1 Landrover GS FFR damaged - awaiting replacement.

2. **Troop Carrying Capacity**

- a. Landrovers FFR X 4 px, 10x4 = 40px
- b. " GS X 6 " 10x6 = 60 "
- c. 3 ton Bedford, GS X 22 px, 12x32 = 384 "
- d. 1 " Austin, GS X 14 " 5x14 = 70 "
- e. 2 " Armoured Pers Carr X 12 " 3x12 = 36""
- f. 3 Amb X 8 px, 1x8 = 8 "
- g. 3 " Bed Water veh X 2 " 1x2 = 2"
- h. 1 " " X 2 " 3x2 = 6"
- i. PANHARD armoured GS X 3 " 8x3 = 24"
- j. **Total** 620

3. **Allotment of Trp**

- a. Passengers to be carried Total 400 Ptx
- b. Lift capacity available, para 2 " 630 "
- c. Balance - surplus capacity " 230 "

---

**RÚNDA**
This balance of 230 Fx is equivalent to (230 divided by 32) 3 ton Bedfords = 7.3 ton Bedfords. Thus we have only a cargo capacity of 7 x 3-ton vehs available from Organic Unit Tp.

4. Loading requirement

a. GP HQ and HQ Coy - No 3 ton loads - 32
   A Coy do - 13
   B Coy do - 13
   Cav (excl eqpt in FAMAGUSTA) do - 2
   LARNACA Area - total = 60 x 3-ton trucks.
   *(FAMAGUSTA area - Cav Spares - 10 x 3-ton loads) = 70 3-ton.

b. Additional transport required

To lift all stores in one mov - (60 - 7) 3-ton vehs = 53 x 3-ton vehicles.

c. Mobile crane, 1 ton capacity - for heavy eqpt.

Breakdown of stores

5. The following are the number of three ton loads to be returned on evacuation:-

   a. To home country - IRELAND - 3-ton loads - 51
   b. To UN do = 1
   c. To UK (SBA depots) do = 18
   TOTAL 3-ton Loads = 70

x 51 x 3-ton loads to home country includes 41 x 3-ton loads in LARNACA area PLUS 10 x 3-ton loads - CAV SPARES IN FAMAGUSTA.

OF "APHRODITE"

Dear Eric,

1. I attach herewith for your information a proposed provisional outline plan concerning our rotation.

2. O/C 'L' Coy and one Platoon Cond will bring bedding and rations to stay one or two nights in KTIMA with you commencing Sunday 29 Nov.

3. O/C 'B' Coy and one Platoon Cond will bring bedding and rations to stay one or two nights in POLIS with your platoon up there commencing Sunday 29 Nov.

4. A recce party of four Officers (Ops, Int, QM, O/C HQ Coy) will go by helicopter for a day on Sunday to POLIS and KTIMA.

ETD LIMANAC 290830. ETD KTIMA 291500.

Will see you then for a chat about when you will send up your parties.

Thanks for all your kindness and co-operation which we hope to reciprocate.

Yours Sincerely

RÚNDA

(J.P. DUGGAN) COMDT
OUTLINE ROTATION PLAN (PROVISIONAL)

1 Irish (Larnaca) with Swedish Coy in KTIMA and POLIS

   Buses for Tp carrying.
REDEPLOYMENT OF IRISH AND SWEDISH CONTINGENTS

Op APHRODITE

Map: CYPRUS Edition 5 GS Gs, 1:250,000 Sheet No - 36 - 6/7
1:50,000 Sheets R and S.

SITUATION

1. For some time it has been considered to redeploy UNFICYP in a better way. It has been found that UNFICYP is short of troops in PAPHOS Zone which is a vast area with a very difficult feature and that it would be desirable to establish two Bn HQ in the present Zone. It has, therefore, been decided to establish PAPHOS DISTRICT and MORPHOU District with separate HQ instead of the present PAPHOS Zone and to establish FAMAGUSTA ZONE including the present FAMAGUSTA and LARNACA Districts.

MISSION

2. 3 Irish Inf Gp will redeploy and establish PAPHOS District in order to keep the Peace in that area.

EXECUTION

3. a. Gen. PAPHOS District coincides with the civil adm district of PAPHOS. 3 Inf Gp, by phasing in pl's, will relieve No 3 Coy 28 Swedish Bn.

b. Redeployment

(1) 3 Irish Inf Gp to take over PAPHOS District as follows:

(2) Tasks

(a) A Coy

i. to establish Camp in site N KITIMA. Camp Comdt CC A Coy.

ii. to take over op duties of present coy (-) in KITIMA. To arrange scheme of def.

(b) B Coy

i. to establish camp in vicinity CLUBHOUSE in POLIS. Camp Comdt CC B Coy.

ii. to take over op duties of present pl in POLIS. To arrange scheme of def.
(c) HQ Coy

i. To set up Gp HQ in area at present occupied by No 3 Swedish Coy. Camp Comdt OC HQ Coy.

ii. To estab messes, canteen, RAP, Guardroom, in this camp.

iii. To take over buildings to augment the requirement to estab a mil camp in this area.

iv. To prepare and implement a scheme of def for this camp.

(d) Arm C Gp

i. Arm C Gp loc (for the present) in A Coy area.

ii. One sec in sp A Coy.

iii. One sec in sp B Coy.

iv. One sec in sp HQ Coy.

v. One sec in res.

(3) UN Civilian Police. The Australian Civilian Police will be deployed in PAPHOS, whereas the Swedish Civilian Police will be deployed in FAMAGUSTA Zone. The redeployment will be completed within D and D + 2 as arranged by Police Advisor. 3 Inf Gp will provide tpt for the mov.

(4) Joint pat. In the present LARNACA and LIMASSOL Districts will be redeployed as follows:-

PAPHOS and LIMASSOL Districts Capt Doug Murray/Canada, Mr. TINATI, Mr. MARTIN GANO.

The redeployment will be completed within D and D + 3 by arrangement with Swedish bn. PAPHOS district will coord directly with the LIMASSOL district concerning the joint pat in PAPHOS and LIMASSOL districts.

(5) Ops (economic). To be issued by HQ UNFICYP.

c. Timings. The redeployment will be scaled as follows. Op commitments will be scaled down accordingly so that sudden voids will be avoided.

(1) Recce

(a) A Coy R Party to KITIMI (overnight) Sunday 29 Nov

(b) B Coy R Party to POLIS " " " + "

(c) Rations and bedding for a. and b. " " "

(d) Rd recce for Cav, MTO, MPC " " "

(2) Thin out procedure

(a) FL B Coy (Lt Dreaper) posted to 41 Bn Two Mile Point, FAMAGUSTA Monday 30 Nov

(b) Surplus stores returned to SBA
(c) Draw additional tentage and Engr Stores  
    Mon 30 Nov

(d) Board of Survey  

(2) Working parties  

(a) Engr working party + stores + rations, etc to KITIMA (to incl RE sec from 2 Dec 64)  
    Tue 1 Dec and Wed 2 Dec.

(b) Pl A Coy (+) + Cav det + stores + rations to KITIMA  
    Tue 1 Dec.

(c) Pl B Coy + stores + rations to POLIS.  
    Tue 1st Dec or Wed 2 Dec.

(d) ETD LARNACA 0800 hrs.

(4) 'Thin out' cont  

(a) All coy + commence evac of pers and stores from Villas  
    Wed 2 Dec.

(b) Commence hand back of villas NOT required by Swedish Bn  
    Wed 2 Dec.

(5) Stores move. Engr and Coy stores from LARNACA to KITIMA and POLIS  
    Wed 2 Dec and Thu 3 Dec.

SIT

1. 3 Irish Inf Gr has redeployed and established the PAPHOS DISTRICT.

MISSION

2. 3 Irish Inf Gr will keep the UN Peace in the PAPHOS DISTRICT and assist in bringing about a return to normal in that area.

EXECUTION

3. Plan Outline. PAPHOS DISTRICT will be divided into two company areas. SOUTH to 'A' Coy; NORTH to 'B' Coy. Company Comds maintaining close and frequent contact with Muktar will be aware of difficulties, anticipate problems and so prevent incidents arising.

TASKS

4. a. 'A' Coy

(1) Locs as per Locstat Annx 'A'. Orders to be made out for each post and signed by the Coy Comdr.
(2) Keep the Peace and assist a return to normal conditions.
(3) Provide escorts as required. Encourage travel without escorts.
(4) Provide a comprehensive system of patrolling (See Annx 'B'). Proposed itinerary of coming weeks patrol pattern to be submitted for approval and co-ordination to this HQ on the previous Friday. Record data collected on patrols in village reports. Liaison with CHESHIR ES LINNAISSL DISTRY.
(5) Produce timely and continuous information - military and economic.
(6) Produce a going report of roads in the area based on local knowledge. Roads known to be doubtful are NOT to be used.
(7) Sub units are to be rotated within the area.

b. 'B' Coy

(1) Locs as per Locstat Annx 'A'. Orders to be made out for each post and signed by the Coy Comd. Special attention to Security in each post.
(2) Keep the Peace and assist a return to normal conditions.
(3) Provide escorts as required. Encourage travel without escorts.
(4) Provide a comprehensive system of patrolling. See Annx 'B'. Proposed itinerary of coming weeks patrol pattern to be submitted for approval and co-ordination to this HQ on the previous Friday. Record data collected on patrols in village reports. Liaison with 41 Bn MORPHOU DISTRY.
(5) Provide timely and continuous information military and economic.
(6) Produce a going report of roads in the area based on local knowledge. Roads known to be doubtful are NOT to be used.
(7) Sub units are to be rotated within the area.
(8) Special attention in each post to:
(a) Security.
(b) Care, custody and use of ammo
(c) Storage of ammo.
(d) Fire precautions.

(c) HQ Coy
(1) Locs as per locstat (See Annex 'A'). Orders to be made out for each post and signed by the Coy Cmd.
(2) As per Operation Aphrodite. 3 b (c).
(3) Special attention in each post to:
(a) Security
(b) Care, custody and use of ammo
(c) Storage of ammo
(d) Fire precautions

(d) Arm Car Grp
(1) One sec in sp 'A' Coy. Loc 'A' Coy area.
(2) One sec in sp 'B' Coy. Loc 'B' Coy Hqrs POLIS area.
(3) One sec in sp in order of priority. (One car on Stand To
   duty at HQ Coy loc
   from 16.30 hrs to
   07.30 hrs daily.
   (a) 'HQ' Coy
   (b) 'A' Coy
   Loc in 'A' Coy area.
(4) One sec in res. Loc 'A' Coy HQ
(5) Secs will be rotated.
(6) Arm cars will travel ONLY on ALL weather hard surface roads. Comd
   Arm Car Grp to produce a going map of roads for PAJAHMED traffic
   ability.
(7) Special attention to security and maintenance.
(8) Assist in maintaining communications. (See Annex B & C).
(9) Assist coy's in manning static outposts where 'going' is considered
   suitable and safe.
(10) Provide mobile res and Stand Too parties in camp areas.

e. UNCIWPOL
(1) Method of Operation. Australian Police UNCIWPOL is deployed in the
   PAPHOS DISTRICT and operates in direct support of the District
   Commander, Lt.Col. T.McDonald.
(2) Tasks. (a) to (e) Uniformed Branch. (f) to (k) Inquiry Branch.
   (a) Mans UN posts in sensitive areas.
   (b) Carries out patrols in addition to military patrols.
   (c) Carries out street patrols in towns and villages (sensitive areas)
   (d) Observes searches by Cyprus Police at road blocks.
   (e) Liaises as appropriate with Cyprus Police/Tk Cyp Police personnel
   (f) Inquires into incidents where Gk and Tk are involved with the
   other community.
   (g) Make special enquiries as necessary in conjunction with Cyprus
   Police/Tk Cyp Police personnel as appropriate.
   (h) Deals with enquiries relating to missing persons.
   (j) Carries out surveys, observations and makes assessments of a
   specialist nature.
   (k) Maintains records.
(3) Close liaison and co-operation will be maintained between
   HQ PAPHOS DISTRICT and HQ UNCIWPOL to avoid duplication of duties.

f. JOINT PATROL
Joint Patrol will work directly under Ops (Econ-mic) and maintain
close liaison with Ops 'A.' and 'B'.
4. **ECONOMICS**

(1) Assist in solving economic problems, alleviating hardships and bringing about a return to normal trading conditions.

(2) Some outstanding agricultural problems are:

(a) Citrus. Maintenance and harvesting of crops abandoned by thes.
(b) Water pumps, engines, agricultural machinery and implements left behind in abandoned areas.
(c) Payment for 1963/64 crop. (incl Carobs, Olives, Grapes and Almonds.
(d) Damage to vegetable gardens.
(e) Fuel.
(f) Spare parts.
(g) Fertilizers and fungicides.
(h) Plowing and Sowing in mixed and abandoned areas.
(i) Building Materials.
(j) Losses and difficulties encountered by animal owners.
(k) Cereal Crops (Cyprus Grain Commission)
(l) Vine products.
(m) Red Crescent Relief.
(n) Re-settlement of refugees.
(p) Food.
(q) Housing.
(r) Agriculture and Livestock generally e.g., inoculations of animals etc.
(t) Education
(u) General.

**CO-ORD INSTR**

5. a. See Daily Infsuna, Sitreps, Economic Reports.

b. **Patrol Areas.** Trace of proposed Sub unit Patrol Routes to be submitted to this HQ by Goy's and JPL for approval and co-ordination. These plans will lay down obj routes (based on going information), report lines, bounds, etc. Goy Gnds to vary routes to meet demands subject to clearance a day in advance by Ops 'A'.

**ADM.**

b. M.P. to co-ord UN signposting of routes and installations with particular reference to MANDRIA, STRAVROCOMO and ANADHIOU. To keep an up to date going map.

**COMMS.**

As per Sig Annex attached (Annex 'B'.)

Authy

_______

(J.F. DUGGAN) COMDT.

OPS OFFICER 3rd INFANTRY GROUP

_______

(T.McDONALD) LT. COL.

OFFICER COMMANDING 3rd INFANTRY GROUP.
MISSION
To establish and maintain communications system to enable 3 Inf Gp to fulfil its mission in PAPHOS DISTRICT.

DISTRIBUTION
General

a. Locations:

| 3 Inf Gp HQ       | KTIMA        | GR R190244 |
| 'A' Coy           | KTIMA        | GR R190266 |
| 'A' Coy           | N. MANDRIA   | GR R288190 |
| 'A' Coy           | STAVROCOMO   | GR R362259 |
| 'B' Coy           | POLIS        | GR R216555 |
| 'B' Coy           | ANADHIHOU    | GR R314436 |
| Armd Car Gp       | KTIMA        | GR R190266 |

b. Radio

(1) From HQ PAPHOS DISTRICT TO HQ UNFICYP - 1 VHF Link using Wrls Set C/43 and 1 HF Link using Wrls Set C/II/R210.
(2) 3 Inf Gp Command Net will link all locs mentioned in sub para 2 a above by HF Radios, type C/II and C/12.
(3) Village patrols and Joint Patrol will join the unit Command net as required, using Wrl Set C/12, or AM/GRG9 in the case of the Armd Cars.
(4) Local patrols will be equipped with VHF Manpack portable sets type Ws A 41 Ws 88 as required.
(5) One Signals Centre will function 24 hours daily at Gp HQ. (For Wrls diagram see Annex 'A' attached)

c. Line

(1) Private wires from HQ PAPHOS DISTRICT
   Voice ONE (I)
   Tptr ONE (I)

(2) Private Wire from HQ PAPHOS DISTRICT to POLIS.
   Voice ONE (I)

(3) Private wires from HQ PAPHOS DISTRICT to (a) 'A' Coy...Voice.. one
    (b) Armd C/Gp...Voice.. one.

(4) Public Exchange Lines (Voice)
   (a) From 3 Inf Gp to KTIMA Exchange (2) TWO 2251; 2281
   (b) From 'B' Coy HQ to POLIS Exchange (1) ONE POLIS 29
    NOTE.
    KTIMA Exchange operates a 24 hour service.
    POLIS Exchange operates from 08.00 to 12.00 and from 15.00 to 17.00

(5) Field Cable will be laid as required.

(6) A private wire using Field cable will be made from HQ PAPHOS DISTRICT to 'A' Coy camp.
d. Radio Frequencies.

   - (4) Guard Room.
Notes on the Employment of Comm Equipnt of Armd Car Group

Equipment

1. Each of the eight Armd Cars is fitted with radio equipment type NA/VRC10 while two of the eight are fitted in addition with radio equipments type AN/GRC 9.

Characteristics

2. a. Radio equipments type AN/VRC 10 have a frequency coverage of 38 to 55 Mc/s with a power of 15 watts and are classed as VHF. The frequency coverage corresponds exactly with that of WS A41, which equipment has a power output of only 5 Watt. The 'planning range' of this equipment is line of vision only. In this district this would mean a range varying from about 15 miles to less than one mile, unchanging by day and night.

b. Radio equipments type AN/GRC 9 are High Frequency sets with a frequency coverage of 2 to 12 Mc/s. These correspond approximately to WS C12 but have a power output of 15 Watts compared with 5 Watts of the WS C12. The 'planning range' of these equipments is about 15 miles by day in this area, and about 5 miles by night. The sets are not particularly badly affected by mountainous terrain and trials have verified that the equipments will give about 20 miles range when mounted on a vehicle. To quote an example, there is little difficulty in communicating with POLIS from the KTIMA area during daylight hours.

Possible Roles

3. a. The manning of static outposts such as STAVROKOMO.

b. Stand - to forces in camp areas.

c. Performance of local patrols within short distance of the camp areas.

d. Performance of village patrols at distances of up to 15 miles from Camp areas.

Considerations

4. a. 3 a and 3 d are possibly valuable roles but could only be satisfactorily performed by cars equipped with AN/GPC 9.

b. 3 b and 3 c are also very suitable roles and could be satisfactorily performed by cars fitted with Sets type AN/VRC 10.
## PATROLS SYSTEM

1. **1st COY**

   No fixed patrol routes. Routes as laid down from day to day by Coy Comdr. Pat Comdr however to clear the following days route each evening with Ops Officer to avoid duplication with Joint Patrol Leader and to ensure safety from going and trafficability point of view.

2. **2nd COY**

   For the purpose of patrols the Coy area has been divided into three sub areas as under:
   - No 1 area: Main Road POLIS/KTIMA to the West
   - No 2 area: East of main POLIS/KTIMA Road less No 3 area.
   - No 3 area: ANADHIOU locality which includes the following villages: PHITI, ASPROYIA, PANO PANAYIA, TRIMITHIA, MAMOUNDALI, KRITO MAROUTOU and KANNAVIOU.

Index to ANNEXs

'A' Prelim Adm Planning (QMs)
'B' Auditing and Stocktaking
'C' Transport & Transit Requirement (TDs) & Mov Table
'D' Advance 'arty 4 Inf Gp
'E' Programme on handover and mov table (to follow).
1. General. Prior to rotation, 3 Inf Gp will hand over to relieving unit all items of Ord, less personal weapons and equipment to be detailed later, all arms less in flight res, all items of Bk Ser, accommodation stores, tpt, POL and fuel, balance of grocery ration and res Compo rations - less designated res in flight ration packs, Engr equipment and installations; and all property and accommodation occupied at the time of rotation.

2. Personal arms or weapon, web equipt and designated personal ord item will be taken back with the individual to Ireland, together with one blanket for in-flight use.

   a. All ranks will be instructed to have their personal ord weapon and equipt, immediately available for hand in at the stores reception centre in Ireland. These items should NOT be packed in kit bags or suitcases.

   b. Coy and Cav Gp Commanders will have prepared in respect of each officer, NCO and men, three copies of a check list itemising the articles of ordnance and equipt which the individual will hand in at the Stores Reception Centre. This list will detail the Serial Number of all items having such nos.

   d. L.A. 116 will be prepared at Section C in respect of all personnel on each chalk in accordance with individual check list details. This record will be handed to the Officer i/c Chalk who will hand in same to the Stores Reception Centre where return of arms, equipment and ord will be checked against it. One copy of each LA 116 and one check list will be sent to CMI for retention.

   e. Blanket and ground-sheet if carried will be collected from each individual immediately on disembarkation from the plane.

3. Handover of Stores - Preliminary

   a. A Board of Survey consisting of Two Unit officers, Comdt. Hurley President and Comdt. McGann Member and UN Representative Major Coghill will make a final survey of National and other stores during the week ending 9th January 1964.

   b. U.S. items of equipt, ord, Bk service, etc will be returned to Gp HQ Stores prior to 31 Dec 1964.

   c. Audit and Stocktaking Boards will be appointed for each sub unit and for Gp HQ a/c or Leaders. The stocks, as determined by these Boards will be recorded on L.F. 447 and will be used for handover purposes to relieving unit.

   d. To facilitate stocktaking and auditing, NO issues shall be made from or to stores or sub units after Dec 31st 1964.
e. Personnel of Auditing and Stocktaking Boards are detailed in ANNEX B att.

4. Handover of buildings and property. Company Commanders will arrange to complete the following pro forma in respect of each building or property occupied by their sub-units.

a. Original condition report. Showing the condition of the building and property, quantity and condition of furniture, when originally taken over from the owners or No 3 Company 28 Swedish Battalion. The owner and the District Lands Officer, Mr. Savva, or his assistant (ADLO) Mr. Roy Nicholas should be present for the original takeover by sub-units of 3 1/2 Gp and should sign the original condition reports for authentication. Four copies of original condition report should be prepared - one for HQ UNFICYP, one for the owner or District Lands Officer and one for file. One for 4 Inf Gp rep.

b. Handover/Takeover report. Four copies of this proforma will be completed in respect of each property. Details under the heading "Condition at time of takeover by 3 Inf Gp as per original report" will be typed in now for details obtained from the original Condition Report. When the property is being handed over the relieving unit, the condition at time of handover will be recorded under the heading "Condition at time of handover or return to owner". The owner or the Lands Officer or his assistant should again be present at the time of handover and should sign the handover report to signify that they are satisfied that the condition is as per proforma.

1. Where damage has occurred to property or furniture it should be dealt with on the spot as follows.

- Fair wear and tear. Government of Cyprus responsibility.
- Deliberate or malicious damage. May be assessed against the unit or UN. For this reason a record should be made of the individual or individuals responsible.

2. Where possible damage should be made good by engineering personnel prior to handover.

3. Copies of handover/takeover report will be disposed of as follows:

- One for owner or District Lands Officer.
- One for HQ UNFICYP.
- One for file.
- One for 4 Inf Gp rep.

c. Record of utilities in requisitioned premises. On first occupation by 3 Inf Gp, FOUR copies of this proforma should be completed, one copy each to HQ UNFICYP, owner or Lands Officer, file and 4 Inf Gp rep. On handover a further four copies should be completed to show meter readings at DATE of handover and disposed of as above.

5. Company Commanders will now nominate an officer of their sub-unit who will be responsible for all aspects of property handover and to whom any subsequent queries can be addressed. Capt Quinn is available at Gp HQ to provide assistance and guidance to sub unit accommodation officers on request.
6. **Briefs.** All Staff Officers will prepare a detailed brief for handover to their opposite numbers in 4 Inf Gp setting out the following:

   a. Duties of Staff Officers with attached file of SOPs. Orders of National origin, unit and UNFICYP Orders and Regulations.

   b. Rep data pertaining to Staff Officers' work incl data on equipment, property, auditing and accountancy procedure, etc.

   c. Names, phone numbers, addresses of personalities who have been of assistance in SO work, or with whom working relations have been established.

7. **Closing of handover of running accounts**

   a. **Rations account.** Subject to approval from HQ UNFICYP, it is proposed that initial ration indents for 4 Inf Gp be submitted on 22 January to cover grocery issue on Wednesday 27 January for the period 28 January to 3 February 1965. Fresh rations for 4 Inf Gp should issue on Wednesday 27 January also for consumption on 28 January and subsequent fresh issues should be scaled in accordance with arrival plan of 4 Inf Gp and their planned move through transit camp.

      Final indent for groceries for 3 Inf Gp will also be submitted on 22 January for issue on Wednesday 27 for the period Thursday 28 January to 31 January, when it is anticipated our last troops should leave. Two days' compo rations for In Flight use will be provided for subject to UNFICYP approval, also balance of Irish compo rations will be taken back.

   b. **FUEL, fuel, LP, gas and kerosene accounts.** Accounts will be closed on Monday 25 January 1964 - final bulk drawings and issues to sub units being completed on this date. 4 Inf Gp will be prepared to open accounts as from 26 January and balance of 3 Inf Gp stocks will be taken over as from 26th.

   c. **Laundry accounts.** Will be closed as from 20 January for barrack items, sheets, etc, and for personal laundry Monday 25 January 1965, Contractor will submit final account for 3 Inf Gp before Wednesday 27 January for certification. 4 Inf Gp will certify final account in respect of the period 27 January to 31 January for their laundry.

   d. **Skills accounts.** Will be closed on January 16th and contractors will pay for period up to 30 January 1964. All accounts to be submitted to C0 3 Inf Gp.

8. **Check of Ordnance.** Ordnance officer will arrange to have all serial numbered items checked for presence and condition and will submit report on inspection to CO 3 Inf Gp before 9 January 1965.

9. **Cratering and packaging for Repatriation.** Companies and Cavalry Group will complete their arrangements for crating and packaging items of company equipment earmarked for return to Ireland, eg; company records, etc. Preparations will also be completed for crating such items as helmets, M/Bottles, respirators, H/Sacks, M/Tins if these items are NOT authorised for handover to 4 Inf Gp. Full instructions on this aspect will issue when direction is received from R&O CCA.
AUDITING AND STOCKTAKING BOARDS

1. The undermentioned Auditing and Stocktaking Boards will assemble in the locations detailed, on 2 January 1965, for the purpose of auditing stores accounts pertaining to items of National origin or issued from British or other contingent sources, or items of UN origin.

   a. Gp HQ accounts, Gp HQ.
      President: Capt E. SHEEHY
      Member: Capt R. TUMULY

      President: Capt LANE
      Member: Lt MUROLY.

2. A record of the actual physical stocks found shall be inserted in the ledgers by the stocktaking boards, together with the date of stocktaking.

3. The Boards will audit the accounts and verify the balance of stores shown in the ledgers with the stock in stores and on location.

4. The stock as determined by the board shall form the basis for the handover of authorised equipment to 4 Inf Gp. AF 447 will be prepared in quadruplicate as follows:

   a. Separate vouchers for items of different origin, Irish, British, UN, other contingents.
   
   b. Vouchers under a above will be prepared in separate categories as follows: Bk Services items, Ordnance items, Tentage, Refrigerator, Cookers, LP gas eqpt, Fire Fighting eqpt.
   
   c. A copy of EACH voucher will be sent to QM 3 Inf Gp before 15 Jan. Two copies will be retained by sub unit as receipt. One copy will be submitted with report of Board to OC 3 Inf Gp.

5. Boards will submit reports as necessary by Wed 13 Jan 66 to OC 3 Inf Gp.
TRANSPORT AND TRANSIT REQUIREMENTS (TOP) AND MOV TABLE

1. 4 Inf Gp will relieve 3 Inf Gp as follows:
   - Adv Party 4 Inf Gp - ETD Ireland 13 Jan 1965
   - Main Body 4 Inf Gp - ETD Ireland 27 Jan 1965

2. The following services are requested for Adv Party mov:
   - 2 x 41 Seater Buses for mov of Px to KTIMA from NICOSIA (69 Px).
   - 3 x 3 ton vhs for mov of baggage to KTIMA from NICOSIA.
   - 2 x 41 Seater buses for mov of Px from KTIMA to NICOSIA. (77 Px).
   - 3 x 3 ton vhs for mov of baggage from KTIMA to NICOSIA.

3. The establishment of a Transit Camp in the NICOSIA area for the rotation of main bodies is required as follows:
   a. **Requirement.** To provide accn and facilities as detailed hereunder for:
      - (1) Incoming Px of 4 Inf Gp who may have to remain overnight in NICOSIA.
      - (2) Outbound Px of 3 Inf Gp who may have to remain for long periods in NICOSIA due to non-availability of aircraft or other causes.
      - (3) Reception and dispatch parties.
   b. **Location.** NICOSIA area.
   c. **Sleeping accn** for 15 offrs, 160 Other Ranks.
   d. **Meals.** Rations, cooking and dining facilities to cater for 15 offrs and 160 OR.
   e. **Ablution and toilet facilities** for 15 offrs and 160 OR.
   f. **Welfare facilities** for pers awaiting tpt or planes, eg; papers, magazines, dry canteen facilities.

4. Main bodies. The following services are requested for mov of main bodies which for planning purposes at this stage are envisaged as follows:
   - 4 Inf Gp - 322 Px in 4 planes inbound.
   - 3 Inf Gp - 322 Px in 4 planes outbound.

Planes to arrive in groups of two Chalks at 24 hr intervals.
   a. **First day**
      - 4 x 41 seater buses for mov NICOSIA to KTIMA.
      - 7 x 3 ton vhs for baggage and cargo incoming.
      - 4 x 41 seater buses for mov KTIMA to NICOSIA.
      - 7 x 3 ton vhs for baggage and cargo outgoing.
   b. **Second day** - as for first day.
   c. **Note.** Should aircraft arrive close together, all these services may have to be telescoped and separate vhs made available for incoming and outgoing Px and Stores.
   d. Four offrs and 8 NCOs to assist in org of reception and dispatch of rotating units - to be provided from an outside source.
5. It is suggested that buses and vchs be provided from NICOSIA area so that they will be readily on call in the event of plane delays, etc.

   Capt Dixon i/c Baggage and Cargo Ops.
   a. Assistants C/S Gaynor and C/S Minihan.
   b. Security Pers One per truck required, also assist as guides.

   (1) **Tues 26 Jan '65**: Requirement
   - GP HQ & HQ Coy - 3 pers for move to and from Nicosia - supplied by 3 Inf Gp.
   - 'L' Coy - 3 pers for move to and from Nicosia - supplied by 3 Inf Gp.
   - 'B' Coy - 3 pers for move POLIS to Nicosia and return supplied by 3 Inf Gp.

   (2) **Wed 27 Jan '65**:
   - GP HQ & HQ Coy - 4 pers for move to and from Nicosia - supplied by 4 Inf Gp.

   (3) **Thur 28 Jan '65**:  
   - 'B' Coy - 4 pers for move Polis to Nicosia and return supplied by 4 Inf Gp.

   c. Baggage will be sorted in the UN Hanger, Nicosia, on arrival and items for POLIS will be placed in separate vechs.

7. **Officers i/c Chalks** will ensure that they have the following 'Q' documents readily available for hand in at Clancy Barracks:
   a. 2 Copies of Cargo Manifest
   b. 1 Copy of L.1.116 Sec 'C' showing all eqpt with pers.
   He should also ensure that each person has TWO copies of his individual Check List readily available for check against eqpt, wpn, etc, being handed in at Clancy Bks.
Lt.Col. T. McDonald,
O/C 3rd Infantry Group.

9th Sept 1964.

Lt. Col. T. H. Donlon,
O/C 3rd Infantry Group.

OPERATIONS.

Sir,

1. Concentrate.

a. Larnaca District is divided into two Coy
   Operational areas. 'A' Coy is responsible for N. LARNACA.

b. Bdy between coys is the LARNACA - Nicosia rd
to the LARNACA District Bdy incl Goshi - all incl to
   'A' Coy.

c. Armed Coy
   1 sec in ap 'A' Coy loc at Bye Pass LARNACA,
   1 tp " " 'B' Coy. One sec loc at Bye Pass
   LARNACA, on call to 'B' Coy, and 1 sec loc
   at KOPHINOU.
   1 sec in RES loc at Bye Pass LARNACA.

d. 1 A Coy has two plts on the Green Line in
   N. LARNACA. These are interposed between
   Tk and Gk positions.
   2. A Coy's third plt is responsible for patrols
      escorts etc for remainder of N. LARNACA
   District.

e. 1 B Coy has two plts on the Green Line in
   S. LARNACA. As for 'A' Coy they are
   interposed between Gk and Tk positions.
   2 B Coy's third platoon (plus) is stationed
   at KOPHINOU where they man a post and in
   addition send a section plus to do a twenty
   four hour tour of duty at Ayious Theodoreus
   (1 NCO & 3 Pts at Bridge, 1 NCO & 2 Pts at
   Rd Block. 1 NCO & 2 Pts on Tango Hill,
   1 NCO & 2 Pts Water Tower). This plt is also
   responsible for plts for area. It is extended
to do this.

f. HQ Coy can provide an ad hoc pl for emergency
   reserve.

g. The set up however is flexible enough to allow
   Coy's to assist in each others areas eg for
   instance 'A' Coy assisted 'B' Coy in the Carob
   Harvest.

h. Operational and accomodational requirements
   had to be solved against difficulty in acquiring
   suitable accomodation against a background of a
   shortage of water. However accomodation to suit
   the operational requirement was eventually
2. Scope.

a. Mines. Troulli and Arca. These mines had not worked for a considerable time. After exhortation, showing the UN presence and providing escorts and patrols these mines achieved such stability (Gks and Turks work there) that the escort was able to be withdrawn.

However a shooting incident (60 Rds) fired in Arca last Saturday night gave this operation a setback. 1A Coy, in whose area the mines are, are now endeavouring to reassure the villagers and encourage them to go back to work. Due to 1A Coy's exhortation, miners reopened Wed 9 Sept.

b. Workers Escorts. Since the disappearance of a Bus load of Tk Cyps as a reprisal for the killing of three Gk Officers Tk workers employed in the SBA had been subjected to a three hour search each way going to and from work. 3 Inf patrols encouraged them to go back. Initially even when escorted they were still held up for long period up to three hours each way, but now the check is never longer than 25 minutes; more often it is 5 minutes.

c. Humanitarian Escorts. Sick Twks are escorted to Hospital when case is verified by M.O.

d. Food Escorts. This is a difficult one as scales allowed are notional and even official ones vary at a fast rate. But some success and minimization of hardship is achieved. For instance as a result of UN representation scales of footstuffs villaveres may bring in to Larnaca are being compiled. Up to the present they are allowed to bring in NONE. LARNACA was put on and subsequently taken off the restricted list. This does NOT mean complete freedom of move of stuff.

e. Carob Harvest. This operation carried out mainly by 1B Coy 9 with assistance from 1A Coy and Arm Car Op) was with the exception of one minor shooting incident (4 shots) a complete success.

g. Economic Survey and Relief to villages where critical shortages exist. This job requires close patrolling and liaison. It is being satisfactorily carried out.

h. Difficulties. Duties were heavy and there were frustrations but the men made light of the task and the more onerous and ticklish the job the more they seemed to enjoy it.

i. Security. Covered by S.O.Ps

j. Shooting Incidents. A shooting incident occurred in Arca on night 6 Sept. UN patrol investigated and restored peace. This Op is covered by S.O.P.

k. Training. Due to the high incidence of duty formal type training presents difficulties. However the duty by its nature is training in itself. A drive in on to encourage training at imromptu moments, to make training a conversational topic and to have lectures and discussions on tactical subjects e.g. working of P.I.Os and Arm Cars etc., etc.

Recommendations. There is a requirement for better communications. (See Sigs report). The C 42 wrl it has some disadvantages, has the advantage of robustness and simplicity.
3. Establishments.

a. Coy's and Armd Car Gp made recommendations for increase in establishments which were examined. The points accepted are listed hereunder.

b. There is one joint patrol for LIMASSOL and LARNACA. It is based in LIMASSOL which is not entirely satisfactory as the area in question is too big for one joint patrol.

c. List of increases to establishments required as hereunder.

1. One additional Coy for LARNACA DISTRICT. Loc KOPHINOU.

2. HQ Coy
   a. Tpt Plan - eleven more drivers
   b. Engr - six more Pte Engrs. (One electrical 1 plumber, 1 Fitter, 1 Painter two Carpenters.
   c. Ord - One more if another Coy posted
   d. MFC - 3 more Corporals
   e. Q/M - 2 NCOs 2 Pte Storemen
   f. Sig Pln - 10 extra signallers req. 1 Teoprinter operator, 4 Switchboard Ops 5 Wrls Ops.
   g. Adj Staff - One NCO Typist required.
   h. Gen - Gen duties Ptes in HQ Coy. At present there are only 3. Twelve more required.

3. Coy's.

a. 6 extra drivers per Coy - Total 12
b. 1 NCO and 7 wrls ops per Coy - total 12 NCOs 12 Men.

4. Armd Car Co

5. Joint Patrol

A Joint Patrol is needed exclusively for Larnaca District.

4. Meeting the People

Every effort is being made to meet the people at all levels and by precept and example to make the people aware of the UN presence and mission. Officers have been twice to the LARNACA Rotary Club. On one occasion the Rotary Club was addressed by an Officer of the Group on the subject of "Ireland". This address was well received.

30th SEPTEMBER 1964.

GENERAL

1. This report covers the period from 20 July when the Advance Party left IRELAND to the 30th Sept.

ADVANCE PARTY

2. Arrival

On arrival in Cyprus the advance party was met by Col. Quinn. The 3rd Cbr Group proceeded to PARAGATE for the purpose of undergoing training with the 40th Inf Bn. The remainder proceeded to the HQ of the Royal Inniskillings at ANZIO CAMP DHEKELIA S.B.A. Orders were that the 3 Inf Gp was to take over from the Royal Inniskillings as UN Peacekeeping force in the LARNACA District.

3. Disposition Of the Royal Inniskillings.

The Royal Inniskillings had a rifle coy loc in N.LARNACA, a rifle coy in S. LARNACA (see Annex A) and their Hrs. Coy in ANZIO CAMP. This camp is loc in the British Sovereign Base area and Irish troops would NOT be permitted to have their base in Brit territory. By agreement with the Greeks and Turks the Inniskillings occupied many buildings along the Green Line in LARNACA as buffer ports between the Turk and Greek positions. (See Annex 'B' for layout of Green Line)

a. After prolonged negotiations a group of buildings known as Loppers Poultry Farm were rented as Hqrs of the Group. There was much cleaning and work involved in making these buildings habitable. Buildings suitable for occupation by troops and stores are extremely difficult to acquire in LARNACA.

b. Acquired transit camp for arrival of main body. All tents were already erected in this camp situated in DHEKELIA S.B.A.

c. Drow Bk services and MI veh necessary for operations.

d. The officers concerned reconnoitred the LARNACA District, met Local Leaders from District to village level, and studied the workings of the Royal Inniskillings operational procedure. They also made themselves acquainted with all ada problems involved.
ADVANCE PARTY (Contd.)

5. Composition of the Advance Party.
Very satisfactory except it was felt that:
   a. The Gp O/C should replace the 2 i/c as O/C of the Advance Party in order that he should make the dispositions of his troops.
   b. Some additions to be made to the O/C report as suggested in Annex 'A' (attd).

MAIN BODY.

6. Arrival.
The Main body arrived on 4 and 5 Aug. They moved into the transit Camp and took over their operational positions on the 7 and 8 Aug. On the 9 Aug the 3 Inf Gp took over the operational control of the LARNACA District from The Royal Inniskillings.

   a. LARNACA District is divided into Coy operational areas. 'A' Coy was made responsible for N.LARNACA. 'B' Coy was made responsible for S.LARNACA area.
   b. Bdy Between Coys is the LARNACA - NICOSIA rd to the LARNACA District bdy - all incl to 'A' Coy. (See Annex 'A')
   c. 'A' Coy has two plcs on the Green Line in N.LARNACA. These are interposed between Tk and Gk positions. 'A' Coy's third pl is responsible for patrols, escorts etc. for remainder of N. LARNACA District.
   d. 'B' Coy has two plcs on the Green Line in S. LARNACA. 'B' Coy's third pl is stationed at KOPHINOU GR S.0629 where they man a post and in addition send a section plus to do a twenty four hour tour of duty at AYIOUS THEODORIS GR S.0627.
   e. 4 NCOs and 9 Ptes are required to provide 24 hr standing patrols on four vital points in the village.
   f. Locations of the Group as indicated on Annxs 'A' and 'C' (attd)
   g. H/O Coy, 'A' and 'B' Coys are located in separate Coy areas. Each Coy is responsible for its own Adm problems. All troops are located in permanent buildings with the exception of the pl in KOPHINOU who sleep in tents. Water is in very short supply in the district and each coy has to draw its own water from DHEKELIA S.B.A.

BACKGROUND TO OES

8. Local Sit.
   Turks and Greeks live in separate enclaves in fear and mistrust of each other. The usually refused to move without UN escort. National Guards are training large nos of conscripts in very efficient manner and are well supplied with arms. Greek Police have frequent road checks to prevent movements of Turkish fighters and to prevent stockpiling of strategic materials by Tks.

OPERATIONS

   b. Mines. TROULLI and ARGOΣ, GR S.271531 and S.22596. These Mines had NOT worked for a considerable time. After exhortation, showing the UN presence and providing escorts and patrols these mines achieved such stability (Gks and Tks work there) that the escort was able to be withdrawn.
b. **Mines.**

However a shooting incident 60 rds fired in ARSGS on 5 Sep halted the Mine workings. 'A' Coy in whose area the mines are situated succeeded in calming the workers and the mines re-opened on 9 Sep.

c. **Workers Escorts.**

Since the disappearance of a bus load of Tk Cyps as a reprisal for the killing of three Gk Officers. The workers employed in the SBA had been subjected to a three hour search by Gk Cyp Police each way going to and from work. 3 Inf patrols encouraged them to go back. Now the check is never longer than 25 minutes; more often it is 5 mins.

d. **Humanitarian Escorts.**

Sick Tks are escorted to Hospital when case if verified by M.O.

e. **Food Escorts.**

During the Economic Blockade operated by the Gks against the Tks this provided a difficult task as scales allowed were national and even official scales varied at a fast rate. Some success and minimization of hardships were achieved.

f. **Carob Harvest.**

Gks and Tks refused to work in the fields without UN protection. This operation was carried out mainly by 'B' Coy and with the exception of one minor shooting incident (4 shots) was a complete success.

g. **Economic Survey and relief to villages where shortages exist.**

This job requires constant close patrolling and liaison. It is being satisfactorily carried out.

h. **Grain Harvest.**

In progress going smoothly with UN supervision.

I. **OPs**

OPs have been established and manned to observe troop movements. Constant reporting of aircraft is also required.

j. **Culling Incidents.**

A shooting incident occurred in ARSGS on night 5/6 Sept. UN patrol investigated and restored peace.

k. **Evacuation Plans**

Planes had to be made to cover evacuation of the Group in varying circumstances. Necessity for these plans was highlighted by the Turkish bombing of the island on 9 Aug and the various threats of invasion. The essence of these plans was to move to the SBA awaiting transport off the island.

l. **Training.**

Due to the high incidence of duty, training carried out was that urgently required and was as follows:-

1. Deployment and patrolling.
2. Wire usage and Slidey for Officers and Selected men.
3. Training on the ABCs for all ranks.
4. Orientation on use of Panhard cars for all ranks.
5. Observation training and reporting - both for ground and aircraft.
6. Individual weapon training.
7. Training of Arm Car crews on Panhard Arm cars in driving and gunnery. (incl range practices).
9. **Photography.**

No still cameras are on issue to the unit. The photographer with the unit has been incapable of operating the cine camera provided. The still camera would be very useful in case of riots and incidents which would involve subsequent proof or identification of participants. It is recommended that at least one per Coy be issued to future Coys.

10. **Recommendations.**

a. Carrying out of the above operations imposed a heavy strain on the Group and involved a high incidence of duty. In some cases men were 24 hrs on and 24 hrs off duty. This was particularly heavy in view of the intense heat here in August and early Sept. This necessitated submitting a recommendation to Col. Quinn for 50 extra personnel which request he has forwarded to Ireland.

b. Training on reporting of incidents and type of aircraft was found to be completely inadequate. This was especially so in the case of aircraft reporting. More training of this nature is urgently required by personnel on future functions of this sort.

c. Many Officers and NCOs had little experience of wear usage. This was found to be absolutely essential.

**"A" ADM.**

11. **Service Allowance.**

The allowance of 9/3 per day is NOT sufficient to cover normal entertainment going on refreshments, laundry, toilet necessaries, notepaper, envelopes, film shoes, entertainment etc. Cost of living outside camp is from 20 to 50 per cent higher than in Ireland. When on local leave in LARNACA personnel pay 3/- and 2/- per bottle for beer and a minimum of 3/- for the cinema. A generous increase is recommended.

b. **Identity Cards.**

Due to delay in submission of rolls prior to leaving IRELAND and due to the delay in production of prints, the work of issuing the National Cards was NOT completed until after the Unit arrived in Cyprus. This was undesirable.

c. **Record Cards - Overseas Service.**

Due to the delay in the receipt of Cards from units, blank cards had to be obtained from 'A' Adm and are now in the process of being completed here. This could have been avoided.

d. **Newspapers.**

Sat- Generally 2 days old on arrival.

e. **Mail.**

Sat - A letter takes 4 day either way, sometimes only 2 days.

f. **Discipline.**

General standard is very good. During August there were 24 cases of short absences after local leave expired and 12 cases of drunkenness. Sept 21 cases of ANUL & 3 drunkenness.

g. **Conduct, Dress, Department.**

The conduct, dress, department of troops both on and off duty is good.

h. **Local Leave.**

This is generally granted from 14.00 hrs. to 16.00 hrs. for bathing on the local beaches and from 1900 hrs to 2300 hrs for visits to the town area of LARNACA.
11. **i. Rolls.**
   Alphabetical Unit Rolls are required in large numbers here. It is suggested that these could be procured in IRELAND by ARQ prior to departure for Cyprus.

**j. Identity Cards.**
   17 men were NOT issued with discs prior to leaving IRELAND. These have been requisitioned.

**k. Medical.**
   Sanitary conditions in Group area are good. Health of troops is good. Incident of sickness is 3 per cent per week. One man admitted to hospital due to accidental fall. Inoculations for group are now completed.

**l. Military Police.**
   (I) MP duties cover Gate duties, vehicle patrols and foot patrols - afternoon and night, escorts as required, supervisory duties at Gk Cyp Police Rd Blocks.

   (II) The MP det has NO MP equipment and depends on borrowing essential items from the British Base. Standard equipment should include:
   - Betsans, Handcuffs, White Armbands, Stencilling Sets for Sign Posting, Large Measuring Tape, First Aid Box, Typewriter, Stop Watches, Stationery to include Police Statement Forms, Traffic Accident Report Forms and Detention Room Records, Whistles, Red Lanyards.

**m. Weather.**
   Excellent.

**"A" Report**

12. See Annex "D" attached. This covers "Q" including MT, Engrs, Catering and Welfare.

**ARMED CAR GROUP**

13. **a. Training on Panhard AM Print Car carried out.**
   Training was carried out prior to the arrival of the 3 Inf Gps Arm Car on 16th Aug and completed in accordance with syllabus compiled by Q/C Arm Car Op 40 Inf Bn. Of necessity the operational requirements of the 40 Bn as a whole, limited to a certain extent the scope of the training which could be carried out. This particularly applied to the training of drivers and to the firing of range practices.

**b. Arrival of Vehicles and Equipment.**
   Panhard Arm Car complete with ammunition and ancillary equipment arrived in PAMAGUSTA Docks on 16th Aug 1964. All damages and deficiencies were carefully noted and a report on these matters has been forwarded to Army HQ by the CCO TSO, Capt. Quinn, together with all relevant documents.

**c. Missing MG Components.**
   On one feed chute (SPOUT) and two spout (CHUTE) Links were missing in respect of each AFV. This matter was notified to Messrs Penhards by Telex through HQ UNFICYF. These parts arrived by air and were fitted to AFVs on the 26 Aug, 1964.
The organization of the Sig Pl is inadequate in two respects.

1. The number of Wire Operators provided.
2. The absence of Switchboard Operators.
A total of 12 wire ops is necessary at Gp Hq to provide
4 each for Gp control set and Rear Link Set. The remaining
four are required for extra duties such as, Gp/Ops Rover,
Int phone etc.
It is necessary to man a unit switch board 24 hrs daily.
No personnel were provided for this task which is performed
on an ad hoc basis. This is clearly unsatisfactory. Four
experienced switchboard operators should be provided.
In addition to the extra personnel listed above each Coy
should be provided with a total of 8 wire operators. (I NCO
and 7 Sgm). This represents an increase of 3 Sgm on the
present estab.

c. Equipment.

15.0.11. The 2 sets provided give reasonable performance
but it is NOT practicable to use these sets in vehicles NOT
fitted with a special charging generator. Their use in a
static role without main battery chargers is also NOT
feasible.

15.12. Performance to date is satisfactory.
15.A.41 These sets have proved most unreliable. Of ten (10)
in full time use in static positions six (6) have
already required 2nd Echelon maintenance. They are
also unsuitable for use as manpack sets in this
climate due to their excessive weight.

15. 88 Satisfactory.

d. General
The Teleprinter personnel should be included in the Signal
Pl and the number should be increased from 2 to 3 since a
24 hr service is required. Referring to the 2 NCOs provided
as teleprinter operators is to ignore reality since both
are index finger typists. Consequently they work at NOT more
than 10 per cent efficiency. This deficiency is not
particularly harmful in this unit since the teleprinter
link is NOT very busy, but this principle of providing
untrained typists should NOT continue.

ACCLIMATIZATION

15. Temperature was approx 105° F during July, Aug. The heat was very
intense and men found it very hard to work all day. A rest period
from 1200 to 1600 hrs each day was essential. Minimum of clothing
required. No blankets required. No rain in this period. Commanding
in Sept the temperature has dropped to 75° F. Pull-overs an essential
wear at night - 3-4 blankets will be required shortly - fires will
be required at night time. Oil heaters have been requisitioned. One
heavy shower of rain in Sept to date. There was NO rain last winter
so it is impossible to forecast the rainfall this winter.
PUBLIC RELATIONS.

16. On the surface both Greeks and Turks have been very friendly. They are a very hospitable people and have arranged several soccer matches with the Group. The Gks. in LARNACA are also providing a film show on the scenic beauties of CYPRUS. The LARNACA Gks displayed great interest in EIRE and its problems and invited one of our officers to address the local Rotary Club on EIRE.

The 40 Inf Rn Pipe Band which was kindly loaned to us on several occasions has proved very successful in establishing friendly relations with the population. The Gks invited them to give a public recital on Sun 27 Sept on the LARNACA PROMENADE. The band attracted great attention and was given good applause wherever it appeared.

(T. MCDONALD)

2. 'B' Coy area
1 ORGANISATION - GENERAL

a. Insufficient drivers within the Unit has initially necessitated the employment of almost all personnel with driving permits on dvr duties to the exclusion of their appointed tasks, e.g. Pte Merriman, the "Q" Pl tailor is engaged each morning in the collection and distribution of rations, as driver of the ration vehicle.

b. The absence of an NCO on the Est table to take charge of HQ Coy Canteen has necessitated the employment of Cpl Holland, our storeman driver, for this task, leaving us without the services of this key man.

c. The inclusion of Teleprinter duties for the "Q" Pl Clerk has meant in practice that this man is not available for "Q" duties as he has to act as switchboard operator when he is not handling the Teleprinter.

d. The inclusion of Engr pers on the "Q" Pl Est also gives a misleading appearance to the "Q" Pl strength and it is recommended that they be shown separately as an Engr Pl in the same way as the Med Pl, etc.

e. At least one Pte Storeman should be included in "Q" Pl and preferably a Storeman/driver.

2 ORGANISATION - RECOMMENDATIONS.

a. General. - Unlike the Rifle Coys where adequate pers may be drawn from the Platoons for such tasks as storeman, dining hall orderlies, clerks, etc., there is no pool of potential labour available in HQ Coy and it is vital that adequate provision be made in the Est for Storemen, Clerks, D.H. O's, Canteen NCO, Teleprinter Operators, SWED Operators, etc. It has also been found here in practice that dual appointments do NOT work, e.g., "Q" Clerk/Teleprinter Op. Again, the solution is an adequate establishment.

3. ORG - ADVANCE PARTIES.

It was our experience that considerable quantities or equipment had to be drawn by the advance party, also that many buildings, Camps, etc., had to be surveyed and taken over. No "Q" clerical personnel were incl with the adv party and it is strongly recommend that one CQMS (Bk Services, buildings, fuel and light), one CQMS (I/c Ration /c) and one Sgt (Clerk) and one Storeman/Driver be included in future advance parties.

4. ORG - MAIN BODY.

a. "Q" Instr 35/: specifies an excellent procedure for the Org of units for foreign service. Difficulties arose in the implementation of this instruction due to non-availability of certain items, generally white uniforms and UN clothing, or to inadequate choice of sizes being available. Issues have therefore to be spread over a considerable period as supplies becomes available. Further difficulty arose when issues of clothing specified in Part 1, para 2.d. were being made to the main body of 3 Inf Gp at CTC in July 64 as Clancy Bks staff covered the issue and when only a few items were issued, they stopped issuing to pars and proceeded to hand over the remaining stock to Op "Q" reps to complete the issue. The checking of non-issued stock and org for the continuation of issue to personnel caused considerable delay which pre-planning and a timely start by Clancy Bks staff would have avoided.
5. **LEDGERS - GENERAL.**

The procedure laid down in "Q" Instr 35/ in respect of one consolidated issue voucher in respect of all items of Ord and Eqpt within each Cond is not being fully complied with and in fact 3 Inf 6p have received 49 issue vouchers from Irish Units to date.

In this connection it is pertinent to note that DMS Kelly and COMS O'Donnell have been engaged fulltime for the past four weeks on the task of compiling the Gen Ord Ledger.

6. **LEDGER ACCOUNTANCY.**

In an effort to reduce ledger work the following brief suggestions are submitted:

- Authorised official Schedules should be issued for the following items, so as to eliminate the ledger entries for countless small parts, spares, ancillary eqpt, etc.

  - (1) All Weapons should be scheduled as weapons 'Complete'.
  - (2) Field or 'With Gun' spares and ancillary eqpt should be scheduled and incl as part of Weapon complete.
  - (3) Hydra Cookers should be issued as Cooker Mk Complete and the schedule should incl all containers, pans, pumps, etc., and an adequate tool kit.
  - (4) Standards Spare Schedules of items for the repair of units weapons, cookers, etc., should be devised on the basis of a standard number of weapons. This would be the back-up to replenish Pd or With Gun spares and also to effect heavier repairs by Armourers, Artificers, etc.

- **ORD SPARES BOX - F.N. RIFLES**

  This would contain a scheduled quantity of F.N. spares (and special F.N. tools if necessary) to provide for ord maint and repairs for say 200 F.N. Rifles in the Pd.

- **ORD SPARES BOX - HYDRA COOKERS**

  This would contain a scheduled quantity of spares and special tools for the maint of say 20 Hydra Cookers.

- **b. Standardised schedules of Cooks eqpt to cater for say 150 dining pers should be devised and items suitably boxed.**

- **c. Standardised schedules of Mess Kit should be authorised and the items suitably boxed on the basis of say:-**

  - Officers Mess Kit - to cater for 8 officers.
  - NCOs Mess Kit - to cater for say 20 NCOs.
  - Ptes Mess Kit - to cater for say 30 Ptes.

  A well designed, sturdy box with foam rubber padded compartments may be expensive initially but would provide big savings in the longer term due to less breakages, losses, etc., and the convenience of such a system needs no emphasis.

- **d. Simple procedure for the replenishment of items written off schedules, expended, damaged or deficient should be devised so that replenishment items do not require to be entered under separate headings in the ledger, otherwise the ledger would soon grow to its present unwieldy size again. A possible procedure might be:-**
7. CLOTHING & BARRACK SERVICES

a. Tropical Walking-Out Uniforms.
Satisfactory. Some complaints that they were too warm in Jul-Aug hot period but very suitable for cooler weather now approaching. Almost all pers purchased one or more pairs of shorts to go with the W/O shirt and the inclusion of two shorts of the same material as W/O uniform in the schedule of clothing is recommended. Cost of shorts here varied from 12/- to 22/-. It is also recommended that approx 50 W/O shirts and slacks be issued to Unit OM for issues on repayment to pers of the Gp.

b. Green Denim Uniforms.
Two sets of these uniforms have been issued consisting of one shirt and slacks per set. Sizes were bad but unit tailors have made necessary alterations. An additional issue for pers engaged on heavy, dirty work, e.g., MT fitters, etc., has been authorised on the basis of 10% of Gp str.

c. Pullovers.
395 arrived in sealed bales. Approx 20-size 44 and an additional 40-size 42 and 40-size 40 should have been incl and the smaller sizes reduced accordingly.

d. Socks - 2 Hold.
The inclusion of an additional pair is recommended so that pers may have 2 pairs to wear whilst 2 pairs are being laundered.

e. SAFARI BEDS.
The small type Safari bed as issued to the Adv Party have NOT proved to be robust enough for service conditions. 80 of this type were issued and to date 63 have become unserviceable. The standard size Safari bed as issued to the main body has given satisfactory service to date.

8. ORDNANCE.
4 x 81mm Mms have been delivered and crnt is now as per schedule. Allotment of wms is considered excellent except issue of SMGs to Arm Car pers. These are NOT suitable and should be replaced with 9 mm F.N. Automatic pistols.

a. Amn.
2nd line res amn is currently held at Base Amn Depot.
Dhekelia. Allotment is satisfactory but consignment of Cav .L ann did NOT arrive with other ann from France.

b. Hydra Cookers.

Pumps are hoses are NOT suitable as pumps do not include a non-return valve, and screw-threads on hoses do NOT fit those on pumps. There were also many leaky joints and it is recommended that all burners be thoroughly tested before departure.

c. Tools and Spares.

Satisfactory but it is recommended that some power tools such as 2" portable drill with stand, bench grinder, light electric welder, be incl in allotmet.

d. Tents.

Three marque type tents are used to accommodate pers in KOPHINOU and a further 5 tents of this type are used for stand-to parties, guard rooms, NCOs Mess and as a Cav Gp CP. Hl are inspected weekly by tentage Sgt and are satisfactory.

9. RATIONS

a. British Army Ration Scale is the basis of issue. While this ration is generally varied and acceptable it is felt that the allowance of 8 ozs of neat w/bone is small when it is compared with 12 ozs w/bone at home. This shortage is all the more felt when a neat lunch is provided in addition to dinner. Representation has unsuccessfully been made to UNPCTYP to have butter substituted for the 12 ozs margarine in the daily ration scale. In view of the fact that Irish troops have never been required to eat margarine as a spread it is suggested that a further case submitted from our Army Headquarters might be more sympathetically received. In this connection it should be noted that in the sanction obtained for the Issue of Patrol Rations as per DFR C/7, butter is issued without question.

b. Cooking Facilities.

Considerable improvements have been effected to the general facilities at HQ and Coy locations for cooking. These have consisted of the erection of structures to house cooking equipment, swill, garbage and washing up facilities. Diesel fuelled cookers have been installed. They have proven most efficient and are of considerable assistance in maintaining a reasonable standard of catering. It is pertinent to note in this connection that the petrol cookers brought from Ireland were NOT satisfactory in operation due to leaking joints, valves and pumps.

c. Cook Establishment

It is suggested that the establishment of cooks should be related to operational requirements. 3rd INF Gp occupies the following separate locations where cooking is under taken place:-

<table>
<thead>
<tr>
<th>Location</th>
<th>Purpose</th>
</tr>
</thead>
<tbody>
<tr>
<td>GP HQ</td>
<td>NCOs &amp; Mon and Officers Mess.</td>
</tr>
<tr>
<td>&quot;A&quot; COY</td>
<td>NCOs and Mon. Officers Dining at GP HQ Mess.</td>
</tr>
<tr>
<td>&quot;B&quot; COY (KOPHINOU)</td>
<td>NCOs and Mon Officers Mess.</td>
</tr>
</tbody>
</table>

If (as was originally indicated in the case of 3 INF Gp) the Unit was likely to be concentrated in one location, then the establishment is adequate. To cater for a change in the role of the Unit - as actually happened - It would be advisable to include a pool of extra cooks under the nomenclature of general duties.
The general welfare of the troops is satisfactory and the gifts donated by the various firms and Red Cross have been distributed and much appreciated. The Sports equipment is adequate and has been issued to the various Coy's. Films are shown to each Coy on one night per week and two Soccer Matches have been played against local teams.

A weekly conference is held at which the 2 I/C CPT Hurley co-ordinates the programme for the following week. Bus Tours to places of interest have also been organised and are popular.

It is recommended that in future each Coy should have an additional Cpl with some Bar experience to run the Coy Canteen as there is difficulty in finding suitable material to operate same and also Coy org is upset by the provision of a Canteen Cpl from the present lean establishment.

Some difficulties have been experienced in maintaining our stock of spare projector lamps as some lamps have been issued to 40 En where voltage surge has caused heavy losses in projector bulbs. We now have no spare bulbs (Projector 1000W) left and none are available in Cyprus.

Inter Pl volleyball and soccer leagues are in progress.

A very successful Op concert has been held.

**ENGINEER REPORT.**

11. **Engine Tasks.** - On arrival with advance party, the initial tasks consisted of a recce of all Company and Platoon locations with a view to assessing the following facts:-

a. Accommodation available in permanent buildings for troops, stores and offices.

b. Areas available for tented accommodation.

c. Sanitation available and further requirements.

d. Water supplies and requirements in the respective areas.

e. Lighting, existing and further requirements.

f. Cooking facilities and further requirements.

g. Security of Ordnance, etc.

h. Roads and hardstanding.

12. As a result of this recce and the information obtained thereafter the following works were put in hand.

a. 8 men DTLs and Urinals in "A", "B" & HQ areas.

b. New showers and ablutions in HQ Camp and overhaul and extension of existing showers and ablutions in "A" & "B" Camps.

c. Two Field Cook Houses complete with wash-ups and storers, Grease traps and Suck Pits in HQ & "A" Coy areas, also further washing facilities in "B" Coy area, and extension and improvement of water supply system.

d. Installation of 15,000 gal ground tank in HQ to store intermittent town supply and pump on to water tower. This has in effect freed HQ Camp from the necessity of having water supplies carried by water tankers.

e. Security of stores, inclusive of the construction of special compound with stores for H.E.s and Phosphoros in HQ Camp in accordance with reg.

f. Overhaul and extensions of lighting systems with a view to security, etc.

g. Other works of a minor nature.

h. Installation of 2 x 150 mon oil fired cookers in HQ & "A" Coy area.
13. Progress and Execution

The above works have now to a large extent been completed and progress generally could be considered satisfactory. The works were executed by Engr technical personnel (with assistance from Inf personnel and civilian employees) also contractors. Major assistance was provided by 33rd Fld Sqn R.E., Dhekelia B.S.A., in the form of a Michigan Excavator. Approx 50% of Engr technical personnel employed on projects were supplied by 40 Bn and R.E. A concrete mixer was also obtained from R.E. The following observations are submitted:

a. Supplies of materials for works.

These were to a large extent obtained by local purchase and also from Dhekelia Base to a lesser extent. Camp structures obtained from 40 Bn were also used.

b. Engr Personnel Requirements.

The Engr strength in 3 Inf Gp was found to be entirely inadequate to deal with the multiplicity of works to be executed in a relatively short time. The strength should be at least double in future.

c. Engr Equipment.

Tool Kits supplied are NOT of a high standard. Apart from lighting plant, a certain amount of pumping plant should be carried in future, also rubber storage tanks.

d. Further works required.

A Winterization report for Group has now been submitted listing further requirements of Group.

MT REPORT.

a. The Adv Party of the 3 Inf Gp contained 1 Offr, 1 Sgt (Fitter) 1 3/3 cdvr. On the day of arrival in Cyprus the following vehs were drawn:

<table>
<thead>
<tr>
<th>L/Rovers</th>
<th>3 T Bed</th>
<th>3T Amb</th>
<th>IT Austin</th>
<th>IT Water</th>

These vehs were drawn with the assistance of the MT Section of the 1st En Royal Irish Inniskillings and conc at Anzio Camp, Dhekelia BSA. Due to my own lack of resources in person and by arrangement with HQ, Cyprus District Rear further drawing of vehs was postponed until the arrival of the main body.

b. On 5.8.64 after the arrival of the main body and subsequently the balance of vehs was drawn to bring the vehs up to the following:

TOTAL PRIME, Movers: 42.

c. POL

Supplied on dement from Pot Depot, Dhekelia Base.
The present establishment of 17 Pte Drivers for the Group is very inadequate considering the fact that we presently operate 48 prime movers. The gap is bridged by calling on drivers from Engineers, Signals, Adm Platoons, GQ, etc., and who are available for specific details only but contribute nothing to the maintenance or efficiency of the MT as a whole. In order to overcome this deficiency I have had to employ 2 fitters almost constantly servicing and inspecting vehicles and to carry out preventative maintenance in order to have some degree of reliability. The drivers work exceptionally long hours in this hot climate. Each vehicle must have a driver.

The Unit is capable of first line repairs only and in the present circumstances is backed by LAD and full workshop facilities in the British SBA. Consequently additional equipment in excess of present allotment is NOT necessary.

The Unit has taken over a privately owned garage in North LARNACA having almost 5,000 sq ft. of floor space, all in one floor, together with office, stores and battery charging space. It contains NO workshop equipment but the covered floor space is invaluable for routine inspection of vehicles and first line repairs.

It is extremely difficult for our MT platoon to be fully efficient when it is so understaffed. Constant chopping and changing and plugging gaps leads only to exasperation and eventually will affect morale. There are 23 vehicles at HQ but only 9 drivers. They are distributed as follows:

- CO - 1
- Ops - 1
- QM - 1
- Welfare - 1
- Watercar - 2

thus leaving only 3 drivers available to handle 17 other vehicles and meet normal details such as MO, Ord, Engr, 21/c, Adj., etc. The shortage of drivers has been got over somewhat by the assistance from former drivers in possession of AF 154 and those tested by an T-Iota S 7 I, Curragh Camp prior to departure for Cyprus. It must, of course, be understood that this class of driver almost always is doing a job for his own particular interest and immediately revert to his own dept.

Water supply is a major problem. The water car delivers 3,000 gallons daily and requires 2 drivers to operate. It starts out at 0700 hours daily, incl Sundays, and finishes nightly between 1900 and 2000 hours. The water is collected in DHEKELIA, 10 miles away and is distributed throughout the Unit area. One outpost, KOPHINOU, is 24 miles from HQ.

The Table hereunder outlines a suggested establishment for a replacement MT Platoon for future Inf Gp in UNFICYP:

SERGEANTS:
DVRS MT 1. i/c AFI02 a/c
FITTERS MT 1. i/c Garage,
STOREMAN 1. i/c MT Stores.
TOTAL SGRS 3.

CORPORALS:
DVRS MT 3. 3 Secs of approx 7 vehs each.
CLERKS/DVRS 2. POL details.
FITTERS MT 2.
TOTAL CPLS 7.

PRIVATEs:
DVRS MT 14. To man balance of vehs and provide a service.
FITTERS MT 1.
TOTAL PRTS 15.

NOTE:
In view of the fact that it has been found necessary to use the Tpt Sgt as a Gp NCO visiting the Coy areas to inspect and maintain vehs on the spot, assist and instruct dvrs in the Coy localities, etc., it is deemed desirable that this NCO be a Coy Sgt.
In addition local nets using MT A.41 and MT 88 are in use 24 hours daily. A total of 13 miles of Field cable are laid and 24 Field telephones are fully employed.
21st October, 1964.

Dear Sir,

1. Adequate facilities for Divine Worship is provided for all Ranks.

2. All NCOs and Men have been interviewed and an assurance of their welfare has been sent to their next of kin.

3. A copy of Confessors has been made available.

4. Facilities are excellent and satisfactory furnishings have been provided.

Signed (Thomas J. Kelly) C.F.
Sir,

1. Herewith monthly report in respect of both Ops and Int branches for period ended 24/10/64.

2. Ops and Int

a. **Situation.** The most significant feature during the period has been the considerable lessening in the tension throughout the district and a general improvement in relations between the Tk/Cyp and Gk/Cyp communities. This has been more noticeable in the rural than the urban areas. The factors which have contributed to this change were:
   
   (1) The lifting of the Economic Blockade.
   (2) The passing of the threat of invasion from the Turkish mainland.

b. **Affect of situation on mission.** As a result of the improvement in the general situation economic considerations have now assumed a much greater importance than military considerations. HQ UNFICYP have duly recognised this fact by the establishment of a separate Economics Branch and the resources of the unit have had to be diverted to carry out the field work necessary to keep this new branch up to date on the economic situation throughout the district.

c. **Operations.** The operational functions of the unit involved tasks under two main headings, military and economic.

   (1) **Military**

   (a) The continued interposition of our forces between the opposing factions on the "Green Line" in LARNACA. Though tension has eased there is as yet no progress in the matter of the removal of the respective fortifications.

   (b) Observation of all NON UN military movement in the district. This was carried out by a system of mobile patrols and static OPs.

   (c) Maintenance of freedom of movement on ALL roads within the district particularly with reference to movement along main roads NIKOSIA - LIMASSOL and LARNACA - LIMASSOL through KOPHINOU GR 8 06303 village.

   (d) Routine patrolling of all villages in the district with a view to maintaining contact with local situation.
(e) Investigating shooting and other such incidents as and whether they occurred.

(2) Economic

(a) Provision of escorts for a variety of purposes such as for Tk/Cyp workers proceeding to their daily employment, for Tk/Cyp doctors visiting the sick in Tk/Cyp villages and for Tk/Cyp patients being evacuated to hospital.

(b) The collection and distribution to Tk Cyp refugees of Red Crescent relief supplies.

(c) The supervision of the harvesting, in critical areas, of the Carob, Olive and Grape harvest.

(d) The supervision of ploughing operations in sensitive areas.

(e) The supervision of a programme of inoculations in Tk/Cyp villages of sheep, cattle and goats against ANTHRAX.

(f) The conduct of various surveys on behalf of Economics Branch HQ UNFICYP. The principal surveys carried out were:

(1) Food situation in the Tk/Cyp villages of the district.
(2) Requirements of petrol, diesel oil and kerosene in these villages for essential services.
(3) The locations and numbers of Tk/Cyp refugees.
(4) Winter clothing requirements of Tk/Cyp refugees.
(5) Educational survey of the district with particular reference to the possible resumption of the high school and secondary school education of the Tk/Cyp children in cases where the situation had influenced its discontinuation.

d. Training. Despite the heavy incidence of duty training continued during the period. The fall in temperature as compared with the months of August and September made it possible for training to be carried out for longer periods. The following subjects were covered:

(1) Helicopter expaning and deploninr drills.
(2) Individual Weapon Training.
(3) Training in the use of APCs.
(4) Continued training of the Panhard Arm Car crews in driving and gunnery.
(5) Patrol and escort training for NCOs including the conduct of actual patrols and escorts.
GROUP STRENGTH

1. This was increased by the posting to the Group of 1 Officer and 45 o/ranks during the period under review. Of these, one Rifle Platoon was allotted to 'B' Coy; 5 engineers, 6 transport and 6 signallers were allotted to HQ Coy.

One officer and two ptes were repatriated; one officer on compassionate grounds, one pte on medical grounds and one pte on disciplinary grounds.

Strength of Group is now 442, all ranks - including one Chaplain.

DISPOSITIONS

2. As shown on locrep for 312359 - see Annex '1.' attached.

GENERAL SITUATION IN L:D:W: DISTRICT

2. As shown on locrep for 312359 - see Annex '1.' attached.

GENERAL SITUATION IN L:WJ: DISTRICT

3. a. The most significant feature during the period has been the considerable lessening in the tension throughout the District and a general improvement in relations between the Tk/Cyp and Gk/Cyp communities. This is evidenced by some movement of Turks into Greek quarters; by the abandonment of the rigid checks on travellers previously carried out by Greek policemen; by the lessening of dangerous incidents. The improvement is more noticeable in the rural than in the urban areas. The factors which contributed to this change were:

(i) The lifting of the economic blockade;
(ii) The apparent passing of the threat of invasion from the Turkish mainland.

The basic problems between the two communities still remain unsolved.

b. Effect of situation on mission

As a result of the improvement in the general situation, economic considerations have now assumed a much greater importance than heretofore. HQ UNFICYP have duly recognised this fact by the establishment of a separate Economic Branch and the resources of the Unit have had to be diverted to carry out the field work necessary to keep this new branch up-to-date on the economic situation throughout the District.
OPERATIONS: MILITARY AND ECONOMIC

4. Military operation

(a) The continued interposition of our forces between the opposing factions on the "GREEN LINE" in LIMASSOL. Though tension has eased there is, as yet, NO progress on the matter of the removal of the respective fortifications.

(b) Observation of all NON UN military movement in the District. This is carried out by a system of mobile patrols and static OPs.

(c) Maintenance of freedom of movement on all roads within the District particularly with reference to movement along main roads NICOSIA - LIMASSOL and LARNACA - LIMASSOL through KOPNOKOU G (206303) village.

(d) Routine patrolling of all villages in the District with a view to maintaining contact with local situation.

(e) Investigating shooting and other such incidents as and wherever they occurred.

5. Economic operation

(a) Provision of escorts for a variety of purposes such as for the Tk/Cyp workers proceeding to their daily employment; for Tk/Cyp doctors visiting the sick in Tk/Cyp villages and for the Tk/Cyp patients being evacuated to hospital.

(b) The collection and distribution to Tk/Cyp refugees of Red Crescent relief supplies.

(c) The supervision of the harvesting, in critical areas, of the Carob, Olive and Grape harvest.

(d) The supervision of ploughing operations in sensitive areas.

(e) The supervision of programme of inoculations in Tk/Cyp villages of sheep, cattle and goats against ANTHRAX.

(f) The conduct of various surveys on behalf of Economics Branch HQ, UNFICYP. The principal surveys carried out were:-

1. Food situation in the Tk/Cyp villages of the District.
2. Requirements of petrol, diesel oil and kerosene in these villages for essential services.
3. The locations and numbers of Tk/Cyp refugees.
4. Winter clothing requirements of Tk/Cyp refugees.
5. Educational survey of the District with particular reference to the resumption of the high school and secondary school education of the Tk/Cyp children in cases where the situation had influenced its discontinuation.

6. Training

The following subjects were covered:

a. Helicopter landing and take-off drills.

b. Individual Weapon Training.
c. Training and firing of selected range practices by the 81 mm Mortar sections. The range practices were carried out on LEFTKONHA ranges and were considered satisfactory.

d. Patrol and escort training for NCOs including the conduct of actual patrols and escorts.

**ADMINISTRATION**

7. (a) **Strength decrease:**

1 Officer and 2 O/ranks were repatriated:
- Comdt J.P. Duggan on Compassionate Grounds on 17 Oct '64
- Pte J. Hunt, 'A' Coy on Medical Grounds on 15 Oct '64
- Pte M. O'Donoghue, 'B' Coy on Disciplinary Grounds on 15 Oct '64.

(b) **Strength increase:**

1. 1 officer and 39 o/ranks arrived from Ireland on 14 Oct '64 for 3 Inf Gp, comprising 1 Rifle Platoon (1 offr and 28 o/r) 5 Engr personnel and 6 S&T personnel.

2. 6 Sig personnel were posted from 40 Inf Bn to 3 Inf Bn w.e.f. 14 Oct '64.

(c) **Inspections:**

Brigadier A.J. Wilson, COS UNFICYP HQ inspected the 3 Inf Gp on 23 Oct '64. He was provided with a Guard of Honour drawn from 'A' Coy, briefed by the Int Offr at Gp HQ, visited the District Officer and Turkish leader and toured the Green Line.

(d) **Conduct:**

Is good both on and off duty.

(e) **Public relations:**

Are very good. The Unit is very popular with both Greek and Turk communities.

(f) **Medical:**

Hygiene, Sanitation and Health is very good. Incidence of sickness - 88 cases of a minor nature. Hospitalisation - 4 cases averaging 3 days.

(g) **Morale:**

Continues to be very good. The inadequacy of the overseas allowance continues to be a subject for complaint. This will be fully covered in a subsequent submission.

(h) **Chaplaincy:**

A satisfactory service is provided by the Group Chaplain who is satisfied with the Spiritual Welfare facilities.

(i) **Holy Land:**

Three 7 day Tours of the Holy Land were organised. Each Tour comprising 30 Officers, NCOs and Ptes. The tour was enjoyed by all participating. Three further tours were contemplated.

(j) **Discipline**

Standard is good. Drunkenness is nil. Most charges are for short absences - 10 cases.
On a Court Martial was held for insubordination, offering violence, threatening language and disobeying orders.

(k) "A" Inn
Is satisfactory.

Organisation and Establishment:

(1) Medical: It is recommended that the establishment for the Medical Pl be increased by 1 Cpl. This would permit 1 Cpl being attached to each Coy.

(2) It is recommended that a Sanitary Squad be included for overseas service. This sanitary squad would consist of 6 men for an Infantry Group and 8 men for an Infantry Battalion.

3. Military police:

   a. MP Duties Performed: NO change since last report.
   b. Arms and Equipment: The detachment received 9 waterproof coats despatched from Ireland per 41 Inf Bn.
   c. Conduct: Very satisfactory.
   d. Provost: NO incidents have occurred involving our troops and the general standard of discipline is satisfactory. Conduct and cleanliness of troops out town is satisfactory.
   e. Disciplinary action for Month of October: See para 7, sub para (j).

"Q" REPORT

9. See Annex 'B' attached. This covers 'Q' including MT, Engrs and Catering.

   ARMO CAR GROUP

10. a. Operational activity:

    All the necessary petrol, escort and security requirements were provided to the Infantry Coy's during the period.

    b. Maintenance of vehicles and eqpt

    This was successfully carried out through the means of a combination of crew and fitter maintenance. Mechanical repairs which became necessary were carried out by the fitter staff which returned from a technical course in France during the period.

    c. Visit of Pan Harris representative:

    The representative of Messrs Panhard mentioned in para 13 of the last report did NOT arrive on the island as advised. On the 22nd Sept '64, a letter was sent to Panhards requesting them to forward certain parts, missing on delivery, and which are necessary to make the vehicles fully operational. To date, an acknowledgement of this letter has NOT been received.

    d. Range practices: Range practices with the MMG were completed. Good progress has been made with firing the 60 mm Mortar. Practices were highly satisfactory as regards pin-point accuracy with the mortar at ranges of up to 800 yards.
e. Visit of Director of Cavalry: Colonel Stapleton visited the island during the period. He was briefed on problems concerning vehicles, equipment and spares relating to the Panhard Armoured Cars.

f. Training armoured car group 41st Bn. In accordance with directions issued by COMZON training of the newly arrived Armoured Car Group commenced during the period and is continuing.

g. Clothing. Due to the excessive wear and tear on UN Greens in the maintenance of AFVs under difficult conditions, an issue of a third set of greens for each man is recommended.

11. a. Communications: The communications maintained are as submitted previously.

b. Organisation: In the previous report, the inadequacy of the establishment was commented on. The situation has now been improved considerably, by the addition of three operators, wireless and three switchboard operators, from the 40th Bn. The overall lack of WT operators has NOT been fully resolved but short courses in the operations of WE C 12 have been run for all unit officers. Some have become very proficient and frequently go on patrols without a WT operator.

c. Equipment: The comments made in the last report still obtain.

A total of 13 WE type A 41 have had 2nd echelon maintenance. This figure must be considered high when it is borne in mind that only 10 sets are in full time use, mainly in static positions.

d. Further requirements: At present each Inf Coy has sent out two or more patrols daily. These patrols should be equipped with wireless sets of the C 12 type and in the case of patrols beyond the 15 mile radius from Gp HQ, with C 11 sets. At present the ten C 12 and 2 C 11 sets on charge to the Gp are allocated as follows:

1st Coy - 3 C 12 sets - One at Coy HQ and two available for patrols.
One set more for patrols and one for the Coy Comdr's veh required.

2nd Coy - 4 C 12 sets - Three static, one at Coy HQ, one at AXIOS THEODOROS and one at KOFINOU. This leaves one available for patrols. Two more C 12 type sets required. In addition - as this Coy has to patrol at distances of 15 to 25 miles from Gp HQ, a C 11 type set is required.

Gp HQ - One C 12 set - CO's vehicle.
One C 12 set - Sigs
One C 12 set - Spare. In almost constant use as replacement.

2 C 11 sets Gp HQ. Fully employed.

WELFARE AND RECREATION. I. TRAINING

12. a. Welfare supplies and staff: Supplies of essential items were in good supply and the Gp welfare staff have been very satisfactory. At present the Group is situated in four locations, necessitating four canteens. It has proved extremely difficult to obtain suitable personnel to conduct these canteens, especially when there is NO provision in the Group Organisation for such personnel. Some different arrangement is urgently required for efficient staffing of these canteens.

The overseas broadcasts of the All-Ireland Finals was much appreciated.
Two films per week were shown in each Coy location. One film per week is borne by welfare. The cost is £3 6s 0d per film - a total cost of £200 0s 0d for 25 weeks.

Very successful group concerts, question times and bingo have been run.

b. Recreational training. Inter-platoon and inter-coy volleyball has been very successful - all ranks participating daily.

Inter pl soccer matches are in progress in very restricted and very dusty pitches. The unit soccer team has successfully competed against many local teams. It has been at last possible to obtain a satisfactory field (except for dust) for Gaelic and Soccer and inter coy and inter pl matches are about to commence.

... basketball tarmacadamed, is at present being constructed and will prove a great boon. Inter pl matches take place on very poor improvised pitches. The unit team has played against the 40th Bn.

Swimming parades take place daily and despite slight disimprovement in weather, are still widely attended.

Bus tours of the island were initially successful but the men soon tired of historic ruins.

Road races have been held and a unit sports will be held during the month.

ACCLIMATIZATION

13. a. From 1 Oct to 20 Oct, weather was relatively cool - 58 F in shade during day. From 20 Oct to 31 Oct, there was a sharp rise in temperature - 95 F. Men have continued to become satisfactorily acclimatized.

b. There was a sharp drop in temperature at night time. It is necessary to wear the pullover and if the drop in temperature continues it will shortly be necessary to don the green service uniform at night time.

c. It has been necessary to issue four blankets per man. Mattresses have been requisitioned from UNFICYP HQ.

d. No rain during month of October. When patrolling on 2nd or 3rd class roads, heavy dust arises very quickly. In Coy localities, dust provides a problem as frequent winds blow it into billets, dining halls, etc.

(T.McDonald) Lt-Col.
OC 3 Inf Group.

Annexes
Annex 'A' - 3 Inf Group (Irish) LOCSTAT as at 31 Oct.

DISTR
COMINCON - 3 copies
FILE - 1 copy.
To Progress Report, 3rd Infantry Group.

</table>
1. **Organisation.** The position has improved considerably since previous report because of the following factors:-

   a. **Arrival of additional personnel**

      (1) 6 additional drivers have arrived and this has improved the M.T. position, particularly at Gp HQ.

      (2) 5 additional Engr pers, their arrival has enabled many long deferred improvements to be put in hand.

      (3) 6 additional sigs pers.

   b. **Employment of civil labour.** The following have been authorised and suitable personnel have been employed to fill all the vacancies:-

      (1) 4 Cooks.

      (2) 9 Kitchen Hands - who work as dining hall orderlies and mess orderlies.

      (3) 3 Sanitary Labourers - who do general fatigues at Gp HQ and within the coys.

2. **Advance party.** The non arrival of a suitable advance party with the 41st Bn threw a heavy admin load on 3 Inf Gp in that we had to provide drivers and cooks for several days to assist in the rotation of the units. Doubtless the 41 Bn Report will detail the difficulties experienced in the handover of stores, etc. This merely emphasises the vital necessity of having a suitable advance party available in good time prior to rotating of units as recommended in my first report.

3. **Ledger accountancy.** The original vouchers in respect of Sheets and Pillows have not yet been received. There are no further additions to the detailed suggestions made in my initial report on ledger accountancy.

4. **Clothing.** Tropical Greens and shorts are still the normal dress during the day as the weather is still around 80F daily in the shade. It is however much cooler at night and the woolen sweaters are a welcome addition. In this connection an issue of sweaters for the additional pers from Ireland is vitally required.

5. **Matresses.** A case has been submitted to HQ UNFICYP for the issue of matresses for use with the Safari beds. This was considered desirable in view of the colder conditions of Winter and the prevalence of droughts and ground damp in many of our locations. In this connection, the issue of blankets has now been increased to 4 per man.

6. **Rations and catering**

   a. **Rations.** Our cooking staffs have now become accustomed to the British Ration Scale and the system of issues which practically dictates the menu for day to day. Some items on the scale, particularly, rabbit and offal, (heart, tongue, liver). French Beans and Broad Beans, are not popular
and efforts are being made to have suitable alternatives made available. In this connection, it is interesting to note that at a recent catering meeting at HQ UNFICYP, it was indicated that contingents might surrender part issues of individual commodities not acceptable to them, for a pro rata increase in more popular items. The unit catering officer is at present investigating these possibilities.

b. **Cooking facilities.** The diesel cookers continue to give satisfactory service being extremely quick to start in the morning, economical and clean in operation, and are highly regarded by our cooking staff. Improvements in the cooking facilities have been made, in the main devoted to improving hygiene standards and facilities and the position at Gp HQ, HQ 2 Coy, and HQ B Coy can now be regarded as satisfactory. Some further improvements are necessary at Kophinou and at Gp HQ locations has been submitted and two additional four burner gas cookers have been allotted.

c. **Christmas Fire.** Requirements have been surveyed and in the light of the high and ever increasing costs of necessary items, it is recommended that a minimum per capita allowance of 10/- per head be authorised from National Funds. This sum is determined by the fact that the prices of many seasonal food items, beers, refreshments and incidentals are considerably more than those obtaining in the Congo in Christmas 1963 when an allowance of 7/6d was authorised.

d. **Training-Cooks/NCO’s:** Our experience indicates that refresher courses covering cookhouse management, compilation of menus, meal service, preparation of sweets and pastries, are very necessary for our cook NCO’s prior to overseas service. It is also recommended that a cookery manual be issued to each NCO Cook to assist in menu planning, variety in diet, and as a handy reference primer for day to day work.

7. **ENGINEERING WORKS:** During October engineering work progressed at a satisfactory rate and dining, cooking, sleeping, toilet and ablution facilities have been considerably improved in all locations, but ablution facilities at KOPHINOU are still in progress. The work during the month consisted generally of:-

a. **Routine maintenance:** Such as painting and renovation of billets etc.

b. **Continuation of works already sanctioned:** Those are now 95% completed, one No. 4 Mon DTL and 2 Presses due for completion by the Public Works Dept., Dhokalla. At KOPHINOU improvements to cooking, improvements at Cookhouse, GP HQ have been completed.

8. **HUNTERISATION:** All Coy locations have been surveyed to determine the engineer and other works needed to maintain health and morale, and to provide a reasonable standard of accommodation during the winter period. Detailed costings have been prepared and submitted in connection with this programme, tenders have been obtained for contract works and initial work on glazing, draught exclusion, insulation, etc, has been put in hand by unit engineer personnel. The general progress position is as follows:-

a. Work has commenced on construction of 2 Nisson Huts at HQ Coy.

b. Tenders for materials for tent bases and glazing materials have been received and orders placed with Builders Providers. Work to commence 28/10/64.

c. Road surfacing and hard standings has not yet commenced. This work is to be executed by contract and efforts are being made to have it put in hands.

d. Erection of Guard Shelters in progress.
9. Ordnance inspections - Inspection of all weapons on charge to 3 Inf Gp carried out during Oct, and repairs carried out where necessary. Four 60mm mortars were fired on Lefkoniko Range, using HE and Smoke. Both weapons and ammunition functioned satisfactorily, except for one misfire at Tortora due to defective primary cartidges.

Six Panhards were fired on Lefkoniko Range, using the 60mm mortar. As directed Charge 2 was the max charge used. Total number of rounds fired was 175 HE. There were six misfires on impact. It is to be noted that the Range Scale on optical sight and range drum refer to charge 4, and do not correspond to the ranges when firing charge 2. The weapons functioned satisfactorily.

10. TENTAGE - Work carried out, included the erection and removal of 3 Marqueses at 1/1 Coy. Guard Room Tent at HQ Coy was removed. Weekly inspection carried out of all Tentage.

11. Ammunition - Storage of ammunition is now satisfactory and within regulations as far as is possible.

12. Misc ord Matters
   a. Workshops - Work is proceeding on erection of an Ord Workshops.
   b. Hydra cookers - At present Hydra Cookers are used for cooking at KOPHINO and repairs are carried out when necessary. In addition a weekly inspection is carried out of Hydra Cookers in use.

RUNDAnd
15. P01. Supplied on demand from 'PetDepot, Dhokelia Base. Paraffin also supplied from this Depot for heating and Diesel Fuel for cooking.

16. DVRS. 6 additional drivers reported from Ireland on the 14Oct '64. Two of those were despatched to 'A' Coy. One driver from 'A' Coy was repatriated around the same date on Medical Grounds. The additional strength is welcome and affords welcome relief for our drivers who have been for three months engaged in tough driving duties in extreme conditions of heat and long hours.

17. MISC M.T.
   b. East end lekap - Logistic support continues from the S.B.A. Repairs are sufficient and fast. Except for one engine seizure most repairs are of a fairly minor nature. The fitters continue to visit the units in turn to inspect vehicles and carry out preventative maintenance. This I find keeps vehicle casualties to a minimum and brings defects to light much earlier.
   c. Efficiency. My remarks in first report still apply. In an operation of this kind anything less than one driver one veh must be considered to be less than the ideal.
1. SIT. With the approaching meeting of the General Assembly this is considered to be a good time to attempt further projects in promising fields of negotiation and op. Issues on which agreement is unlikely at present are to be avoided. (UNIFCYP/OPS (A)/146 refs).

2. MISSION. To keep the peace and assist and encourage a return to normal.

3. Project orientation

a. Scope. The op orientation until further notice will be:

   (1) OPE economic

   (a) Relief.

   (b) Commercial shipment.

   (c) Food.

   (d) Housing.

   (e) Clothing. (Shopping for winter clothing is obstructed in NICOSIA for outsiders, except perhaps in Gk shops. Men's clothing is classified as 'warlike stores'. Therefore, shoppers should be encouraged to come to LARNACA.)

(f) Agriculture

   i. Ploughing and sowing. Fertilizers.

   ii. Inoculations against foot and moth and enterotoxemia.

   iii. Completion of Olive Harvest.

   iv. Starting and completion of the Orange harvest (est. date of commencement 23 Nov).

(g) Fuel oil, diesel, petrol, kerosene, furnace oil, masut is now on unrestricted list.

(h) Materials

   i. General.

   ii. Spare parts with particular ref to tractors.

   iii. Building materials, particular ref to materials required to house refugees.

(i) Tn.

(k) Edn.

(l) Health.
(a) Social services

1. Survey required of Tks who have been due Social Insurance for past six months but who have NOT received it.

ii. Encourage Tk Civil Servants to go back to work in govt welfare depts.

iii. Rem. There is agreement in principle to re-employ previous workers in SBA. Name, location and ID Card No of workers concerned required.

(b) Freedom of mov. Aim is to go, by encouragement and advice, for complete abolition of rd blocks in the LARNACA District.

(c) Defortification. Cont to make progress in defortification where possible.

(d) Resettlement of refugees

(a) Govt plan for refugees is expected shortly and UN has offered assistance in their plans to resettle villagers.

(b) This is plainly a matter of importance and encouragement and assistance will be given to bring about this resettlement.

(e) Danger of Tk Cyp extremists trying something rash. A close watch will be kept for any indications that may point to a prelude to rash action by extremists with a view to obviating such acts.

(f) Info

(1) Specific info on tp locs, disposns, strs and significant movs corts to be a requirement.

(2) Re incidents a report pro forma was issued, giving examples of different types of incidents and laying out a suggested method of reporting.

(g) Liaison

(1) The importance of gaining and maintaining the closest liaison with the mil ldrs of both communities at ALL LEVELS of deployment is stressed.

(2) The importance of imposing the will of the mission by example, practice, precept, bearing, tact and care in the choice and use of words is also stressed.

(h) Op MARMALADE. A study period and cns based on Op MARMALADE will be arranged and carried out.

---

J.P. Driscoll COMDT

Ops Offr, 3rd Irish Inf Gp

for Cmd Tps LARNACA DISTRICT

List & Joint Patrol
COMERCON (2), Ops (4), UNFICYP (1), Ops (E) UNFICYP (1).
Sir,

Hereewith progress report in respect of this unit for Nov 64.

1. **Increases**
   - One officer who had been repatriated on 17 Oct 64 rejoined the unit on 5 Nov 64 - name 05784 Comdt J.P. DUGGAN.
   - Two officers and two petty officers were repatriated as under:
     - 07062 Capt C. COX - compassionate grounds.
     - 013061 Pte T. BUCKLEY -
     - 025346 Pte W. LEAHY -
   - One officer, seven NCOs, and 20 petty officers to 41 Bn as from 30 Nov 64. These comprised the rifle pl posted to this unit during Oct 64.

2. **Decreases**
   - 412 all ranks incl one chaplain.

3. **Proposed changes in disposal**
   - During period under review, orders received from HQ UNFICYP that this unit would take over OP responsibility for PAPHOS district as from 7 Dec 64 and that troops of the Swedish contingent would replace this unit in the LARNACA district.

4. **Gen sit in LARNACA District**
   - Tension cont to ease slightly in district throughout the period except at KELLILI, GR 52746. This is a Turkish village and on 27 Nov 64, there was an incident there when Turks fired 16 or 17 rounds on a section of Greek Police. There were NO casualties and UN succeeded in calming the situation. However, feelings between the two communities are still tense.

5. **Ops - mil and economic**
   - **(1)** The cont interruption of our forces between the opposing factions. There is NO progress in the matter of removal of the respective fortifications.
(2) Obstruction of NON UN mil mov in the district by a system of mob pins and static ops.

(3) Routine patrolling of all villages in the district with a view to maintaining contact with local sit.

(4) Investigating shooting and other such incidents as and whenever they occur.

b. Economic

In op matters the emphasis has switched to the economic aspects.

(1) Workers. Workers now get through rd blocks with min delay.

(2) Harvesting. Escorts are being provided for olive and citrus harvests.

(3) Sowing and ploughing. Escorts were provided for ploughing and sowing.

(4) Red Crescent relief. This op from unloading, guarding and distributing, has become a UN responsibility. Surveys are being carried out on which to base distribution.

(5) Edn. Surveys are being carried out on students who live in rural areas, with a view to getting them into NICOSIA and accommodating them there.

(6) Refugees. The big problem is the resettlement and rehabilitation of Tk refugees back in abandoned villages.

(7) Emp. Ex SL workers facilitated to return to former emp.

(8) Health. Vaccinations, inoculations, etc, facilitated. Biggest problem arose getting Tk patients into hosp in NICOSIA.

(9) Veterinary. The vet has been conveyed in UN vch all over District and has inoculated Tk animals against foot and mouth, anthrax andenterotoxemia.

(10) Gen. Generally ops are geared to encourage a return to normal, starting with agriculture and ensuring that fuel oil and spare parts for tractors are available and that escorts for ploughing, sowing and harvesting are provided where required. The UN presence in LARNICA, by anticipating snags and resolving problems has made ops (economic) go smoothly in the district. This alleviated a good deal of hardships.

7. Int

a. Work carried out by this sec during the period under review incl:-

(1) Briefing of Brigadier James WILSON, Chief of Staff, UNFICYP, on the sit in LARNICA District on the occasion of his visit on 23 Oct 64.

(2) Briefing of Senor Carlos Bernardes, U Thant's special rep in CYPRUS on his visit to LARNICA on 2 Nov 64.

(3) Briefing of Col Carl O'SULLIVAN, Lst Chief of Staff, on his visit to LARNICA on 5 Nov 64.

(4) Briefing Lt Col STREICHEFERT, Int Branch, HQ UNFICYP, on his visit to LARNICA on 20 Nov 64.
(5) Daily briefing of the Group staff on the general political and mil sit in LARNACA District.

(6) Attendance with Op CC at both joint and separate weekly meetings with Mr. ZACHRIADES, District Officer, and Dr. Orhan, the Tk/Cyp ldr, and maint of the records of such meetings, and briefing the CC in adv of the meetings on pts likely to be raised.

(7) Submission of daily info summaries to HQ UNFICYP.

(8) Maintain up to date of map plot (and descriptive index to same) of all Gk/Cyp and Tk/Cyp fortifications and posts in TUZIA (NORTH LARNACA) and SCALA (SOUTH LARNACA).

(9) Maintain up to date of Sec Sit Map showing: All known mil disposns, both Gk/Cyp and Tk/Cyp in LARNACA District.

(10) Liaison with Cyp Army and National Guard offrs in LARNACA District.

b. Staff. As can be seen from above, the unit IO was an extremely busy man during the period. It is felt that any indep unit operating in a similar sit should have an Asst IO. The gathering of info is of vital importance to the units mission of keeping the peace. In consequence of this fact the Int Branch and the Ops Branch have been very busy. It is felt that much more could have been achieved in the collection of info had there been two offrs in the Int Branch, one for fd and the other for office duties. Amongst other duties appropriate to the Int Branch, is that of fostering and maintaining contacts with the respective communal ldrs and in particular with the Cyp Army (Regular) and National Guard (Volunteer, Home Guard element) Comds. Once their confidence and trust has been estab, much valuable info can be obtained from such sources.

7. Trg. The following subjects were covered:

a. Adult war trg. It was the intention to exercise all pers in the ranges on 1-4 Dec 64 and ranges had been procured. Due to the move to PAPHOS, it was found necessary to cancel the range work.

b. PT. This was carried out for all ranks.

c. Fat and escort trg. This was carried out for NCOs including the conduct of actual pats and escorts.

d. Int trg. Arising from obsn here, it is felt that trg as follows, should be incl in the prgm for units on similar missions:-

(1) It is hardly necessary to stress the importance of sound obsn and clear, accurate and comprehensive reporting. This is an aspect of trg which must be fully covered among ALL ranks down to the private soldier and should be incorporated, if NOT already done, in the preliminary trg of units at home in IRELAND.

(2) Map reading. It is necessary that the highest standards of map reading be achieved at offr and NCO level. The ability to accurately read town street plans has been found out here to be an essential requirement, NOT alone from the pt of view of route finding, but also for the purpose of the accurate pin pointing of the locs of incidents and instls observed on town pats, eg, fortifications.
(3) Identifications

(a) Ac and hptprs. There is a standing requirement for the reporting of ALL ac and hptprs overflights to HQ, UNFICYP other than UN, local RAF and normal commercial flights. This requirement demands the necessary ability to properly identify ac. And our units do NOT incl trg ac observers, it would, therefore, be necessary that some part of the unit be trained in this subject. As it is most unlikely that time would permit for such trg to be carried out at home, the max requirement would be that the unit IO should have the necessary aids such as pictures, silhouettes or sketches of the more familiar types of mil ac and hptprs so that at least the subject could be incorporated in unit cont trg in CYPRUS.

(b) Wpons and eqpt. One very important aspect of reporting is the positive ident of wpons and eqpt seen in possession of either faction. It is, therefore, essential that at least ofrs and NCOs have the necessary facility to carry out such tasks. The following are examples of some of the wpons and eqpt seen in this theatre, some of which are familiar but some of which are NOT.

i. Rifles
   - American M1 semi auto rifles.
   - British Lee Enfield Mks I and IV.

ii. Sub machine guns and carbines
   - American Thompson.
   - Sterlings.
   - Stens.
   - StuMPs Carbbnes.

iii. Lt. guns
   - Spandaus.
   - Brens.

iv. MGs
   - Vickers.

v. More
   - 60 MM
   - 75 MM
   - 105 MM

vi. tk wpons
   - 106 MM rcl rifles
   - 3.7 in LA guns.
   - 6 pr tk guns.

vii. AA wpons
   - 20 MM twin barreled DERLIKONS
   - 3.7 in LA guns.
   - 40 MM Bofers AA guns.
viii. Ed pty
   25 prs.

ix. Rocket launchers
   2.36 in American RLs.
   3.5 in British RLs.

x. Scout cars
   Dingo.
   Marmon Harrington.

8. I.d.m
   b. I.d.m insps. Sub-unit records were checked against the Gp HQ records and found to be satisfactory.
   c. Public relations. Are excellent with Greek and Turkish Cypriots and with other contingents as also with the British Sovereign Base area.
   d. Morale. Cotts to be very good.
   e. Chaplaincy. Satisfactory.

f. Leave - HOLY LAND. The 5th and 6th tours of the HOLY LAND and LEBANON were completed during the month and enjoyed by all. To date 171 members of the Gp have participated. It is intended to run one more trip on 11 Jan 65.

g. Mail and newspapers. Generally speaking, deliveries are satisfactory although sometimes erratic. Occasionally letters are taking five days to reach 3 Inf Gp which seems rather long. The psom to-day Mon 30 Nov is that letters and papers posted in DUBLIN on Friday 27 Nov have been delivered this a.m. - which must be considered most satisfactory.

h. Discipline. Standard is satisfactory. Loc leave facilities remain unchanged. Standard of dress cut town is satisfactory.

j. Mil police. Duties as per last report. Conduct of det remains very satisfactory. Disciplinary return of 3 Inf Gp for Nov 64 is as follows:-
   (1) Absence without leave - 15 soldiers convicted.
   (2) Drunkenness in a public place - 3 soldiers convicted.

k. Med. Health was excellent. A total of 99 reported sick during the month. All complaints were of minor nature. One man was admitted to hosp with abdominal pains but was returned to duty after three days. Sups are satisfactory. The HO recommends that a DO be added to the catab if it is proposed to maintain the contingent at the present str.

l. Insps and visits. Gp CC insp all ranks and instls during the month and had NO adverse complaints. Senr Carlos BERMUDES, U Thant's special rep in CYPRUS, visited the Gp on 2 Nov. Col Carl O'SULLIVAN insp the Gp on 5 Nov.
Return of entertainment 3 Inf Group: Reference is made to application for an allowance to meet cost of return of entertainment submitted to Director Plans and Operations on 25 Sept. A reminder was dispatched through UNFICYP on 9th Nov. As NO positive reply was received to date I would be glad if the matter is again taken up with the proper authorities. Again, I wish to point out that the return of this entertainment is considered necessary in the interest of our National prestige.

Rotation or otherwise of Group. In view of the fact that the advance party of this group will have served 6 months overseas on 19th January, it would be appreciated if the dates and arrangements for the return of the Group to Ireland were notified as soon as possible to this Unit. In the event of the Group NOT being replaced problems will arise include:

1. Return of large quantities of stores to UN, SBA.
2. Packing and returning of stores to Ireland including the Panhard armoured cars.
3. Return of camp sites, bungalows etc to civilian owners.
4. Requisitioning and occupation of transit camp whilst sub-para 3 is being carried out.

Incidence of duties. No change from Oct report.

10. Armoured Car Group

a. All necessary patrol, escort and security requirements were provided during the period.

b. Maintenance of vehicles and equipment. During the period all Armoured Cars were inspected by a Panhard technical representative Mr Tom Alexie. Mr Alexie departed for France on 20 Nov where he will submit a detailed report on his findings to Messrs Panhard. A copy of this report should arrive through the usual channels in due course.

A letter has been received from Messrs Panhard stating that the parts reported missing on the eight armoured cars of this group on arrival will be replaced in due course.

c. Training Arm Car Gp 41 Inf Battalion. Training of this group as per syllabus was completed during the period. Due to the non-availability of a suitable classified range MG practices were NOT fired. Technical training of the fitter staff of the Arm Car Gp 41 Battalion is continuing in accordance with directions as issued by COMIRCON. Messrs Panhards representative was most helpful in this regard during his two weeks stay.

11. Signals

a. Communications maintained are as submitted previously.

b. Equipment. Almost all items of equipment are standing up to usage satisfactorily MS 41 has a high incidence of faults necessitating
2nd to 4th Echelon maintenance by REME.

Receivers R 210 have also developed a number of faults in the power circuits particularly in the bushing condensers C.103 115, 122, 123, and 124. One vibrator has also become unserviceable in this receiver.

12. Welfare and recreational training
   a. Welfare supplies and staff. Remarks as per report for October still obtain.
   b. Recreational training. Inter Platoon and Inter Coy basketball, Gaelic Football leagues and championships have been held. The Group constructed a tarmac covered basketball pitch at HQ which was a great boon to the recreational facilities. All types of games are very popular but the lack of football boots was a big handicap. The hurling sticks brought out from Ireland broke very quickly due to poor quality and did NOT justify expenditure. Money spent on them would have been better spent on football boots.

   A very successful unit concert was held during month. Bingo sessions, question times were also carried out.

   Bus tours of the Island were again organised and proved successful. Two films per week are shown to members of the Group.

13. M.T.
   a. Present vehicle strength: During the month three vehs have been returned to stockpile and struck off charge being beyond economics repair. These were:

      1 - 3 ton Bedford 600 gals water vehicle.
      1 - 3 ton Bedford G.S.
      1 - 1 ton Austin G.S.

      Replacement for 3 ton water vehicle has been received.

   b. Dist of vehicles:

      No change other than the deficiency now arising out of previous para.

      Cav Gp minus 1 - 3 Ton Bedford
      B Coy minus 1 - 1 Ton Austin

   c. Pol, Drivers, Equipment and Wks - No change.

14. Acclimatisation
   a. Weather: It continued dry and fine prior to 1 Nov to 20 Nov. From 20 Nov to 23 Nov heavy torrential rain fell accompanied by heavy thunderstorms. The rain converted all the non-tarmac ed surfaces into heavy mud. The rain was accompanied by severe cold by night and day. Temperature dropped from 95 F in October to 67-70 F (daytime) during Nov night temperatures fell to as low as 50 F. The men felt the cold very appreciably after the long prolonged fine weather. All ranks commenced wearing the Irish Green Uniform as a result of the cold. Weather became quite fine and sunny after 23 Nov but at night-time it became very cold.
b. Clothing. The ground sheet proved quite unsuitable as a protection against rain. Men on patrol found it very cumbersome, awkward and cold whilst carrying out their duties. It is felt that an issue of a rain proofed jacket and trousers lined to keep out the cold is imperative on these operations. In Dec when the Group move to PAPHOS many of the men will be on observation duty on hilltops - the disadvantages of the ground sheet can be readily appreciated. The Swedish, Danish Canadian troops are all issued with lined waterproofed clothing and something similar would be very suitable for our troops.

c. Bedding. Due to the severe night cold it was felt that mattresses were necessary for the troops. It proved impossible to obtain same from UNFICYP. Instead an extra 3 blankets are being issued to the men. Whilst these will keep the men reasonably warm they are a poor substitute for mattresses.

The troops will be occupying tented camps in winter conditions. Mattresses are always a necessity in these circumstances.

Lt-Cornal

(T. McDonald)

</table>
REMOVAL OF GREEN LINE—LAHILC.

Sir,

The following points on the above subjects are submitted for your consideration:

OUTLINE PLAN

1. Demilitarisation. This word as it appears in para 5 UNFICYP/ Ops (c)/146 (Encl I) means the complete removal of Greek and Turkish Fortifications.

2. In LAHILC this is conceivable only as a phased operation.

(a) Phase 1

Withdrawal of NG and removal of Gk fortifications. It the same time UN would assume responsibility for the defensive aspect of these fortifications. It would not be necessary to occupy all or the same Gk posts to active this OBJECT. Companies have plans to meet this situation. Details of Company plans are already submitted and are being kept under review by Company Commanders. (Please see Annex 'A' and Annex 'B' attached).

(b) Phase 2

Against the background of Phase 1, the UN presence could gradually persuade Turks to remove their fortifications and so bring about complete demilitarisation. This would probably be a slow job and depend on political climate and situation.

(c) General

To have a prospect of success it is imperative that NG take the initiative and do not demand simultaneous Tk defortification, but trust UN to fulfil defensive aspect of their Gk fortifications pending Tk defortification.

(J.P. Duggan)

COMDT

Ops Officer.

Copy to:

O/C 'A' Coy
O/C 'B' Coy
Ops B.
In the event of our being requested to man NG positions along the Green Line the following proposals in respect of this Company are submitted:

1. As already notified, the only occupied NG positions are LNG 2, LNG 5, LNG 6, LNG 13, and LNG 27.

2. LNG 2, on the Bye-Pass Road, need NOT, in my opinion be occupied.

3. LNG 5 - This position is convenient to CO Com and could be occupied by 2 men from HQ Guard.

4. LNGs 6 and 27 are convenient to Hamid Bey and could each be controlled and manned by two men from the Platoon in that locality.

5. LNG 13 - To be occupied by 1 NCO and 3 men.

6. If these proposals were implemented, the following would be the Coy commitments:

<table>
<thead>
<tr>
<th>Company</th>
<th>NCOs</th>
<th>Pts</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>HQ Guard (+ LNG 5)</td>
<td>2</td>
<td>8</td>
<td>10</td>
</tr>
<tr>
<td>Hamid Bey (+ LNGs 6,27)</td>
<td>6</td>
<td>8</td>
<td>8</td>
</tr>
<tr>
<td>Hirings (+ LNG 13)</td>
<td>6</td>
<td>8</td>
<td>8</td>
</tr>
</tbody>
</table>

**TOTALS:** 6 NCOs 20 Pts Total: 26

7. There would then be no necessity for the existing foot patrol along the Green Line. If and when this happens, representatives could be made to the Turks to defortify.

8. The above proposals are within the Company capability and village patrols and escorts could still be provided.

SIGNED (E. Vaughan) COMDT

Coy Comdr., 3rd Coy.
21 Nov 64.

Ops Offr,
3 Inf Gp.

TAKE-OVER OF GREEK POSITIONS ON GREEN LINE
5TH LMRG Gp.

1. The present Coy loc stat shows 9 posts manned by 9 NCOs and 27 Men.

2. The numbers available within the Coy for all the duties are 32 NCOs and 91 men.

3. The incidents of duty here is 1 in 3.

4. By allowing an incidence of duty of 1 in 2, two further posts could be manned and in the event of Greek positions on the Green Line being taken over, Greek posts 1 and 5 would be priority tasks.

5. It would be desirable to also man Greek posts 10 and 23 but this could only be done if two posts in the Kephirou area are vacated.

6. The two least important posts in the Kephirou area are:
   a. Barrier Patrol on Ayios Theodvoros Road.
   b. Tango Hill.

   but agreement should be got from both sides locally before any withdrawal is effected.

(T. Driver)

COMDT

Coy Comdr. 'B' Coy.
PROGRESS REPORT – OPS

Submitted,

In operational matters the emphasis has switched to the economic aspects.

1. Workers. Workers now get through road blocks with minimum delay.

2. Harvesting. Escorts are being provided for olive and citrus harvests.

3. Sowing and plowing. Escorts are provided for plowing and sowing.

4. Red crescent relief. This operation from unloading, guarding and distributing has become a UN responsibility. Surveys are being carried out on which to base distribution.

5. Education. Surveys are being carried out on students who live in rural areas with a view to getting them into Nicosia and accommodating them there.

6. Refugees. The big problem is the resettlement and rehabilitation of Tk refugees back in abandoned villages.

7. De- fortification. Another big problem is de-fortification and U.N. are preparing plans to cater for the removal of the Green Line with a U.N. presence substituted.

8. Employment Ex S.B.I. workers facilitated to return to former employment.

10. Veterinary. The vet has been convoyed in U.N. vehicle all over District and has inoculated Tk animals against Foot and Mouth Anthrax and Enterotoxemia.

11. General. Generally operations are geared to encourage a return of normal starting with agriculture and ensuring that fuel and oil and spare parts for tractors are available and that escorts for plowing, sowing and harvesting are provided where required.

The U.N. presence in Larnaca by anticipating snags and resolving problems has made Ops (Economic) go smoothly in the District. This alleviated a good deal of hardship.

A copy of Nov Operational orientation is attached for info.

(J.P. Duggan)

COMDT

OPS OFFICER 3rd INFANTRY GROUP
Notes on the "Differences" between operating in L.N.M.C. and P.PHOS

1. P.PHOS DISTRICT has been established by 3 Inf Gp. Previously this District was part of P.PHOS ZONE but in the recent redeployment what was formerly P.PHOS ZONE was divided to become P.PHOS DISTRICT (3 Inf Gp) and MOPHOU DISTRICT (41 Bn).

2. The principal differences between the SITUATION in L.N.M.C. as against the SITUATION in P.PHOS DISTRICT arise as follows.

a. Terrain. It is a large mountainous area with difficult features. This principally affects going and trafficability. Drivers need to exercise constant care particularly driving at night. Roads are narrow and one side is generally an unfenced steep ravine. Distances must be measured in time NOT miles. This particularly affects employment of Land Cars.

b. Tactical Dispositions.

(1) The terrain dictates the necessity for troops being physically on the ground. It is not 'on' due to the dangerous roads, to rush troops from a central location to a 'trouble area'. They must be on the spot. This requirement could increase particularly if refugees will go back to their villages on the condition that they have the reassurance of a UN presence there. It is however present UN policy NOT to deploy troops unnecessarily as this does NOT contribute towards restoring normal conditions.

(2) Locstat attached as annex 1:

c. People.

(1) The people are more sensitive politically here. The background in KTIMI has been more bloody and extreme than in L.N.M.C. The statistics of this bloodiness are available and the damage to property done is there to be seen. In KTIMI they (Gks) went to the extreme of cutting off water supply to Turk quarter as part of the Economic Blackade which of course affected women and children.

(2) The people are more spontaneous, forthcoming and friendly than the people of L.N.M.C. or F.M.GUSTI. In their unsolicited salutations they have the same friendliness as Irish country people. On the other hand they are more mercurial and volatile and are more capable of extremes. The damage wrought in KTIMI can only have been done in a savage frenzy.

(3) The answer to their human characteristics is probably an ethnic one. P.PHOS was occupied at one time and another by Romans, Venetians, Arabs and Turks. They are very proud of P.PHOS its antiquity, its history, its scenery and its climate. They have good reason to be proud of these things. Politically they have little to be proud of.
c. People (conta)

(4) Socially they are the most hospitable of people. The danger herein is that they tend to produce Brandy by the bottle and pour it by the tumbler. It is something to be on guard against. There is a varying quality in some of the Cyprus drinks, ranging from safe and palatable to camouflaged other. After the War British Artillerymen stationed in Greece went blind from drinking Ouzo (phonetic spelling) by the mugful. They recovered their sight after a period (per a Major Arthur Begge).

3. Copy of December Ops Report attached as Annex 'B'.

4. The method of negotiating and the levels of access are the same as for LIPN.C:

5. There is more stress on matters affecting Ops Economic than in orthodox Ops Alpha matters at the moment. The situation could change overnight.

6. Return to Normal.

a. In an effort to help Tk Cyps during Economic Blockade period the Force Cond agreed to extend the provision of transport of Cypriots and lifting of goods in UN vehicles.

b. As the situation eased and considerable freedom of movement for the Tk Cyps has been obtained it is now felt that escorting and assistance in travel or carriage of goods will only be given to Cyp citizens in exceptional cases.

c. This does not apply to Red Crescent Relief sups. 3 Inf Gp delivered in UN vehicles Red Crescent Relief to twenty one Turkish villages on 30 and 31 Dec. 3 Inf Gp also convoy Vet for anthrax etc, inoculations.

7. Situation still retains all the ingredients for combustability and many of the problems will only be solved if there is first of all a political settlement.

8. It is essential that scrupulous attention be paid to the handover/takeover of UN positions particularly when units are rotating. There must be no suggestion of posts in sensitive areas being abandoned. (HQ UNFICYP SIGN L OPS 73 of 045152 DEC refers), and the matter must be clearly explained to local Government and TURKISH CYPRIOT forces.

9. There is need for a common policy to exist throughout UNFICYP for the collection of information. It is stressed that it is a plain part of the UNFICYP charter to gain information on the strengths and capabilities of the military forces of both communities, but on the other hand care must be taken to restrict reconnaissance to essentials. A balance must be struck between the demands of reconnaissance and the need to avoid creating unnecessary hostility. It is apparent that it is desirable to discriminate between genuine costal defences such as radar and anti-aircraft sites, and other installations, troop concentrations and fortifications which might be used in intercommunal fighting. HQ UNFICYP will prepare a draft policy directive on all forms of reconnaissance which will be forwarded to all Zones/Districts for their comments as soon as possible.

10. A meeting sponsored by HQ NICOSIA Zone should be held to study the problem and to produce an overall plan.

Sir,

1. **Change of loc to PAPHOS.**

   The major movement was from LARNACA to PAPHOS. In spite of inclement weather and establishing new camps in difficult terrain, this operation went smoothly.

2. **Take over from Swedes**

   We took over from 3 Coy 28 Swedish Bn.

3. **Establishment of PAPHOS DISTRICT**

   PAPHOS DISTRICT was established as per following Locstat. (Annex 'A'), attached, and Amendment No 1 (Operation 'Peacekeeping').

4. **Ops 'A'**

   a. Ops 'A' was mainly an operation of deterrence. The aim was to prevent fortifications and incidents escalating to coincide with the anniversary of the outbreak of the troubles. During the Christmas period there was such a trend e.g.:-
      
      (1) Building of fortifications 'Wall' in KTIN: (Gk).  
      (2) " " STAVR: (Tk).  
      (3) Road block at AXIA V:R:R: (Tree trunk).  
      (4) Shots and 'Accidental discharges'. These may have been due to traditional Christmas celebrational exhuberances.

   b. The main concern initially - coincidental with recon and familiarization - was to manifest the UN presence in the newly established District and to establish good relations with all sections of the population with a view to keeping the peace and assisting a return to normal.

   c. To support the Ops Economic effort.

5. **Ops (Economic)**

   a. Intrans Vaccinations had not commenced. We started on 10 Dec and have an itinerary up to 22 Jan. There have been outbreaks of Enterotoxemia (27/12).

   b. 30 tons Red Crescent supplies (Food) were obtained on 18 Dec and 10 tons of Red Crescent sups (Clothing were obtained) on Dec 22nd. Lists are prepared to distribute these to villages. Transport will be provided by UN. Distribution will also be supervised by UN.

   c. Escorts were provided for:-
      
      (1) Sick people to come to KTIN:.
(2) Mine explosives.
(3) Students doing GCE exam in NICOSIA (Jan 4th).
(4) Vet.

d. Resettlement of Refugees
Refugees from FIT:HECO settled in XYLON attempted to return to their village. There was Tk opposition. It is unlikely that there will be any large scale return, or even a small scale return, until there is a political settlement. Even the question of the reassurance of a UN presence initially will remain.

c. Health.
Many children still require vaccination against Diphtheria and Polio.

f. Remaining Economic problems
There is a backlog of economic problems; such as the return of Government Agricultural Machinery; Tk land grazed and tilled by Gks; Stolen crops; non-payment for grapes and grain; Education; Compensation for damaged and stolen property; Health etc. etc. These are being tackled. They will take time to solve even after there has been politically a settlement.

It is going to take time to heal the fabric and communication and mutual trust that makes trade possible.

6. Concentration and Withdrawal.
This was recast to meet change in loc. Recce will be carried out by Engr Offr and Ops Offr in Episkopi withdrawal loc on Jan 5 '65.

7. Ops General.
Since the beginning of operations all Ops have gone without a hitch and in all projects undertaken progress has been consistently reported. This speaks well for the operation mindedness of the 3 Irish Inf Gp and the enthusiasm and co-operation of all ranks which were the factors that made progress in these operations possible.

J.P. DUGGAN
COMDT
(J.P. DUGGAN)

OPERATIONS OFFICER (1'1' & 'E') 3rd INF GP
4th PROGRESS REPORT - 3 INF GP - 1 Dec - 31 Dec '64.

Maps: CYPRUS 1/250,000 1:50,000 1:5,000

GROUP STRENGTH

1. **Decrease.**
   - 1 Offr and 27 O/Rs posted to 41 Inf Bn.
   - One pte repatriated on compassionate grounds.

2. **Increase.**
   - 1 Offr Capt. R. Tumulty who arrived from Ireland during Dec was posted to this unit.
   - Strength of Group is now 412 all ranks including 1 Chaplain.

OPERATIONS

2a. **Redeployment.** In accordance with UNFICYP instructions 3 Inf Gp moved from LARNACA DISTRICT and established PAPHOS DISTRICT on 9 Dec 1964. PAPHOS DISTRICT coincides with the civil administrative District of PAPHOS. The Gp handed over control of the LARNACA DISTRICT to the XXVII Bn (Swedish) and assumed command in PAPHOS from the same Swedish Bn. ANNEX 'A' deployment of UNFICYP shows the present deployment of UNFICYP consequent to above move.

Prior to 9 Dec PAPHOS DISTRICT had been part of the PAPHOS ZONE and was under the control of a Coy of the Swedish Bn. It was decided by UNFICYP that the task was too great for a coy and the Group was ordered to take over. This involved much preliminary recce to cover the redeployment of the Group. NO permanent buildings were available to accommodate the Group and by the end of Dec the Group were in tented accommodation with installations such as Messes, Canteens, Cook houses, workshops in permanent structures.

The move from LARNACA to PAPHOS was over a distance of 84 miles by HT in extremely adverse weather conditions. Heavy torrential rain fell throughout but the take-over was affected smoothly. Operation Order No. 4, "PEACEKEEPING" was issued by this HQ to cover the dispositions and tasks of the unit in this District. Copies of the Order are attached as ANNEX 'B' to this report and give all relevant information to the duties of the Group in PAPHOS DISTRICT.

2b. **Disposition of Group as at 312359B**

Locstat as at 212359B. See ANNEX 'C' attached.

2c. **Operations - Military Aspects**

(1) Operations were mainly concerned with deterrence. The aim was to prevent fortifications and incidents escalating to coincide with the anniversary of the outbreak of the troubles. During the Christmas period there was such a trend e.g.
2. c. Operations: Military Aspects (Contd)

   a. Buildings of fortifications 'Wall' in KTIMA. (Gk)
   b. Building of fortifications in STA VROCOMO. (Tk)
   c. Road Blocks at AYIA VARNARA. (Troo stump).
   d. Shots and accidental discharges.

(2) The main concern initially - coincidental with rescue and
familiarization - was to manifest the UN presence in the
newly established District and to establish good relations
with all sections of the population with a view to keeping the
peace and assisting a return to normal.

(3) To assist the Ops Economic effort.

d. Operations Economic

(1) Antrax vaccinations not commenced. We started on 10 Dec
and have an itinerary up to 22 Jan 65. There have been
outbreaks of Enteroxemia (27/12).

(2) 30 tons of Red Crescent supplies (Food) were obtained on 18
Dec and 10 tons of Red Crescent sups (Clothing were obtained)
on Dec 22nd. Lists are prepared to distribute those to
villages. Transport will be provided by UN. Distribution
will be supervised by UN.

(3) Escorts were provided for:-
   i. Sick people to come to KTIMA.
   ii. Mine Explosives.
   iii Students doing GCE exam in NICOSIA.
   iv. Vet.

(4) Resettlement of Refugees

Refugees from FITAROU settled in AXILOU attempted to return
to their village. There was Tk opposition. It is unlikely
that there will be any large scale return, or even a small scale
return, until there is a political resettlement. Even then
the question of the reassurance of a UN presence initially
will remain.

(5) Health.

Many children still require vaccination against Diphtheria
and polio.

(6) Remaining Economic Problems.

There is a backlog of economic problems; such as the return
of Govt Agricultural Machinery; Tk land grazed and tilled
by Gk; Stolen Crops; Non payment for grapes and grain;
Education; Compensation for damaged and stolen property;
Health etc.etc. These are being tackled. They will take time
to solve even after there has been politically a
resettlement. It is going to take time to heal the fabric
and communication and mutual trust to make trade possible.

e. Operations General

Since the beginning of operations all Ops have gone without a
hitch and in all projects undertaken progress has been consist­
ently reported. This speaks well for the operation mindedness
of the 3 Irish Inf Gp and the enthusiasm and co-operation of all
ranks which were the factors that made progress in those
operations possible.
2. Operations - Intelligence

1. The main feature of int activities during the month under review were:
   i. Briefing of Staff, of 28 Swedish Bn and handover of LARNACE DISTRICT to Int Staff of that Unit.
   ii. Take over of PAPHOS DISTRICT from 28 Swedish Bn.
   iii. Familiarisation with PAPHOS DISTRICT through personal recce map study and research.

2. Org
   From the point of view of comparison it was interesting to note that each Swedish Coy had two Lieuts., a Warrant Officer and a Staff Sergeant devoted exclusively to Intelligence duties.

3. Liaison
   Contacts were established with the Gk/Cyp District Officer, Chief of Police and the NG Commander and also with the Tk/Cyp leadership. Separate twice weekly meetings were held with the respective leaders but progress towards reconciliation of divergent political interests was greatly retarded by refusal of District Officer to meet the Tk/Cyp leader.

4. Situations
   Generally speaking, relations between both communities were very strained in PAPHOS DISTRICT as the District was the scene of bitter fighting early in the year and there have been many instances of aggression by both sides and subsequent reprisals. These past events are difficult to erase from the minds of both communities and subsequently there is a mutual feeling of fear, distrust and bitter antagonism which has produced a very tense atmosphere.

5. Training
   During the period training was confined to:
   1. Tent Drill
      Training was conducted by the Ord Officer and Tentage Sgt and was essential due to the many new types of tents in issue to the unit.
   2. Fire-fighting in Tented Camps.
      This was also very essential due to the grave danger of fire from electric wiring or the oil stoves that are on issue to the occupants of all tents.
   3. Helicopter Training
      It is recommended that Officers and NCOs of the 4 Inf Gp receive a minimum period of instruction in how to emplane and deplane also in requirements for a helicopter.

ADMINISTRATION

3. a. Strength
   Decrease - 1 pl posted to 41 Bn consisting of 1 Offr 7 NCOs, 20 Ptes - Total 28.
   Repatriation - 1 Pte on compassionate grounds.
   Increase - 1 Offr Capt. Tumulty posted in as Catering Officer.

b. Discipline
   The general standard of discipline of the unit is satisfactory
3. b. Discipline.

The general standard of discipline of the unit is satisfactory as is the conduct and dress of troops walking out on local leave. Local leave facilities remain unchanged. No premises in PHOS District are out of bounds. Disciplinary return of 3 Inf Cp is as follows:

- A.W.O.L.
- Drunkenness in a public place
- Out of Bounds

10 convicted (men)
3 convicted (men)
2 convicted (men)

3. c. Military Police

Perform duties as outlined in previous reports. Conduct remains satisfactory. 2 Cpls have been detached to 'H' Coy at POLIS. Remainder are located with HQ Coy at KTM.

Health.

- Excellent. A total of 68 reported sick during the month. There were no complaints of a serious nature.
- Total of 8 major injuries were treated during the month.

- \( \text{Dislocation of 1st Joint little finger left hand.} \)
- \( \text{Synovitis of right knee.} \)
- \( \text{Contusion calf muscles right leg.} \)
- \( \text{Split nail left index finger and contusion pulp space.} \)
- \( \text{Fracture terminal phalanx 3rd finger right hand.} \)
- \( \text{Myalgia neck and shoulder muscles.} \)
- \( \text{Sprain left ankle.} \)
- \( \text{Abrasions right knee.} \)

Hospitalisation.

- Five (5) admissions to BMH Dhekelia during the month.
- \( \text{Discharge: 9-11-64} \)
- \( \text{Discharge: 17-11-64} \)
- \( \text{Discharge: 27-11-64} \)
- \( \text{Discharge: 17-12-64} \)
- \( \text{Discharge: 2-12-64} \)

Drugs, Equipment and Supplies

4. Satisfactory.

Organisation.

V. Suggested that the establishment of a Medical platoon be increased by 1 Cpl to allow a Cpl for each Coy.

Hygiene and Sanitation.

vi. Satisfactory.

Recommendations.

vii. Recommended that a Dental Officer be added to the establishment of the Contingent.
ADMINISTRATION.

c. Public Relations.
Excellent relations have been established with Greeks and Turks throughout P.PHOS District. Hospitality has been extended to all ranks particularly in the outlying villages.

d. Morale.
Continues to be very high.

e. Chaplaincy.
... satisfactory service has been established. Confessions and Mass are held each Sunday in each camp. Week day Masses and Confessions are arranged for every 4th day in each camp. Evening Rosary was recited in all camps each evening. The above imposes a very severe physical and mental strain on one Chaplain and it is recommended that in this District a second Chaplain be provided.

f. Mail and Newspapers.
Reception since arriving in P.PHOS has been erratic. Mail often goes to the 41st Bn because mail does NOT seem to be correctly sorted in DUBUN.

i. Nomenclature of Unit.
The name "group" has been found to be unsatisfactory since arriving on the Island. Officers of UNFICYP and civilians do NOT understand what type of unit the 3 Inf Gp represents. Newspaper reporters and postal officials appear to think the term 3 Irish Inf Gp includes the complete Irish Contingent. It is recommended that in future units of this type be called Bns in order to avoid misunderstandings.

"Q" REPORT

4. See ANNEX 'D' attached.

ARMY CAR GROUP

a. Operational.

1. All necessary support was provided to the Cos in the LIRN.C. District up to the 9th Dec when the last 3rd Car element a section located at KOPHINOU joined the Main body in KTIM.

ii. The disposition in P.PHOS DISTRICT is as follows

(1) 1 sec located in POLIS in sp 'B' Coy.
(2) 1 sec located in KTIM in sp 'I' Coy.
(3) 1 sec located in KTIM in sp 'HQ' Coy. Providing internal security.
(4) 1 sec in Gp Reserve.

b. Maintenance of Vehs and Equipment.
This is being successfully carried out and no serious problems (mechanical) have been encountered for some time.

c. Training - Replacement 3rd Car Gp Pers
Suitable areas for trainee driving instruction are available locally and there is no difficulty in providing suitable lecture rooms.

d. Discipline and Morale.
There was no incident of indiscipline during the period. The tremendous amount of work, mostly of a voluntary nature, put into the task of establishing and winterizing the camp, is a clear indication of the high morale of the personnel of the Group.
ARMED CAR GROUP (CONT'D)

5. e. Clothing.
The necessity for the issue of suitable winter clothing was adverted to in the last report. Since then, the unit has moved into a tented encampment during wet and wintry cold conditions. As it is natural to expect further periods of such weather our troops require to be issued with warm, weatherproof clothing and field boots as a matter of extreme urgency.

f. General.
Cpl. E. Sheehy, 2 i/c of the Group, assumed the duties of Joint Patrol Leader in the PAPHOS DISTRICT on 9 Dec 1964.

SIGNALS.

The inadequacy of the number of wireless operators provided has been commented on in previous reports. At present there is a total of 13 Ops Wls and Line in the unit. There are five stations manned full time, one rear link to HQ UNFICYP and a constant requirement for village patrols by companies. A total number of 8 operators competent in operating a C.12 type set is required in each Coy.

b. Equipment.
Satisfactory.

c. Communications Network.
This is outlined in the Signal ANNEX to Operation Order 4/64 "Peacekeeping". (See ANNEX "B" attached).

MOTOR TRANSPORT:

7. a. Present Vehicle Strength.

<table>
<thead>

<td>8</td>
</tr>
</tbody>
</table>

Total prime movers 49. The MT Pl continue to maintain and service 4 Australian Police L/Rovers. It also supplies POL to 8 Panhard Armored Cars.

b. Coy Distribution.
No change.

c. Upgrading.
Consequent to redeployment 3 Inf Gp it was found necessary to re-examine veh strs in relation to the new role in PAPHOS District. A case was put to COMIRCON as a result of which 2 additional L/Rs will come on our strength on 1/1/65.
7. c. Upscaling (Contd)

The nett increase will only be one L/Rover as this unit has had to supply one L/Rover to the Joint Patrol Leader who heretofore was a Canadian with Canadian Veh.

Due to poor roads, a greater area, a greater number of villages to be visited, the greater amount of low gear work the position of veh strengths will have to be reviewed again. These factors will also have its effect on the percentage of vehs off the road for repairs so that shortages in vehs will arise.

d. POL

A change for the better has taken place in this regard as this unit has taken over in situ, one 1100 gall PURE Electric Petrol Tank. This is replenished by Road Tanker from EPISKOPI, other fuels such as paraffin and diesel are now drawn from EPISKOPI also.

e. GP Mileages

f. Eqpnt and UK dope.

Logistic support now comes from RAF MT Flight Wksp and advance Ordnance Det stores at EPISKOPI. While to date repairs have been quick and satisfactory the distances for servicing repairs are greatly increased. Drivers must now rise much earlier (05.15) hrs in order to be at the servicing bay in time (07.00) hrs. The distance is 35 miles of most difficult roads. A case is presently being made to have this unit allocated a mobile or portable power greaser and servicing plant, electrically or ICE power driven. A fitter Cpl has been located to 1 B Coy because of its isolated location.

g. Stores

Consequent to our redeployment this unit would require a relaxation in methods and rules of supplies to save time expense and man hours of exhausting driving for such items as dynamos, s/motors, radiators. It would be appreciated if this unit could hold one spare item per L/Rover and Bedford category of vehs. Such main components are easily removed and replaced and if in stock would allow vehs to be put back into service much more quickly. Necessary application to have this done will be made.

h. Roads

The roads are very narrow, winding and have been cut out of the escarpments of mountains. Extreme care needs to be exercised at all times. NICOSIA is now 105 miles distant, DHUKELIL is 95 miles and these places must be visited by Staff Offrs, supply trucks etc. The units new location has increased difficulties considerably.

i. Drivers

Due to the number of vehs on charge to this unit and the amount of driving that is necessary it is recommended that as many drivers as possible be included in the new unit.

j. Future Aims

(1) It is felt that permanent drivers should be allotted to each veh. Temporary drivers are unsatisfactory as they only drive and contribute nothing to the efficiency of the MT unit as a whole.

(2) The unit should acquire its own servicing eqpt.

(3) Extreme care must be exercised by all drivers to avoid accidents.

(4) The unit should build up a better stock of fast moving MT stores and easily replaceable main components.
WELFARE AND ACCLIMATIZATION

8. a. Welfare supplies and Staff.
   Remarks as per report for Oct still remain. It is now necessary to
draw beer, cigs etc. from the UN stores in Nicosia (95 miles
distant) using unit transport.

b. Recreational Training

i. Volleyball. Pitches have been erected in each camp. An inter
coy Blitz has been carried out and was won by 'E' Coy.
Another Inter Coy championship is in progress.

ii. Soccer. An excellent pitch has been kindly loaned by the
Turkish community. The Inter Coy Championship is at present
in progress 'A' and 'B' Coys are in the Final. Since
arriving in KTMA the unit team has played a local Greek
team "ATOP" twice losing 1-2 and winning 6-0. They were
beaten by the local NO Coy and Turkish team. There is an
incessant demand for matches by local teams - soccer being
very popular. This unit has been very fortunate in having an
excellent Soccer team.

iii. Film Shows. These are essential and are fully attended. They
are shown at the rate of 2 per week per Coy. They were
increased to 3 shows per week for Christmas. The films are
obtained from the Army Kinema Corps in LARNAWA (dist 64 mls)
by unit transport. Excellent films have always been provided
and the Army Kinema Corps have been most facilitating. Three
shows per week are recommended.

iv. Excellent Christmas fare was provided. Sing songs were held
in all Coys.

v. Bingo, Rings and Darts are played in all Coys.

ACCLIMATIZATION.

   Climate in PAPHOS is milder during the winter than in LARNAWA.
   Heavy torrential rain fell from the 5 Dec to 12 Dec incessantly. There was very heavy mud on all
   surfaces other than hard standings. Otherwise the weather during the daytime was very
   fine - temp 62F. At night it became very cold - temp 50F necessitating the use of overcoats for
   sentries and those on all night duties.

b. Clothing and Bedding.
   Remarks as for the Nov report still hold.

c. Food and Drink.
   This has presented NO problem during the Groups stay in CYPRUS.
   Good wholesome food including fruit was always available and the
   men suffered no ill effects as a result of their change from
   IRELAND. Turkeys were in plentiful supply before Christmas. The
   local KEO beer was consumed with NO ill effects. Local spirits
   must be treated with caution. Beer costs 2/6 per bottle in local
   bars. Excellent food is sold locally at cost of 2/- for fish &
   chips.

d. Money.
   No problem as regards mens pay. A banking service is available
   locally and the pay is obtained through this bank.

e. Local Customs.
   Local people both Tke and Gk have been very hospitable. In the
   villages a 'Chelides' in the local house with drinks and songs
   is very popular with the inhabitants.
9. Languages.
It has been possible to locate someone with a knowledge of English in all towns and villages - usually the Schoolmaster or Policeman. However, the services of an interpreter (one is attached to the unit for use with the Joint Patrol Leader) are essential, where delicate negotiations are involved.

ANNEXES:

ANNEX 'A' - MIP - DEPLOYMENT OF UNFICYP - DEC '64 (ONLY 1 COPY AVAILABLE)
ANNEX 'B' - O/O No. 4 1964 - OPERATION PEACEKEEPING.
ANNEX 'C' - LOGO - LT 312359 B.
ANNEX 'D' - "Q" REPORT.
Sir,

1. **OPS LF**
   a. **Gen**
      
      Ops 'LF' consisted of broadening the manifestation of UN presence, defortification and deployment to arrest shooting incidents.
   b. Ops 'LF' supported the Economic operation.
   c. Fortifications were removed on UN insistence at KHOUKLI, STAUVROCOMO and AYII VANVARA. (Negotiations for the removal of the Wall in Ktima are in progress).
   d. Shooting incidents were quelled at AYII VANVARA and KHOUKLI and a patrol was deployed on a 24 hr basis on KHOUKLI for that purpose.
   e. Freedom of movement through STAUVROCOMO and AYII. VANVARA insisted on.

2. **OPS IE**
   a. Red Crescent Relief Supplies of food, clothing and tents were delivered to all tk villages in the District. (See APPX II Economic Report 19 Jan '65). 80 Mattresses were delivered to Tk rep on 23/1/65. Distribution later. Tk's say that this is the best service that they have got over in the matter of Red Crescent Relief.
   b. Programme of IntraV Vaccination for PAPHOS DISTRICT completed 26/1/65.
   c. Vaccines for Diphtheria and Polio for children are requisitioned and early delivery is promised.
   d. Plowing and Sowing. Escorts provided for Ploughing and Sowing in sensitive areas.
   e. Foodstuffs. Escorts provided where required. Main problem is shipment of food out of District from POLIS via and incl YALI to KOKKINIA.
   f. Education. Pressure maintained to get Secondary students back to school.
   g. Confiscation of property. Some confiscated property returned.
   h. Claims re damage to property, grazing of land, stealing of crops, stealing of Govt property etc, etc, investigated.
   i. Return of Refugees. Refugees encouraged to return to their villages. UN presence promised. This is an unlikely development in the absence of a general political settlement.
3. OPS ‘B’
   a. Ops ‘B’ work continued with a compromise between “vigorous recce” and “spying” and accepting information given freely on request by NG.
   b. There is an improvement in dress and discipline in the NG. They now have a military police section in KTMA.
   c. NG are fortifying in restricted areas and generally opening up new posts.
   d. NG rotated their Artillery (6 x 25 pdr and 2 x .5”/2.50m) in Jan 18th.
   e. Tks combine fatalism with bursts of aggressiveness and a growing impatience with their present position which they are finding increasingly intolerable. Their only faith is in Turkish Jets; NOT in UN. They hold that it is only Tk jets that are preventing Gks from massacring them.

4. HAND OVER. Ops hand over to 4th Infantry Group commenced on 14th January, 1965.

5. PASSING OF COMMAND
   O/C 3rd Infantry Group hands over command PAPHOS DISTRICT to O/C 4th Infantry Group at 281200B.
Officer Commanding,
3 Irish Inf Gp.

Fortifications - ST. WOODCOMO

Sir,

1. I collected a letter from Mr. ALTAY and delivered it to ST. WOODCOMO. It was addressed to the MUKTAR. He was away and it was opened by the school teacher, MSKR RÜNDAN.

2. The letter purported to convey an order from ALTAY to the MUKTAR to remove recent reactivated controversial fortifications. It was accepted by the teacher as such an order. He undertook to convey it to the muktar.

3. I listened to a long history of Cyprus from the teacher covering the breach of the London-Zurich agreement to his opinion that no significant move had been made to find a solution. There was no idea for compromise.

4. Finally we visited the fortifications. The Southern slit trench and bunker is quite professional.

5. The teacher painted to 3 above and fact that NG had recently surrounded AXILON as reasons for the need of the fortifications.

6. I pointed out that in the present situation such an attack by NG was extremely unlikely and asked him as an indication of (1) his discipline in obeying Mr. Altay's order and (2) his trust in UN presence in village to remove fortifications. After long discussion he agreed to use all his influence with Muktar to have them removed.

7. He said he would reason with Muktar between now and Monday Jan 4th and asked me to call back on Monday Jan 4th when he hoped to have persuaded Muktar and village to comply with Mr. Altay's order.

Ops "B",
(3 Coy infod).
1. Ref Infsum No 39 dated 7 Jan 1965, Page 12, para 27 b.

2. There seems to be a misconception here which is difficult to understand in view of my lengthy conversation with Major Clay Beatty (Ops 'A') on 28 Dec., and my written recommendation of 3 Dec. last that, in view of the reactions, to proposed defortifications that the Swedish Bn continue to hold the KOPHINOU area in equivalent strength to 3 Irish Inf Gp.

3. "Abandoned" is a pejorative word. It is also inaccurate.

4. The facts are:--

   a. There was an assumption that incoming Swedish Coy would not have same strengths as 3 Irish. Therefore, an attempt was made to scale down on commitments to facilitate their take over.

   b. A meeting was held between Gk and Tk Multers of AYIOUS THEUDOROUS C/C 'B' Coy 3 Irish and Major Borg (28 Swedish Bn) in beginning December.

   c. It was agreed at above meeting that the PICKET on TANGO HILL would be REPLACED by a PATROL, which would visit and check the post at irregular intervals. There was no question of "abandoning" the position.

   d. The reaction to the removal of the road block leading in to AYIOUS THEUDOROUS in this effort to equate posts to assumed Swedish strengths altered the situation.

   e. Letter of 3 Dec 1964 was then issued recommending that KOPHINOU area would continue to be held by the Swedish Bn in the same strength as it was held by the Irish.

OPS 'I:'.

RÚNDA
The Tk/Cyp schoolteacher had schoolchildren digging further trenches around the Tk/Cyp school on the morning of 12 Jan 1965. He claimed these were for the protection of the children in the event of further outbreak of shooting. UN officers in the village on an inspection protested this activity, and Tk Cyp Muktar persuaded the schoolteacher to stop. These new trenches have now been partly filled in, Gk Cyp Police Superintendent in KTHMA made an inspection tour of the village including the Tk Cyp house with the bullet holes and the locations from which Gk Cyp Police are alleged to have fired. He promised he would further investigate the whole incident. Relations in the village between both communities seem very friendly.

COMMENT. The Tk Cyp schoolteacher who is a recent arrival in this village seems to be the trouble maker.
Ref: 3IC/Ops/12.

Ops (.),
HQ,
UNFICYP

L: PITHIOU GR R 345389

1. Your UNFICYP/Ops (.)/18/1 of 24th ult and my reply of 31st idem thereto refer.

2. I have now investigated this matter further and I am of opinion that the warning is NOT genuine and I base this opinion on the following facts:

a. When the refugees originally returned to L: PITHIOU their travelling expenses were paid by the Tk/Cyp leadership in KTDJ.

b. L: PITHIOU was among the villages who recently received Red Crescent supplies. This distribution was made on the recommendation of MR ALTJ. Significantly PITHIOU GR R 279319, another Tk/Cyp village to which refugees had returned, got nothing.

c. Recently a schoolteacher and a widow in L: PITHIOU were paid cheques by the Turkish Communal Chamber. These would hardly have been paid if the villagers were persons non grata with the Tk/Cyp leadership.

d. The inhabitants of this village as well as the local leaders have been questioned by our patrols as to the attitude of the Tk/Cyp leadership to their permanent return to this village. They insist that their relations with the Tk/Cyp leaders in KTDJ. are good, and point out that they have never been threatened, nor has any pressure been brought to bear on them to abandon the village. It is significant that NO local security precautions are taken by this village - not even at night - which would be the case if reprisals were anticipated.

e. The handwriting in the letter is NOT that of MR ALTJ.

3. I have discussed with MR ALTJ. the Tk/Cyp leader, his general attitude to the Tk/Cyp refugees returning to their former villages. His avowed policy is that he will ONLY encourage their return where he considers that they are safe to do so. He insisted in the particular case of L: PITHIOU that the refugees have returned there with his approval and he wished them to remain there as they would be an economic burden, were they to abandon this village again.

4. It is, of course, possible that there may be some dissatisfaction among the villagers of L: PITHIOU itself, not so much on the question of their return to the village but as to their attitudes to Gs/Cyps. The
locals seem to be on reasonable terms with the neighbouring Gk/Cyp village of KUNN. VIQU GR 320405. It is always possible that a letter of this nature may have emanated locally though the local Mukhtar denies that any threatening letters have ever been received. It is significant, however, that a Tk/Cyp farmer in L.PITHIQU had his plough and yoke broken maliciously on 30 Dec '64 and although this incident has been explained as a private feud, it is noteworthy that the Tk/Cyp in question works land rented from a Gk/Cyp.

_________________________  Lt-Col

(T. McDonald)

COMDR PAPHOS DISTRICT
HQ,
Paphos District,
KTIMJ:

Ops (4),
HQ,
UNFICYP.

LIPITHIOU

1. Your UNFICYP/Ops(4)/18/1 of 24th inst refers.

2. This comm did NOT come to hand until the 28th inst so that investigations in this connection are still continuing. You will doubtless appreciate that tact and discretion must be exercised in the manner of the inquiries and the whole delicacy of the matter poses grave restrictions on our approach to the problem.

3. There are two aspects to the problem, viz:
   a. Was such a letter in fact sent to the inhabitants of LIPITHIOU?
   b. Was the letter genuinely sent by the Tk/Cyp leader in KTIMJ.

4. Whereas it may be possible to ascertain the answer to the first question, the second question may prove impossible to answer in the absence of a direct confrontation of the facts with MR ALT. Furthermore, even if we resort to this latter expedient, it is NOT unlikely that MR ALT. would deny authorship.

5. The whole problem in relation to this village is that it was abandoned by its Tk/Cyp inhabitants during the early days of hostilities and they took refuge in KMY. Towards the end of June, '64 and early July, '64, these refugees returned to their native LIPITHIOU to tend to their fields and have remained there since.

6. The Gk/Cyp authorities in PAPHOS District point to this as an outstanding example of the return of Tk/Cyp refugees to their homes and of their ability to lead a normal existence without fear of interference from Gk/Cyps. They also point out that President Makarios visited this village himself and his relations with the Tk/Cyp residents on this occasion were most amicable and friendly.

7. The Tk/Cyp leadership in PAPHOS District claim that the refugees merely returned to LIPITHIOU on a temporary short term visit but had subsequently been obstructed by the Gk/Cyp Police and NG from returning to KMY. It is further claimed by MR ALT. and his associates that these Tk/Cyps are now being encouraged to remain in LIPITHIOU until their crops are matured and harvested. It is
also pointed out by Mr ALTAY that were those Tk/Cyps to abandon LAPITHIOU, they would be an economic burden.

8. There is no doubt that the situation in LAPITHIOU is a cause of grave concern to the more extreme Tk/Cyps in the District as it refutes one of their main contentions that refugees are NOT safe to return to their homes. In such circumstances it could reasonably be anticipated that pressure would be brought to bear on the inhabitants of LAPITHIOU to "toe in the party line".

COMDA, PARHOS DISTRICT.
HQ PAPHOS DISTRICT

1. Attached herewith is a copy of a warning allegedly sent to the Turkish inhabitants of LIPITHIOU village in PAPHOS District by the Turkish leadership in KTIM.

2. These papers were sent to the Force Commander by Mr. A. MINITASIOU, the Director-General of the Ministry of the Interior.

3. Please investigate to find out whether this warning is genuine and send a report to this HQ on the matter by 1 Jan 65.

(H.H. Johnstone)

Major - Force Commander United Nations Force in Cyprus.

STAFF IN CONFIDENCE
SHOOTING INCIDENT - KOUKLI - 9/1/65

Sir,

1. Visited KOUKLI 10/1/65 at 1400 hours accompanied by O.C. Lt. Coy, JPL, interpreter, 3rd Offr and Lieut Grehan (Patrol Cmd of last night).

2. Investigated incident. Interviewed Greek and Turk Mukhtars. Greek Mukhtar says explosion started by SRT worker from FOUR MILE POINT (Zivver Izzet) home on leave.

3. Greeks say (i.e. Mukhtar said) that they fired 50 rounds in response to Tk fire and explosion.

4. Tks say that they did NOT fire and that Gks threw bomb over at them while they were in coffee shop. (Later MR LT.Y said Tks fired 25 rounds).

5. See Ordnance Officer's report attached.

6. Both sides fired. There is NO evidence of Tk fire outside of Mr LT.Y's Statement. Tk teacher there is excitable and NOT a great help. ONLY there for three weeks, according to MR LT.Y.

7. There IS ballistic evidence of Greek fire. It was indiscriminate fire into dwelling houses that could easily have caused loss of life. It is just luck that nobody was killed.

8. The Gk fire coming, if it did, from allegedly disciplined Police, is reprehensible.

9. During our visit, NG Captain (name unknown) addressed meeting, advising them to refrain from these shooting incidents.

10. Both sides agreed "not to start anything again". Respective Mukhtars notified. They would, however, NOT meet. Gk Mukhtar was willing but Tk Mukhtar could see NO point.

11. NO trace of explosion could be found.

(J.P. Duggan)

OPS (I.)
SHOOTING INCIDENT AT KOUKL: ON 10/1/65

1. I accompanied Comdt DUGGJN to investigate above shooting incident on 10/1/65.

2. The Gk/Cyp Mukhtar stated that an explosion was heard in the Tk/Cyp area and later, a Gk/Cyp Policeman who was returning from the Gk/Cyp coffee shop to the Police Station came under fire. He stated that the Gks returned the fire, discharging perhaps, 50 rounds.

   He was unable to show any effects of the Tk/Cyp gun fire.

3. The Tk/Cyp Mukhtar stated that Gk/Cyps were responsible for the explosion. He was unable to point out where the explosion took place but showed two cracked panes of glass in the Tk/Cyp coffee shop, which he attributed to the explosion. There was NO evidence of any other damage caused by blast or missile effect.

4. I inspected a Tk/Cyp house damaged by gun fire. This is a two storied building, with first floor windows in the gable wall, overlooking the Gk/Cyp church, some twenty yards distant. There were nine recent bullet marks on the gable wall. Five bullets entered a bedroom, passing through the closed shuttered windows. Two of these passed through a built-in wardrobe in the opposite wall and into an adjoining bedroom. The other three entered the opposite wall but did NOT penetrate. One other bullet passed through the house, entering through shuttered windows, passing through two closed doors of the living room and out through the open door and window of the patio. These bullets which entered the building were fired from a high power weapon, either rifle or LMG and fired from a window in the Greek/Cyp Church. The window in the Church is covered externally with wire mesh but there is a four inch hole made at the bottom, right hand section.

5. Tk/Cyps denied firing any weapon.

(K.R. Gallagher)

ORDNANCE OFFICER
284

APPX. 27. UNIFLX A

Ref: - 3 IG/52

CC

On D.

10th Márta, 1965.

Director,
Plans and Operations,
Army HQ,
Parkgate St.,
DUBLIN.

GENERAL

1. The advance party of the 4 INF GP arrived in CYPRUS on 13 Jan 1965, to take over from the 3 INF GP. The 3 INF GP was repatriated to INELAND on 13, 26, 27 and 28 Jan 1965. The OC 3 INF GP handed over his duties as UN commander P.THOS District to CC 4 INF GP at 281200 B.

OPERATIONS

2. a. Disposition of Group. NO change from disposition as shown on ANNEX 'C' to 4th PROGRESS REPORT for Dec 1964.

b. Scope. Ops 'I.' consisted of broadening the manifestation of UN presence, defortication and deployment to arrest shooting incidents, it was also responsible for conducting the UN economic programme in the District.

c. Fortifications were removed on UN insistence at KHOUKLI, ST.IUNOCMO and AYI. VAIQA. (Negotiations for the removal of the wall in KTIMA are in progress).

d. Shooting incidents at AYI. VAIQA. and KHOUKLI. were quelled. A patrol was deployed in KHOUKLI. on a 24 hr basis for that purpose.

e. Freedom of movement through ST.IUNOCMO and AYI. VAIQA. insisted on and achieved.

f. Greek allegations of Turkish threats to refugees of L.PITHICOU who had returned were NOT supported by evidence. In this particular instance the opposite in fact seemed to be the case.

g. OPS 'IB'

(1) Ops 'IB' work continued with a compromise between "vigorous recce" and "spying". Information was also obtained freely on request from the NG.

(2) There is an improvement in dress and discipline in the NG. They now have a Military Police Section in KTIMA.

(3) NG are fortifying in restricted areas and generally opening up new posts.

(4) Turks combine fatalism with bursts of aggressiveness and a growing impatience with their present position which they find intolerable. Their only faith is in Turkish Jets; NOT in UN. They hold that it is only Turkish Jets that are preventing the Greeks from massacring them.
h. OPE ECONOMIC

(1) Red Crescent supplies of food, clothing and tents were delivered to all Turkish villages in the District. 24 mattresses were delivered to Turkish representatives. UN insisted (forcefully at STABUCOMO) that tents be used for refugees only.

(2) Programme of Intraex Vaccination for PAPHOS District complete 26/1/65.

(3) Vaccines for Diphteria and Polio for children are requisitioned.

(4) Ploughing and sowing - Escorts provided for in sensitive areas.

(5) Feedstuffs. Escorts provided where required. Main problem - shipment of food out of District from POLIS via and including YILLI to KOKKIN.

(6) Education. Pressure maintained to have secondary students back to school.

(7) Confiscation of property. Some confiscated property returned.

(8) Claims re damage to property, grazing of land, stealing of crops etc investigated.

(9) Return of Refugees. Refugees were encouraged to return to their villages. UN assistance promised. The return is an unlikely development in the absence of a general political settlement.

3. COMPLIMENTS ON CONCLUSION OF TOUR OF DUTY. Congratulatory messages to the OC 3 INF GP on successful completion of mission and six months tour were received from the Force Commander, all UN contingents, British Forces, Greek and Turkish representatives. The following is a copy of a letter of appreciation from the UN Force Commander, Gen. Thinyya - "On the occasion of the Groups impending return to Ireland I send warm greetings and grateful thanks to Lt/Col T. McDonald and all ranks 3rd INF GP. First in Lemesos and latterly around PAPHOS and POLIS you have done a fine job of peace keeping on the behalf of the United Nations. In the process the Group have won golden opinions not only with UNFICYP itself but also among all sections of the Cyprus population. Your cheerfulness, friendly approach to others, and resolute performance of any task given you combine to make you hard to replace, and we shall miss you greatly. God speed, Good luck and thank you.

BELMJNCH DE LIBH ,GUS GO DTEIGH SIDH SIAN "EH.LILE".

ADMINISTRATION

4. a. Repatriation

(2) Main body. The main body consisting of 18 officers, 119 NCOs, 184 Ptes departed CYPRUS on the 26, 27 and 28 Jan for IRELAND.

b. POSTINGS

(1) 1 Offr (Capt Tumalty) 2 NCO's, 10 Ptes were posted to the 4 Inf Gp on 27 Jan '65.

(2) 1 Pte was posted to the 41 Inf Bn on the 28 Jan '65.

(3) Overseas service records were completed in respect of other ranks.
c. Pay. A special payment of £10 from credits was paid to other ranks to enable them to purchase presents prior to repatriation. This was paid 14 days in advance of repatriation to allow adequate time to purchase.

b. Discipline. The general standard of discipline continued to be of a high order with the exception of an isolated case of the sale of duty free cigarettes by two MPC Cpl's. These NCOs exchange 400 cigarettes each for leather wallets with a local pedlar. They were dealt with summarily.

c. Morale. Morale which was always of a high order improved even further with the advent of repatriation.

f. Medical. The health of the troops continued to be excellent. One serious accident occurred involving a vehicle of the 3 INF GP driven by Cpl T. Henry. Cpl Henry was seriously injured and a Greek Cypriot police constable was killed. A report on the accident has already been submitted to 'H'. Cpl Henry was repatriated on 13 Feb 65.

c. Public relations. The excellent relationships established in PAPHOS during Dec with Greeks and Turks continued to exist and improve.

h. Visit of the Force Commander. Gen Thinayya inspected the Group on the 5 Jan in its new location. He complimented the Group on its excellent turn out and paid a particular tribute to the Guard of Honour. To mark the occasion of his visit the Group presented the General with an inscribed silver paper knife.

j. Visit by D/TMG and Offs i/c Bk Services, HQ. The above officers visited the Group from the 15 - 17 Jan 65. They carried out an exhaustive tour and inspection of all Group installations and locations.

k. Advance party procedure for overseas service. The present system for a unit taking over from another unit where the incoming advance party moves in and outgoing advance party moves out the same day is NOT satisfactory and is unworkable. The object of an advance party is to meet opposite numbers both operationally and administratively and obtain a working knowledge of the operation. Under the present system this is NOT possible. There is NO proper hand-over. The reason for this I presume, is that the plane must be loaded for the return journey. Why not load the plane with non-essential personnel such as the other ranks of the Cav Group, HQ Coy and thin out the sections in the Nflce Coys. This would tend towards a smoother move where opposite numbers would have direct contact with each other.

Furthermore, the time allowed for the take-over period is far too great. In my opinion, eight to nine days is ample.

5. ADMINISTRATION

a. This report covers the period from 31 Dec 1964 to 28 Jan 1965, when the final chalk containing 3 Inf Gp Main Body left Nicosia Airport, Cyprus.

b. Gen outline of '10' activities

(1) Continuation of improvements to existing installations and provision of additional cap.

(2) Maintenance of Logistical support for normal unit operational activities.

(3) Planning and preparations for handover to incoming 4 Inf Gp and repatriation of 3 Inf Gp.
c. Improvements. Much work remained to be completed in Jan to the structures and installations at Ktima and Polis and by the end of Jan when the 3 Inf Gp were rotated, it could be said that Cookhouses, DTLs, Showers, Dining Halls, Canteens and Messes in all Coy locs were operating satisfactorily. The most important outstanding tasks were the provision of some additional furniture for canteens, recreation rooms and messes. External lighting had been installed in all coy locs and outfall drains to carry away flood water were dug as well as provision for hard standings and camp roads for vehicles.

d. Logistical support. Normal logistical support for the operations of the group continued and adequate supplies of ration, POL, Kerosene for heating and fuel wood for fires were maintained. New protective clothing consisting of waterproof jackets and slacks of US Marine pattern were provided from UN Stores at the end of Jan but arrived too late for issue to 3 Inf Gp and so were handed over to 4 Inf Gp.

e. Handover and repatriation

(1) Preparations for handover included the appointment of Stocktaking Boards and Boards of Survey to examine and Board clothing, Ordn and Bk Service items, and to audit Ledgers and Coy A/cs. Adm Orders for the preparation and handover of Stores, A/cs and Property were also prepared as well as a comprehensive brief on 'Q' and Logistical Procedures for the guidance of the incoming 4 Inf Gp.

(2) The 'Q' handover proceeded very smoothly and this was in no small way due to the fact that Capt Tunulty, who had replaced Capt Cox as catering officer in 3 Inf Gp was also functioning as Adm Officer of the 4 Inf Gp and so had almost 5 weeks experience of 'Q' Administration with our Gp and was in a position to take over much of our stores and A/cs in good time. His presence also ensured that existing contacts with local authorities, British and UN Supply Agencies, were preserved and maintained.

(3) The actual rotation of 3 Inf Gp was considerably eased due to the employment of the Super Lingus Jet as we had no problems of in-flight meals, emergency flight rations or run and the short flying time meant no flight fatigue problem so that out-bound or returning pors were fit and alert at the end of their journeys.

6. WELFARE AND RECUPERATION

a. Canteens - Army Canteen Board. The operation of canteens is almost a full-time job for the Welfare Officer. He is fully engaged in procuring, collecting, distributing and accounting for supplies. The turn over for the 3rd Inf Group was on an average of £5,000 per month. It is agreed that the accountancy of this money is a serious responsibility but is not agreed that it should be the function of the Welfare Officer. This Officer's chief function, in my opinion, should be the welfare of the men. I hold that a Canteen Manager should be made available by the Army Canteen Board.

Again, I feel that more of the profits should be made available to the men on these missions. This is NOT a criticism but merely a suggestion. The A.C.B. has been very liberal and very decent regarding allowances on my tour and I presume the same applied to all other units.
On many occasions, in my experience in Cyprus, embarrassment has been caused due to lack of funds, i.e., giving of children's parties, return of civilian hospitality to NCOs and men, provision of chocolate, sweets and cigarettes on special visits to villages, contributions to charitable organisations, entertainment and return of hospitality to UN contingents. Other UN contingents appear to have ample funds to meet the above and it has been a source of embarrassment to Irish troops being unable to compete in this field due to lack of money. I would suggest that instead of the A.B.C. making a grant to the unit as obtains at present that the Unit Commander be allowed a monthly allowance of say 25% of the profits or approximately £50 to £100 to cover all welfare and entertainment expenditure.

b. Recreation

(1) Volleyball. An inter-oy volleyball championship for players who had NOT won any medal in any code was played. This was won by the Arm Car Gp after a very keen contest against 'I' Coy in the final. Volleyball continued to be very popular with all members of the group and it was invaluable as a means of providing physical exercise for all ranks.

(2) Soccer. The final of the Group Championship was played - 'I' Coy defeating 'B' Coy in the final and medals were presented to the winning team by the Contingent commander - Col Sullivan.

(3) Film shows. These continued at the rate of two per week and were always sure of full houses. Excellent films were provided throughout the tour of duty of the Group by the Army Kinema Corporation Lemaco and they proved the most popular medium for relieving boredom amongst the troops.

(4) Games Generally. During the six months in Cyprus competitions in Gaelic Football, Soccer, Basketball, volleyball, road-racing were organised and medals presented to the winners. The special Cyprus medal was very popular. In addition, inter pl quiz times, rings and darts competitions were conducted and suitable prizes presented by Welfare.

(5) Sports equipment. The Group took part in all competitions as a separate sub-unit. There was NO sets of football boots or jerseys issued to them and provision should be made for an issue to the Arm Car Gp with future units - otherwise the issue of boots, jerseys, balls was thought to be generally satisfactory.

The hurleys that were issued proved of NO value as they broke very quickly due to inferior quality.

7. JOURNEY HOME AND RECEPTION ON ARRIVAL. Lor Lingus must be complimented on the excellent in-flight arrangements and the smooth, fast journey home. All ranks were very proud that our own country could provide such excellent service.

Customs officials delayed the Group as little as possible and were most considerate in their handling of baggage.

Arrangements by Conn I for troops on arrival were excellent and I wish to thank all personnel who met the Group on arrival.

General Comments:

Forces seen or reported (including Gk Cyp/Tk Cyp villagers).
(Sources of information to be quoted).

Assistance Required (A note should be made here of any urgent assistance that is required to allow the villagers to live a normal life).
SITUATION REPORT
(SITREP)

(As at 0500B and 1700B to reach HQ UNFICYP by 0600B and 1800B daily).

FIRST: PERIOD - (Date, time, groups B).

SECOND: GENERAL - Overall summary of situation.

THIRD: MAJOR INCIDENTS - Summary of significant incidents/events with action taken and results achieved as appropriate.

FOURTH: MINOR INCIDENTS - Summary of minor incidents/events with action taken and results achieved as appropriate.

FIFTH: UNCIVPOL INCIDENTS - Summary of crimes, arrests and other civilian police matters.

SIXTH: MISCELLANEOUS - Any other information.

SEVENTH: AVAILABILITY STATEMENT - Uncommitted forces available.

EIGHT: REDEPLOYMENT - Moves planned for next 24 hours.
(Note moves which have taken place will have been confirmed by LOCSTATS).

NINTH: ADMINISTRATION - To include casualties in men and equipment.

NOTE: The paras should be divided into sub and sub sub paras as appropriate; lettered/numbered ALFA, BRAVO etc., and ONE, TWO, etc. respectively. See Specimen as Appendix 1.

SIXTH: Nature of Incident.
SEVENTH: Exact nature of Road Block/Check Point/Fire Position/Patrol.
EIGHT: Action taken.
NINTH: Remarks.
TENTH: Unit Reporting.
1. **Introduction**

The outline and comment will be dealt with under the following headings:

a. **Introduction.**

b. **Composition, Deployment and Function of UNFICYP.**

c. **Aspects.**

d. **Comment and Conclusion.**

This paper is based on UN reports and Irish UN experience.

a. **Introduction**

(1) **Situation, area, population and language.** Cyprus is an island in the Eastern Mediterranean with an area of 3,572 sq miles and a population of 580,000, of which 80% are Greeks, 18% Turks and the remaining 2% other minorities (Armenians, Maronites, British). The main language is Greek, Turkish being the mother-tongue of the main minority. English and French are widely spoken and understood, especially English.

(2) **Physical features.** The principal physical features of Cyprus are the two mountain ranges extending from West to East and separated by a wide and fertile plain - the Mesoria ("the land between the mountains"). The Northern range is called "Kyrenia" or "Pentadaktylos" range, and forms a narrow belt running the whole length of the northern coast. Its highest peak reaches 3,577 ft. The Southern range is called "Troodos" and is a massif rather than a range. Troodos is substantially larger in area and higher than the Northern range, and it occupies nearly half the total area of the island. The highest peak is Mount Olympus or Chionistra (6,406 ft.). The range is rich in mineral deposits some of which have been exploited since ancient times. The most beautiful and forested section of the range is the region around Kykko Monastery with its famous cedar valley. There are no rivers with perennial flow, the rivers being mere mountain torrents in winter.

The coast line of Cyprus is varied and picturesque, indented for the most part and rocky, but interspersed with long sandy beaches. Please see attached map.

(3) **Climate.** Cyprus enjoys an agreeable climate with a clear atmosphere and plenty of sunshine. The hottest months in the plains are July and August, with an average maximum temperature of about 70°F. The coldest months are January and February with a maximum temperature of 60°F and a minimum temperature of about 40°F. It is considerably cooler in the summer on the hills, with a maximum temperature of 80°F. On the higher slopes the temperature drops below freezing point and usually there is the possibility of winter skiing.

(4) **Vegetation and Agriculture.** Cyprus has a rich variety of vegetation. The principal crops in the plains are wheat
and barley, legumes and potatoes, vegetables, such as cucumbers and tomatoes. Among the characteristic fruit are oranges, tangerines and grapefruit, the citrus-growing areas lying for the most part in the coastal areas of Famagusta, Morphou and Limassol. Melons and water-melons are produced in abundance in the summer months.

The Southern range has a far wider variety both of forest and fruit-trees. The most typical fruit-bearing tree species are the olive and the carob. Typical forest trees are the pine and the cypress on the mountains and the eucalyptus and wattle in the plains. On the middle hill slopes, particularly in the South and West is the region of the vine. Various types of wines and spirits are produced from the Cyprus grapes which have enjoyed a high reputation in the West since the Middle Ages.

(5) Economic

(a) Industry and trade. The island's industry is largely concerned with meeting local demand for goods of everyday use and consumption and in utilising raw materials provided by agriculture and to a certain extent mining. In all towns, particularly Nicosia and Limassol, the main industries are the manufacture of wines and spirits, soft drinks, cigarettes, chocolate and sweets and the canning of vegetables and fruit. Other industries include olive-oil refining, knitwear and weaving, shoe manufacture and furniture-making. The manufacture of plastic articles has recently started at Famagusta. The larger industries are those whose products are intended mainly for export: wines and spirits, fruit-canning and the processing of mining products. Cyprus is in the main an importing country, mainly of manufactured goods. Exports consist of the products of the land and of the mines. UK is the main customer.

Famagusta port serves a large region of the central lowlands. Through Limassol are exported the products of the vine region and asbestos from Troodos. Larnaca, Paphos and Kyrenia ports are used for the export of agricultural products - potatoes, onions, carobs, etc. The harbours of Famagusta, Limassol and Kyrenia are in the course of enlargement. The large import trade of the island is done through the ports of Famagusta, Limassol and Larnaca.

(b) Minerals. The foothills of Troodos range yield copper and iron pyrites, and the region of Mount Olympus yields asbestos and chrome. Cyprium occurs in many parts of the island and terra-umbra for the manufacture of paints in the Larnaca district.

(c) Tourism. Economy depended to great extent on Tourism. Now in decline due to troubles, UN presence (esp Swedes) partially compensates.

(d) Adm. Nicosia is the capital of the island and the headquarters of the government of the Republic. Here is the Presidential Palace, the House of Representatives, the two Communal Chambers and the various Ministries with their departments.

For administrative purposes the island is divided into six districts: Nicosia, Famagusta, Larnaca, Limassol, Paphos and Kyrenia. The District Commissioner represents the Government in the district.
(6) Ethnic

(Census of December 11, 1960).

(7) Education

(a) Primary and Secondary (Gk and Tk). Education in Cyprus became the responsibility of the Greek and Turkish Communal Chambers under the 1960 Constitution.

There are four levels along the educational ladder: the pre-primary, the primary (6 - 12 or 14 years) the secondary (12 - 18 years) and higher (18 + years).

With the exception of infant schools or infant classes for the poorer children in the main towns, pre-primary education is provided by private institutions.

Primary education is free and compulsory. It normally comprises a six year course, but in some rural centres two more years are provided in the form of extension classes for those children who will not proceed to a secondary school.

Secondary education is fee-paying, but there are free places for bright children whose parents are unable to pay tuition fees. It is estimated that about 75 per cent of the Greek children and 65 per cent of the Turkish children receive some kind of secondary education. Greek Secondary schools, generally known as gymnasia, consist of two cycles, each comprising three years.

The first cycle offers a general type of education, whereas the second cycle has a trend towards one of the following branches: arts or classical, science and commercial. There are separate technical schools and an agricultural gymnasium, offering six year courses.

Vocational education courses last four years and are provided by the Technical Schools, by the Agricultural Gymnasium and by special vocational schools and evening classes.

Turkish Secondary schools are of two types:

i. The Lycees that offer a full six-year course and

ii. The Orta Okuls that offers only a three-year course.

There are also separate technical schools for Turkish children and a Rural School at Pergamos.

N.B. According to the 1960 Official Census, illiteracy on the total population is 31 per cent (29.8 per cent for the Greeks and 37.9 per cent for the Turks).

At present there are many impediments and pin-pricks preventing Turks attending school. The most recent objection to Turk youth returning to school in NICOSIA was that this was a camouflage for a call-up. Turk education has been severely curtailed since the 'troubles'. For instance, the Tk school in KTIMA was badly damaged in the fighting.

(8) Sport and entertainment. Swimming, sailing, tennis are most convenient officer sports. The most popular form of entertainment is the night club.

(9) Background

(a) Historical

i. The first inhabitants of Cyprus (6th millennium B.C.).

ii. Greek City Kingdoms, Persian subjection (2nd millennium - 5 century B.C.).

v. Introduction of Christianity (1st century A.D.) and the Byzantine Period (330 - 1191).

vi. Richard Coeur de Lion (1191), Insignias (1191 - 1489) and Venetians (1489 - 1571).

vii. Turkish Occupation (1571 - 1878).

(This resulted in setting up the Cyprus Republic. The original aim was Union of Greece and Cyprus - ENOSIS).
(b) Present crisis

i. Cyprus became an independent republic on the basis of the agreements drawn up at London and Zurich in 1959 between the governments of Greece, Turkey, Great Britain and the representatives of the Greek and Turkish communities on the island. Great Britain, Turkey and Greece were given in the constitution rights of intervention. The community was given the right of veto.

ii. In 1960 Gks. claimed that the right of veto made constitution unworkable. The government alleged that they could not impose a fiscal system. With Britain adopting an 'I told you so' attitude and the reliance on Britain and Turkey, the irresistible force was coming to meet the immovable object. Furthermore, Gks. complained that the rights of the Turks were out of all proportion to their population strength. The Gks. insist that there should be a unified, sovereign state of Cyprus (opting for ENOSIS if the majority so desires) which would recognize such rights for the Turks as are recognized for minorities by international agreements. They point to the fact that 80% of the population are Greeks who have lived on the island for thousands of years.

iii. Crisis came in Dec 1963 when fighting broke out between the two communities. British were first in. Efforts to put in US Marines or NATO Forces failed (30% of island is communist). The British had a thankless task and finally had to do what they should have done at the beginning - invoke the UN. The British got out. The UN came in. Elements of British remained as UN, e.g.: members of HQ staff, Inniskillings subsequently CHESHIREs, Life Guards and Agax Squadron Tank Royal Regiment.

(c) UN Security Council Resolutions on Cyprus

i. Resolution adopted by the Security Council at its 1102nd Meeting on 4 March, 1964

The Security Council. Noting that the present situation with regard to Cyprus is likely to threaten international peace and security and may further deteriorate unless additional measures are promptly taken to maintain peace and to seek out a durable solution.

Considering the positions taken by the parties in relation to the Treaties signed at Nicosia on 16 August 1960.

Having in mind the relevant provisions of the Charter of the United Nations and its Article 2, paragraph 4, which reads: "All Members shall
refrain in their international relations from the threat or use of force against the territorial integrity or political independence of any State, or in any other manner inconsistent with the purposes of the United Nations".

1. Calls upon all Member States, in conformity with their obligations under the Charter of the United Nations, to refrain from any action or threat of action likely to worsen the situation in the sovereign Republic of Cyprus or to endanger international peace.

2. Asks the Government of Cyprus, which has the responsibility for the maintenance and restoration of law and order, to take all additional measures necessary to stop violence and bloodshed in Cyprus.

3. Calls upon the communities in Cyprus and their leaders to act with the utmost restraint.

4. Recommends the creation, with the consent of the Government of Cyprus, of a United Nations peace-keeping force in Cyprus. The composition and size of the force shall be established by the Secretary-General, in consultation with the Governments of Cyprus, Greece, Turkey and the United Kingdom. The commander of the force shall be appointed by the Secretary-General and report to him. The Secretary-General, who shall keep the Governments providing the force fully informed, shall report periodically to the Security Council on its operation.

5. Recommends that the function of the force should be, in the interest of preserving international peace and security, to use its best efforts to prevent a recurrence of fighting and, as necessary, to contribute to the maintenance and restoration of law and order and a return to normal conditions.

6. Recommends that the stationing of the force shall be for a period of three months, all costs pertaining to it being met, in a manner to be agreed upon by them, by the Governments providing the contingents and by the Government of Cyprus. The Secretary-General may also accept voluntary contributions for that purpose.

7. Recommends further that the Secretary-General designates, in agreement with the Government of Cyprus and the Governments of Greece, Turkey and the United Kingdom, a mediator, who shall use his best endeavours with the representatives of the communities and also with the aforesaid four Governments, for the purpose of promoting a peaceful solution and an agreed settlement of the problem confronting Cyprus, in accordance with the Charter of the United Nations, having in mind the well-being of the people of Cyprus as a whole and the preservation of international peace and security. The mediator shall report periodically to the Secretary-General on his efforts.
8. Requests the Secretary-General to provide, from funds of the United Nations, as appropriate, for the remuneration and expenses of the mediator and his staff.

ii. Resolution adopted by the Security Council at its 1103rd Meeting on 13 March 1964

The Security Council, having heard the statements of the representative of the Republic of Cyprus, Greece and Turkey.

Reaffirming its resolution of 4 March 1964 (S/5575).

Being deeply concerned over developments in the area.

Noting the progress reported by the Secretary-General in regard to the establishment of a United Nations peace-keeping force in Cyprus.

Noting the assurance from the Secretary-General that the United Nations Peace-keeping Force in Cyprus envisaged in the Council’s resolution of 4 March 1964 (S/5575) is about to be established, and that advance elements of that Force are already en route to Cyprus;

1. Reaffirms its call upon all Member States, in conformity with their obligations under the Charter of the United Nations, to refrain from any action or threat of action likely to worsen the situation in the sovereign Republic of Cyprus, or to endanger international peace.

2. Requests the Secretary-General to press on with his efforts to implement the Security Council resolution of 4 March 1964 and requests Member States to cooperate with the Secretary-General to that end.

N.B. Following the adoption of the above resolutions by the Security Council, the UN Secretary General, U Thant, set up an International Peace-keeping Force for Cyprus. The United Kingdom, Canada, Ireland, Sweden, Finland and Brazil are particularly in this force with a total number of some 7,000 officers and men. Austria is participating with a mobile hospital unit. U Thant has appointed General Gyani as commander of the force and General Carver as second in command. The distinguished Finnish Diplomat, Mr. Sakari Tuomioja, has been appointed as Political Mediator and has already assumed his duties. After three months Gen. Thimayya replaced Gen. Gyani. Gen. Carver returned to the UK and a COS appointment replaced the 2IC structure.

(2) Composition, Deployment, Function

(a) Composition and deployment. (See attached map).

i. Nicosia zone. HQ UNFICYP (International Staff structure legacy of Major Gen. Carver's Brit Div) where Gen Carver was 2IC UNFICYP. This appointment replaced by COS (Brit) and ACOs (Irish) (Col Quinn and Col O'Sullivan). HQ Nicosia
Zone (Basic organisation Canadian with representative staff drawn from contingents under command; an ad hoc Brigade).

4 Infantry Irish Group.

Australian Civilian Police.

(x Ireland - 1,060)

(Australian Civilian Police 40 - strengths as on 4 Dec 1965)

*Function and Guiding Principles.* The function of the United Nations Force in Cyprus is to implement the objectives defined in the Security Council resolution of 4 March, 1964, and reaffirmed in its resolutions of 13 March, 20 June, 9 August, 29 December and 29 March. As defined in 4 March resolution, UNFICYP's function is, "in the interest of preserving international peace and security, to use its best efforts to prevent a recurrence of fighting and, as necessary, to contribute to the maintenance and restoration of law and order and a return to normal conditions". Moreover, after the Tylliria fighting, the Security Council adopted its resolution of 9 August 1964, calling for an immediate cease-fire by all concerned and the Council members in their consensus of 11 August requested the Commander to supervise the cease-fire and to reinforce the units of the Force in the zones which were the sphere of recent military operations, so as to ensure the safety of the inhabitants. In carrying out its task, the Force avoids any action likely to influence the political situation in Cyprus, except through contributing an improved climate in which political solutions may be sought.

The guiding principles governing the operation of the Force refer to the exclusive control and command of the Forces by the United Nations; the use of arms only for self-defence in discharge of the function of the Force including defence of UNFICYP posts and personnel subjected to armed attack; restraint and complete impartiality towards members of both communities, and close
contact with the appropriate officials of the Cyprus Government.

The peace-keeping function proper was almost identical with the function of supervising the cease-fire, and included interposition, fixed posts and frequent patrols, intervention on the spot to prevent shooting incidents from snowballing into serious fighting, and demarcation of cease-fire lines where appropriate. With the institution of exclusive UNFICYP control over the Nicosia-Kyrenia road on 26 October 1964, functions in this connection were assumed and positions taken over by the United-Nations Force. The performance of additional functions relating to the effort to return the country to normal conditions is discussed on p. 21.

In implementing that part of the mandate which entrusts to the Force the function of contributing to the maintenance of law and order, UNFICYP is assisted by a Civilian Police unit (UNCIVPOL) which forms an integral part of the Force. The main duties of this police element have been carried out as stated in the report of 2 May 1964 (S/5679, para. 4). UNCIVPOL has co-operated with the International Committee of the Red Cross in conducting inquiries for missing persons. UNCIVPOL elements man two sensitive posts, one in Nicosia Zone and the other in Larnaca. They are also responsible for appropriate searches at certain check points on the Kyrenia Road in the exercise of UNFICYP's control over that road.

Regarding its investigations of incidents in which the aspect of intercommunal strife may be of significance, UNCIVPOL always bears in mind the fact that the Government has the responsibility for the maintenance and restoration of law and order in the country. Accordingly, UNCIVPOL endeavours, wherever possible, to carry out its functions under the Mandate, in co-operation with the local police, with a view to assisting in reaching objective conclusions. It should be noted that, with a few exceptions, the state of general insecurity and constant fear to which large parts of the country's population were exposed during the early stages of the Operation has become a less and less significant factor of the situation during the period under review here (July 64 - Jan 65).

There has been a substantial improvement in the relations between the members of the Force and the fighting elements on both sides. The UNFICYP commanders in the various zones and districts have generally succeeded in establishing good relations with the National Guard and Turkish Cypriot commanders; both sides seem to have realized that UNFICYP remains fair and impartial and is the friend of all Cypriots as long as they do not engage in provocative actions, attempt to breach the cease-fire or act in a manner otherwise inconsistent with the principles of the United Nations mandate. When, on the other hand, transgressions occur, UNFICYP has acted swiftly, in keeping with its mandate, undeterred by threats or hostile gestures.

Members of the Force have conducted themselves with commendable self-discipline, often in trying circumstances. Officers and men alike have continued to carry out their multifarious duties as international personnel under the authority of the United Nations, discharging their functions with integrity and impartiality with the interest of only the United Nations in view. Despite several attempts by
individuals of both communities to seek to influence members of the Force in favour of their respective interests, there has been only one serious instance of members of the Force succumbing to such persuasions.

Two officers of the Swedish Contingent were detected on 24 September 1964 in an attempt at transporting 2 1/2 tons of arms and ammunition in UNFICYP vehicles from Kokkina to Lefka, both localities under Turkish Cypriot control. Both UNFICYP and the Swedish authorities acted promptly. The Commander convened a Board of Enquiry of three senior military officers of his Headquarters staff to make a thorough investigation into the circumstances of this case, and he has submitted, with the comments, the report of that Board. The appropriate authorities in Sweden instituted legal proceedings against them and at present the punishment awarded by the Court is subject of appeal.

Since September 1964, no members of the Force have died or been wounded in action in the performance of their duties. Two members of the Force have died and three have been seriously wounded from accidental, natural or other causes.

There was a more positive attitude by UN though this was subject to strict limitations. For instance during the Tk air raids in August President Makarios threatened to wipe out Tk villages. At that time UN Forces were ordered NOT to interpose between the warring communities. They were, however, to continue to negotiate for cease-fire. They were to stay put on the green line. The implementation of the Concentration and Withdrawal Plan however, appeared as a credible course at that time.

c. ASPECTS

(1) The NICOSIA-KYRENIA road was opened under UNFICYP control and Tk National Contingent was successfully rotated.

(2) Activities towards a return to normal conditions and the relaxation of economic restrictions:

(a) Freedom of movement of population.
(b) Measures to assist refugees and other distressed persons.
(c) Efforts to restore normal economic activities.
(d) Postal services.
(e) Agriculture.
(f) Local and export markets.
(g) Industry.
(h) Public utilities.
(j) Government properties.
(k) Missing persons.
(l) The function of the law courts and the administration of Jafra.

(3) Ops Economic

(a) Ops Economic was set up to deal with problems arising out of above. An Ops Econ HQ was set up in UNFICYP parallel to Ops 'A' (Ops). It had liaison with Ops 'E' (Int). The fields of influence of Ops 'A', 'E' and 'E' often overlapped. A separate Ops 'E' officer was appointed for each District or Zone. Some Swedish Ops 'E' operated from HQ-UNFICYP. This was not the most satisfactory way. It was advantageous to live on the spot. In PAPHOS (3 Inf Gp) Ops 'A' also functioned as Ops 'E'. This meant extra work for
Ops 'A' but ensured co-ordination of effort. In MORPHOU District initially heavy mortar comd and latterly joint patrol leader functioned as Ops 'E'.

(b) Ops 'E' was the most successful operation on the island principally because all ranks were able to take an interest in it and it was something positive and visible, eg distributing Red Crescent Relief, bringing sick people to hospital, escorts for ploughing, sowing, harvesting, innoculations against foot and mouth disease, antrax, enterotaxaemia, etc, getting children to school, opening up mines, getting men to work, or produce to market. It made for personal contact, it was humanitarian and officers, NCOs and men were able to understand and take a keen interest in it.

(c) Gks continued to keep the following items on the prohibited list. This caused a lot of irritation and hardship where rigidly enforced UN came into picture here to ameliorate.

NOTE

(a) Additional items added to previous list.

(b) Items excluded from previous list: Paper and Printing Materials.

(c) Government reserves the right to add any other items to the list at any time.

(4) Restricted areas

(a) Twenty-three areas, mostly round the coast, which may be visited by the Force Commander only after consultation with General Grivas. These cover 45 square miles (1.25 per cent of the total area of the country).
Sixty-three areas, scattered throughout the Island, which may be inspected by UNFICYP Zone or District Commanders, not below the rank of Lieutenant Colonel, if prior notice is given to the Local National Guard Commander. These areas cover 15 square miles (0.4 per cent of the total area of the country).

These restrictions do not apply to twelve bathing beaches situated inside the areas referred to in (a) and (b) above.

(5) Armed Forces in CYPRUS other than UNFICYP

(a) Government Armed Forces. The Cyprus National Guard has become increasingly professional, and there has been a reduction of its irregular elements. This has resulted in improved standards of discipline among the Cypriot troops, and has also contributed to a general improvement in security conditions and the maintenance of law and order. The call-up of four age groups, 19 to 22, was completed in October 1964. The total number of the conscript element of the National Guard, according to official figures made public on 10 December, is now 11,200.

Before the introduction of conscription, the National Guard was composed almost exclusively of volunteers. Together with the Cyprus Police, these volunteers had formed the Security Forces of the Republic since April and had been responsible for internal security in both towns and rural areas. As conscripted operational units were put in their place, their numbers decreased, and in early November the Government discharged the last volunteer force of about 3,000 men in the towns. These have reverted to a reserve (Home Guard) status; their functions have now been assumed by regular National Guard units. Volunteer units, however, are still responsible for security in the rural areas. Their members carry on normal civilian occupations, but have weapons and other military equipment and undergo weekly training. The first groups of conscripts were due to be released in mid-December, 1964 but the Council of Ministers on 10 December decided that their service should be extended for another six months so as to avoid a substantial numerical weakening of the National Guard at this time.

The estimated strength of the police has remained at 5,000. Starting in October 1964, both officers and constables of the police have undergone short periods of military training together with the National Guard.

It is believed that some of the estimated 5,000 military personnel believed to have come to Cyprus from Greece (excluding the Greek National Contingent) have now returned to the mainland, although significant numbers still remain.

The developments referred to above are considered to have resulted in a net reduction in numbers of the National Guard, although it may well be the case that it is now a more effective military arm of the Government than before. Demobilized irregulars, are, of course, readily available for service should the Government consider it necessary. General George Grivas-Dighenis continues as Supreme Commander of the Cyprus armed forces; General E. Prokko is the Commander of the National Guard. General Monejaos Pantelides commands the Cyprus Army proper, which is a cadre of about 600 officers and non-commissioned officers responsible for training and related activities.
(b) **Turkish Cypriot armed elements.** NO accurate figures are available as to the strength of the Turkish Cypriot armed elements, but it is estimated that their numbers have NOT undergone substantial change during the period under review, and therefore, remain at approximately 12,000. Similarly, their organisation and leadership remain unchanged. As regards deployment, there are fighting elements in almost every Turkish Cypriot community on the Island, and standing forces are maintained in all areas administered by the Turkish Cypriot leadership. These consist of fighters from nearby villages who serve on a roster system. The influence of the extremist Turk Mêşafas Tezdi, or TMT (Turkish Defence Organisation), remains paramount.

There is NO clear evidence that the fighting elements have received weapons or other categories of military equipment from outside since September. Consequently, their armaments are still limited to conventional types of light and heavy infantry weapons. Training is carried out periodically. In view of their sketchy logistic base, it may be assumed that the Turkish Cypriot fighters are less well equipped for the winter season than their National Guard counterparts, and will suffer hardship.

(c) **The Greek and Turkish National Contingents.** The two National contingents, maintained on the Island under the provisions of the Treaty of Alliance of 16 August 1960, have been kept at their authorised strengths of 950 Greek and 650 Turkish officers and other ranks. The Greek contingent has been located in its permanent camp on the outskirts of Nicosia, moving out only for occasional training exercises. The members of the Turkish contingent have remained deployed in the villages of Orta Kayy and Geunyely, astride the Kyrenia Road north of the capital. Under the agreement announced in the Security Council of 25 September 1964, their positions, with certain stated minor exceptions, are situated at least 100 yards away from the road, which is now under exclusive UNFICYP control.

The agreement, as previously indicated, provided for the rotation of part of the Turkish contingent. In accepting the arrangements for the implementation of the agreement, the Government of Cyprus, which had unilaterally denounced the Treaty of Alliance in April of this year, reserved its position of principle as regards the right of the Turkish contingent to be stationed in Cyprus and as to alleged breaches of the Treaty by Turkey. On 23 October, the Acting Foreign Minister of Cyprus informed UNFICYP that his Government, desirous of avoiding any action likely to increase tension in the area, did NOT propose to take military measures to prevent the rotation.

The relief of part of the Turkish contingent on 26 October meant the arrival of 63 officers and 276 other ranks; these took the place of 62 officers and 274 other ranks, bringing the total on the Island to 648 all ranks. The rotation operation on the Island was carried out by UNFICYP under arrangements previously cleared with the Cyprus Government, and in co-ordination with the simultaneous assumption of control by UNFICYP over the Kyrenia Road. UNFICYP provided transport of both outgoing and incoming drafts and their stores between Nicosia and Famagusta, escorted the convoys, verified the troops' identity, ensured that they were unarmed, and checked outgoing and incoming stores. More than eighty UNFICYP lorries were utilised, since the Turkish contingent had NO transport of its own. The operation was completed without hitch and on schedule.
(d) British. These are located in Sovereign Base Areas - (British soil) and supply valuable logistic support to UN op. These SBA's were initially NOT regarded as factors or pawns in the struggle but increasingly NZC SAMSON'S paper (Communist) is demanding "Bases must go".

(6) Military activities

(a) General assessment of the Military situation. The Island was quiet throughout the latter 80% of the period under review and there were NO major incidents. Nevertheless, tension remains high in areas where the two sides face each other. Fortifications have been improved and the only substantial reduction in forces has been the discharge to the reserve of a number of the irregular units of the National Guard. The men from these units are still available as Home Guards in their villages.

It is considered that although the situation is quite, it remains so largely because of the sobering influence of UNFICYP, which remains deployed in all the potential trouble spots of the Republic. The Turkish version of course is that the only thing that keeps the situation quiet is the proximity (20 mins) of Turkish jets.

(b) Positions occupied by the Government and Turkish Cypriot Forces. There has been little change in the disposition of Government and Turkish Cypriot forces from the positions which they occupied on 10 September 1964. The Turkish Cypriots continue in control of several widely scattered areas, which include the northern part of Nicosia City, its north-western suburbs and the region to the east and west of Kyrenia road up to the southern edge of the town of Kyrenia; the town of Louroujina; the Turkish quarters of Famagusta and Larnaca; an enclave comprising Lefka, another around Kalyvakia, and the two beach-heads at Kokkina and Limistis. These areas are administered by the Turkish Cypriot community, under the authority of the Vice-President's office, and are defended by positions manned by Turkish Cypriot fighters. In the aggregate, these Turkish Cypriot areas cover approximately 54 square miles, or 1 1/2 per cent of the total area of the country, with a population of about 59,000, including 13,000 refugees. Access to the areas is effectively intercepted to UNFICYP, UNFICYP, and to Government troops, police and administrative agents in particular, except for travel on the Kyrenia Road and across Limistis bridgehead under UNFICYP escort. Roadblocks, trenches, fortified posts, and sandbag: emplacements on the ground or behind windows or on the roofs of buildings, are the visible marks of this situation.

The Government fortifications and roadblocks are generally situates in a line parallel to the Turkish Cypriot ones. In this manner, something in the nature of front lines may be said to exist in certain parts of the Island; they include the well-known "Green Lines" of Nicosia and Larnaca, parallel crestsline on hills around Kokkina and in the Kyrenia mountains and houses on either side the sixteenth century walls of Famagusta. UNFICYP endeavours to be present or to interpose in all such places with a view to minimising the danger of incidents inherent in this situation. Thus, UNFICYP is deployed in strength along the Green Lines; it occupies hills between the opposing forces at Kokkina and in the Kyrenia range; and its troops are stationed on the Famagusta ramparks and walk the rounds on the ancient settlements to keep the peace between Cypriot and Cypriot. But it is clear that the portion of the mandate calling on UNFICYP to prevent the recurrence of fighting can be deemed to have been fully implemented only when these front lines have all been abolished, the opposing troops on either side withdrawn, and the positions in question placed initially
under the UNFICYP control.

Turkish Cypriot fighters and TNT members in many villages throughout the Island inhabited by Turkish Cypriots maintain quasi-military positions and roadblocks of varying size and importance, presumably for defense against possible attack by Greek Cypriots from villages in the vicinity. Greek Cypriot villagers, of course, reciprocate, though on a slightly smaller scale since they have the advantage of numbers. These positions cannot be regarded as having any intrinsic military significance, although they continue to be a nuisance and contribute to tension on the Island.

It should be noted that there are substantial Turkish Cypriot communities in such places as Ktima and Limassol, as well as a number of Turkish Cypriot villagers, which are under the military, police, and administrative control of the Government. Some of these, notably Ktima (occupied on 6 March) were militarily subdued by the Government forces during the disturbances which took place prior to the establishment of UNFICYP. These should NOT be counted among the areas under actual control of the Turkish Cypriot leadership in Nicosia, although in practice the Turkish Cypriot community leaders in such places follow the political line of their compatriots in Nicosia, while Greek Cypriot civilians prefer to avoid staying in them.

The one significant change in positions occupied during the period under review occurred in connection with the placing of the Nicosia-Kyrenia Road under exclusive UNFICYP control. UNFICYP's assumption of control over the road was affected on 26 October, in conjunction with the simultaneous rotation of part of the Turkish national contingent. The convoy escorts had instructions to return fire if fired upon and to use the minimum amount of force necessary for the safety of the convoy in the event it were to be impeded. UNFICYP checked travellers to ensure that NO arms were carried, and warned all users of the road to refrain from provocative behaviour.

The use of the Kyrenia Road under UNFICYP escort has been rising slowly but steadily as Greek Cypriots realise that the arrangements are effective, and that the safety of travellers is ensured. In exercise of its functions, UNFICYP operates seven checkpoints on the road, as well as mobile patrols, to ensure that the relevant provisions of the agreement on the reopening of the road are fully complied with.

(c) Observance of the cease-fire: shooting and other incidents. From June to September 1964, the "front lines" referred to in the preceding section, as well as the more imaginary lines separating the Cypriot communities elsewhere in Cyprus, were the scenes of high tension, frequent shooting incidents, and on several occasions, deadly fighting. From September to December these lines were mostly quiet, and UNFICYP was largely successful in supervising the observance of the Security Council resolution of 9 August 1964 calling for an immediate cease-fire and of the consensus of the Council members of 11 August. Subsequently, there were NO serious breaches of the cease-fire, and NOT many of even a minor nature, but there were a considerable number of shooting incidents. Most of these have been attributed to accidental discharges, shots at birds, or shots fired for NO apparent reason. It would be wrong to say that UNFICYP was alone responsible for the apparent realization of each of the parties that it cannot hope to force a solution on the other by military means. It is clear, however, that UNFICYP played a major role in making it possible to translate that realization into action.
As an aftermath of the fighting in Tyliria in August which was terminated by the cease-fire, UNFICYP in co-operation with the International Committee of the Red Cross arranged for an exchange of captives. The arrangement was negotiated by the chief delegate in Cyprus of the International Committee of the Red Cross and by the Force Commander with the Government and the Turkish Cypriot leadership. The exchange was carried out on 26 September at UNFICYP Zone Headquarters in Nicosia. Eight Turkish Cypriots were released; seven prisoners were handed over to the Government representatives. Some, but not all, of these men had been captured during the fighting near Kokkina.

(a) Erecting and removal of fortifications. The Government's National Guard and the Turkish Cypriot armed elements on the perimeter of Turkish Cypriot controlled areas have erected lines of fortifications, some of them elaborately contrived, others fairly primitive. Since fortifications by their very nature contribute to a state of tension wherever they are situated, UNFICYP has endeavoured to persuade both the Government forces and the Turkish Cypriots to take them down and to rely for their security on the interposed UNFICYP troops.

These efforts have met with very limited success during the period under review. The National Guard has in fact improved its coastal and related positions for defence of the country against external attack. In Famagusta, Government posts have recently been increased in number, despite UNFICYP representations. It should be noted, however, that there have been some indications lately of a possible readiness by the Government to withdraw its forces from some of the inland fortified positions on condition that UNFICYP would guarantee their security. This, however, like many other moves may only be a gambit.

The Turkish Cypriot fighters who are substantially outnumbered and outgunned by the National Guard, have been opposed to giving up fortified positions on two main grounds; they control little territory and have therefore no place to withdraw; moreover, they contend that UNFICYP has NOT the capability to resist an organised attack, if such an attack were mounted by the Government on interposed UNFICYP positions. If these positions were to be overrun, the situation of the Turkish Cypriots might become well nigh untenable. The Turkish Cypriots have therefore insisted on maintaining their fortified posts and have even extended some of their fortifications in Nicosia.

Locally, UNFICYP commanders are constantly engaged in observing the activities of the opposing forces, and they try, where possible, to negotiate the removal of fortifications. More forcible action, however, is occasionally needed, but only where fortified posts are considered a direct threat to UNFICYP's own positions, or where new positions set up by one side are considered to pose a threat to the other side and are therefore judged by UNFICYP to be provocative. In such cases, UNFICYP is prepared to take more positive action, such as dismantling the offending positions with its own resources.

(e) Build-up of military personnel and equipment. There is NO evidence of Tk Cyp build-up. Gk build-up goes on, though reports could be exaggerated. Russian rockets have been reported to have been landed for Gks at BOGHAZ.

(f) Proposals for the elimination of remaining areas of military tension. The scattered Turkish Cypriot controlled enclaves on the island are surrounded by parallel lines of Turkish Cypriot and National Guard fortifications. UNFICYP positions are usually in the rear, but UNFICYP patrol more through the Gk man's land to keep a precarious peace in such areas. It is clear, however, that there can be NO meaningful return to normal conditions until these foci of tension and potential conflict have...
been eliminated - all the more so as they serve NO useful purpose except to keep members of one community out of areas controlled by the other. The command of the United Nations Force had therefore, been preparing for some time plans to demilitarize some of the "front lines" by placing them initially under UNFICYP control and eliminating the spectacle of armed Cypriots confronting one another with hostile intent. It was clear that if the main areas of tension were eliminated, others should follow readily.

In his letter of 12 November 1964, replying to the UNFICYP aide-memoire of 27 October, President Makarious indicated that, in his Government's view, return to normality could be achieved if UNFICYP ensured, inter alia, the removal of all fortifications and armed posts in the Kyrenia range, and the abolition of the Green Line.

On 2 December, the Force Commander submitted to the President for his consideration UNFICYP'S plans to that effect; these will also be submitted in due course to the Turkish Cypriot leadership. A third plan, calling for the demilitarisation, with UNFICYP assistance, of the positions of both sides around Kokkina bridgehead and the resettlement of refugees in the area was submitted on 7 December.

The plan for the Kyrenia mountains submitted to the President may be summarised as follows:

i. The ultimate objective is the complete demilitarization of the area between Nicosia and Kyrenia, involving, as a first stage, the removal of all Government and Turkish Cypriot posts in the Kyrenia Range.

ii. The plan envisages the withdrawal of all forces and war-like stores from the area. It is intended to allow present defensive works to remain intact, but unmanned. This will allow a return to the current positions should the agreement be abrogated by either side.

iii. It is intended that UNFICYP will control this area by means of static observation posts, and vehicle and air patrols. In addition, a mobile reserve will be maintained to provide quick reaction to any situation which might arise. UNFICYP will also maintain surveillance in the security zone which will surround the main demilitarised area.

In the past, various plans have been suggested for the establishment of a defortified free zone within the walled city of Nicosia. Despite lengthy negotiations, none of these plans has been accepted in full by either side. There are a variety of reasons for non-acceptance; for example, each side would insist on holding certain key tactical positions in strength, and both sides felt suspicion and fear at the thought of having existing defences demolished. In addition, none of these plans gave UNFICYP the right to search, inspect or detail suspects temporarily. The new plan devised by UNFICYP is designed to eliminate the Green Line in Nicosia and thereby contribute greatly to a reduction in tension. It envisages:

i. A phased withdrawal by both sides to a distance of between 500-1,000 yards from the present Green Line. This would NOT be restricted to the walled city nor does it propose immediate defortification. Powers of arrest would continue to be vested in the appropriate police.

ii. After the withdrawal, UNFICYP would take over the positions which have been vacated and would guarantee that they remain intact. In addition, joint UNFICYP/Police patrols would visit vacated areas and would have powers to apprehend armed intruders. The only persons allowed to visit the areas must be unarmed.
iii. It is anticipated that, in the early stages, there would be no freedom to cross the Green Line without the permission of both sides. Only after some time has elapsed and freedom to cross the old Green Line has been restored would the question of defortification be reviewed, in consultation with the parties.

The third plan would apply to the Kokkina bridgehead in the Tylliria area, which was the scene of the fighting of early August 1964. Eight hundred refugees from neighbouring Turkish Cypriot villages occupied by the National Guard since that time now live in the small bridgehead, half of them in caves in the mountainside. The UNFICYP plan is in three phases, as follows:

1. Withdrawal of the National Guard from their present positions overlooking the bridgehead to concentration areas some distance away. UNFICYP would establish posts in Turkish Cypriot villages vacated in the process;

ii. Withdrawal of all Turkish Cypriot fighters in the bridgehead under UNFICYP control into Kokkina village, UNFICYP taking over the positions now held by the fighters on the perimeter of the bridgehead;

iii. Resettlement of Turkish Cypriot refugees now in Kokkina in their home villages, and establishment of United Nations Civilian Police posts on those villages.

d. COMMENT AND CONCLUSIONS

(1) Defortification, refugees. It is unlikely that any significant progress can be made in this field in the absence of a political settlement or at least until there is direct dialogue between Gk Cyps instead of communicating with one another through a third party.

(2) Logistics, staff work. The British in Cyprus perform a very valuable logistic service. Indeed, it is difficult to imagine the operation running without them. They also, where they are members of UN HQ, make a contribution to staff techniques. We are not as practised and therefore not initially as polished in these techniques of staff work as our British counterparts. They are excellent on 'black and white' situations. In more shadowy situations where some subtlety and 'savvy' were required, they were less than "great". The Irish were at their best here.

There was evidenced also a 'chain' weakness: in a situation where it was necessary to lay down doctrine: re reconnaissance, the reins somehow slipped from HQ UNFICYP to Canadian Recce Squadron and this 'horizontal' instead of 'perpendicular' laying down the law caused unnecessary atmospheres. This was particularly so as the version of vigorous recce was sort of dropping into the saddle and "passing" into the night hat on the heels of the Greek N.G. Of course UN had the duty to know Gk NG movements. Gk Cyps were less than frank in their August operations around MANSOURA that led to Tk bombing, and which caught UN unawares. It was not enough to believe exactly what the NG said. But they were 80% of population, they were the de facto Government and tact and savvy got better results. The silver tongue and the old Irish Army proverb to "trust noone" paid off better than the thundering hooves and kicking open the swing doors.
Observers. The following is a copy of a Staff Study submitted by OC to OC 3 Inf Gp on 2 Sep 64. Sooner or later the reconciliation of the financial problem with the apparent demand for a permanent UN presence on the island must be faced. Irish officers should be allowed to bring their families out for a two or three years tour, if this becomes a permanent UN feature. Children left behind in boarding schools should have their fares paid out twice a year as the British do.

OPERATIONS,
3rd INFANTRY GROUP,
LARNACA.

2nd SEPT 1964

Lt Col T. McDonald,
OC 3rd Infantry Group.

OBSERVER CORPS - CYPRUS

Sir,

I discussed above with Commandant Lavelle and Capt Sheehy both of whom had experience as Observers for 5 months and 3 months respectively in the Lebanon in 1958. The following points are based on the operation of the UN Observer Group in the Lebanon and are related to the present situation in Cyprus, if or when the contingency of providing an observer group here arose.

1. The organisation in the Lebanon was based on a Military HQ in Beirut. The Country was divided into a number of districts. In the main town in the district was located the UNOOGIL HQ which as a general rule consisted of an OC, Ops Offr, Int Offr, Tpt Offr and where the administrative requirement called for it, a QM.

2. The OC in each district had under his control a number of observers. This number was based on the operational requirement in the District. Within the district it was normal to establish sub-stations - their size and composition varying from a large party down to three or four observers living in a tent.

3. Information was obtained by means of sending out patrols - which consisted of a minimum of 4 observers travelling in two radio-equipped station wagons. These radio sets were of the radio telephone type such as used by taxis and did NOT require the services of a wireless operator. The patrol was required to provide specific answers to questions. A time out and a time for return was always stated. In addition to de-briefing by the int Offr a patrol report was compiled, in which all the information obtained by the patrol was included. As the UNOOGIL members were unarmed it was NOT the policy to operate by night. However, on occasions, OPs were established and manned by night - but as a general rule results were negligible.

4. UNOOGIL members were all Military Officers drawn from some 23 different countries. This naturally created a language problem. English was the official language but many members were NOT fluent. An all in allowance of 12½ dollars per diem (paid on the basis of half in local currency and the other half in dollars lodged to the members account) was made. There
was NO home based allowance. Accommodation, food, etc, was the individual member's own problem. As a general rule hotel accommodation was availed of. The cost of living has gone up since those days. On the basis of the existing districts, such a system could be workable in present conditions in Cyprus subject to requirements for:

b. Provision of a Reserve striking force.

5. HQ Larnaca District could be staffed by 5 officers. A total of twenty four observers would allow for six patrols - based on two patrols in the morning, two in the afternoon, with a reserve (and emergency) of two patrols. Such a group should consist of officers only as the patrol work entails meeting people of all classes and creeds and considerable tact and diplomacy is called for at all times. Whether the members should carry personal arms or NOT is a matter of opinion. The arrangement in the Lebanon of UNARMED Observers worked well.

6. The policy in UNOGIL was to mix the various nationalities to as great an extent as possible. This system had disadvantages - language problems, differences in food and customs but in the long term it afforded variety and made life more pleasant and tolerable. Such a system should give results, if applied to a possible observer group in the existing situation here. Observers should be rotated from station to station and from district to district. This rotation keeps them fresh and avoids stakeness.

7. The imponderables in this situation are:

a. What would happen on Green Line if troops interposed were withdrawn.

b. To what extent any consequences arising from above are acceptable.

c. How the commitment to assist in the evacuation of Non-Cypriot Greek Nationals would be affected.

d. To what extent mere presence of armed men is:

(1) A deterrent to more violence.

(2) A lubricant or an impediment to a solution.

8. The requirement for consideration of a reserve striking force remains. Though public opinion quickly focussed through modern mass media of communication may be equally as salutary as a striking force, maybe more so. The disappearance of Major Macy may be quoted as a case instancing the necessity of the presence of troops to protect UN personnel. But the facts are:

a. That Major Macy's history from EOKA times makes his case a special one and:

b. The presence of a large number of UN troops on the island did NOT prevent his disappearance or subsequently solve it. The time, however, is hardly yet ripe (maybe this time twelve months) to replace troops and substitute Lebanon-style observers.

J.P. Duggan
COMDT
( J.P. Duggan )

OPS OFFR 3rd INF GP

Copy to Col Quinn
Ope A HQ UNFICYP
2. MISSION and result of Ops. The inconsistency in the UN MISSION to bring about a return to "normal" is that the interpretation of "normal" by the two communities is irreconcilable. The Tk view is that UNFICYP should contribute to a return to normal by reinstating the provisions of the 1960 Constitution. On the other hand the Gks are adamant that this Constitution is inoperative and that it has been legally superceded. Normality can only come about by a union of wills on the part of the two communities to lay down their arms and to seek again to live in peace.

Within these limitations Ops (especially Ops Economic) were successful. Shooting was stopped; peaceful conditions were established and maintained. Harvesting, ploughing, sowing, vaccinations, inoculations, opening up of mines were successfully carried out. UN integrity was fostered and excellent relations were preserved with all sections of the community. All this helped the aim of a return to normal in everyday dealings, though the political background was NOT accepted as normal by either party. A political solution must preface a complete return to normal.

UNFICYP generally could do little further to advance a solution on these unresolved issues of solidified obduracy and hardened chameleon intransigence, but within the limits of rendering assistance in the amelioration of day-to-day administration, economic, social or judicial difficulties arising out of a division of the two communities the Irish were able to show consistent progress and report success in all limited operations undertaken.
ANNEX A TO CHAP 5

M.T. OFFRS REPORT

GENERAL

a. The adv party of the 3 Inf Gp contained 1 Offr, 1 Sgt (Fitter), 1 S/S Dvr. On the day of arrival in Cyprus the following vehs were drawn from the British at Dhekelia.

<table>
<thead>
<tr>
<th>L/Rovers</th>
<th>3T Bed</th>
<th>3T Amb</th>
<th>IT Austin</th>
<th>IT Water</th>
<th>IT Humber</th>
<th>TOTAL Prime Movers</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>3</td>
<td>1</td>
<td>2</td>
<td>2</td>
<td>3</td>
<td>24</td>
</tr>
</tbody>
</table>

These vehs were drawn with the assistance of the MT Section of the 1st En Royal Irish Inniskillings and 1st Bn, Dhekelia Sovereign Base Area.

b. On the 5/3/64, after the arrival of the main body, the balance of vehs was drawn to bring the veh str up to the following:-

<table>
<thead>
<tr>
<th>L/Rovers</th>
<th>3T Bed</th>
<th>3T Amb</th>
<th>IT Austin</th>
<th>IT Water</th>
<th>IT Humber</th>
<th>TOTAL Prime Movers</th>
</tr>

<td>21</td>
<td>12</td>
<td>1</td>
<td>5</td>
<td>3</td>
<td>48</td>
</tr>
</tbody>
</table>

The MT Section was also responsible for the maint, repair and P&L to 4 L/Rovers of the Australian Civil Police. These vehs subsequently came on unit charge. The Canadian joint patrol operated 2 L/Rovers which were also looked after by the unit, though NOT on Ledger charge. The 3 Panard arm cars of the 1st Bn Car Gp came under a similar arrangement.

DISTRIBUTION OF VEHICLES (contd)

The above table shows the normal dist, but it did change about slightly being augmented and diminished as circumstances required.

- FFR - Fitted for Radio
- FFS - " " Stretchers
- GS - General Service

P.O.L.

Supplied on demand from No. 2 Pet Depot, Dhekelia S.B... on a jerrican for jerrican basis. The labour content in drawing pet was considerable and NOT always readily available, but this was eliminated almost entirely on re-deployment in the Ktima district when we took over, in Stiu, a 1,100 gall Pyro electrically operated tank. This was replenished by road tanker as required.

EQUIPMENT & WKSFS

The unit was capable of 1st line repairs only but was backed by light aid detachment (L.D) and full Wksps repair facilities in Dhekelia S.B... The unit took over a privately owned garage in Larnaca, having almost 5,000 sq. ft. of floor space all in one floor together with stores, office, toilet and shower facilities. It contained NO equipment. We were fortunate in getting almost as good accommodation in Ktima in the Paphos District on redeployment. Logistic support now came from R:F NT Flight Wksps and advance Ord Det Stores at Episcopi, while in the Larnaca district repairs were quick and Dhekelia was only 9 mls away, but when the unit moved to Ktima distances were greatly extended over 35 miles of narrow winding roads (65 mls for 'B' Coy at Pelis).

Dvrs were now required to rise much earlier each morning to have their vhs at the servicing bay in Episcopi by 07.00 hrs.

STORES

Prior to redeployment there was NO great need to build up a bigger stock of stores as ample supplies were available at Dhekelia or 4-mile point (16 miles distant). This situation changed, and we had begun to increase stocks prior to mov to Ktima. We also had the rules of supply waved somewhat in order to allow us to hold stocks of such items as starter motors, dynamos, etc. when, heretofore, the vhs was required to report to BR Wksp for examination. This cut down somewhat on dead running.

VEHICLES

The type of vehicles issued is similar to what we used to and have been trained on at home. The BR ran conversion courses for pers of other contingents. All vhs were known as "Stockpile". They were picked up by units coming out from England and taken out to the African desert for three to four months every summer, and there handed over from one unit to another. The majority of vhs had big mileage and required a good deal of main.

DRIVERS

The original est of dvrs was inadequate. 6 dvrs that reported out from Ireland in Mid-Oct gave welcome relief to already hardworked MT pers. This did not meet the shortage completely, and the gap continued to be bridged by calling on pers of Eng, Sigs, Am Pls and from the Rifle Pls of the Coys.

Originally, water supply was a major problem and 2 dvrs were required to operate a 3T Bod W'tor Tanker (600 galls) from 0700 hrs to 20.00 hrs daily

The Rifle Coys were particularly short of dvrs, having 10 and 13 vhs respectively. The est of dvrs was 5. Consequently, the strs here
would require to be doubled to give any measure of efficiency.

The standard of driving was good and there was no accident of any consequence, until the last month of our tour when there were 4 accidents, occasioned by the very inclement weather and poor road conditions in the Paphos area.

All dvrs of the unit were sober and worked hard. Their contribution to the success of our mission was favourably commented on by the senior ech many times. Their job was tough, exhausting and very exacting in what to us were extremes of temp and over long daily periods that we are not used to at home. I had NOT ONE single complaint.

FITTERS

The unit had 1 Sgt Fitter, 2 Cpl Fitters, 1 S/S Fitter (Total 4 Fitters). Prior to redeployment all fitters worked at Gp Hq and visited the Coy localities from time to time to carry out insps and preventive maint on vehs. Their work was satisfactory. I would recommend that one auto electrician be included as they tended to be weak on electrical work.

CAPT

(H.F. O Georfhain)

S.O. 5 Com Mrc S&I.
The 3rd Inf Gp on arrival in Cyprus was initially based in "Larnaca District" and later in "Paphos District".

On arrival of advance party a rocco was carried out in Larnaca and surrounding district. Potential locations for camps were selected.

An engr survey of the various locations was made and reports and estimates forwarded to UNFICYP, HQ, NICOSIA.

Initially the problems were as follows.

(1) Assessment of suitability of existing buildings and installations.

(2) Provision of Field Cookhouses, Sanitary Facilities, water and power supplies, ordnance stores, extra accommodation, etc.

The weather at this period was very hot and dry, and the emphasis was largely on ventilation, flyproofing and protection from sun rays.

Later a Winterization programme was put in hands in Larnaca District.

This involved the construction of extra Nissen hutted accommodation, provision of roads, hard standing, glazing and waterproofing of existing structures, etc.

The winterization had to a large extent been completed when the unit was moved to Paphos' District.

A new set of Engr. problems were now presented.

It was winter and also the rainy season in Cyprus. During the week in which the move took place 7" of rainfall were recorded.

A rocco of Paphos district was carried out. It was found that almost all troops would have to be accommodated in tents. An Engr. report and estimate was prepared and forwarded to HQ, UNFICYP.

The immediate tasks in the various Coy locations were as follows:

Stage 1. Provision, of Field cookhouses, sanitation, showers (Hot and Cold) ablutions, water supplies, power and lighting (inclusive of 30 V tent lighting) tent bases, signal mast base and centro, roads, magazines etc.

A later programme was laid out for the provision of Nissen hutted accommodation.
Stage 1 was approx 90% complete when unit left Cyprus 2 months or so later.

Engr works in both Larnaca and Paphos were executed by:

(1) Unit Engr Technical personnel with assistance of Int personnel when available.

(2) Civilian Employees.

(3) Contractors (Greek).

(4) Assistance of AE Fld Engr section in Paphos District for a short period.

(5) Execution of works was further complicated by the fact that Greeks would not work in Turkish areas and vice versa.

__________________________________________
CAPT
(F. Blake)

ENGR OFFICER, 3rd INF GP
ORD OFFR'S REPORT

The following work was carried out by Ordnance personnel of 3 Inf Gp.

1. WEAPONS

All weapons on issue to 3 Inf Gp were inspected monthly and repairs carried out as necessary.

2. COOKERS

In Larnaca District routine repairs were carried out on Hydra Cookers in use, and all Hydro Cookers were overhauled and tested prior to move to Paphos District. Three Heavy Duty Cookers, 2 Diesel and one Gas were dismantled in Larnaca and reassembled in Paphos. Spare parts were procured for these Cookers and maintenance carried out where necessary.

3. AMMUNITION

2nd Line Reserve was stored in Amn Sub Depot, Dhekelia. In Larnaca and Ktima Explosive Storehouses were erected, and recommendations were made as to storage and security in accordance with ammunition and explosive regulations.

4. TENTAGE

In Larnaca District, the majority of 3 Inf Group were housed in permanent accommodation, while in Paphos District the situation was reversed.

Tentage taken over from 1st Bn Inniskillings and 28th Swedish Bn, was surveyed, resited and replaced as necessary. Prior to move to Paphos a practical course on erection of tentage was given.

Additional tentage was obtained and erected and component parts were procured to repair and render serviceable tentage taken over as unserviceable.

GENERAL

Misc work was carried out, including repairs to typewriters, tables, forms, door locks, painting of signs, collection of Q Stores from Ordnance Depots, driving assistance was also given to the Tpt Platoon, and an NCO was provided for 2 months to run the Men's Canteen in HQ Coy.

HANDCART LOADS

SUGGESTED LOADS FOR EACH GUN HANDCART

1 VMG
1 Tripod
1 Condenser Can
1 " Filler
1 " Tube
1 Post, Aiming
1 " Zero
1 Spare parts case

7 Belt Boxes
7 Belts - 250 rd

1,750 rds .303, amm
1 Spare Barrel
1 Cleaning Rod
1 Pair MG Gloves
1 Clinometer
1 Axe Pick
1 Spade (or shovel)
1 Bar foresight
1 Dial Sight

SUGGESTED LOADS FOR THE SECTION HANDCART

14 Belt boxes
14 Belts - 250 rds

3,500 rds .303 amm
1 Spare parts box
1 Drum D3 cable
1 Telephone and box
2 Sights night fores
2 Sights night back
2 Boxes night firing
1,000 yds D3 cable
1 Axe felling
1 Cutter, wire
1 Mallet
1 Saw (or saws folding)
1 Case oil can.
Note. Amn men pull the sec ann cart during movement. In action, they serve as mor men and are trained in all mor duties. No 1 is part of No 1 Mor Sub-Sec and No 2 Amn Man is part of No 2 Sub-Sec.

### SECTION 2 - SPARE PARTS BAGS

**Gunlayers Bag**

1. Case containing sights
2. Clinometer and Case
3. Open end spanner-cartridge removal
4. Plumb line and cord
5. screwdrivers
6. Cleaning Brush - firing pin housing
7. Cleaning rod - do
8. Ring spanner - card removing
9. Spare firing pins
10. Spare Cards - Cleaning brush.

**Accessories Bag**

1. Lubricating Gun
2. Combination Spanner
3. Adjusting tool, shock absorber
4. Fuses key
5. Spanner adjusting traversing
6. Shock absorber springs
7. Retaining spring - traversing wheel
8. Studs - central shaft - shock absorber
9. Stop screws - shock absorber
10. Ring stop screw
11. Traversing Mechanism, stop screw
12. Linen case containing set of 6 split pins, screws and split pin removers.

Equipment

- Binoculars
- Compass, Prismatic
- Handcart-Mortar 81 mm
- Handcart-MMG
- Handcart-84 mm ATk
- Map Cases
- Torches
- Watches
- Wrts Sets No 88
- "55 "41
- "55 "C 12
- Telephones
- Cable D 10 Twin - Miles
- Apparatus Cable Laying
- Battery Charging Plant
- Protractors
- Rulers
- Clasp Knives
- Verey Light Pistol
- Cartridges (Red/Green/Illum)
- Cameras and film
- Loud Hailers (Powered)
- Loud Speakers

Engr Tools

- Axes felling
- "pick
- Crow bars
- Cutters wire
- Hooks slashing
- Saws Cross Cut
- Saws Hand or Folding
- Shovels -or-spades
- Sledges
- Wedges steel (assorted)
- Ropes, 50 ft lengths

Misc

- Hydro cookers complete
- Stencil sets (large and small)

The totals are as follows:

- Binoculars: 17
- Compass, Prismatic: 24
- Handcart-Mortar 81 mm: 3
- Handcart-MMG: 3
- Handcart-84 mm ATk: 3
- Map Cases: 24
- Torches: 52
- Watches: 10
- Wrts Sets No 88: 6
- "55 "41: 2
- "55 "C 12: 1
- Telephones: 6
- Cable D 10 Twin - Miles: 2
- Apparatus Cable Laying: 1
- Battery Charging Plant: 1
- Protractors: 26
- Rulers: 26
- Clasp Knives: 132
- Verey Light Pistol: 5
- Cartridges (Red/Green/Illum): 60
- Cameras and film: 1
- Loud Hailers (Powered): 1
- Loud Speakers: 1
- Axes felling: 13
- "pick: 40
- Crow bars: 5
- Cutters wire: 16
- Hooks slashing: 33
- Saws Cross Cut: 2
- Saws Hand or Folding: 10
- Shovels -or-spades: 40
- Sledges: 4
- Wedges steel (assorted): 20
- Ropes, 50 ft lengths: 13

Spare batteries will be carried.
